USED SALVATION **ARMY TACTICS**

A unique method of getting heaters to receive the Word was resorted to Sunday evening at the village of Almedia. Rev. Stover of the Evangelical church couldn't get the congregation to come to him so he went to the congregation.

For several months interest in church work in the Evangelical church of Almedia had been on the decline and several Sundays when the good minister Rev. Stover repaired to his church to preach the Gospel he would find the pews empty. He was resourceful, however, and noticed that a large congregation of men and boys were always gathered on a Sunday evening at the corner of the Englehart wagon shop, near the church. He determined to have hearers enough even though he had to go where they were.

On Sunday the minister with his choir stopped at the street corner instead of going on to the church and commenced the service. A large number of people were gathered together sitting on the steps and on piles of lumber and on old wagons.

The choir sang several selections, the minister prayed and preached a very instructive and interesting sermon. At the close he announced that services ious of the contract the law authorized was performed yesterday morning, and place in two weeks from Sunday fidence in the inspector whom you is to the effect that the victim's

HIGHWAY INSPECTED QUARREL MAY END AND APPROVED

The State Highway Department does with the supervisors of Mahoning town bip and the County Commission ers of Montour for the highway com-

pleted between this city and Mans dale. The State Highway Dapartment insists that the road is completedthat it has been inspected and approved by the proper authorities. The Mahoning township supervisors and the County Commissioners insist that the road has not been finished according to the specifications and refuse to pay their share of the bill, which is Special attention given to chartered \$1108.49 more than the contract price, car parties. Illuminated cars a special- until a full explanation is given to

show where the additional eleven hun dred and odd dollars went to. The public will be glad to learn the

true status of the State Highway. The road in the opinion of many people does not come up to the specifications. They were curious to know how it would be regarded by the inspectors representing the State and up to the present have been expecting the appearance of these officials. It will be news indeed to these people to learn that the inspectors have come and gone. When these officials performed their duty and how their visit to Danville happened to escape notice probably has but little to do with this ing him in the shoulder.

In June 28th last R. S. Ammerman attorney for Mahoning township, in reply to the communication from the State presenting the bill wrote the Highway Department that payment would be made as soon as the State highway was completed according to

plans and specifications and asked for an explanation as to an item of \$346.70 relating to inspection which appeared on the bill. Mr. Ammerman stated that the township supervisors would be glad to go over the road with the nspectors at any time.

story

A reply from the State Highway department on June 29th. brought the surprising intelligence that the road had already been formally inspected by the department and that the item relating to inspection covered the salary paid the inspector whom the Department employed during the progress of the work and who was present every day from the time he was appointed until the work was completed. The communication stated that

there was no reason why the County Commissioners or township Supervisors should know when the inspectors would be on hand and hence were not notified. To this communication on June 30,

Attorney Ammerman replied: "As Mahoning township and Montour yelled to him, and fearing that if he County have obligated themselves to pay a proportionate share of the cost of the public improvement in question the Sapervisors and County Commis-

sioners reserve to themselves the right of knowing where the people's money is going to and the consideration in in his head and one through his neck. every detail for the money they pay; Seeing what he had done, the Polandthey are answerable to their respective field and has not yet been captured. tive boards of auditors whose duty it is The victim was then taken to the Minto confine them closely to the provis-ers' Hospital, where an operation
