DANVILLE'S PROSPECT FOR AN ARMORY

Among the later bills approved by Governor Pennypacker in full was one appropriating \$250,000 for the erection of Armories for the National Guard. This is of especial interest to Danville, as the building used for an Armory here has been repeatedly condemned by the inspectors.

The project for the erection of Armories by the State is not a new one. Never until the present year, however, had it so many ardent supporters in the General Assembly and among the citizens throughout the State, who have come to a realizing appreciation of the real and zealous service the Guard of this State has given the Commonwealth.

Unfortunately but half the appropriation has been granted that the framers of the bill had in mind, and on the proposed basis it means twenty-eight years before all the organizations can be provided with Armories instead of in fourteen years as originally designed.

The proposed basis for the expenditure of the available funds was arranged to give a sum equal to \$30,000 to each company and \$30,000 to each troop and battery organization and it was further provided that where a regimental Armory was erected the money appropriated would be on the basis of that amount multiplied by the number of companies to be quartered therein.

Perhaps the most vital question of interest to local guardsmen and incidentally to our citizens is the query as to where these first Armories are to be placed. As to these facts very little can be added that is beyond the realm of conjecture. It is not unlikely that the reports of the Brigade inspectors may develop some very alarming conditions with reference to the advisability of still continuing certain organizations in the service and of course this is a matter which the headquarters must finally decide before any action could possibly be taken up by the Armory Commission.

The companies selected should have in the fullest measure all or as many as possible of the following merits: A company should be located in a community sufficiently large to be at all times capable of maintaining a company in a maximum membership.

Has the locality pride and interest to donate either from the municipality or from the individual citizens sufficient property of a suitable nature upon which an Armory may be erected?

Is the present standing and that of the past three years sufficiently high to show that the organization is steadily improving rather than retrograding.

Is the locality such as to guarantee prompt mobilization of the command and assurance that rapid transportation facilities may be afforded for any rendezvous within the State?

Whether Danville in its relation to the Guard or whether Company F of the Twelfth Regiment possesses all or any of the above merits are questions that should not admit of much doubt.

A company of the Guard has been maintained in Danville for many years. It has done excellent service when called out and what deficiencies it has shown could always be accounted for on the ground of defective quarters and poor facilities for drilling.

The Armory here was strongly condemned by Brigade Inspector Major Miller in 1904. It is too small for drilling, a central pillar making two of the movements utterly impossible. With every break up during the winter the water accumulates in the cellar, extinguishing the fires and making it impossible to warm the Armory for weeks. The water even rises into the Armory, causing the floor boards to warp making the floor unfit for drills, which last year had to be suspended for weeks. The building is damp, rendering it necessary to go over the rifles every week with a thorough cleaning to prevent them from rusting.

Under the circumstances it would seem that if justice enters into it at all and our citizens act liberally as is required Danville's chances ought to be pretty good for receiving an Armory among the first.

STRUCK BY AN IRON BAR

Thomas R. Evans, front street, met with an accident while standing on the trolley track in front of Ross's undertaking establishment, East Market street, about five o'clock last evening, as a result of which his left leg is in a condition of extreme criticality. Several employees with iron bars were engaged in turning the rails. They were working on several joints that were bolted together. The weight was heavy and the force exerted on the bars in the hands of the workmen was in proportion. While the men were tugging away at their work Mr. Evans ventured too close and stood watching them. Just at that juncture the bar slipped out of the hands of one of the men and owing to the weight at the other end flew back with terrific force striking Mr. Evans in the region of the heart and stomach.

It was a well defined solar plexus blow and the man fell over as if dead. He was picked up, carried into the furniture store and there placed on a cot. Dr. Wintersteen was instantly called, and pending his arrival such remedies as were at hand were quickly applied. When Dr. Wintersteen arrived he found the patient still under the influence of the shock, the heart action being especially bad.

Stimulants were administered, after which the man was removed to his home. Later the effects of the shock wore off and last night Dr. Wintersteen stated that he saw no evidence of internal injury and everything was favorable for full recovery.

A Pair of Blackmailers.

A man and a woman who work a "get rich quick" scheme of their own may visit Danville soon. The couple visited Wilkesbarre last week and it is estimated that during the four days of the Foresters' convention there, they must have cleared in the neighborhood of \$500.00.

Their scheme is a very bold form of blackmail, and it has come to the knowledge of the police who are compiling evidence in order to proceed against the pair, who are known.

The system of the crooked pair is somewhat as follows: They go to a good hotel, registering as man and wife, always choosing a hotel in which there are a number of guests, which was easy during the convention when all the public houses were crowded.

After having been at the hotel a short time the man would make the acquaintance of some of the other guests, making himself as agreeable as possible.

He would then introduce acquaintances to his wife, who would always appear to be very much pleased to meet the friend of her dear husband.

Soon afterward the two men would become engaged in a game of pool or billiards during which he would receive a telegram, calling him in sudden emergency to Scranton.

The game would be immediately stopped, and the crook, handing the message to his friend would ask him to give it to his wife and explain to her that he had no time for farewells, saying that he would return in the morning.

The friend would take the telegram and would search for the wife, but he would find her out walking so he would go about his business until evening, when he would find out at what spot the woman was rooming and would then go to her room with the message.

Knocking at the door he would be invited to enter, and after a few minutes of conversation, when he would be preparing to leave, he would be confronted by the husband, who would say that he had been able unexpectedly to return from Scranton that evening, and he would appear to be very angry and horrified and would want to kill the friend.

Then he would threaten arrest, the woman backing up his charges, but would agree to settle for a certain sum. The victim then generally paid over an amount ranging from \$50 to \$300 in order to avert scandal, and the loving couple would depart to another hotel, where they would fleece a new victim.

One man, who is a stranger, is known to have paid over \$200, and others have paid various sums, although none less than \$50.

WOMEN WHO WORK Need Strong, Vigorous Nerves.

The life of women and girls who work is at best a hard one and even under the most favorable circumstances the results often show strained nervous systems and broken down health. To meet the conditions required of her, to sustain the extra strain and nervous tension of duties never intended for her in the plan of nature, she must use every endeavor to preserve the vitality of her nerves and the regularity of the female functions. No remedy ever offered the world has accomplished the wonderful results obtained from the use of Dr. A. W. Chase's Nerve Pills. By simply applying the nerve and blood with the elements necessary to their life and activity, they cause a steady increase of natural strength to both body and mind, brighten the eyes, clear the complexion and instead of a depressed, worn-out feeling, there will be one of buoyancy and life. Dr. A. W. Chase's Nerve Pills make life worth living.

Mrs. Anna Doretz, of No. 919 Cleveland Avenue, Niagara Falls, N. Y., says: "I was overtaxed with work and completely tired out. I used to go to bed to think and worry and could not sleep as a result and I was nervous during the day. Hearing of the good effects of Dr. A. W. Chase's Nerve Pills in such afflictions I determined to try them. I got a box and they were a complete success. They toned me up quickly, I got over the nervousness and sleep freely and restful again. I am sure I am glad to recommend them." For sale at dealers or Dr. A. W. Chase, Medicine Co., Buffalo, N. Y. Portrait and signature of A. W. Chase, M. D., on every package. Sold by J. D. Gosh & Co., 109 Mill street, Danville, Pa.

There are some splendid sites for manufacturing purposes on the South Danville Side, and they ought to be occupied.

TO MANUFACTURE DRY BATTERIES

Developments have occurred in manufacturing circles during the last few days in the light of which it does not seem improbable that Danville may have a new industry.

William Koehn of New York, manufacturer of the Standard Dry Battery, together with his manager, T. A. Casey, has just paid Danville a visit. Mr. Roche returning home Saturday and Mr. Casey yesterday afternoon.

The two gentlemen have interested themselves in the organization of a new company for the manufacture of the Rempe self-winding clock.

While in this city they investigated the vacant buildings of the Bessemer Steel plant, one or more of which they find well adapted to the manufacture of their commodity. The Standard Dry Battery is used in the manufacture of the Rempe clock and that in itself is a reason why Mr. Roche would like to locate his factory in Danville.

There are, however, other reasons that influence him, such as Danville's favorable location, its proximity to coal and its excellent shipping facilities to all say nothing of the town's desirability as a place of residence. Mr. Roche being interested in the organization of the new company it is not unlikely that the manufacture of the Rempe clock and the Standard Dry Battery used may be consolidated.

A great amount of bulky material enters into the manufacture of the dry battery, while the principal part of the product is disposed of in New York City. The item of freight, therefore, becomes a matter of serious consideration. Although things look very favorable for a new industry nothing will be done toward locating here until Mr. Roche has taken up the matter of freight with the D. L. & W. Railroad Company.

THE PERFECT WAY.

Scores of Danville People Have Learned It. If you suffer from backache, there is only one way to cure it. The perfect way is to cure the kidneys.

A bad back means sick kidneys. Neglect it, urinary troubles follow. Doan's Kidney Pills are made for kidneys only.

Are endorsed by Danville people. J. L. King, retailer, of 403 E. 4th St., Bloomsburg, says: "The statement I made in 1896 is about all I can say regarding Doan's Kidney Pills. They cured me of kidney complaint and backache at that time and the cure has been a lasting one. I can now, eight years after, endorse my former statement. Prior to 1896 I had suffered for a long time with a weakness and lameness over my kidneys accompanied by a terrible backache right across my loins and a constant dull pain which never let up day or night. When I stopped my work often required me to do I could scarcely straighten. Sharp twinges would catch me in the small of my back, taking my very life out of me. I heard of Doan's Kidney Pills about as being an effective remedy so I procured a box. They cured me, and during the past eight years I have had no return of my old troubles."

Plenty more proof like this from Danville people. Call at druggists and ask what their customers report. For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no other.

Passed Through Sunbury.

The explosive which caused such dreadful results in the wreck at South Harrisburg early Thursday morning, passed through Sunbury on Wednesday last. It was manufactured by the Keystone Powder company of Emporium.

There were four hundred fifty pound boxes in the car and it was consigned to Contractor Kerbaugh, of Columbia.

It is likely that a considerable portion of the investigation of the Pennsylvania Railroad authorities into the causes of the Harrisburg wreck, and the consequent loss of life and injury to 150 persons, will be directed to the cause and handling of dynamite and other explosives. It has been stated that the awful disaster may result in the company issuing orders not to carry in the future, explosives of this kind, except under extraordinary circumstances.

From statements made it is estimated that the investigation will result in the material changing of the methods of packing. President Baer of the Reading, says the importance of making a radical change, and has so instructed his subordinates.

He has suggested the building of a special car or cars, with padded sides and other ways of reducing concussion to a minimum for the transportation of explosives.

The D. L. & W. Railroad absolutely refuses to allow dynamite or other explosives on its lines. To this rule there is positively no exception. Other railroads, however, carry it because they say they are obliged to, being common carriers. Five years ago there was a bad freight wreck on the Lackawanna's Buffalo division.

A greater part of a small town was wrecked by the explosion of three cars of dynamite and a number of operatives lost their lives. That was a lesson for the Lackawanna Company. It has heeded the lesson and the officials assert that no amount of profits from hauling dangerous explosives atone for the great risk and responsibility entailed.

Elmer E. Brode, president of Enterprise High Explosive Company of Philadelphia, who in the course of long experience has shipped 10,000,000 pounds of dynamite without any accident during transportation, says that, as far as he understands the case, the explosion at Harrisburg, it was similar to that of Iron Grip on the Reading, about twelve years ago, when a railroad wreck caught fire.

REV. GEORGE E. LIMBERT'S FAREWELL

Rev. George E. Limbert [Sunday morning preached his farewell sermon to the people of Shiloh Reformed church, whose pastor he has been for the past five years. Notwithstanding the rain, the church was filled with members and friends, who had come to hear his last words to them. Owing to the strong affection existing between pastor and people the services were impressive and of a very touching character, the members being deeply moved by the remarks of their pastor and over the thought of their separation and loss.

Taking as his text, First Thess. fourth chapter, first verse, the pastor dwelt upon the pleasant relations existing; the advance that had been made, with God's blessing, along all lines of church work, and in tender, touching words, exhorted them to still more and more abound in good works.

In connection with his remarks Rev. Limbert gave some interesting statistics of his five years pastorate, each year showing a steady gain and the last year being by far the best of all. During this period there were 155 additions to the church; 74 dismissals. The amount contributed to missions and other objects of the church at large, \$2582.00, to local congregational expenses, \$729.00. The congregation now numbers 353 members and the Sunday school 276 scholars. For the year ending May 1, 1905, \$725.00 were given for benevolence and \$1973.00 for congregational expenses. Rev. Limbert also officiated at 119 baptisms, 45 marriages and 47 funerals.

In the afternoon a baptismal service was held, at which time eight children were baptized.

A Guaranteed Cure For Piles.

Itching, Blind, Bleeding or protruding Piles. Druggists refund money if PAZO OINTMENT fails to cure any case, no matter of how long standing, in 6 to 14 days. First application gives ease and relief. 50c. If your druggist hasn't send 50c in stamps and it will be forwarded post-paid by Paris Medicine Co., St. Louis, Mo.

Removing a Landmark.

The old frame dwelling house in Washingtonville on the West side of Water street, for many years the property of Mrs. Fanny Heddens, and known as one of the oldest buildings of the town, is being demolished to make room for another structure.

The house was one of the landmarks of the town, supposed to be at least one hundred years old. It had become very ramshackle and hoary and began to seem out of place among the more modern and the new dwellings, which had grown up around it.

The old house was constructed after the rude methods of a hundred years ago, the timbers and all the woodwork being roughly worked out by hand. Washingtonville is an ancient settlement and these old landmarks are viewed by the residents with a feeling akin to pride. The town, however, like other places begins to reflect the general progress of the times. A number of spick and span new houses or houses repainted having the appearance of being new are seen on every street. Only a few landmarks remain, which link the present with the early part of the last century.

The old house being torn down was purchased by Fred Yerg, who will erect a modern dwelling on the site.

When e'er you feel impending ill, And need a magic little pill, No other one will fill the bill. Like DeWitt's Little Early Risers, The Famous Little Pills EARLY RISERS cure Constipation, Sick Headache, Biliousness, etc. They never gripe or sicken, but impart early rising energy. Good for children or adults. Sold by Paules & Co.

Trolley Projects.

It is gratifying to learn that the right of way for the extension of the Watsonstown, Milton and Lewisburg trolley line to Northumberland has been thoroughly secured. The Northumberland town council, to its credit, has looked at the matter in a more favorable light, and has removed the obstacle that threatened to obstruct the passage of the line through that borough. This is better for Northumberland, and will also be better for Sunbury, which will have connection with the new line through the already constructed, but for some time interrupted, Sunbury and Northumberland electric road. The line between Danville and Sunbury, already laid out through Riverside, Rush and Upper Augusta townships, and ready for construction, has run against the temporary obstacle of an injunction, which will give the lawyers some work, but will not materially retard the completion of the line. The electric connection with Shamokin was held in suspense in the earlier part of the season by the illness of Hon. M. H. Kulp, the chief factor in the enterprise, but as the health of that gentleman has fortunately been improved active measures in pushing that work may so be expected to be taken. Trolley projects are good in whatever direction we may look.—Sunbury Item.

Time Tried and Merit Proven.

One Minute Cough Cure is right on time when it comes to curing Coughs, Croup, Whooping Cough, etc. It is perfectly harmless, pleasant to take and is the children's favorite Cough Syrup. Sold by Paules & Co.

To Wed in England.

The announcement of the engagement of Mr. William Carter Dickerman, son of ex-Congressman Charles H. Dickerman, of Milton, to Miss Alice Carter, has just been made. The bride is now in Europe and the wedding will take place next month at the home of the bride's brother, Mr. William E. Carter, at Rugby, England. The groom is third vice president of the American Car and Foundry Company and lives in New York. Mr. O. H. Dickerman and daughter will sail for Europe on June 4.

HORSES BENT ON RUNNING AWAY

A team of sorrel colts belonging to Mrs. Hoffman, of near Washingtonville, ran away in town Saturday afternoon.

The horses, attached to a spring wagon, first attracted attention going up Mill street. They were evidently beyond the control of the driver, a young man of some twenty years, and went plunging along at a rapid rate.

Arriving at the intersection of Market street where a large pile of sand and other material needed in street paving blocks the way the horses were stopped. The wagon was turned around and after examining the harness another start was made.

The horses had scarcely got under way when they began to run again and dashing down Mill street turned out East Maining. The driver, who still remained at his post, hung on to the lines pluckily but could do nothing to check the horses. Opposite the Malmong Presbyterian church as a last resort he ran the team into a tree growing on the north side of the street. This brought them to a stop.

The harness was slightly broken, which seemed about the only damage done. The runaway caused much excitement and a big crowd gathered about the spot.

There is a Difference.

The difference between Kennedy's Laxative Honey and Tar and all other Cough Syrups is that it moves the bowels, thus expelling a cold from the system. This relaxes the nerve-tissues and by its healing effect on the throat and lungs the cough is relieved—cure is rapid. Good food for young or old. Tastes good. Sold by Paules & Co.

Closed Successful Term.

The Riverside Grammar school last week finished a very successful term of eight months under the able instruction of Daniel J. Snyder. On Thursday evening an excellent entertainment was given, many parents and friends of the pupils being present. The following was the program:

- Song "The Village Bell" School. Recitation "The Photographer's" Annie Kinn. Play "Country Aunt's Visit" to the City. Ten Pupils. Recitation "Little Jim" Mabel Stepperson. Singing "Silly Bluebird" School. Recitation "The Gambler's Wife" Nora Unger. Pantomimed Poem "Luck at Last" Six Pupils. Recitation "The Ride of" Bessie Pitzer. Solo "When the Boss Are in" Irene Farley. Recitation "Mina's Wishes" Helen Huber. Patriotic Drill "The Blue and the Gray" Eighteen Pupils. Duet "Cave of the Over" Bertie Wolverson, Bessie Pitzer. Dialogue "The Lost Child" The O. Class. Recitation "Nangly Zill" Bertie Wolverson. Violin Solo "Star of the East" George Wildsmith. Instrumental Duets "Mines' Home, Sweet Home" Six Pupils. Recitation "Birds, Beasts, Fishes" Mabel Kinbel. Pantomime Song "Nearer My God to Thee" Seven Girls. Recitation "Valedictory" Annie Daniel. Song "Parting Hymn" School.

Saved by Dynamite.

Sometimes, a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes, a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for Consumption, Coughs and Colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and La Grippe. At Paules & Co's drug store, price 50c and \$1.00, guaranteed. Trial bottle free.

Where to Spend the Summer.

The 1905 edition of "Pleasant Places on the Philadelphia and Reading Railway" is now ready for distribution. It is a neat booklet with a brief description of the summer resorts on the line of the Railway from the Seashore to the Mountains, within easy reach of Philadelphia, with rates of fare, etc., and a concise list of Hotels and Boarding Houses at each place, price of board and Post Office Address, giving valuable information to those seeking summer quarters. There is also a list of the Picnic Grounds suitable for a day's outing.

It can be procured at the principal ticket offices of the Company or will be mailed to any address upon receipt of a two-cent stamp, by Edson J. Weeks, General Passenger Agent, Philadelphia.

Terrible Race With Death.

"Death was fast approaching," writes Ralph E. Fernandez, of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect, that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at Paules & Co's, drug store; price 50c.

PHONE INSTALLED ON RURAL SYSTEM

The Peoples' Telephone Company completed a pole line from Washingtonville to Strawberry Ridge on Saturday afternoon. The wires were strung and a phone was installed in the hotel of Charles Deaver, Strawberry Ridge. Messages at once began flying backward and forward and thus a new section of the country isolated since the beginning of time, has been brought into the constantly growing telephone system.

For temporary use the wire extending to Strawberry Ridge was connected to one of the wires of the United Telephone and Telegraph Company at Washingtonville. The Peoples' Company has perfected an arrangement with the United Company by which the rural wires later will be carried into Danville on the United pole-line.

The phone at present installed at Strawberry Ridge is only for Mr. Pettijohn's private use. A large number of phones, ordered, will arrive at Strawberry Ridge in a short time and will be installed in the homes of subscribers at that place and Washingtonville. It is probable that the rural wire will be carried into Danville.

The pole line of the Peoples' Company shows up very nicely. The poles, which are somewhat smaller than used about town, are stripped of their bark and are as straight as arrows. The wires are strung only as far as Strawberry Ridge; the poles, however, are strung as far as Derry Church. From the latter point the line on which work is in progress, extends to a point 1 1/2 miles from Jersey town, whence one branch extends to the latter town and the other branch out to Kohalange.

On Friday night the subscribers of the Peoples' Telephone Company held a meeting at Grange Hall, Strawberry Ridge, for the purpose of organization, and to execute an agreement with the United Telephone and Telegraph Company for the use of its pole line into Danville. Some twenty five stockholders were present. J. W. Lovick was elected President, and William H. Dillman, Secretary.

Let me say I have used Ely's Cream Balm for catarrh and can thoroughly recommend it for what it claims. Very Rev. (Rev.) H. W. Hathaway, Elizabeth, N. J. I tried Ely's Cream Balm and to my appearance an cured of catarrh. The terrible headaches from which I long suffered are gone.—W. J. Hitchcock, Buffalo, N. Y.

The Balm does not irritate or cause sneezing. Sold by druggists at 50c, or mailed by Ely Brothers, 56 Warren St., New York.

Drinking Beer in Alleys.

Beer parties on the river bank or in the alleys are becoming a great nuisance and our citizens demand that they be stopped. The parties who indulge probably see no harm in snoring a keg that sees agreeable nights, seeking the seduction of an alley and there proceeding to quench the thirst. Whatever may be said as to the decorum maintained by a beer party the moral effect is bad. It is not a pleasant thing for a property owner to reflect upon that the alley on which his premises abut is the rendezvous of a lot of thirsty fellows, who by and by may less their wits and incite a miniature riot.

J. E. Moore, Saturday night sought police aid in driving a beer party out from the alley just below his residence. Next to the river bank there is no place in town worse infested with beer parties than the alleys in the vicinity of Mr. Moore's.

Our Chief of Police has issued an edict to the effect that beer drinking must stop in the alleys as well as on the river bank. It is in violation of the ordinance and unless this gentle hint suffices arrests will be sure to follow.

Defeated at Sunbury.

The Old Timer Reserves of this place suffered defeat at Sunbury on Saturday in a game of base ball which abounded in errors from start to finish. The pitching of Welliver for the Reserves, and Martin for Sunbury, was the kind that frequently wins games, but when the error column looms up as prominently as shown below, good pitching usually goes for naught. With more practice, it is to be hoped, the Reserves will soon be able to give their patrons as fine exhibitions as they did last season when they stood among the leaders in the minor organizations of this section. The score:

Table with 2 columns: RESERVES and SUNBURY. Rows for Gillaspay, Sommons, Johnson, Ammerman, Evans, Roberts, Minter, Welliver, Hoffman, Druckemiller, Putnam, Nipples, Messer, Oederhoff, Dibel, Snyder, Martin.

Cleared for Action.

When the body is cleared for action, by Dr. King's New Life Pills, you can tell it by the bloom of health on the cheeks; the brightness of the eyes; the firmness of the flesh and muscles; the buoyancy of the mind. Try them. At Paules & Co's drug store, 25 cents.

Hoyt will Prosecute.

HARRISBURG, May 17.—Attorney General Carson has appointed Representative L. T. Hoyt of Bradford county, to prosecute the former commissioner of Potter county and the present auditors of the same county. The former are accused of misdemeanor while in office and the latter are charged with conspiracy.

The Excellence of Speer's Wine.

Is attested by physicians throughout America and Europe who have used them. Orders for the old Port and Burgundy are being shipped to Dresden and Vienna.

IN HONOR OF FATHER O'REILLY

St. Joseph's Total Abstinence and Beneficial Society on Saturday evening tendered a banquet in honor of Father M. I. O'Reilly's return from the Holy Land, which proved an exceedingly fine affair.

The society in question is made up of the male members of St. Joseph's Catholic church. It was organized as far back as 1873 and is prospering. The average membership is about seventy-five. In addition to the society there is a temperance organization of "Gads," boys of the church, who at the age of sixteen, are taken into the Total Abstinence and Beneficial Society.

The banquet Saturday evening was an informal affair and will be remembered with pleasure not only by the members but by the pastor whom it was designed to honor. It was held in St. Joseph's Hall, covers being laid for nearly the entire membership of the society. The menu was very fine and the service excellent. J. B. McCoy was caterer.

Father Poin, pastor of St. Hubert's Catholic church, was the guest of honor. Among those who responded with speeches were: First President, James Plunkett; Ex. President, John Henley, and President John Jones. Father Poin made a very fine address during the evening. Father O'Reilly also made appropriate remarks.

After speech making there was music. Solos were rendered by Daniel McCormick, John Jones, William Pickens, Edward Scott, James Powers, Frank McCue, Charles Mullen and Edward McCoy. The banquet wound up with a selection from the Emerald Club Quartette.

Strictly Genuine.

Most of the patent medicine testimonials are probably genuine. The following notice recently appeared in the Aftonian (Kan.) Globe: "Joe Tack, a well known engineer, running on the Missouri Pacific between Wichita and Kiowa, lately appeared in a big one, with a picture, and when he was in this office today, we asked him about it. He says he had terrific pains in his stomach, and thought he had cancer. His druggist recommended Kodol and he says it cured him. He recommended it to others, who were also cured." Kodol Dyspepsia Cure digests what you eat and cures all stomach troubles. Sold by Paules & Co.

Getting Things Ready.

The people of Williamsport are beginning to have some small idea of the extent and magnificence of the illuminations for Conclave week.

Hipple Bros. have only been at work a few days but they have outlined the Masonic Temple and Scottish Rite Cathedral and Temple Club with incandescent lights and yesterday festooned Fourth street at intervals from Mulberry to Hepburn streets with strings of 24 lights so that between the points named the street will be covered with arches of light.

The big columns for the court of honor which will extend on Third street from Mulberry to Pine streets were put in place yesterday. They are 27 feet high and the bases are six feet and four feet square. Each is surmounted with a gilded hemisphere. These will be covered with the Knight Templar colors and 10-tons of electric light will be hung between them. The pillars are placed 70 feet apart and on both sides of the street.

At the Park hotel the driveways have been outlined with strings of lights and in the center of the big lawn has been suspended a huge Maltese cross in electric lights.

Hipple Bros. have secured the old Funston store and have filled it with materials to be used in the decoration of the city.

Hot Weather Pills.

Persons afflicted with Piles should be careful this season of the year. Hot weather and bad drinking water contribute to the conditions, which make Piles more painful and dangerous. DeWitt's Witch Hazel Salve stops the pain, draws out the soreness and cures. Get the genuine, bearing the name of E. C. DeWitt & Co. Sold by Paules & Co.

Will Supply Pulpit.
