FRANK C. ANGLE, Proprietor.  
Danville, Pa., May 4, 1905.

## MINOR MATTERS OF INTEREST

Some delay was caused in street paving yesterday by the discovery that the trolley track as put down does not conform with the height of the curb. An effort was made to reach Borough Surveyor Keefer at Sunbury by phone, calling him to Danville, but he could not be located. In the interim there was a general hold up of work on the street. Later Contractor Rogers put some men to work concreting and doing other work where any change of grade that might be necessary would not interfere.

John E. Patterson is laying a new flag stone pavement in front of the millinery establishment on Mill street. The repairing of the pavement presented quite a problem owing to the pit between the sidewalk and the house used to admit light into the cellar. The repairs involved the construction of a new flight of stone steps leading down from the sidewalk as well as a new retaining wall, which Mr. Patterson changed somewhat in rebuilding, so as to widen the sidewalk.

P. C. Murray & Sons have taken down the long wooden awning in front of their block, corner of Mill and Northumberland streets, which together with a coat of new paint applied in front of the building, gives the spot quite a changed appearance. At first glance yesterday many persons not knowing that the awning had been taken down, were at a loss to know what had caused the transformation.

Three Salvation Army lassies have taken possession of our town. They made their appearance Tuesday and yesterday canvassed the business places pretty thoroughly offering army publications for sale. Their appearance in Danville is quite a novelty, as no Salvationists have been seen here since the barracks were closed a couple of years ago.

Charles E. Mencken, State Inspector at the river bridge, yesterday stated that nothing but the driveway will be closed when the bridge is completed, the two sidewalks remaining open. Mr. Mencken will leave on Saturday. He does not know when the inspection will take place.

## CORTELYOU SAID TO HAVE ACCEPTED JOB

WASHINGTON, May 3.—Postmaster General Cortelyou is said to have accepted the offer of the Presidency of the Equitable Life Assurance Society in spite of the official denials that have been made. As President Alexander has not yet resigned the offer was made to Mr. Cortelyou only in a tentative way and his acceptance was of course, made conditional upon Mr. Alexander's retirement, and upon the offer coming to him with the authority of the directorate.

Although the salary in the future will probably be \$100,000 which has been paid the Equitable presidency in times gone by, it will probably be several times as large as that of a cabinet officer and Mr. Cortelyou who is a comparatively poor man would doubtless find it hard to put it aside. Mr. Cortelyou is said to be acceptable to both factions in the fight for control and is warmly backed by such men as H. C. Frick and Elitha Root.

Something New Under the Sun.

All the world clamors for something new. None more keenly realize this than do our people and liberally thereon, than do the successful furnishers of public amusements of all kinds. It behooves the manager of a circus to be alive to these conditions and most responsive and generous in meeting and complying with them, to the wonder, delight and satisfaction of all classes. The Big, Santelle & Welsh Brothers combined Circus & Menagerie which appears in Danville Tuesday, May 16th, promises their patrons a brand new splendor show in every department; the greatest acts of the circus and vaudeville profession; the very latest ideas in equestrianism; a menagerie filled with unique specimens of the animal kingdom and a street parade that will be a genuine surprise to the citizens of Danville. The Messrs. Santelle & Welsh also promise that everything that they advertise will be forthcoming and that their exhibition will be worthy of a visit by everybody.

The railroad authorities are showing commendable activity in their movements to prevent illegal car riding. That they are determined to stop this practice is indicated by the arrests made within the past two weeks for such trespass on their roads. The fellows who indulge in this illegal and dangerous habit should take warning.

It is reported that the South is re-doing its cotton acreage this Spring, running in the states in the cotton belts from 18 to 25 per cent, corn and vegetables being substituted for cotton. The planting season is from ten days to three weeks late in Tennessee, Arkansas and Mississippi.

Eagles National Convention.

Considerable interest is already being manifested in the forthcoming national convention of the Fraternal Order of Eagles, to be held during the latter part of August in Denver, Colorado.

# RUSSIAN FLEET STILL IN HIDING

TOKIO, May 3.—It is now rumored that the destination of all the Russian fleets is Petropavlovsk, in Kamchatka, a peninsula in Northeastern Asia, extending into the Pacific ocean and separating Bering Sea from the sea of Okhotsk, instead of Vladivostok. The Russians, it is stated, have been accumulating coal at Petropavlovsk, but it is inadequate for land defenses.

Petropavlovsk is the capital of Kamchatka and is located on the east coast of the peninsula on the bay of Avatcha. It is about 1,200 miles north east of Vladivostok in a straight line and the Russians will have to sail a greater distance to make it by sea. The port is small and the normal population is under 1,000. It is the principal military station of Russia in that region.

## RUSSIAN NAVY MEN HAVE BEEN STEALING

ST. PETERSBURG, May 3.—The commander of the Russian Black Sea squadron has ordered legal proceedings to be instituted against numerous high officials of the navy department who are stationed at Sevastopol. The commander charges that these officers have been guilty of selling warship supplies and pocketing the proceeds.

## RUSSIANS HAVE TAKEN A BRITISH STEAMER

KOBE, Japan, May 3.—It is reported that the Russians have captured the British steamer *Planet Venus*. The Maritime register shows that the *Planet Venus* under the command of Captain Keller, sailed from Antwerp on February 25, bound for Yokohama. She was reported at Colombo, Ceylon, on April 5.

## SAIGON RIVER IS THE COALING STATION

HONG KONG, May 3.—The British steamer *Woodford* reports seeing a Russian volunteer cruiser and some German vessels in the Saigon river. The *Woodford's* officers say that thousands of tons of coal are stacked along the Saigon river for the use of the Russians. Twelve transports were observed lying off the mouth of the river.

## SPECIAL SESSION OF COUNCIL

the Borough and that it give bond for the faithful carrying out of its agreement as to making the change of rail. It was only by requiring a bond, he said, that Council could justify itself before the public in receding from its position and permitting the use of the rail decided against at the previous meeting.

Mr. Yetter objected to an extra bond, but stated that he was willing to give guarantee in some other way. At his suggestion the following condition was added to the bond just accepted, which was regarded as satisfactorily covering the ground:

"That the Danville and Sunbury Street Railway Company, its successors and assigns shall remove the rails now laid on any section of Market street and replace the same with the same style and weight rail as is now on Mill street upon ten days' notice when said Borough of Danville by ordinance duly enacted decides to pave that section of said Market street."

On motion of Mr. Swensfort it was ordered that after the above condition be added to the bond the Danville and Sunbury Street Railway Company be permitted to begin the laying of its track at the eastern end of Market street and to proceed as proposed, laying the rail that is on the ground.

On motion of Mr. Reifensnyder, seconded by Mr. Magill the Secretary was instructed to notify the Danville and Bloomsburg Street Railway Company to plank its track at the curve at A and Bloom streets.

On motion of Mr. Gosier the contract for sewer pipe was awarded to J. H. Cole.

## PADEREWSKI IMPROVING

NEW YORK, May 3.—Ignace Paderewski, the Polish pianist, who has been suffering from nervous prostration, arrived in this city yesterday from Boston in his private car, Hazlemer. Shortly after arrival, Dr. Francis E. Fronczak, the specialist who is attending him, issued the following bulletin: "In answer to many queries regarding Mr. Paderewski's condition I will say that he is improving, although still quite nervous and in need of rest after the fatiguing journey from Boston. He will be unable to appear this afternoon at Madame Modjeska's benefit. Mr. Paderewski must take rest for some time." Madame Paderewski is with her husband. The pianist's secretary had the Hazlemer placed in as quiet a spot as could be found in the Grand Central station.

## May day without any special or particular labor disturbances or excitement. Everybody is too busy to get into any May day rumpus.

The boys of today will be the men of the future. Such moral and physical training as the youth receive at the Young Men's Christian Association will fit them to become upright and energetic citizens.

# IN FAVOR OF VACATING

Point township. Many persons on their way to town driving fine horses would like to use the river road to escape the cars and the Reading Iron Works, also farmers who have business on West Market or West Mahoning street by using that road are able to save a mile. Were the road vacated he would not give within 50 per cent. of what the land would be worth if it had an outlet.

Joseph W. Keely was called to the stand. He has known the road for fifty years. He confirmed the preceding witnesses as to the uses and necessity for the road as well as to the depreciation properties would suffer if it were closed.

W. A. Shepperson, the owner of a farm abutting on the old road, was an important witness. He declared that a vacation of the road would mean a depreciation in value of at least one-half in all the land abutting. He confirmed the preceding witnesses in all essential points that opposed the vacation. Owing to the absence of the bridge at the creek's mouth he is much discommoded in his farm work. Finishing up his work at one point in order to get his teams to another point one hundred feet away he is obliged to drive, dragging his farming implements, around over a mile. He denied that it would be costly to restore the old road. He, himself, would put up a bridge at the creek's mouth for \$350 and sell the land required for a highway 33 feet wide, at the rate of \$150 per acre, guaranteeing the road for ten years. Not more than an acre would be required to restore what is washed away.

The last and the only witness called by the township was Engineer George W. West. He has known the road for fifty years. He described the extent to which the river cuts into the shore and stated that the last road located lies 30 or 40 feet out in the river. He referred to records and showed that the old river road was first built in 1780. Owing to the inroads of the river it was changed successively in 1832, in 1849, in 1856, in 1875, and in 1898. To rebuild the road in its old location would be costly, necessitating a retaining wall and heavy fill for at least half a mile. It would be necessary to reconstruct a bridge, which should be on a new site. Conceding the necessity of the road he would recommend applying to Court for a relocation, reconstruction being too burdensome.

Without argument the matter was submitted to the jurors, who in a short time arrived at a decision, setting forth that they are of the opinion that the same has become useless, inconvenient and burdensome and that it therefore ought to be vacated.

The board of viewers was composed of D. F. Gonzer, James F. Ellis and Matthew Sheep.

## Almost Electrocuted.

Walter Roth, of Shamokin, lineman for the United Telephone and Telegraph Company, had a harrowing experience on the top of a pole at Elizabethtown, and only the fact that he was strapped to the pole saved him a fall to the ground and possible death.

He had climbed to the top of the pole to connect a wire, and luckily took the precaution to strap himself fast. He was handling the trolley feed wire when his spur came in contact with the wire leading to the ground.

A circuit formed, 550 volts passed through his body, his form grew rigid, and his eyes bulged from the sockets.

In a moment or two the circuit was broken and the lineman was left in a limp condition, hanging by the strap. He rallied and succeeded in climbing safely down the pole.

## Charles Battaglia is Acquitted

Charles Battaglia, the well-known Italian Padrone, who has had troubles of his own for some months past, yesterday was acquitted of assault and battery in the Bloomsburg court.

Charles, whose Italian laborers have been working about Danville for a year past and who himself is almost a daily visitor here, was very happy over the verdict last evening.

Battaglia, the proprietor of a saloon in West Berwick, was charged with shooting another foreigner named Demko on the night of December 17th. Demko testified that Battaglia put him out of the saloon and while ejecting him drew a revolver and shot him in the left leg near the hip. He was badly hurt and was taken to the Hazleton Hospital where he has been most of the time since. Under a rigid cross examination by Mr. Scarlet he struck to his story.

Charles Battaglia, the first witness called and defendant in the case, testified that he closed his bar on the 17th of December at about 10 minutes of 12. All his patrons left the place except Demko and his three companions. Just before he had counted the money and took it from the cash register, Demko then at once asked for a glass of beer, which the witness refused saying that he would give none after twelve o'clock. Demko then came up to him; grabbed him by the coat and said he wanted some of his money. Demko then reached his hand in the witness' pocket to get the paper money which he had there. The other men jumped on him and in the scuffle Battaglia grabbed his revolver. "I said: 'Now go, nothing has happened yet.' Demko then came at me with a knife or a razor, and said he wouldn't go until he had cut my throat. He continued to come on and I shot him in the leg. I shot low and didn't intend to kill him.

Battaglia's story seemed to go with the jury and they acquitted him.

## Killed at Harrisburg.

The Paper Train on the Pennsylvania railroad due in Sunbury at 5:50 o'clock in the morning, struck and instantly killed a man in the yards at Harrisburg, yesterday.

Engine No. 4130 drew the train and Ira Neyhart, of Williamsport, was at the throttle.

While passing the DE office, Engineer Neyhart noticed the man on the track a short distance ahead and he made every effort possible to stop the train before reaching him, but without success.

The train was going at the rate of about twenty miles an hour, and the victim was hurled quite a distance being dead when picked up a few seconds later.

From letters found in his pocket, the dead man is believed to be Fred Daerst of No. 2715 South Ninth street, St. Louis. Other papers showed that he was a drover.

## Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Mr. D. K. Koble of Nevada O. says: "I had stomach trouble and was in a bad state as I had heart trouble for some time. I took Kodol Digestive Cure for about four months and it cured me."

Kodol Digestive What You Eat and relieves the stomach of all nervous strain and the heart of all pressure. Bottles only 21.00. Six bottles 25c. Times' Herald. Prepared by E. G. DAWITT & CO., CHICAGO.

# Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers; they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pain, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though he had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries.

It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Binghamton, N. Y., on every bottle.

## CRIMINAL COURT A FARCE

Judge Clinton R. Savidge, in Northumberland county court yesterday said that criminal court was more or less a farce, especially in that and other coal region counties of the commonwealth, as fully nine-tenths of the cases were trivial and unworthy the attention of any court and jury.

The prosecutions, he said, were brought by some high-tempered woman, drunken man or some other irresponsible party. The majority of cases are composed of the leavings after the justices of the peace have disposed of all the cases in which they could secure their costs without making a return.

Almost Electrocuted.

## The Vigorous Man Is a Leader of Men

The Mental, Moral or Physical Wreck Has No Place in the Business World.

Dr. A. W. Chase's Nerve Pills.

The man who hesitates, whose eye is dull, whose step is slow, whose mind is sluggish, whose hands tremble, is not the man who an employer seeks. It is the bright man, the man with the clear eye and brain, the active man, full of energy, life and vigor, whose very manner and presence breeds success that is sought for and snapped up as soon as seen, and is almost pitiful that the first-class victims of excess of some sort, should exist, when it needs but a thorough course of Dr. A. W. Chase's Nerve Pills to round them into the old-time feeling of physical, intellectual and manly vigor again.

Mr. Fred Hoyt of No. 724 6th Ave., New Brighton, Pa., says: "I used to have a hand so steady I could write the Lord's prayer on a twenty-five cent piece—then as a result of overwork and overstrain my eyes gave out and my hands and nerves generally became trembly. I was restless and could not sleep. I certainly was in bad shape and lost my ability to write—could just scrawl. I heard of Dr. A. W. Chase's Nerve Pills and got some and they took hold immediately. I began to sleep—gain strength—my nerves grew steady—and my eye sight improved greatly. Today I feel fine and can again write as well as ever, and that means a very steady nerve." 50c a box at dealers or Dr. A. W. Chase Medicine Company, Buffalo, N. Y. Portrait and signature of A. W. Chase, M. D., on every package. Sold by J. D. Gosh & Co.
