SOME NEW LAWS

The next Pennsylvania legislature will go into session with a comfortable Republican majority in both branches; so the people of the State will naturally look for the enactment of such laws as were promised to them before election.

There is no diversity of opinion among the Republican State leaders, as to the introduction and passage of a measure giving trolley companies the right of eminent domain so far as may be necessary for their successful building and operation, and the right to carry freight, as the Republican platform sets forth: "In order that the products of the fields and farms may reach the market at the least possible cost and inconvenience." This legislation is demanded by farmers all over the State, and it is predicted that the railroad companies will not be able to sidetrack it as they did in previous years.

An effort will be made to pass a con stitutional bill to prohibit railroads and tranportation companies being engaged in mining coal. This is forbidden in the seventeenth article of the constitution, but the companies engaged in this business never accepted the constitution of 1874 and it is doubtful whether they can be reached by the proposed legislation.

The Republican party is pledged to literature. pass an employers' liability law. Corporations and large employers have heretofore been able to prevent the enactment of a law which would make them liable for damages to employes injured during the time of their employment. If a drastic bill of this character were passed it is held by labor leaders that there would be fewer accidents in factories and large esttake greater care to protect their em-

will apply to county officers all over the State.

A bill to prohibit mercantile appraisers holding any other Federal, mended by the Republican State plat-

A law which will meet with the approval, as it will mean more money for local purposes, will be one to return to the counties all the personal property tax and license fees collected therein This legislation is recommended by the Republican State con-

vention. Other laws proposed by the Republican State platform embrace increased appropriations to public schools, hospitals and charitable institutions, and for hospitals the separate care of the criminal insane, the erection of dispensaries, hospitals and sanitariums for the treatment of consumption and liberal appropriations for the construction of public highways throughout

A MAN'S MOTHER.

The Venango Daily Herald is withthat "no man ever gets so old that he can afford to be ashamed of the natural love of his mother. Some young men who have just sprouted up from Here is our condensed opinion of the boys appear to think that there is a tenderness for their mother in public.

Nothing will yearch so thereughly for Kennedy's Laxative (containing) Honey Nothing will vouch so thoroughly for Ar moves the bowels. Contains and is not ashamed of it."

SUPT. SCHAEFFER'S ANNUAL REPORT

That special schools for unvaccinated children should be provided by the State is the somewhat remarkable reommendation of Nathan C. Schaeffer. Superintendent of Public Instruc-Legislature has greatly increasislature appropriated \$5,500,000, but. whole of this appropriation in 1895 the priation for 1905 \$237,500 for State aid to normal school students and \$100,-7.13, 8.03, 8.53, 9.43, 10.33, 11.20 p. m, 000 for township schools, leaving but against \$5,500,000. In the meantime the number of pupils had increased from 1,070,612 to 1,200,908.

> SCHOOLS FOR UNVACCINATED. The Superintendent devotes a large forth in the recent article. part of his report to an effort to solve hem to be vaccinated. He says:

Some of our legislation tends to keep ragrancy and crime.

hildren deprived of schooling must terest. suffer, it behooves the Legislature to make provision for the schooling of the following classes of children:

1. Children who, after repeated attempts, have not been successfully vaccinated, because they are, or at least seem to be, immune from smallpox and vaccinia

2. Children whom reputable physicians refuse to vaccinate by reason of scrofulous, tubercular or other adverse conditions.

3. Children whose parents will not allow them to be vaccinated on account of prejudices due largely to the excitement caused by anti-vaccination

4. Defective and backward children for whom education cannot be provided in schools of the ordinary type. 5. Children so situated that no school is accessible to them.

EMPTY SCHOOL HOUSES. There are sections of this Commonwealth in which the school houses are empty because the parents will not alablishments because employers would low their children to be vaccinated. One should not shut his eyes to the ally on the local division, and that in immense good which has been accom- Sunbury alone can be found the rem-A law which will extend the provis- plished by the enforcement of our vac. edy. All the punishment, therefore, falls upon the innocent child.

SCHOOLS FOR THE DEFECTIVES. Separate schools are also needed for he so-called defective classes. These include the deaf, the blind, the feebleminded, the morally delinquent. The act of May 18, 1876, P. L., 157, provides for the establishment of special schools for deaf mutes in school districts wnich have a population of more than 20,000 inhabitants and eight or more deaf mute children of proper age for attending school. This law has re mained a dead letter upon our statut books The State maintains, separate and apart from the public schools, in stitutions for the education of the

deaf, the blind and the feeble-mind. Nevertheless, some children who belong to the defective classes receive no schooling. We also need special schools Great happiness came into the home for backward children who do not beof S. C. Blair, school superintendent, at long to the defective classes, and who St. Albans, W. Va., when his little by special methods can be advanced to daughter was restored from the dread the plane of normal children. Philaful complaint he names. Congestion at Sunbury.

The railroad situation in Sunbury now holds the centre of the stage for the head officials of the great Pennsylvania system. It is now believed that in that town lies the main cause of the congestion which has been blocking the traffic on all the lines, especi-

situation. A notable party of railroad men were in Sunbury throughout Saturday makcourts have repeatedly decided that no ing a critical examination of the transportation and other officials from Philadelphia; General Superintendent W. H. Myers, Superintendent H. P. Lincoln, and Assistant Trainmaster Charles Hartman, of Williamsport In the party of inspection were in

> cluded the Sunbury officials. On the conclusions drawn from their critical inspection of the situation in Sunbury will depend all future action taken by the company in reference to that town. To relieve the freight con gestion is a necessity immediate and imperative. The means which will b taken to accomplish this end are of

far reaching importance to Sunbury. WHAT THE KIDNEYS DO.

Their Unceasing Work Keeps Us Strong

And Healthy. All the blood in the body passe through the kidneys once every three minutes, The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when un healthy some part of this impure matter is left in the blood. This brings or many diseases and symptoms-pain in the back, headache, nervousness, hot. dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, drowsiness, dropsy, deposits in the urine, etc. But if you keep the filters right you will have no trouble with your kidneys

Augustus Hawn, 327 Second St. Huntingdon, Pa., says: "It was about three years ago that my kidneys first began to give me trouble. The disease grew on me gradually and constantly ers can be materially advanced," the became worse until it reached a stage application of Bucklen's Arnica Salve,

LIBERTY TOWNSHIP WANTS HIGH SCHOOL

The enterprising people of Liberty township, this county, are making a move for the establishment of a township high school. With the idea of in stituting a thorough discussion on the subject, a meeting has been called for Saturday evening, December 1st, a which time both the board of directors and the tax payers of Liberty will a tend.

The establishment of township high schools is looked upon with favor by the State department of public instruction, which encourages the townships to maintain these higher institutions of learning by paying extra money to the school districts wherein they become located. To a township maintaining a high school with a two year course the State agrees to pay \$400 extra appropriation; for a three year course, \$600 and for a four year course, \$800. On account of the insufficient public school appropriation, however, the State has been compelled to cut these extra appropriations in half, giving to the townships maintaining high schools only 50 per cent of the above amounts.

Liberty township this year has 15 pupils for whom tuition fees are being paid outside of the district-13 who attend at Pottsgrove and 2 who attend the public schools of this city. For these pupils Liberty township pays out about \$2.00 apiece per month, or nearly \$300 a year. It is claimed that the high school could be maintained with the money saved from outside the twelve year old son of William tuition together with the appropriation from the State.

SEMINARY NEEDS FUNDS.

Dickinson seminary is one of the in stitutions of which Williamsport i justly proud. But it is handicapped for lack of funds and an effort is to be made to raise \$25,000 for immediate use. H. T. Ames, Esq., is the head of a committee the other two members of which are ex-Mayor Foresman and President Eveland, to consider and recommend plans for raising the money.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, disburages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kid-neys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon

for a child to be born afflicted with wear news. If the child uringten, if the afflicted with weak kideaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. Swamp=Root is soon realized. It is sold bent and one dollar nizes. You may have a nample bottle by mail ree, also pamphlet tell- Home of Swamp-Root, ng all about it, including many of the
