LOCAL TIME TABLES. BOY CHARGED WITH ARSON & LARCENY

Charged with the high crimes of arson, breaking and entering, also larceny, John Yarrish, a sixteen-yearold Polish boy, of Marion Heights, near Shamokin, is now locked up in the Northumberland county jail awaiting a hearing.

Special Officer A. J. Brittain made the arrest and preferred the charges for the Pennsylvania Railroad company. Young Yarrish was in Sunbury Monday and started for home on a districts, because of the opportunity freight train sometime during the forepart of the night. About two conditions by the most improved scien o'clock yesterday morning he broke tific laboratory methods. into the pump station and warehouse of the railroad company at the Weigh Scales, stole several razors and other articles belonging to L. C. Moore, the man in charge during the day.

After committing the larceny, it is alleged, he set fire to the building and then fled. Shortly after a Sunbury crew passed and discovered the fire, extinguished it in time to prevent any serious damage. The red tongues of destruction, however, had licked their way to within several feet of 18 galons of gasoline in air tight barrels.

Later another crew hearing of the affair recalled having seen a suspicious character in a box car which stood on a siding down the tracks.

The inmate of the box car was Yar rish, and he was later taken into custody by Officer Brittain. When arrest ed the boy had the stolen razors on his person and carried a loaded revolver. When taken before Justice Carpenter, Yarrish made no denial of breaking into the building but contended he did so for the sole purpose of getting warm. He also pleaded not guilty to the arson charge, explaining the origin of the fire by saying that a lantern which he lighted had exploded.

Prison records show that Yarrish has already served thrity days in jail for the theft of a bicycle. The evidence is so strong against him on three charges that he has little chance of and the same will be provided, togethescaping conviction and his punish- er with the blank request cards, ad. time associate judge in Montour counment, it is predicted, will be as severe as his crimes merit.

Children Commit Daring Robbery Three little girls not one of whom was over ten years of age committed a very daring and clever robbery in Sha-

nokin on Saturday night. While Mr. Deibler, the proprietor of a grocery store, and his clerks were busy in the rear of his store three small girls entered and approaching the proprietor asked him for wrapping paper with which to wrap up several blankets which they were carrying. Mr. Deibler acquiesced and furnished

the paper. The three children went to the front of the store and beside the counter in which was the money drawer. Seem ing to be busily engaged in wrapping their bundles no attention was paid to them. A few minutes after their departure Mr. Deibler had occasion to go to the money drawer and then disovered that he had been robbed to the extent of almost \$50, in two twenty dollar bills and small change. The children had cleverly performed the robbery and departed. The police are now after them.

The Hazleton Standard tells about he jovial way in which the young folks of Hazleton celebrated the Hallowe'en festival. The fantastic garbs seen on the streets were many and nique. "The young ladies were parcularly much in evidence, wearing base ball uniforms, cowboy outfits, Indian costumes and various other forms of human habiliment." The Standard admits that "some of the girls looked decidedly vulgar carrying guns and smoking cigarettes," but says "they were allowed unrestrained sway and made the most of the situa-
