way provided for bringing coal into ble. the building.

the southeastern part of the cellar. an hour by the State law. The improvements of course make the present lavatory in the second story

ned to connect the building with the onds, or nearly half a minute, in pass-days. Most of these men are from the sewer which extends westward out ing over the 100-yard course marked bituminous region about Clearfield, Market street and at the court house grounds turns southward traversing will be sunk in the lower lawn, exhouse diagonally to the southwest corwill be established. This will make effective work and compel obedience camp at Sarye shaft. it possible to sink the drain leading of the regulations. from the court house at such a depth as may be required in order to insure successful operation of the system.

The contract for painting the court house has not as yet been awarded. On Saturday little more was done than to discuss the color of the paint to be used. The commissioners seemed to be unanimous in the view that some othor color than red or brick color s be employed in order to afford a change for the eye. The color that will most likely be selected will be a stone color. The work of painting as well as work on the new lavatory, it was stat ed Saturday, will begin in a short

It was reported to the commissioners that loafing at the approach to the river bridge on the Danville side has become a very great nuisance. During the evening crowds of young men and boys assemble there and by their profane and obscene language make it very unpleasant not only for families living near but also for persons passing backwards and forwards over the bridge. On motion it was ordered that the clerk lay the matter before the borough council at its next meeting and that that body be asked to have the police take the matter up.

#### Boy's Painful Injury. Luther Tanner, a 13-year-old boy

The boy was engaged in rolling one of the fields. As is customary he was having recently left school they are Frances Wagner. #### A Promising Young Artist.

The "Portland (Oregon) Express of last Saturday contains a large portrait of Abraham Lincoln—a free hand drawing-by Chester Eggert, aged 17 years, who is regarded as a marvel taking his youth and the excellence of his work into account. The gifted lad is the son of our former townsman Hiram

The "Evening Express" prints the ortrait as a sample of what the youthful artist is capable of doing in black

and white. "Chester." the newspaper states, is the youngest of a family of eight children. With his folks he resides at Ligonia, but with so many mouths to feed Chester had to be content with a grammar school education. James Otis Kaler, superintendent of the schools for South Portland, early discovered the talent of young Eggert for drawing and was largely instrumental in his taking a course at the Fox studio, where he studied from casts. His drawing has attracted wide attention and many orders for his work are re ceived. His tastes run to broad caric ature work and he displays an individu ality and an originality that reminds one strongly of the great Thomas Nast. Besides his talent for drawing Chester and indeed the whole Eggert family are musicians and the Eggert Mandolin and Guitar club is not unthis city.'

#### Only One Case of Typhoid.

The report of the local registrar sent in to the bureau of vital statistics for the month of April is a very good within the troop patrolled limits of phoid fever were reported in a single on the date of their first appearance ago, which showed that Montour led by this time have become the common nearly every other county in the numproperty of newspapers and are no ber of typhoid cases. It is also worthy longer new to the general reader, of note that at the present time None of the views printed in the East, there is not a dwelling under quaranhowever, are quite as striking as those tine in the district, the last placard

being removed on Friday. The report just sent in shows that there was only one case of typhoid fever in April. There were three cases of pneumonia and five of diphtheria. since the last report and of this disease were no deaths during the month from contagious diseases. The number of deaths due to all causes was twentyfour, which is one less than during March. It is the first month since the ion of births and deaths effect that the contagious diseases have not been attended with mortality. There were six cases of diphtheria in March and seven in February.

#### THE SPRING CLEANING.

It is quite unnecessary to remind the women that spring cleaning is an imperative inconvenience just at this season. They are alive to this fact; so much so that their husbands are ina solid and representative citizen of clined to growl because of the promptness with which the women turn the nouse upside down and commence ins and blue birds arrive. Very few nomes escape this seasonable and sensible rejuvenation, thanks to the women who occupy them. But with the tomorrow. They'd let spring cleaning go till midsummer and then adjourn the work till next fall, if they could. The proof of this is found in the conditions of the back yards, of the numerous nooks and corners where trash accumulates and of vacant lots which have been piled high with stuff of every description during the winter. Now is the time to clean out all these places and make them neat and wholesome; but though the women are in the depths of spring cleaning many of the men have hardly begun to think about cleaning up the deserted and neglected spots out of doors.

Residents Affected. While traffic on the Catawissa divison of the P. & R. has been reduced to small proportions by the anthracite oal troubles, enormous quantities of ituminous coal is being handled by this road on some of its divisions fur-

ther down the line. The very unusual order has therefore peen received at Catawissa ordering a large number of trainmen from that place to report at once to Harrisburg or work. Three full train crews have received such orders. The following nen, all from Catawissa, have gone to Harrisburg: John Simon Lynn, engneer; Frank Krebs, fireman; George Albert Eckroat, engineer; Lewis Mc-Carty, fireman; Wilbur Teufel, firenan; Edward Robinson, fireman; Ira Carrell, brakeman; Elmer Troy, conluctor; Charles Krebs, flagman. These transfers are only of a temporary na-

#### Sizes up the Situation.

The Wellsboro Advocate, which is

opposed to the old style of road building and sees no sense in following precedent if precedent has been found to be wrong, sizes up the situation in the following terse and truthful manner: "That annual spasm of dragging Danville A. A. in a base ball game | Now rises up the pessimist to declare the mud out of the ditches into the middle of the road to be washed back benefit of the San Francisco sufferers. money to San Francisco. But his name again, popularly misnamed 'roadmaking,' has commenced."
