WILL DO HER DUTY
So Says the Veteran "Tom" Cooper of the Old Keystone State.
NO COMFORT FOR INSURGENTS
Pennsylvania Republicans Should Heed the Words of the "Sage of Media."

The veteran and ever "hopeful Tom" Cooper, of Media—editor, statesman, politician and former state chairman of the Republican state committee—comes into the lime light with a timely warning to Republicans of the Keystone State of the danger that links in the insurgent political movement back of the Berry candidacy for state treasurer.

In his old established newspaper, the Delaware County American, he says: "The American has no thought of attacking the character of Mayor Berry, the Democratic Fusion-Prohibition nominee for state treasurer. That his character is open and mainly goes with out saying in Delaware county. What we desire most of all other things is to discuss the future, and Berry's prediction that he will be elected. If we unite all elements opposed to the Republicans in an off-year, he is partly justified in his hopes. If he succeeds, as he has in Delaware county, in making a union between the Lincoln Republicans and Democrats, and this fusion extends throughout the state, then it is time for Republicans to pause and inquire as to the future.

Berry is Bryan's leader. "Pennsylvania is justly regarded all over the union as the banner Republican state. If it should go Democratic this year the credit will go entirely to the Democracy—the Bryan Democracy, for Berry is Bryan's leader in Pennsylvania. He is our state's chief advocate of Bryan's silver views, and of his semi-socialist thoughts. "This is the plain truth. The bitterness of faction cannot hide it, and with Berry on top in Pennsylvania, it will mean Bryan once again in full control of the Democratic party, and its presidential nominee.

"This is politics, free from personality. This goes to the future, and therefore it is that the American asks all good citizens, all Lincoln Republicans, all Gold Democrats, to pause and contemplate the political waves as they come in.

"Not a Question of Men. "This struggle is not a question of men. Plummer, the Republican candidate for state treasurer, is as upright as Mayor Berry. We know it. Six years of recent service in the house with a prominent member there enables us to estimate, and we say, despite all factional abuse, that J. Lee Plummer is an honest man, for state purposes. "Let us contemplate the future, and govern our votes accordingly.

"Rosevelt will not again be a candidate. If our state rushes into troubled waters other states will follow, and confusion will come as it came when Delamater was defeated for governor and Cleveland elected for president. The Delamater incident looked small, the Cleveland panic was large. This is simply politics, as to the future.

"The American believes in every sensible advance, but in reaching better things it would not tear out the eyes of those whose help is very essential. "We have been through two political revolutions; we know their meaning; we have learned to anticipate their results.

TO GIVE NO QUARTER
Lincolmites and Democrats Will Be Treated Alike.
ATTACK POLITICAL GUERRILLAS
Candidate For State Treasurer Plummer Given a Splendid Reception by the Clubmen.

[Special Correspondence.] Philadelphia, Sept. 25. The Republican campaign is now under way in earnest. The aggressive young Republicans of the State League of Clubs fired the first gun at their big convention in Easton, and since then there has been a booming of heavy artillery all along the line.

From every county comes reports that the Republican skirmishes are out, that the lines are extended in every direction and that the enemy is to be pressed to speedy conclusions at every point.

"There will be no quarter asked or given," said Field Marshal Wesley R. Andrews at the Republican state committee headquarters. "The Republican candidate will be borne into the thick of the fight, and all enemies of Republicanism, whether they appear in the uniform of Democrats, Lincolmites or guerrillas or insurgents of any kind or character, may expect to be treated alike and put to ignominious rout. In the cause of good government and the maintenance of the principles and policies of the party which has made this the most prosperous and happy country in the world.

"Every Republican of Pennsylvania who realizes the significance of the present contest and the far-reaching effect of the result of the November election upon the future of the party will be found fighting for the entire Republican ticket."

Chairman Andrews has been overrun with callers from every county of the state during the last week, and is delighted with the situation and the outlook for a sweeping Republican majority.

Plummer Given An Ovation. J. Lee Plummer, the Republican nominee for state treasurer, was given a great ovation by the Republican clubmen at Easton. He made a splendid speech, in which, among other things, he said:

"It is our proud boast today that the treasury of the commonwealth has never been so full through the default of a state treasurer. "When the Republican party came into power in Pennsylvania, real estate, trades and occupations, horses and cattle, household furniture and watches were all taxed for state purposes. Just as soon as the war was over, the people were relieved of these taxes, so that now the only individual who pays a state tax is the one who has money at interest, and three-fourths of this tax, amounting in 1904 to \$2,900,574, is returned to the counties in relief of local taxation. No man's home in Pennsylvania is taxed to support the state government.

"The policy of relieving local taxation is carried out in respect to the hotel licenses; four-fifths of the money received from this source is returned to the cities, boroughs and townships in which the hotels paying the licenses are located. More than \$3,000,000 is returned to the municipalities each year from this source.

GRAND JURY RETURNS TRUE BILL
[Continued from First Page.]

also called to the negligence or the refusal of the township supervisors to keep the roads under their supervision in good repair. Such negligence or refusal is a misdemeanor, and while it is a convenience for supervisors to apportion the roads in the several parts of the township to the supervisor most convenient thereto, yet the negligence or refusal of one supervisor to keep the roads in good repair does not excuse the others and each is made liable to conviction as a misdemeanor for such negligence or refusal. It is the duty of the township supervisors to remove and take away the loose stones from traveled roads or highways in such townships at least once each month during the months of May, June, August and October, in each year, and negligence or refusal to do so makes them liable to pay a fine or penalty not exceeding ten dollars for each offense on their part.

While the latter offense is not the subject of inquiry of the Grand Jury, the Court deemed it advisable to call it to their attention as a means of disseminating information relating to the same in the several townships of the county. The traveling public of the several townships, he said, should insist upon this provision of the legislature being carried out.

The Associate Judges announced that Court during the week will convene each day at 9 a. m. and at 2 p. m., which will enable the Grand Jury to present their returns twice daily. In the interim the court room will be in charge of the tip staffs, who will look after the witnesses and see that they appear before the Grand Jury as needed. Sies' case, which was acted upon first, was the only one returned yesterday afternoon.

BATTERED GUILTY OF MANSLAUGHTER
Guilty of voluntary manslaughter as indicted, was the verdict of the twelve men selected in the Northumberland county court to sit in judgment in the Battered murder case.
The verdict was the result of almost five hours of deliberation on the evidence submitted during the trial.
Judge Anton finished his charge, which was fair and impartial to both the Commonwealth and the prisoner at the bar, at five o'clock Tuesday evening, after which the jury retired to agree upon a verdict. Court being in session at night, to hear the Wanzie trial, the jurors were instructed that in case they reached an agreement before adjournment, they could return the same at once. At a quarter to ten o'clock, Tipstave Hoyer notified the court that a verdict had been reached and he was instructed to bring in the jury.
As the twelve men filed into the court room by the rear door there came a hushed silence over the crowd of spectators which had greatly diminished and the prisoner became the target for all eyes.
The usual formal dialogue quickly passed and the verdict was announced by the foreman. Battered was unmoved and did not seem to realize the meaning of the finding.
Counsel for the convicted man immediately made a motion for the stay of judgment and time to file reasons for a new trial, which was allowed by the Court.

LIGHT HEARTED ROBBER SENTENCED
Edward Hayes, whose burglarious exploits have given him so much celebrity during the past month, was called before Judge Anton at Sunbury, yesterday afternoon, and pleaded guilty to robbing the Liddy store in Milton.
Hayes, made quite a speech in his own behalf and had the audacity to tell the judge that he was honest and had a victim of circumstances. He asked the judge to be "light with him" and he was sentenced to pay a fine of ten dollars, costs of prosecution and serve two years in the county jail at hard labor.
When his term expires there will likely be more coming to Edward. On the way to the jail Hayes appeared to be satisfied with the verdict and laugh and joked all the way from the court house to prison.

Go-Goo Eyes Defined.
HOUSTON, TEXAS, Sept. 27.—Judge John G. Kirklicks, of the Corporation Court, has rendered an opinion in which the term "go-goo eyes," as used in the famous anti-firting ordinance of Houston, is construed. The opinion came as an accompaniment to the conviction of John McCaul, charged with the offense. It follows: "By the term 'go-goo eyes' is meant any contortion, unusual movement or any fixed, unusual attitude of the eyes, providing the said contortion, unusual movement or unusual fixed attitude is made with the intent of attracting, alluring or conjuring the attention of any woman or female, as the said ordinance recites."

MINOR MATTERS OF INTEREST

The traction engine bought by Council as a sort of a venture a few years ago has proven a most valuable appearance of the Borough. It has served its owners in various capacities and has been much sought for by outsiders. Yesterday it was taken up to Bloomsburg where it will assist in paving one of the streets of that town.

The early history of the traction engine is not clear. It already had a career when it fell into the hands of Daniel M. Curry and Edward W. Peters, who sold it to the Borough at a bargain. It was a most important factor during the recent improvements made in the borough and was used to pump water out of the sewer trench and to operate the centrifugal pump in removing the mud from the wells at the water works; it was used for crushing stone and for dragging the heavy road plow in breaking up the street where excavation was necessary for paving. During the summer past it was on duty at DeWitt's Park where it served as a motor for the merry-go-round, proving quite as much of a success in chasing the hobby horses around and keeping up music on the hand organ as it was in pumping water or dragging the road plow.

Compared to an automobile the traction engine in point of speed is not a record breaker. It had all day before it however, yesterday and it got to Bloomsburg before night. It is leased by George W. Kieter of that place, who will employ it in breaking stone.

Dr. Temple's Candor.
The brusqueness and candor of Dr. Temple manifested itself no matter where he might be or in whose company.

On one occasion he was dining together with a colonial prelate, with Queen Victoria. Said her majesty to the latter: "You preached before me just twenty years ago at St. George's church, and I'm not likely to forget that honor, madam—the greatest of my life," he replied.

Whereupon the eminent ecclesiastical improved the occasion by laying down his knife and fork and exclaiming in amazed admiration: "What a memory! For the pleasure of the owner, but it eventually became a commercial enterprise and is now very profitable.—National Geographic Magazine.

Frank Magill, teacher in the Commercial Department of the Danville High School, who was off duty last week owing to illness, has resumed charge of his school this week. Our public schools are moving along swimmingly and under the capable teaching of Mr. Magill the Commercial Department is by no means behind the others.

GOLDFISH IN JAPAN.
The Demand For Them Appears to Be Almost Without Limit.

Although the goldfish occurs in a wild state in Japan, it is probable that China some 400 years ago furnished the stock from which the wonderful varieties of Japanese goldfish have been bred. It is reported that in feudal days, even when famine was abroad in the land and many people were starving, the trade in goldfish was flourishing.

The demand at present appears to be without limit, and the output shows a substantial increase each year. Many thousands of people make a living by growing goldfish for market, and hundreds of peddlers carry the fish through the streets and along the country roads in wooden tubs suspended from a shoulder bar.

The leading goldfish center is Koriyama, near the ancient capital of Nara. Here are 350 independent breeding establishments, whose yearly product runs far into the millions. One farm which I visited was started 140 years ago. At first it was conducted merely for the pleasure of the owner, but it eventually became a commercial enterprise and is now very profitable.—National Geographic Magazine.

THE GREAT ICE AGE.
How Its Passing Left Its Record In Gravels and Rocks.

Some 10,000 or more years ago the conditions which had brought about the great ice age were passing. The chink, and a higher temperature slowly followed. The long winter was gradually drawing to a close, and the great springtime of the world was beginning to hasten its influence upon the ice-covered lands. The rocks and gravels which the ice banks show how well they have kept the record. In the Delaware valley brick clay and gravel are laid out in beautiful terraces, especially at Stroudsburg and the Water Gap. Here the waters rose some 200 feet, and an artificial dam is supposed to have held the river into a broad lake, the Indians, it is said, have a curious legend about this flood. They tell us that the "Mississ" were the first race which dwelt here, and the region round about they call "Minsink," meaning that the "waters are gone," a vague reminiscence perhaps of the post-glacial floods.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive in its nature. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs or the kidneys themselves break down and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickly by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmner's Swamp-Root, the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scaling pain in passing it, and overcomes that unpleasant necessity of being compelled to go often during the night, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and sold by all druggists in fifty-cent and one-dollar sized bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both from Swamp-Root, sent free by mail, Address Dr. Kilmner & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

Don't make any mistake, but remember the name, Swamp-Root. Dr. Kilmner's Swamp-Root, and the address Binghamton, N. Y., on every bottle.

THE GIFT OF GAB.
Why Stephenson Thought There Was No Power Equal to It.
When George Stephenson was visiting the seat of Sir Robert Peel at Drayton on one occasion, says the writer of "Famous British Engineers," there happened to be present Dr. Buckland, the scientist, and Sir William Pollett, the famous advocate.

Stephenson discussed with Dr. Buckland the question of the origin of the formation of coal and, though undoubtedly in the right, was ultimately vanquished by the arguments and oratory of the doctor, who was a better master of tongue fence than himself.

Next morning while pondering over his defeat, the attitude of the scientist he was greeted by Sir William Pollett and confided to that gentleman the story of his failure.
