# ODD FELLOWS WILL CUNSOLIDATE

Three of the four Odd Fellows lodges of Danville have decided to work on the same basis as in the past consolidate. Calumet, No. 279 and in the least impracticable. The peo-Danville Lodge, No. 780 will merge ple here who support the churches so into Montour Lodge, No. 109, which is liberally will also support the Y. M. the parent lodge and the oldest in O. A. If the institution, however, fects are remedied in the new system April 21, 1845.

By the consolidation Montour Lodge, No. 109, will have a membership of at least 225 and financially it will be quite well off. The other Odd Fel. classes giving free instruction along lows' lodge which with Montour will occupy the local field will be Myrtle, No. 858, which is likewise, an old and prosperous organization with a large membership.

The history of Odd Fellowship in Danville is quite an interesting one. The four lodges at the day when they were instituted were no doubt quite necessary, but conditions affecting the membership have since then changed very for the board to act. much, and the members of the three organizations take the view that the interests of the fraternity will be much better served by the merging of the two younger and smaller lodges into the parent body.

The consolidation will take place on the first Monday of October and will no doubt be an event of much eclat in the order, the probability being that

### Census and School Teachers.

The conclusion of educators, that knowledge comes, but wisdom lingers" is confirmed by the United States ensus, and has been just announced in a treatise devoted to school teachers. According to the census there are many more school teachers than there used to be. Twenty years ago the average s ze of a class in the schools was 137, the age of the pupils ranging between 5 years and 25. When the last census was taken, the average class numbered 71, and there were more scholars being taught. Thus it is proven that there are more teachers. And it is most interesting to note that the majority of these teachers are sons and daughters of foreigners who have ome to this country to settle. Most of them are daughters, for the propor tion of female teachers is always on the increase. There are now three women teachers to one male, while 25 years ago they were almost equally divided. The cities naturally have more teachers to the population than the country districts and small towns. limit set for the season. For violating The public school systems are better developed in the centers of population.

#### Miners Call Convention.

Announcement was made on Labor Day in Wilkes-Barre that the convention at which the anthracite mine workers will formulate their demands upon the operators will be held at Shamokin during the first week in November. Delegates representing all the union men of the 150,000 mine workers are to be present, while the central figure will be President John Mitchell.

It is believed, judging by the demands of the district conventions and Mitchell's speeches, that the demands will be substantially as follows :

Recognition of the union, an eight hour-day, the present scale of awges, weighing of coal and payment by weight, a revised conciliation board acting upon the same principle as the present one but with fewer members; the sliding scale feature of the present agreement, the check weighman and the check docking boss feature of the present agreement.

From now on until the election of strength enough. delegates to this convention President Mitchell and the district officers will continue their efforts to increase the membership of the union.

President Mitchell has been saving in his speeches that if the men of the region join the anion he will be able to get the eight hour-day and recognition of the union for them if they are faithful to the union and he is able to go to President Baer representing a great majority of them. This has so enthused them that great advances in membership have been made by nearly all the locals in the region. The operators estimate that of the 150,000 mine workers in the region not more than 60,000 are paid up members of the union. Few of them believe that a strike will occur. They think that President Mitchell will be glad to accept a continuance of the present agreement if the operators offer it.

#### Fine Old Crusted Wine

Speer's Old Port Wine from his Oporto grape vineyards, his Socialite Claret and his luscious Burgundy stand unrivalled by any wines in the world. They are used by the best families in New York, Pt.iladelphia, Washington aginary pursuers, but was rescued by and in Europe.

The Cause of Much Suffering to Wome is Permanently Oured When the System is Built Up by

## Dr. A. W. Chase's Nerve Pills

When the headaches hard and throbs when the neck and eyes grow stiff, th lot of weather boards which were face flushes or grows deadly white when any excitement or over effort brings on an attack of nervous head ache so severe that it leaves you weak, trembly, shaky and utterly worthles

for days, it is a certain indication that the nervous system is shattered-that resistive power is gone-that you need a medicine that will rebuild and resupply the lost nerve force, that will supply more and the set of the se Nerve Pills, a medicine that does no relieve but goes to the root of th trouble and positively cures.

Mrs. John Fall of Fourth St., Toronto, O., savs:

"I like Dr. A. W. Chase's Nerv Pills because they cured my nervou sick headaches—these headaches use medicine in the world. At Paules & to play me out and leave me weak and nervous, the pain being so severe. My eyes used to get stiff and sore during the attack and the neck so stiff I could hardly turn it. The Nerve Pills, howof them

ever, proved to be just what I needed and cured the attacks in a hurry. As result I feel steady in nerves, physi cally strong and vigorous and in every way sound and well. This makes me way sound and well. el I can't speak too highly of the edicine.'' 50 cents a box at dealers
