Deafness Cannot be Cured

Local applications, as they cannot reach the diseased portion of the ear, are only one way to cure deafness. It is caused by inflammation of the middle ear, and when it is entirely closed, it is necessary to use a special method. The only way to cure deafness is by the use of the "Hearer" system. It is a scientific method, and is the only one that has been found to be successful. It is a simple, safe, and effective method, and is the only one that has been found to be successful. editor and publisher of the Bloomsburg Daily and semi-weekly Sentinel, of Bloomsburg, and the Benton Argus, gave us a pleasant call on Friday. Mr. Brewington is one of the popular young newspaper men of this section, and his aggressive and hustling ways of doing things is building up the journal as it presents in a marked way. The appearance, the material and the general make-up, speak highly of his ability as a good manager in a newspaper concern.

700,000 DIVORCES

Record Made in This Country Since 1867; in Canada Only 69 Granted.

Seranton, Sept. 18.—Rev. David C. Macdonald, of this city, made startling revelations of the divorce evil in a paper read yesterday before the Methodist Ministerial Association. He stated that 700,000 divorces have been granted in the United States since 1867, as against sixty-nine in the same period in Canada.

He believes that the chief cause of the appalling conditions in this country is the growing tendency to look upon marriage as a civil contract and the failure to realize the sacred character of the relation.
