general manager. Mr. Miller as Superintendent took charge of the Danville and Bloomsburg line early in July last. As Superintendent his services were most efficient. The cars have been running like clock-work, there has been no friction of any sort in the management and the

road has yielded a good profit. That such a showing is most gratifying to the stock holders and board of directors goes without saving and Mr. Miller's reward came in the form of a substantial promotion, which elevated him from Superintendent to General

Manager. Mr. Miller is a gentleman of fine social qualities, and by his natural courtesy and generous traits of character has endeared himself to our citizens who will unite with the News in congratulating him on his advance-

The attendance will no doubt be all that could be desired and nothing will be left undone by the two Superintendents that would contribute to the success and importance of the meeting. They are trying very hard to secure the attendance of State Superintendent of Public Instruction N. C. Schaeffer. The program for the meeting will not be announced until the State Superintendent is heard from finally as to whether he can be present or not.

All the details relative to the meeting will probably be arranged yet during the present week and the program will be announced.
