test in the courts. Not only is this legislation carefully and properly done drafted, but the laws are enforced.

The work of Secretary of Agriculture N. B. Critchfield and of Pure Food Commissioner Dr. B. H. Warren in protecting the farming interest of this commonwealth is one of the most gratifying features of Governor Pennypacker's administration.

No other department has reflected fore the public. more credit upon the state administration and upon the Republican party. One of the pleasant experiences of the early campaign work by Chairman Wesley R. Andrews, of the Republican state committee, is the correspondence in reference to the feeling among the farmers and dairymen of the state. Every agricultural district is reported to be strongly in line with the Republican party. The dairymen are especially appreciative of the splendid work being done to protect the butter interests of the state and they confidently count upon the hearty co-operation of Senators Penrose and Knox and every one of the Republican members of the lower house of congress from this state in the movement to have the federal stat- Apostolic benediction : utes regarding the sale of oleomargarine made as stringent and satisfactory as is the law passed by the Republican legislators of Pennsylvania and which is enforced with unflinching rigor in every section and county of the commonwealth.

#### Dr. Dixon's Great Work.

The news columns of the papers of the entire country have within the last week told of the diligent and thorough work being done by another department of the state administration. The protection of the health and the very lives of the citizens of the state is the aim of the recently created state health commission, under the direction of that eminent scientist, physician and sanitary specialist, Dr. Samuel G Dixon. No appointment that Governor Pennypacker has ever made met with more general and more sincere commendation than his selection of Dr. Dixon as state health commissioner. His prompt organization of his office and immediate prosecution of the mission which he and his assistants have been delegated to fill, is characteristic of the man.

Under the administration of Dr. Dixon no arbitrary acts will be committed, but the law will be enforced for the good of all the citizens of the several communities and with due con sideration for the various interests at fected. While people are dying like sheep in Louisiana from yellow fever, the health authorities of Pennsylvania are working night and day to safeguard the people from epidemics of all kinds, and the precautions already taken have resulted in a marked decrease in the death rate in many sections of the state.

Dr. Dixon's force is co-operating with local authorities wherever possible. The sources of pollution of rivers are being investigated, and remedies are being applied without delay and plans are being mapped out for permanent reforms in every direction.

# THE SMART SET

A MAGAZINE OF CLEVERNESS.

Magazines should have a well-defined purpose. Genuine entertainment, amusement and mental recrea tion are the motives of THE SMART SET, the

### MO T SUCCESSFUL OF MAGAZINES

Its NOVELS (a complete one in each number )are by the most brilliant authors of both hemispheres.

Its SHORT STORIES are matchless-clean and full of human interest

Its POETRY covering the entire field of verse-pathos, love, humor, tenderness-is by the most popular poets, men and women, of the day.

Its JOKES, WITTICISMS, SKETCHES, etc., are admittedly the most mirth-provoking.
