

LOCAL TIME TABLES.

Table with 4 columns: Direction, Time, Station, and Time. Includes routes for Penn'a. R. R., D. L. & W. R. R., Phila. & Reading R. R., and Broom Street.

AS TO TOWNSHIP ROAD TAXES

The following article from the Philadelphia Press treats with a subject that is of prime importance, and is commended to the attention of the readers of the AMERICAN, and especially those who reside in the townships:

ABOUT 735 TONS OF CRUSHED LIMESTONE

The season of the year has now arrived when in the very nature of things but little more work can be done on the streets and yet the fact remains that the general run of our streets are still in a very bad condition.

MOONLIGHT SCHEDULE AGAIN

The borough council has decided to adopt a moonlight schedule for the electric light plant.

THREATENED STRIKE ON P. & R.

There is a point of difference between the management of the Philadelphia & Reading railroad and its employees in regard to a new schedule of wages which if not settled to the satisfaction of the men may result in a gigantic strike involving 4000 of the company's employees.

WILL INVITE BIDS FOR CURBING

Now that the State is advertising for bids for the paving of North Mill street the borough of Danville is following suit and is preparing to advertise for bids for putting down the curb along the portion to be paved, some 1300 feet in length.

ELOPED WITH BROTHER-IN-LAW

The police of this city hold warrants for the arrest of Charles Sutton, alias Charles Ray, of this city, and Miss Ada Krum, of Derry township, the former charged with desertion and non support and the latter being wanted as a runaway.

Over-Work Weakens Your Kidneys.

All the blood in your body passes through your kidneys every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood.

THOSE TAX LIENS AGAIN

The curious tax middle which has existed in this county for some three years past has been brought to the surface again. This is a perfectly logical state of affairs, as it very vitally affects E. W. Peters, the retiring tax receiver, whose duplicate must be settled by January 1, 1907.

REWARDS AND PUNISHMENTS.

Some of us do not pretend to know much about methods of taxation. We are dreamers, impractical, devoid of those severely practical traits which are characteristic of the successful business man of the times, and at odd moments bewildered by modern methods.

A GUARANTEED CURE FOR PILES

Hitching, Blind, Bleeding, Protruding Piles. Druggists are authorized to refund money if PAZO OINTMENT fails to cure in 16 to 14 days. 50 cents.

Celebrated 26th Birthday.

The home of W. W. Hollibaugh was the scene of a very pleasant surprise party Friday which was tendered in honor of Mr. Hollibaugh's 26th birthday.

Cost of State Campaign.

With the statement of the Prohibition State committee yet to be filed at Harrisburg the aggregate of the expense accounts of the treasurers of the various State committees engaged in the recent campaign is \$132,748.68.

WHERE FATE GETS EVEN.

Those who do not hunt and who feel that the life of an animal may be as dear to it as that of its hunter is to him, cannot avoid the reflection sometimes that the rapidly increasing number of gunning accidents in the State may be one of the methods whereby Fate levels things up.

Improvements on South Side.

The work of improving the bridge approach and the street leading down to the station, began last week by Gearhart township and the Pennsylvania railroad company, will not be completed this fall.

Hicks on December.

Hicks, the weather prophet, says that as the year goes out there will be storms of sleet and snow, extreme cold weather, seismic shakes, auroral lights and electrical disturbances. His predictions for the month of December are that it will be a stormy, blustery winter month, with a regular storm period central on Christmas day.

SCRAPPLE.

This is the way the West Chester Local News envisions our scrapple: "The scrapple season dawns upon us, with its ravishing perfumes and its poesy. Scrapple follows sauer kraut, and is itself followed by the back-sheat cake. The three constitute and compose the great gastronomic trilogy of the late autumn. They are equally savory and their ineffable essences are alike stimulating and revivifying. Sauer kraut, perhaps, is a shade the most nourishing, and the back-sheat cake, it may be admitted is the most romantic of the trio.

TRIBUTE TO THE QUAIL.

Dr. Kalbfus pays this tribute to the quail: "No game bird seems to have a firmer hold upon the public mind than the common quail, or 'Bob White,' and a study of this bird, undertaken by the biological survey at Washington, demonstrates, by almost limitless examination and experiment, that the economic value of the quail is equalled by but few birds, and exceeded by none. His food supply is more varied than that of most birds, and is almost without exception drawn from a source through which nothing but good can result. He consumes many things, such as potato bugs, chinch bugs, the cotton boll weevil, certain caterpillars, spiders and other insects, that most birds avoid, and that, when taken at all by such other birds, are eaten to a limited extent only. Prof. Surface says in his bulletin of January, 1904: "No birds on the farm are more valuable as seed eaters and insect destroyers than the common quail."

TEACHERS SEEK OFFICE.

It is said that Hon. Henry Honck, secretary of internal affairs elect, has about 3,000 letters from office seekers on file, although he never would admit it, much less talk about it. At Lebanon it is said that public school teachers in Pennsylvania who, because of their environment have become rather timid as a rule in seeking political preferment, seem to think that their opportunity has arrived in the election of one of their fellow-pedagogues to a State office.

A LASTING EFFECT

This Evidence Should Prove Every Claim Made for Doan's Kidney Pills in Danville. Relief from the pains and aches of a back is always welcome to every backache sufferer; but to cure a lame, weak or aching back is what's wanted. Cure it so it will stay cured. It can be done. Here's the strongest evidence to prove it:

THAT WORK OF MERCY

The Albion Tribune looks upon the appropriation for the hospital for the insane at this place in the following light: "The Danville hospital for the insane will ask for \$400,000 from the coming legislature. An appropriation of \$85,000 for temporary buildings which were never erected will go back to the State. This institution and all others that provide for the helpless classes and that are under exclusive State control should have all that is needed to properly provide for their patients. This work of mercy should have precedence over roads and schools for the reason that the insane and the feeble-minded are helpless."

Gave Ground Glass to Hogs.

The laudable ambition to raise the biggest porker in Rupert has led to a sad state of affairs. On Sunday, says George Shaffer, of that place, some one placed ground glass and poison in his pen while he was away. The obvious purpose was to kill Mr. Shaffer's hogs, which, he says, are among the largest in that section.

Home for Aged Odd Fellows.

The Odd Fellows have decided upon what the old building at the orphanage, near Sunbury, shall be put to after the completion of the new building next year, and the decision reached will appeal to every one interested in this great benevolent institution. Immediately after the completion of the new wings, and they have been made ready for the occupancy of the numerous orphans cared for there, the old buildings will be fitted up for the use of aged and infirm Odd Fellows and their wives. Thus the Odd Fellows will not only have a home for the orphans, where they will be cared for and educated, but they will have a haven of rest for the Odd Fellow and his wife in the declining days of their lives.

Supervisors May Be Indicted.

Unless the supervisors of Upper Augusta township, Northumberland county, repair certain of the township roads within the next thirty days, they may be open to indictment in criminal court. For the past several years the mail carrier on rural free delivery route No. 1 running between Sunbury and Klinesgrove, has made frequent complaints regarding the poor condition of the roads over which he passes, and the constant danger of accident from ruts, washed out banks and unrepaired bridges.

NOT UNLUCKY.

The Shamokin Daily News does not believe in the superstition that usually gathers around the number 13. The News on Tuesday celebrated its 13th birthday by issuing an anniversary edition de luxe, and takes occasion to say a few modest words about its own success and popularity. The News delivers all of the measure of plenty that is filling its horns, for the success that is attending the efforts of the paper are but the outcome of years of untiring effort to keep the sheet clean, newy and fair to all.

THINKS IT'S A GOOD ONE.

According to the Greensburg Tribune, the Westmoreland County School Directors' association has unearched an act which became a law July 27, 1842, and by the provisions of which the county commissioners of each county are required to publish, in not less than two newspapers in the county for two weeks, a statement showing the aggregate valuation and assessments made by each assessor in the county. The Tribune thinks the law a good one and insists upon its enforcement.

TO CURE A GOLD IN ONE DAY

LAXATIVE BROMO QUININE TABLETS. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25 cents.

ECLIPSES IN 1907.

In 1907 there will be four eclipses, two of the sun and two of the moon. The first total eclipse of the sun, January 14th, invisible in the United States; visible in Eastern Russia and the continent of Asia, ending at sunset in Japan. The second is a partial eclipse of the moon, January 27, partly visible in the United States, the setting eclipsed.

SAVES WORRY.

There is much reasonable truth in the declaration of the Franklin News that "practically everything you buy for Christmas gifts will keep all right from now until the 25th. It is, therefore, perfectly safe to do your shopping now, before the crowds become a worry and the clerks are overwhelmed with orders and the best goods are picked out and taken home by more forward-looking people. Such a course is a charity to the shopkeepers and their helpers, it saves a lot of rushing about at the last of the season and gives you a chance for a more deliberate selection."

Grange Banks.

A charter has been granted for the new Farmers' and Trades' National bank at Clearfield, which makes another link in the chain of grange national banks being established throughout the State. The Clearfield bank will be opened for business next Thursday. This bank is beginning its career with a capitalization of \$100,000.

Admitted to Hospital.

Engene Barrett, of Danville, was admitted to the surgical wards of the Mary M. Packer hospital Monday afternoon, suffering from a diseased foot, the nature of which could not be earned. He was brought to Sunbury from Danville with a light engine and cab on the Pennsy.—Sunbury Item.

Demonstration at Geary's.

On Friday, December 14th, A. W. Stephens, State San Jose scale inspector, will give a demonstration on the farm of Amos A. Greary, one mile from the Rush Baptist church.
