Farmers Will Protect Quail.

The farmers throughout Montour ounty are up in arms and are determined to prevent the quail from being shot on their properties this year. The quail, by its tameness, has wor the friendship of the farmer and it has been made plain to the hunters-or will be if they attempt to hunt quail -that every thing in the power of the rural residents will be done to prevent the extinction of these little game birds. The quail have been becoming carcer and scarcer every year and it s only a matter of a short while, if the slaughter is allowed to continue, until quail will have disappeared from this part of the country. The new tresass law will be an important factor n aiding the farmers to protect then little feathered friends. While some of the farmers do not object to shooting rabbits or even pheasants-if they can be found—on their properties they stand as one man on the question of killing off the quail. As one man from near Washingtonville put it yesterday, "You might as well start killing a farmer's chickens as to shoot quail

on his land." Over on the other side of the river the same conditions exist, in some parts nearly every farm being posted with trespass notices.

No Opinion in Judgeship Fight.

HARRISBURG, Pa., Oct. 3.-No decision was handed down today by the Dauphin County court in the Harman-Herring contest, and it is unlikely that there will be any decision before Friday, when the court next sits. It is altogether improbable there will be any decision tomorrow inasmuch as that is the day of dedication of the State capitol, when all business will be suspended.

There is no doubt but that the court considers the points of law involved one mile. intricate ones, for Judge Kunkel invited his associate, Judge Capp, to sit with him to determine the case. General interest is manifested in

Harrisburg over the opinion of the court inasmuch as there is involved the question of the State Democratic rules. Opinions vary as to what interpretation the court will place upon the party rules.

Concrete Work Shows Up Finely. The improvements at the D. L. & W. station consisting of a concrete walk and platform are not yet one-half completed although more than a dozen

men have been hammering away diligently since last Monday a week. The concrete work to take the place of the old wooden platform is now completed from the upper end down to the door of the freight room. It is a splendid piece of work and conveys a good idea of what the improvement will look like when completed. The pulverized granite employed gives the concrete a white and smooth surface, whooly different from anything form

erly seen in this section. After completing the platform a concrete walk will be built all the way to Church street. The whole job will represent nearly a month's work. Most of the workmen employed are Italians.

The stranger, however, was a man of generous physical proportions with a countenance that was beaming full of smiles and when he got busy he presented a figure on the streets that was sure to attract notice. He had not secured more than a couple of advertisements when our townsman, W. B. Rhodes, who had perused the columns of the morning papers with his wonted are and interest, noted the similaritey between the stranger's proposition and the phonograph game worked on the Pitman people. He communicated his suspicions to Ralph Kisner, Esq., who had been approached for an ad,

and who was already a little dubious about the matter. The long and short of it was that the paper with the telegram from Pitman was produced and handed over to the stranger. He declared the whole affair as very unfortunate. He admitted that his name was "John" Fehr, but said that some one over in Jersey must be impersonating him, as his phonograph and entire scheme was a

perfectly "legitimate" one. Danville men, however, have a wholesome aversion to being regarded as easy marks and the parties he had in tow became very wary. They wanted the man to open the box at the express office and show what kind of a phonograph he had. This the "manager" of the Harrisburg Phone company declined to do, as it was sent C. O. D. and would have to be released by the company first.
