

COURT FACES UNIQUE DILEMMA

Complications in the Fisher case during the past few days put the Northumberland county court in one of the strangest dilemmas in which any judge has ever been placed.

Fisher is accused of murder and his case was to have come up yesterday. Under the law it could not again be postponed except by request of the defendant as it had already been twice put off, and as Fisher still has no counsel he can hardly be put on trial for his life.

BIG PARTY AT COMLEY

A large party of the good people of Anthony township gathered at the fine country home of Mr. and Mrs. George Watson at Comley on Tuesday evening and were delightfully entertained by the host and hostess.

DEATH AFTER LONG ILLNESS

Samuel Boyer, of Plymouth, a former resident of Danville, died at his home in the former place Saturday morning.

SIX FLORE WEEKS OF COLD WEATHER

He walked right out, and turned around, and walked right in again—this reversal of the prevalent expression would describe the stunt of the groundhog on Saturday.

THE CROAKERS.

There are croakers and idle fault-finders in every community and the Shamokin Daily News referring to such says that "the fellows who stand on street corners chewing and spitting and telling obscene stories, cursing and declaring merchants and business folks in general skins and thieves are a nuisance and an abomination."

LOCAL OPTION.

Easter can never be earlier than March 21, not later than April 25, since it is the first Sunday after the full moon that happens on or nearest to March 21, and if this fall on a Sunday, then Easter is to be the Sunday following.

There is a very decided sentiment throughout this Commonwealth in favor of the enactment of a reasonable local option law. To advocate local option is not necessarily to favor local prohibition. It is simply to take the ground that the people of each county, or smaller district, have a right to determine whether or not they want the licensed liquor business to exist in their community.

DISEASES OF MID-WINTER

The local registrar's report to the bureau of vital statistics for January shows the usual amount of illness incidental to midwinter, although the general health is better than during the month of December.

Eleven cases of typhoid fever were reported during January as against seven cases in December. In proportion to the population there is nothing abnormal in eleven cases of typhoid fever. Besides, the majority of the cases were reported during the early part of the month and are now convalescent.

As relates to diphtheria, the most dreaded disease of childhood, the situation is much improved, there being but one case in January as against five cases of that disease one of which was fatal in the month of December.

This is the season when pneumonia begins to gather in its victims. During January there were three cases, of this dreaded disease, one being fatal, as against one case in December, which was fatal.

Scarlet fever made its appearance during January, three cases being reported. There were no deaths from this disease.

The general improvement as relates to the public health is noticeable in the falling off of grippe. A couple of weeks ago there was scarcely a family but had one or more victims of this disease. Some of the cases were attended with a good deal of suffering, while there were few who were not too badly indisposed to pursue their daily vocations.

PERSONALS.

Ralph Seidel returned to Benton Monday, where he is employed by John Mathers, after a several weeks' illness at the home of his parents at Washingtonville.

H. P. Raup, of Turbotville, transacted business in Washingtonville yesterday.

Joseph Gresh, of Limestone township, has been visiting at the home of J. W. Keam.

Mrs. Kate Wagner is on the sick list.

Mrs. William Berger, of Strawberry Ridge, spent yesterday at the home of Mrs. T. B. Yerg.

Squire Charles Shires, Sr., of Strawberry Ridge, was a visitor in Washingtonville yesterday.

Mr. and Mrs. William Steinman and daughter, of Danville, are visiting at the home of the latter's parents, Mr. and Mrs. William Messersmith.

Miss Annie Seidel returned yesterday from a several weeks' visit at the home of Elmer Frymire at Ottawa.

The back gives out—aches and pains; Urinary troubles set in. Don't wait longer—take Doan's Kidney Pills. Danville people tell you how they act.

John Temanus, puddler, of 301 Main St., says: "I consider Doan's Kidney Pills an excellent remedy for back ache. I used them and they cured me of back ache from which I had suffered for years. My trouble was an indescribable dull aching pain right across the loins, sometimes my back was so weak that I could hardly do anything, and on this account I had to lay off work several times. I was unable to bend or stoop without severe pains and I was often obliged to catch hold of something to keep me from falling. I used liniments and hot applications but until I tried Doan's Kidney Pills I never had anything to do me any good. Doan's Kidney Pills were just the remedy I needed. I had taken them only about three days when my back became strong and soon was as strong as it ever was. I have had no back ache or any indication of kidney trouble since using Doan's Kidney Pills."

Oratorio in M. E. Church. It has been decided by the Joseph Ratti hospital committee, which has the matter in hand, that the oratorio, "The Holy City," the recent rendition of which in the Mahoning Presbyterian church is still fresh in the minds of Danville people, will be presented in the First Methodist Episcopal church at Bloomsburg as a benefit production for the Ratti hospital.

The Methodist church has been selected by the committee as it is the largest auditorium in Bloomsburg, seating, with the galleries included, about 1200 people.

A date for the production has not as yet been selected as protracted services are at present in progress in the church, and no definite time has been set for their conclusion. The exact time will be set when the series of services are closed.

The First M. E. church is particularly fitted for a production of the nature of "The Holy City." The construction of the church is such that the acoustic qualities are the best. Also the choir gallery is in front of the audience, and the organ is a remarkably fine instrument. The church authorities are favorable to having the oratorio in their edifice.

Foley's Honey and Tar cures the most obstinate coughs and expels the cold from the system as it is a mild laxative. It is guaranteed. The genuine is in the yellow package. Sold by all druggists.

To Have "Cleaning Day." Mayor Kirkendall, of Wilkes-Barre, has decided to inaugurate an innovation by designating, "Cleaning Day," when all back yards, cellars and other places used for storing refuse will be cleaned out. The city will furnish teams to cart the stuff away.

"Cleaning Day" would be an excellent thing in Danville the coming spring.

ITEMS FROM WASHINGTONVILLE

The biggest crowd that has been in Washingtonville in many months was present at the J. W. Keam public sale yesterday. McClellan Diehl, the Washingtonville auctioneer, hustled things through in the most approved style, selling out the large stock of personal property in two hours. The articles sold brought good prices.

The Morning News doesn't like particularly to blow her own horn, but when a sincere compliment is paid and credit is given by others where it is due, it is hardly beyond the pale of seemly modesty to take note of it. A Washingtonville gentleman, last evening was the authority for the statement that he believed that the success of the Ream sale was in a great measure due to the fact that the notice of the sale had appeared in the Morning News sale register. This is the first of the Morning News sales, and if Mr. Ream reaped any benefits from having his sale noticed in the columns of this paper, it is a state of affairs that is most gratifying to both of the parties concerned.

THE DANVILLE STOVE WORKS

At the annual meeting of the Danville Stove and Manufacturing company, held last week, the following officers were re-elected: President, W. B. Chamberlin; secretary, Alexander Foster; treasurer, W. L. McClure; W. A. Sechler was re-elected general manager of the works.

The plant of the Danville Stove and Manufacturing company, beside being one of the most prosperous industries in this section with a bright future ahead of it, has a record behind it that well entitles it to the distinction of being a standby in Danville. For more than twenty years it has been forging along in the even tenor of its way, a source of steady and remunerative employment to it hands every working day of the year when they chose to apply themselves to their tasks. There might be protracted shut-downs elsewhere, but the stove works are always running or in a condition to run. For twenty years or more the business has been gaining ground and it is still growing. Last week the company shipped a car load of Beaver stoves to San Francisco, which is an entirely new field. A circumstance that reflects well on Beaver stoves is the fact that the order came wholly unsolicited, from a party who had heard of the Danville stoves and came here to negotiate. Danville stoves are exported to many foreign countries and are found in South Africa, China as well as in Mexico and Cuba.

To keep pace with the demand of the times the Danville Stove & Manufacturing company is constantly adding to its product. The new Queen Beaver, the patterns of which were begun last summer, will be ready for the spring trade. This range, which is in two sizes and twelve different styles, is made with lift-off nickel and is plain in finish, just the kind of stove to please the fancy of the present day, which is constantly demanding something new.

Work is well under way on the patterns of two other stoves that will be brought out this season. One of these is a new size of Beaver A, plain cabinet range and the other a new square parlor heater, which will be made in two sizes.

NEW CHAPEL IN EAST END

The East End mission, which, under the zealous leadership of Hon. M. Hinckley, has grown and prospered during several years past, is about to enter upon a new era, marked by still greater growth and enlarged influence. Among the new order of things that will bring about another epoch in the mission's history is a new modern a-schurh structure designed with special reference to the growing needs of the mission, and the foundation of which will be laid not later than next spring.

Ever since the East End mission has been in existence the meetings have been held in the third floor of the Ammerman building, East Market street. The quarters there are somewhat cramped but the two narrow flights of stairs that have to be climbed by those attending constitute the worst objection.

For some time past those interested in the work of the East End mission have been casting about for a new site of ground conveniently located, upon which to build a chapel. Such a site is now procured. It was purchased last week of W. A. Shepperson and adjoins the Ammerman building on the west. It was formerly occupied by Mr. Shepperson's coal yard and has a frontage of forty-seven feet on East Market street and is one hundred and fifty feet deep. The deed has been delivered.

Hon. H. M. Hinckley stated yesterday that a capacious chapel would be erected on the site, that would have an auditorium of large size on the first floor. The exact dimensions have not been decided upon, nor of what material it will be constructed. Work may begin in a very short time. By the first of April at the farthest ground will be broken.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886.
