Osana San's Adventure

By Constance D'Arcy Mackay Copyright, 1906, by Homer Sprague

It was a bright spring noon. Sunlight poured down over the quaint glistening roofs of the little town of Yacco. Mists rose and melted from the encircling rice fields. The perfume of cherry blossoms was upon the windan erratic wind that blew in breath snatching puffs and twirled the little fans in the black polished coiffure of Osana San as she toddled daintily along the street in her lacquered san-

dals. Her blue and gold kimono caught the sunlight with a gleam. Her huge red sash, tied in a butterfly bow, added a daring note of color, and her gayly flowered paper parasol made just the background for her delicate oval face. Her skin was the cream of Ivory faintly tinted with rose. Her mouth was like a scarlet lily, and her slanting eyes were like dark jewels-very somber, but with a brilliant glint in their

"She looked as if she had stepped straight out of the 'Mikado' or off a Satsuma vase," declared Mrs. Carrington the wife of the American consulglancing up from the luncheon table to watch the passing of Osana San. "She is the very essence of this beautiful

rington. "And the American words and phrases you have taught her make her doubly so. She gives a twist to them that is all her own. I tell you, Alice, she could teach our American women a good many things—she's so demure and quiet and contented."

Vet had Mr Carrington but known it, contented was precisely what Osana San was not. A perfect crater of unrest burned in her little soul. Her blood raced in time to the pulse of spring, and as she walked through the sleepy, half deserted streets of Yacco there was nothing in the world for which she longed so much as for an adventure, and she had her wish. As she passed the door of a teacup shop the wind give a sudden gust, blowing her paper parisol inside out and wrenching it from her hand. A whirl and she shut

"I think this is yours," he said, smil-"A thousand thank yous," murmured Osana San in her very best English. "I fear my humble parasol has given your

illustrious se'f a great trouble." "A great pleasure, believe me," he answered then, with a long look at Osaga San, he raised his hat-and went

back into the teacup shop. "Oh!" breathed Osana San, rubbing her smooth fingers up and down the bamboo han de where his hands had touchedeit. How tall and handsome he was and how broad shouldered! She had seen few American men save Mr. Carringt n. for Yacco, though not far from Tokyo, was off the main line and so inaccessible that travelers seldom came there. Mr. Carrington, moreover, was old, with a wrinkled face and white hair, while this stranger was young-divinely young, with a way of looking. The rose deepened in her cheek as she remembered it. It was a day of marvels. And there were more to come, for, standing near by, so near that it was a wonder she had not noticed it, was a strange object such as Osana San had never seen before. She guessed it to be one of the horseless carriages of which Mrs. Carrington

Something must be done. Gathering her courage together, she pushed and pulled at all the contrivances she could lay hands on, and luck favored her. In front of a lonely wayside temple the motor came to a sudden stop. With a great breath of relief, Osana San alighted. Tears were still glistenng on her cheeks. When the time comes for the exodus the little animals journey westward from Scandinavia, allowing nothing to stop their movements, which virtually amount to a headlong flight. They swim the lakes and rivers and climb the highest mountains in incalculable numbers, devastating the whole country through which they travel. Naturalists attribute the movement to some inherited memory of a flight to escape an expected cataclysm, but this seems somewhat far fetched.
