UP TO THE STATE COMMITTEE.

As we go to press today (Thursday) the Executive committee of the ion concerning his own merits, this Democratic State committee is in ses- concession on his part is an exhibition sion at Headquarters at Harrisburg, considering the contest existing in our difference of personal forgetfulness and modesty that outshines even the sinking of the judicial district between Representa- old hulk in Santiago harbor. tive Harman and Grant Herring.

Both parties will be given a hearing, and the committee will place one of Hamilton, Ohio, which three years them in nomination, as per an agree-ment already made. There is no water, gas and lighting plants, has so question but that our many readers far sunk \$230,000. \$75,000 a year will be greatly eleated over the fact loss for a city with less than 30,000 that Mr. Harman will be decided inhabitants is paying dear for its pubupon. Mr. Herring balks and kicks lic utility ownership, and the citizens and snorts and declares he will carry have decided to discontinue their little it to the higher courts if the committee but costly, experiment. decides against him, but there are

various remedies that can be applied to such fractious beasts toward their learn with feelings akin to contempt, taming, although in many cases suc- if not disgust, that the richest girl in cess does not crown the efforts and the animal is declared insuperable and shortly to be married, will have a dangerous and is branded as undesir- wedding trousseau whose cost does not able and valueless ever afterwards, and such is the present unenviable position occupied by Mr. Herring and some or his obstinate friends.

-HON. JOHN G. MCHENRY cir-eulated, in his ever pleasing and of her modest trousseau. genteel manner, within our city's

Our marines marched up and then narched down again at Havana, ou consul and captain having failed to take the cue which must have been indistinctly wired to them to make a demonstration without showing our hand in the Cuban war. Everyone understands that the Cuban govern ment stands upon our support, though the declaration of its independence be

certain degree; which degree is limited by the Platt amendment, that allows us to intervene when the Cuban gov ernment needs to be supported and we want to support it.

It was a judicious amendment, a people, along with all of the South American blood, are given to insurred tion as the sparks fly upward, and nothing can give stability to their governments save an outside sustain-ing or an inside dictator, who can command the force. The trouble always is that there are too many patriots and not enough in the flesh-pots to go around among them. It is, in deed, the same trouble we have with our patriots here, the difference being that the Cuban works with the machete, while our patriots stuff the hallot hoxes.

President Palma evidently is not of the stern stuff needed in the South American men who rule. Even with our understood but unacknowledged support, he is likely to fall down, judging from his apparent request of the commander of our warship of a personal guard of the score of marines, who marched to his palace and were then marched back again under wire from Washington; that wisely understood that it was too small a force for actual use, and that if our warship's demonstration in Havana harbor did not keep the peace, we would need to put an army there; as we very likely may, if the stupid revolutionists do

vember election by supporting the Offering a resolution to discharge the Democratic, or, honest-government, committee of stranglers from further consideration of the bill, Mr. Flynz candidates for state offices and the legsaid: islature, was fought for by the Demo-

"I hope that this resolution will "I hope that this resolution will prevail. I have no doubt that this is the most important measure in-troduced at this session, and one which the people, no doubt, arc strongly in favor of. We have frit-tored away our time here for the past three months, considering nothing of more importance than increasing salaries and creating new offices, suppressing law and order societies, while this bill ites smothered in committee. I hope that this motion will prevail, and I call for the years and nays." oratic members, aided by a few Independent Republicans, in the last regular session of the general assembly But the overwhelming McNichol-Penrose-Durham majority invariably defeated that anti-machine alliance. Since that time, the machine managers, frightened by the reform cyclone, and hoping to save their "organization," have grudgingly granted some conces-

Supporting Mr. Flynn, John G. Har sions, but in shapes that must be man, of Columbia, said:

Supporting Mr. Flynn, John G. Har-man, of Columbia, said: "As a member of the elections committee, I feel most keenly the point of this reason can be given here for this house being placed in this position or in this situation, nor can the elections committee offer any legitimate excuse to the voters of Pennsylvania why we should be put to the public shame of voting upon a resolution to dis-charge the committee that has had that bill in charge and custody for over two months. "Now, Mr. Speaker, the history of this flouse shall go down up to date as being naught. We easerly voted \$60,000 of the people's money for exposition purposes and we were slapped in the face by execu-tive disapproval. We willingly vot-ed that druggists, the sola dis-pensers of this state, mikht put poison in the stomachs of their pa-trons, but the poison that gnaws and eats at the very vitals of good government, that corrupts and cor-rodes the ballot box, that makes a mockery of our vested citizenship and eivilization, still eats its can-kerous way, and this house is de-nied opportunity to eradicate it. I speak for my party, for my col-leagues, when I say that the re-sponsibility for this outrage must fall where the gentleman from Lancaster has placed it, to wit, upon the dominant party in this house, and I say to him and to my Republican friends on this floor, that the damnable charge of per-jury will hound every man in this house who fails to do his duty in this behalf. Upon the opening day of the legislative seesion our worthy chaplain delivered a most remarkable prayer. It struck me he prayed that God in His wisdom and in His mercy would spare the members of this house and their families until the end of the legis-lative seesion. The innuendo was it mattered little what became of them after the seesion. I would suggest to him that he go on estep further and invite Divine protec-tion on all of us if we leave this house without giving the people of Pennsylvania what they declared for by a majority of 168,000 votes." changed by an honest legislature, in order to be thoroughly effective. These grants to the demands of an outraged commonwealth must be supplemented by laws that will Bring all corporate power to legiti-

Lift the unjust burdens from the agricultural interests of the state, Give real ballot reform.

And enforce the general amelioration of affairs for which the honest members of the last legislature con-The speeches made in the last regular

session by a dozen or more of the Democratic members of the two houses at Harrisburg seem more interesting now than ever, not only as prophecies of what the Republican machine would be eventually compelled to grant, but more particularly 13 forecasts of the gratifying conditions that will follow the complete overthrow of the "corrupt and criminal combination masquerading as Republicans" through the election of the fusion state ticket and of lawmakers who will fully carry out the projeets for the welfare of the whole people.

Some specimens of the pleadings made by the last legislature to win for the people their rights will serve in the opening of the real activities of the eampaign, to remind the voters that the record of the Democratic party in the general assembly is such as to convince all who study our public affairs that the party has well earned the proud distinction of being absolutely worthy of the people's trust, and that Independent Republicans and good citizens of all political complexions will serve their own best interests by giving hearty support to the Democratic nominees for the general assembly, as well as to the people's candidates for the governorship and other state offices.

State Police? We Told You So. The absolute necessity now found for radical amendments in the "state constabulary" law, results from the disregard of the machine legislature majority for the warnings given by Representative Creasy, who, when the bill was under debate, said:

bill was under debate, said: "When this bill was up for sec-ond reading I offered an amend-ment to carry out the suggestion of the governor, that if we passed this bill it shall do away with the coal and iron police, and that bill was voted down by this house. I want to say that there is no man upon the floor of this house that has stood to defend the governor more than I have, but here is a measure that has been robbed of every es-sence that he has laid down in his measure, and that is to do away with these coal and iron police. Just a few days ago when this bill was under consideration the great and mighty corporate interests of this state were arrayed against it, but when they found out that they could have appointed just as many policemen as they formerly had they said it is all right. Yet I don't believe that the governor will ap-point a single policeman for these great corporations.

point a single policeman for these great corporations. "This is a question that involves the right of the people, and as I said before that if it carried out the recommendations of the gov-ernor I don't believe there would be a single vote on this side against it. But as it is it accomplishes nothing. After the present govern-or leaves his chair they will have just as many policemen appointed as they want. If this body is so anxious to obey the mandates and the recommendations of the gov-ernor, why was this bill amended? the recommendations of the gov-ernor, why was this bill amended? It originally put out that clause that is now in the bill and did away entirely with the appointment of these policemen. The governor said in his message that it should take the place of the game and fish wardens. Is there anything in this bill that shows that these police-men are to take their place? Not one word, and that is why I am against it, and I don't see how any member from the country can vote for this bill in its present shape. It appropriates \$425,000 for a lot of policemen. How many? Have you figured it out? Suppose you count \$40,000 for the expense of this de-partment, and then count for the value of the horses and the accoutre-ment, and I suppose the policeman

SSSSS

SSS

222 Mill Street.,

\$40,000 for the expense of this department, and then count for the value of the horses and the accourtement, and I suppose the policeman will have to have a gattiling gun, and there will be another \$350 gone, and you will have 150 policemen about to go over this state. "This bill is behind the times. In many of our communities the country is overrun with telephones and it is a fact that no thief or any person that commits a depredation can get away. Up in my county, where the rural telephones are established just partially, last Saturday four or five boys wandered away from a neighboring town and one of the little boys, the smallest one, only 5 years old, was lost, and this boy came to my residence and wanted to know if I saw the other little boys and I said I did not. I went to my telephone and inside of half an hour I had that little boy located. I want to know if you would have had 25 of these policemen if you could have done better than that?" "Ton't believe that a single house and explain to his constituency why he voted for a measure thrat took \$425,000 out of the state treasury when the other day we passed a bill permitting these very towns and townships near the great of the boy of dolars every two years to the National Guard. We are voting \$425,000 to a state constabulary. One-eighth of our revenues that we are getting from the corporations. If we keep on awhile longer it will take the entire revenues of the state to maintain the National Guard. We are voting \$425,000 to a state constabulary. State to maintain the National Guard. The constabulary is a support of the state to maintain the National Guard. We are voting \$425,000 to a state constabulary.

Two children were duct, we fear he will run up against a taken sick in the schoolroom with the score of snags that will effectually malady. The co-operation of the cure him of wishing to compete with Pottsville Board of Health was asked coal oil and coal. I today to fumigate the schools.

Creasy's Appeal For Trolley Freight.

The records of the state legislative session of 1905 furnish all of the information following. They may be

taken ad random. Here is Representative William T. Creasy's resolution te discharge the committee on city passenger railways from further consider. ation of the bill, which the committee eventually strangled to death, to authorize all trolleys and street railways to carry freight.

to carry freight. "This bill," argued Mr. Creasy, "has been before the legislature for a number of years. The committee has had ample time to consider it. The days of the session are getting late. The people of the country de-mand this legislation, and I cannot see why this body, representing the intelligence of Pennsylvania, is net able to consider the question whether the trolley roads of this state shall have the right to carry freight or whether they shall not have that right. Mr. Speaker and gentlemen of this house, this bill is wanted not only by the farmers of this state, but by the people who are the consumers of the products of the farms of this great state, and why it should be held up by a com-mittee I cannot un@erstand, and I do not believe that the members of mittee I cannot uncerstand, and I do not believe that the members of this house can understand it. If there is any industry in this state that is languishing today it is the agricultural industry. If you do not believe it watch the sales of the not believe it watch the sales of the farms of this state and see what is wrong with them. Now, whenever a manufacturing industry, no mat-ter how small it is, comes before this body and asks for certain legis-lation we listen to its representa-tive. Here is an industry that is backed up by over a million peo-ple who are asking that the trolley roads shall have the right to carry freight, and as members of this great legislature are you going to freight, and as members of this great legislature are you going to oppose an industry that will exist long after the coal and oil is ex-hausted from the earth? I appeal to you whether it is not a fair proposition to allow the trolley roads of this state to carry freight to benefit the farmers. The great question on the farmes of this state today is whether the farmer can market his produce. Another question is whether he can get help. Today the farmers are un-able to get the necessary help, and the trolley roads should be allowed to carry their freight to the mar-ket as in other states. There are to carry their freight to the mar-ket as in other states. There are only two states in the Union which are not in favor of the trolley roads carrying freight, and I believe that if this legislature represents the interests of the people, and I be-lieve they do, they will vote for this measure." But they didn't. The gang majority defeated Creasy by a vote of 93 to 43

Will the people let this be repeated? Flynn-Harman Personal Registration

Effort.

Representative John M. Flynn, of Elk, bravely but ineffectually strove to get the personal registration bill out

by his success in knocking dead the oill, which the machine failed to make A law.

"creating the department of state charitable institutions, providing for the appointment of a commis-tioner, who shall be the head eloner, who shall be the head thereof, defining his duties, fixing his compensation, designating the number and salaries of his assist-ants and making an appropriation therefor." Pennsylvania what they declared for by a majority of 168,000 votes. Mr. Creasy said of the measure when

Democrats Blocked Great Junket. It is conceded that "Farmer" Creasy contributed largely to the defeat of the machine's move to provide a grand junket to the Lewis and Clark exposition for the enjoyment of its henchmen. When that measure was up in the house, Mr. Creasy said:

forms.

"This bill provides for a kind of "This bill provides for a kind of junketing trip to the Lewis and Clark Exposition, to be held in Portland, Oregon and the objection to the bill, in my way of looking at it, is that it takes the prerogative of the governor of the state out of his hand. We have had consider-able experience with these exposi-tions, and in the future we should know where to place the responsi-bility for our exhibits. The exposi-tion that we exhibited in at Buffalo a few years ago, when we approa few years ago, when we appro-priated \$35,000, was announced on the floor of the house to be a fail-ure. The exposition at Charleston, in which we appropriated. I think, a like amount of money, and in which there were a cloue that a a like amount of money, and in which there was a clause that a part of that money should be set aside for an agricultural exhibit, in order to show the agricultural re-sources of this state, there was practically not one cent expended on that agricultural exhibit, and nothing was there but a building on that agricultural exhibit, and nothing was there but a but ling. For the World's Fair we appro-priated something like \$300,000 to have an exhibit, and the members of this house, especially the mem-bers who represent the great agri-

of this house, especially the mem-bers who represent the great agri-cultural interests, thought surely we would have an exhibit there that would be a credit to the great products of the farms of our state. "Pennsylvania in its agricultural production ranks eighth in this Un-ion, yet at that exposition Penn-sylvania's agricultural exhibit ranked about 35th, in my opinion, and its horticultural exhibit was a disgrace to the state. Pennsylva-nia, ranking third in the produc-tion of apples, had an exhibit at the St. Louis Exposition that was a disgrace and had to be taken away. No one particularly was to blame for it. The officer who had charge of it was a gentleman of high standing, and so were the members on the commission. I have no fault of find with any of these gentlemen, but I think with have no fault to find with any of these gentlemen, but I think with the experience we have had we should have somebody to hold re-sponsible, and if the governor ap-points the commission he is the man to whom we may look to see that γ have a decent exhibit. In speaking of the agricultural exhib-it at the World's Fair, I want to say that the tobacco exhibit was excellent. It was practically the best exhibit shown there, and the person who got it up was certainly entitled to a great deal of credit. But I for one am not in favor of dividing responsibilities, and theredividing responsibilities, and there fore I hope the members of this house will agree with this amend-ment to permit the governor to ap-point the commission and hold him responsible for the exhibit."

安安安安安安东东来安东东安东 -(#) (#) *** * (*) ****** John G. SUES FOR WIFE'S AFFECTION

Had Lived Happily Together for Thirty Years.

Altoona, Sept. 17.-Charles A. Harrison today sued Richard Weaver for \$10,000 damages for alienating his wife's affections. Harrison and his wife had lived together happily for thirty years. One day he went to Weaver's house to bring her

home. "Dick Weaver's little finger is worth more to me than your whole body," Harrison says she told him, and she refused to go home. Harrison became melcholy and disappeare.l, leaving a note of good-by, but returned in a week.

COAL CO. SUES FOR \$450,000

Reliance Declares That Pennsylvania Mined on its Lands.

Wilkesbarre, Sept. 17.-The Reliance Coal Company brought suit to-day against the Pennsylvania Coal Company for \$450,000 damages. The plantiff declares that the defendant mined coal from lands that belonged to the Reliance Company.

This is the first time in the history of the country where one coal company has sued another in the courts for money damages.
