BURGLARS AT CLOCK FACTORY

The clock factory on Railroad street was burglarized Monday night. It is not certain, however, that anything was stolen, although the thieves went over the entire premises.

But very little is being done at the clock factory at present. Herman Engelberg, the general foreman, is in New York City and during his absence the factory is solely in charge of Charles Wagner, who is at the head of the assembling and adjusting department.

When Mr. Wagner arrived at the factory yesterday morning he found the door at the main entrance broken open. The burglars proved themselves determined fellows, as the door was securely fastened with a Yale lock and resisted all efforts to break it open. To show what force was applied on the outside the door frame to which the portion of the lock was screwed that received the bolt was badly splintered and broken, necessitating the insertion of a new piece before the door could be refastened.

All about the interior of the building burned floors were found strewn over the floor, showing that the burglars had been through every department. It is very difficult to tell whether or not the burglars stole anything. There are a good many valuable tools in the building but none of these, so far as could be determined yesterday, were missing. As relates to the large stock of clocks, Mr. Wagner is not so certain. It is difficult, he says, to determine at a glance whether any are missing, but he is inclined to think that none have been stolen. There is a good deal of mystery about the affair, especially considering the hard work that was required to force an entrance. What the thieves would expect to find in a building of that sort is not clear.

Professionals on Saturday.

The Wilkesbarre Professionals, who will be the base ball attraction at DeWitt's Park on Saturday, are a fast aggregation and will no doubt attract a large crowd. They defeated the American Car and Foundry Company club at Berwick last Saturday by a score of 5 to 1 and are considered one of the best teams in Central Pennsylvania. It has been demonstrated in the past that when Danville players go against a good strong team they usually produce the guilt-eating article themselves and if history is to repeat itself a fine exhibition may be expected.

As for the next attraction, little need be said. The "Cuban Giants" with Old Pop Watkins at the helm will be with us on Monday and Tuesday next, and to say there will be things done those afternoons would be putting it mildly, for as is well known those dandy monarchs of the diamond never sleep during working hours, from about 3:15 to 6 o'clock each afternoon, and if the home team wins, which they expect to do, will be after a very busy season.

McCleod on a former occasion was more than equal to the emergency in the box, and with Deen officiating in one of the games it is hoped that victory will again be ours. Old reliable Jesse Shannon, whose grand sensational catch which resulted in a triple play in the ninth inning, leading to a shut out against the Giants two years ago, has retired from the game and his place in center field is filled by Clayberger, who is also an able outfielder.

The Giants not only give a wonderful exhibition of base ball but amuse the audience with music and witty sayings from the time the gates open until the game is won or lost. The management are at a great expense to secure these strong clubs and should be encouraged by good attendance.

The line up will appear in this paper later.

A Guaranteed Cure For Piles.

Itching, Blind, Bleeding or protruding Piles. Druggists refund money if PAZO OINTMENT fails to cure any case, no matter how long standing, in 6 to 14 days. First application gives ease and rest. 50c. If your druggist hasn't it send 50c in stamps and it will be forwarded post paid by Paris Medicine Co., St. Louis, Mo.

A CLEVER AND CONGENIAL GROUP

The Raleigh, N. C., "Post" of Sunday the 11th inst. pleasantly alluded to a congenial group of strangers in that city among whom will be recognized one of our townsmen, W. A. Sechler.

The "group" are in Raleigh as witnesses in the trial of J. B. Powell in the Federal Court for the fraudulent use of the United States Mails on ordering goods on the credit of Jones and Powell of Raleigh.

The Danville Stove and Manufacturing Company was one of the firms that Powell tried to victimize.

Powell carried on his business from Norfolk, writing his letters and orders for goods there and sending them to the latter city by hand to be mailed. Orders were sent on the credit of "Jones & Powell," Raleigh, to houses in many parts of the country and the goods shipped to Raleigh. Some of the replies to letters and shipments came in to the hands of the real Raleigh firm of Jones & Powell and they brought the matter to the attention of the authorities, the result being the arrest of Powell just about the time that he had gotten a man here to reship the goods to various other points as they arrived from those who were shipping them to Raleigh to a firm having a high Dunn and Bradstreet rating.

Several car loads of goods came before the manipulation was stopped, including car loads of stoves, furniture, canned goods and a great variety of stock.

The "Raleigh Post" says: A clever and congenial group of witnesses who are here for the trial of J. B. Powell in the Federal court this week is composed of Mr. William J. H. Goleb, prominent stove and tinware manufacturer; Mr. W. H. Bishop, representing Fred. Walpert & Co., curd hair and brushes manufacturers; and David M. Pines of M. Pines & Co., parlor furniture manufacturers, all of Baltimore, and W. A. Sechler, of the Danville, Penn. Stove Manufacturing Co. Each of these gentlemen represent firms who received orders or inquiries from Powell as Jones & Powell of Raleigh for goods and are important witnesses for the prosecution.

This is the third trial they have made to Raleigh for the trial of Powell and each time there has been a continuance. Some of them seem a little restless and exasperated over the prospect for another continuance at this term.

American Institute Farmer's Club

Report the wines of Alfred Speer, Passaic, N. J., the most reliable, and his Optoro Grape Wine and Burgundies as superior to any in the world.

Reading's Dining Car Service.

The Philadelphia & Reading Railway announces that the Dining Car Service will be inaugurated on June 12th by the operation of dining cars in conjunction with the Central Railroad of New Jersey, weekdays between Philadelphia and New York as follows:

A La Carte breakfast will be served on 7.30 and 8.00 A. M. trains in each direction. A La Carte lunch on the 12.30 noon and 1.00 P. M. trains in each direction and Table d'Hote dinner at \$1.00 per capita on the 5.00 and 6.00 P. M. trains each way.

Mr. S. W. Derr, the Superintendent of Dining Car Service, having been Assistant Superintendent of the same department of the Baltimore and Ohio R. R. thoroughly understands the needs of travelers and will spare no efforts to accommodate and please the Reading's patrons.

MAKES WORK EASIER.

Danville People Are Pleas'd to Learn How It is Done.

It's pretty hard to attend to duties with a constantly aching back. With annoying urinary disorders, Doan's Kidney Pills make work easier. They cure every kidney ailment. John Temanus, puddler, of 301 Main St., says: "I consider Doan's Kidney Pills an excellent remedy for backache. I used them when I had suffered for years from which I had suffered for years. My trouble was an indescribable dull aching pain right across my back, sometimes my back was so weak that I could hardly do anything, and on this account I have had to lay off work several times. I was unable to bend or stoop without severe pain and was often obliged to catch hold of something to keep me from falling. I used liniments and hot applications but until I tried Doan's Kidney Pills I never had anything to do me any good. Doan's Kidney Pills were just the remedy I needed. I had taken them only about three days when my back became strong and soon was as strong as it ever was. I have had no backache or any indication of kidney trouble since using Doan's Kidney Pills.

Plenty more proof like this from Danville people. Call at druggists and ask what their customers report. For sale by all dealers. Price 50 cents. Foster-McMillan Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—take no other.

Barriers Removed.

The barriers erected to keep travel off the new pavement on Mill street were removed last night both from in front of the Montour House and at Mill and Front streets and Mill street is now open over the entire stretch of new pavement extending from Center street to the river bridge.

Viewed from a point near Market street, the paved thoroughfare north and south presents a very nice appearance and would scarcely be recognized as the Mill street of one brief year ago. The paved street and the river bridge, together, approximating three-fourths of a mile, affords a most delightful drive, which will be enjoyed by a large number of people who possess horses and carriages.

Best of all the new pavement is a fine piece of work, which will compare favorably with street pavements in any of our neighboring cities. A gratifying circumstance connected with it is the fact that the work was contracted for and done by a Danville man, showing that our town not only has the public spirit but also among her tradesmen the skill and responsibility needed to carry out her enterprises.

WILL BE LIGHTED IN A WEEK

Our magnificent river bridge in a week's time will be illuminated by electricity. The Standard Electric Light Company of this city has been awarded the contract for wiring and lighting the bridge by the Danville and Salisbury Street Railway Company, which has obligated itself to light the bridge as a part of the price it pays for the privilege of laying its tracks on the structure.

The Standard Electric Light Company has already begun the work of wiring the bridge and George M. West, Superintendent of the Company, yesterday stated, that by Saturday night or Monday at the latest the bridge will be lit up by electricity.

There are in all sixteen ornamental lamp posts, eight on either sidewalk, each of which is supplied with a West for two electric light bulbs. Mr. West says that the lights—thirty-two in number—will be of sixteen candle power, which ought to light up the bridge very nicely.

The wire will be brought up through the hollow posts so that the bulbs only will be visible. The Standard Electric Light Company yesterday removed its wires, temporarily suspended overhead in the roadway, to their permanent position on the top of the bridge. The wires are carried from the top of the 60-foot pole recently erected at the north-east corner of Front and Mill streets to six pin arms placed in position on the top of the iron work. Two wires were strung yesterday; others will be added as needed.

Seven Bands in Line.

The fact is established that the Fourth of July parade will not be deficient in music. The one thousand firemen, the military, the secret and other societies will march to the music of at least seven bands and two drum corps.

There will be five bands from out of town; at the meeting of the Citizens' Celebration Committee on Friday night the Mechanicsville band was employed, while at the meeting of the same body last night it was decided to hire Stors' band for the day.

The entire Committee was present last night; Ralph Kisor, Esq., Burgess Parsel, W. V. Oglesby, Esq., Edward Purpur, Jacob Boyer, Johnny Moyer and J. T. Magill.

On motion it was decided that a committee be appointed to attend to the purchase of fireworks. The Chairman appointed John F. Tooley and W. J. Rogers on said committee.

Secretary Purpur reported that the total amount of money subscribed thus far is \$78.

The Celebration Committee is somewhat discouraged over the slim response at rehearsals, especially as it has gone to the expense to purchase music for a chorus on nearly two hundred voices.

It was decided last night that the firemen's contest be held on North Mill street between the steam grist mill and Center street.

It was also ordered that the large posters printed be put up in Danville today.

Dying of Famine

In its torments, like dying of consumption. The progress of consumption, from the beginning to the end, is a long torture, both to victim and friends. "When I had consumption in its first stage," writes Wm. Myers, of Coates, Md., "after trying different medicines and a good doctor, in vain. I at last took Dr. King's New Discovery, which quickly and perfectly cured me." Prompt relief and sure cure for coughs, colds, sore throat, bronchitis, etc. Positively prevents pneumonia. Guaranteed at Paules & Co's drug store, price 50c and \$1.00 a bottle. Trial bottle free.

Gave \$10,000.

In addition to a letter highly expressive of its appreciation of the aid and succor given to the injured and the loving care bestowed upon the dead in the terrible wreck of May 11 by the people of Harrisburg, the Pennsylvania railroad company gave \$10,000 to Harrisburg Hospital. This gift was a recognition of the work done at an institution on that fateful day and the attention which lightened the sufferings of those who had to undergo treatment there after the accident.

The System Lives On Good Rich Blood

People Who Lack the Proper Quantity and Quality of Blood Fall Victims to Every Disease That is Prevalent.

DR. A. W. CHASE'S NERVE PILLS

The blood is the medium through which every fibre, every organ is supplied with the material it needs upon and rebuilds itself with. Take away that nourishment by letting the blood run down in quantity and quality and you take away the power of an organ or tissue to re-supply waste or rebuild itself. It is other words, the system starves; color, appetite, steadiness, energy, vigor, vitality—all are lost and a condition of mental and physical prostration sets in. This condition Dr. A. W. Chase's Nerve Pills carry every cure, rich, nutritious, oxygen carrying blood, a blood that carries to every organ the very material it lives and thrives upon.

Mr. George Hopkins of Westinghouse Avenue, Pittsburg, Pa., says: "I began to use Dr. A. W. Chase's Nerve Pills in Pittsburg. I was at the time badly run down, weak, nervous, could not eat—could all the time, as my blood was thin, and did not sleep well. The medicine put me in splendid shape rapidly and easily, giving me steady nerves—a fine appetite—restful sleep—a general feeling of energy and vigor that showed in the way my color came back. The medicine is certainly a grand one and I am only too glad to say so." 50 cents a box at dealers or Dr. A. W. Chase, Medicine Company, Buffalo, N. Y. Portrait and signature of A. W. Chase, M. D., on every package. For sale by J. D. Gosh & Co., 109 Mill street, Danville, Pa.

Sold Valuable Stock.

T. E. Hyde with express Monday a bull which he bred and raised on his farm at Edgemont to James M. Goldman, a wealthy Bostonian and the president of the American Gasworks Cattle Co. Mr. Goldman has one of the finest herds of Guernseys in the United States and that he should desire some of Mr. Hyde's stock is the best kind of evidence of the standard of Mr. Hyde's stock. Mr. Hyde also shipped the other day six head of Guernseys to a West Virginia millionaire.

FOUL ODORS AT THE CANAL

The foul and stagnant condition of the canal above and immediately below the Mill street culvert is causing much unfavorable comment about town and the wonder is expressed that the Board of Health does not take action in the matter. The general uncleanliness of the bottom of the canal at that point has been alluded to in these columns, but during the last few days conditions have become much aggravated and under the lightening days foul odors have begun to arise that at times make it unpleasant for persons passing over the culvert.

It is true the D. L. & W. Railroad Company has taken up the matter and promises co-operation with the Borough to abate the drainage nuisance, but if the remedy is to lie in piping and filling up the canal, relief is still a good way off in the future.

What is needed is immediate relief. Other seasons a drain was opened in the middle of the canal, which relieved matters somewhat by preventing stagnation. Why the present state of things should be tolerated is hard to account for. The Borough at a heavy expense has built a culvert; it is massive and architecturally a feature to be proud of. But spanning as it does an open sewer and it is less a dumping ground for rubbish of all sorts to what a deplorable extent it must suffer from association.

The Citizens' Celebration Committee is much exercised about this episode in the very center of town and is anxious that the nuisance be wiped out before the Fourth of July. The Committee will probably take some action to bring the matter to the attention to the proper authorities.

North American Prints Approach

The "North American" Monday contained a first class cut of the river bridge taken from the South side for the purpose of showing the steep approach. Under the cut is the following line: "Perpendicular approach to new river bridge invented by Northumberland County Commissioners."

Accompanying the cut is the following correspondence: Danville, Pa., June 11. Although the new \$140,000 steel bridge presented by the State to the counties of Montour and Northumberland to take the place of the one swept away in the flood of 1904 was officially opened for travel yesterday, the people who will be compelled to use it as far from satisfied with the manner in which the approach has been constructed at the southern, or Northumberland county end.

Despite the wishes of the citizens, despite the urging of Judge Savage and even, it is said, despite their own promises, the Commissioners of Northumberland county have built an approach that would be laughable were its cheapness and lack of utility not so dangerous.

The approach grade in the centre, as shown in the cut, is 27 1/2 per cent, making a hill almost prohibitive to teams with even moderate loads. The flimsy guard rails, also depicted in the photograph, have scarcely enough strength or extent to keep a circus poster from falling into the river.

Even after viewing this masterpiece of roadmaking, the Northumberland Commissioners say: "It is all we are going to do." The supervisors of Gearhart township, in whose territory this marvelous approach lies, have protested, but in vain. A thousand teams and at least 2000 pedestrians per day will have to go up and down this perpendicular masterpiece of roadway building as best they may.

Ten Times Easier.

It is ten times easier to cure coughs, croup, whooping-cough and all lung and bronchial affections when the bowels are open. Kennedy's Laxative Honey and Tar is the original Laxative Cough Syrup. Gently moves the bowels, and expels all cold from the system, cuts the phlegm, cures all coughs and strengthens weak lungs. Kennedy's Laxative Honey and Tar contains no opiates, is pleasant to the taste and is the best and safest for child or adult. Sold by Paules & Co.

The Salve That Penetrates.

DeWitt's Witch Hazel Salve penetrates the pores of the skin, and by its antiseptic, rubefacient and healing influence it subdues inflammation and cures Boils, Burns, Cuts, Eczema, Tetter, Ring Worm and all skin diseases. A specific for blind, bleeding, itching and protruding Piles. The original and genuine Witch Hazel Salve is made by E. C. DeWitt & Co. and sold by Paules & Co.

Coal Tests.

An opportunity has been offered the coal producers of the country to cooperate with the United States Geological Survey in its work of testing the coals and lignites of the United States. This work was begun at the World's Fair Exposition at St. Louis, during the Exposition, and will be continued along the lines laid down at that time. The Survey is desirous of securing from operators and others interested in the problems of fuel consumption, an expression of opinion as to whether they desire to co-operate in this work. Offers of coal for testing purposes should be directed to the Director of the United States Geological Survey, Washington, D. C.

It is not possible to promise at the present time that all offers of coal will be accepted, but the plan is to make the investigation as complete as practicable, distributing the work as impartially as possible over the entire country. The distribution of the work will depend largely upon the replies received to the circular which the Survey is now sending out to coal operators and upon the present and future development of the coal and lignite deposits of the several States.

The tests will be made for the purpose of determining the fuel values of the different coals and lignites and the most economical methods for their utilization. Arrangements have been made with the manufacturers of the equipment used during the Exposition to have practically all of this testing machinery left at the disposition of the Government.

No Secret About It.

It is no secret, that for Cuts, Boils, Ulcers, Fever Sores, Sore Eyes, Burns, etc., nothing is so effective as Huckleberry's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is all O. K. for sore eyes," writes D. L. Gregory, of Hope, Tex. 25c at Paules & Co's drug store.

DISCUSSING OVERHEAD CROSSING

It seems to be a settled conviction with the tax payers on the South side that affairs are steadily drifting toward an overhead crossing at the tracks of the Pennsylvania railroad on the street leading southward from the river bridge.

It is an important, if not a principal theme of conversation wherever a group of persons are found assembled. There are probably those who are in favor of the overhead crossing but anyone who circulates for half an hour or so among our neighbors on the South Side can not but be impressed with the fact that there is a weighty sentiment against it.

The principal objection urged is that the overhead crossing would be ruinous to all abutting property. To carry the roadway the required height above the railroad, it is said, would necessitate a structure that would be on a line with the house tops, and that would dwarf and render undesirable all the pleasant homes in that part of South Danville.

The citizens have decided to put themselves on record as relates to the overhead crossing. A "special notice" has been sent out calling for a meeting in order to determine the prevailing sentiment. The "special notice" reads as follows:

There will be a meeting of the tax payers of Gearhart township held at the regular polling place between the hours of 6 and 8 p. m., Saturday, June 17, 1905, at which time the subject of an overhead road crossing over the Pennsylvania railroad at Mill street in Gearhart township leading to the river bridge will be discussed and at which time a vote will be taken for and against this overhead crossing.

The Children's Favorite.

For Coughs, Croup, Whooping Cough, etc. One Minute Cough Cure is the children's favorite. This is because it contains no opiates, is perfectly harmless, tastes good and cures. Sold by Paules & Co.

Prompt Responses.

The Borough Council, which recently issued an order requiring all who were draining sewage in Blizard's Run to connect with the Borough sewer in thirty days, is much gratified with the ready response from those persons and the general disposition that is manifested to comply with the order.

Blizard's Run is now practically restored to its original purity. One by one the small sewers were connected with the Borough sewer until only the slaughter houses remained. Henry Dired and Joseph Smith have now secured permits to connect and will be only a few days until even the slaughter houses are out of the way.

The pollution of Mahoning Creek still goes on. To divert sewage from this stream, especially as relates to the properties on West Mahoning street, is not such an easy matter. To connect with the public sewer the West Mahoning street people would be obliged to lay their pipe through under the creek, which is a sacrifice that the Borough does not ask of them. Before they can comply with Council's request it will be necessary for them to follow the prescribed course and petition for sewer extension along West Mahoning street.

A sewer is much needed in that part of town, which lies low, and it would not be surprising if a petition were heard from in that quarter before long.

Quality vs. Quantity.

Hard muscles and strong body do not depend on the quantity of food you eat, but on its perfect digestion and proper assimilation. When you take Kodol Dyspepsia Cure your system gets all the nourishment out of all the food you eat. It digests what you eat regardless of the condition of the stomach and conveys the nutrient properties to the blood and tissues. This builds up and strengthens the entire system. Kodol cures Indigestion, Dyspepsia, Belching, Sour Stomach, Weak Heart, etc. Sold by Paules & Co.

Simmons on Roosevelt's Nerve.

E. L. Simmons, a Philadelphia & Reading Coal and Iron Policeman who was one of President Roosevelt's companions during his early ranching days tells the following story of the Rooseveltian nerve:

"We were on the spring round up near the Big Hole River," says Simmons, "when Lord Alexander North joined our party for a hunting expedition. The titled Johnny Bull was a six foot, rosy complexioned, proud, and athletic looking fellow. I tell you he soon won many friends. He was a clever boxer and had made the best men in camp quit before his gloves. After much persuasion the boys induced 'Teddy' to put on the gloves with Lord North. Roosevelt's gymnastic training at Harvard came in very usefully at this point. The Englishman forced the fighting, and the boys just cheered themselves hoarse as the gladiators clashed. We had formed a circle on the bank of the river, and kept the open space well cleared. Now Roosevelt seemed to have the advantage, against the sturdy Englishman; then they clinched, and both fell. But the cow boy's agility finally won out, and at the end of the third round, Lord North, breathless and exhausted, quit, saying, 'I've had enough. You're all right!'"

"He also excelled as a marksman," says Simmons. "One day when the boys were at target practice, 'Teddy' appeared to look on.

"Here Roosevelt," said one of the crowd, "try your eye for the Colt revolver. Drawing his six calibre Colt revolver from his belt, he stopped off thirty paces and fired at a circular piece of tin, the size of a dollar. He struck it. Henceforth 'Teddy' was more respected."

Etos Island, Ill., Jan. 14, 1901. Messrs Ely Bros.—I have used your Cream Balm in my family for nine years and it has become my family doctor for colds in the head. I use it freely on my children. It is a God send to children. Yours respectfully, J. Kimball.

Messrs Ely Bros.—I suffered greatly from catarrh and tried different remedies without effect. After using one bottle of your Cream Balm I found relief and I cannot praise too highly such a remedy. MISS CORA WILLARD, Albany, N. Y.

Lad Rooster at Ft. Carmel.

A mad rooster, owned by John DeLeon, of Ft. Carmel, became afflicted with rabies on Saturday and attacked little Myrtle Miller, pecking her face open in a dozen places. The gamster then attacked several men who went to the girl's assistance and fought until they killed it.

TO EXTERMINATE SAN JOSE SCALE

A series of four experiments looking toward eradication of the San Jose scale and other insect pests and plant diseases in Pennsylvania is about to be undertaken by the State under the law passed by the last Legislature which appropriated \$30,000 yearly for the work.

Probably the most important experiment is that with San Jose scale in orchards. This is to be conducted in Bedford county by R. F. Lee, trained in the work at the Agricultural Department of Pennsylvania State College. Numerous experiments have already been made in Bedford, which affords as good a field as any other in the State. Mr. Lee is a resident of Bedford.

Second comes the experiments in nurseries, the view being to wipe out the pests before the young trees are set out in orchards.

Experiments on all kinds of vegetables and truck crops will be made in the vicinity of Harrisburg, and will be in charge of D. K. McMillan, field assistant to the State Zoologist.

Special investigation of the life histories of insects and of insects injurious to grasses will constitute the fourth section of the series. W. H. Wolf, a State College graduate, will be in charge of this work.

Supervision of all of the experiments is in the hands of Professor H. A. Surface, State Zoologist, Secretary of Agriculture Critchfield having turned the whole matter over to the Division of Zoology. Work on all four lines will begin Tuesday.

A Fight Against Noise.

A citizen of Wilmington sued the trolley company because its cars made too much noise. The jury awarded him six cents damages.

This, we protest, is insufficient to reward the citizen for his endeavor to crush a soulless corporation. When a street car makes a noise and a public spirited effort to abate it is made, the gentleman who valiantly assumes the role of the people's proxy really deserves more than six cents. A more appropriate verdict would have been: "We find that the plaintiff so closely resembles thirty cents we hereby award him that amount."

There is space for further successful litigation along this line. We expect that some day another public spirited citizen will move for noiseless wheels, a noiseless signal gong, a noiseless register and a noiseless conductor. There's plenty of room for improvement, or at least plenty of opportunity for anti-noise litigation.

But, for some unexplained reason, the public only laughs at the public spirited prosecutor.

Quality vs. Quantity.

Hard muscles and strong body do not depend on the quantity of food you eat, but on its perfect digestion and proper assimilation. When you take Kodol Dyspepsia Cure your system gets all the nourishment out of all the food you eat. It digests what you eat regardless of the condition of the stomach and conveys the nutrient properties to the blood and tissues. This builds up and strengthens the entire system. Kodol cures Indigestion, Dyspepsia, Belching, Sour Stomach, Weak Heart, etc. Sold by Paules & Co.

BUILDING BOUGHT BY D. J. ROGERS

The long wooden building at the corner of Mill and Front streets used as a storehouse for county property was sold at public sale on Saturday afternoon and will have to be removed at once to make room for a general filling up of that spot required in connection with the change of the lower wingwall.
