SEVEN YEARS IMMIGRATION

In 1905, 1,086,499 immigrants were admitted to the United States, and 1906 surpassed this with 1,100,735. The record up to June of this year exceeds the first half of 1906 by many thousands.

Of great importance is the destination of these new Americans. More than one-third of the entire number stated that they intended to stay in the State of New York, while one-sixth of them asserted that they were going to Pennsylvania.

Steamship companies entering in New York brought 880,036 of the immigrants; 62,229 entered Boston, 54,064 came through Baltimore, 23,186 were brought into Philadelphia, and the southern ports of Galveston and New Orleans received 6,201 and 2,051, respectively.

The figures of the countries furnishing the largest quotas are Austria, 111,398; Hungary, 139,540; Italy, 273,120; Russia 215,665; the United Kingdom, 110,000 and Germany, 37,564, the figures being for the fiscal year ending June 30, 1906.

The new immigrant law, which goes into effect July 1, contains important restrictions which will enable the immigrant officials to debar imbeciles, weak-minded and other undesirable classes with greater effectiveness than in the past.

A LASTING EFFECT.

This Evidence Should Prove Every Claim Made for Doan's Kidney Pills in Danville.

Relief from the pains and aches of a bad back is always welcome to every backache sufferer; but to cure a lame, weak or aching back is what is wanted. Cure it so it will stay cured.

Thomas Lewis, retired, of 615 Mill St., says: "I can only reiterate my former statement made in 1896 about Doan's Kidney Pills. They cured me and benefited my health in general."

Remember the name—Doan's—and take no other.

How Do You Like This Weather.

"Is it hot enough for you?" was the expression the wise ones put to their friends all yesterday. "Well I guess it is, it's blanked hot," was the general reply, as one sweltering pedestrian greeted the other about the streets.

Everybody sweltered, and the soda fountains did the biggest business of the season. The straw hat man, for once, took that lengthy sorrowful smile from his face, and got busy telling "em 'That's just your fit," or "Yes, that straw hat is very becoming to your boy."

A Lesson in Health.

Healthy kidneys filter the impurities from the blood, and unless they do this good health is impossible. Foley's Kidney Cure makes sound kidneys and will positively cure all forms of kidney and bladder disease.

Children's Day Service.

The annual Children's day service was held Sunday evening at the Moorsburg M. E. church. A large congregation heard the carefully prepared program.

CORN CROP IS MUCH AFFECTED

General conditions of the weather this spring are making matters very bad for farmers and gardeners. Nearly every crop will suffer from the coolness that has prevailed in this section with the possible exception of the rye, potato, pea and several smaller garden products.

CORN CROP SUFFERS MOST.

The corn crop is the principal sufferer from the condition of the weather. Only in a few fields where the slope of the land and the condition of the ground have caused the water to drain off will the original seed produce a crop.

WEED CROP PROLIFIC.

Nature provides that all plants and foliage, classed by botanists as species of the weed family, grow abundantly no matter what the conditions of the weather are. The crops this season are being crowded out by the weeds except where the farmers and gardeners are working diligently to keep them down.

Barn at Almedia Was Burned.

Fire, of unknown origin, destroyed the big barn on the Ikeler estate farm at Almedia shortly after noon Monday. The barn was partly filled with hay, corn and oats, and the loss will be fully \$2,000, with but little insurance.

The farm is occupied by O. C. Hess and the family were sitting at dinner, when, looking out of the window, Mr. Hess noticed smoke issuing from it.

The following resolution in which the position of Ent post is clearly defined was unanimously passed at Friday evening's meeting:

Resolved, that this post hereby offers protest against the governor's action, and do not consider the reasons given for his veto as valid.

Resolved, that although the G. A. R. is not a political organization they cannot help but remember that when they asked for bread they were given a stone, and although it is more than 40 years since they laid down their implements of warfare, they can still do some fighting.

Will Cure Consumption.

A. A. Herren, Finch, Ark., writes: "Foley's Honey and Tar is the best preparation for coughs, colds and lung trouble. I know that it has cured consumption in the first stages."

Miss Anna V. Stone, of Columbia, who a few weeks ago graduated from the high school of that place, has eloped with James John, an Italian laborer.

The furnace of the Perry Iron works, at Erie, was put in blast on Monday. Miss Carrie Clark, daughter of President T. S. Clark, lighted the furnace, using the same torch that was used in lighting the first Carrie furnace at Pittsburg in 1859.

MANY THOUSANDS OF DOLLARS ARE LOST

Business men are at a loss of thousands of dollars as a result of the unusually cold weather being done out to humans this summer. At first glance this may seem an exaggeration and as superficial observation is not convincing a few solid facts may tend to show our readers the truth of the statement.

Clothing dealers, are, perhaps, the hardest hit by the inclemency of the weather. Anticipating a good summer season, they stocked their stores with the habiliments for torrid atmospheric conditions, light colored, light weight suits, straw hats and many other things too numerous to mention but which, nevertheless, are essential to the enjoyment of a warm day.

This, then, is the situation. Even though the weather does "open up" in the near future—and from present indications it isn't likely to do so—the clothing dealer's will not be able to sell half of their stock.

The clothing men are, therefore, up against a proposition that rivals in toughness a choice sirloin steak. They are going to lose money, and they realize it.

All stomach troubles are quickly relieved by taking a little Kodol after each meal. Kodol goes directly to the seat of the trouble, strengthens the digestive organs, supplies the natural digestive juices and digests what you eat.

Threw Stuart's Picture in Fire.

Governor Stuart's ears must surely have burned Friday evening when the first meeting of Col. Ent post, No. 250, G. A. R. of Bloomsburg, was held.

Whereas, Governor Stuart has seen fit to veto the bill offered by Senator Cochran and passed by both branches of our legislature almost unanimously, giving to Pennsylvania veterans a State pension.

Resolved, that this post hereby offers protest against the governor's action, and do not consider the reasons given for his veto as valid.

Resolved, that although the G. A. R. is not a political organization they cannot help but remember that when they asked for bread they were given a stone, and although it is more than 40 years since they laid down their implements of warfare, they can still do some fighting.

There is no case of indigestion, no matter how irritable or how obstinate that will not be speedily relieved by the use of Kodol.

Snake Stories from Pike.

Pike county stories of snake killing are on in earnest. Two men are reported having killed eight big rattlesnakes last Friday, and another party of three men have killed a large number of black snakes, each one five feet long.

Cold Has Killed off Insects. According to some farmers the cold weather will not have been without its benefits. The rapid breeding of insect pests has been retarded to a considerable extent and it is expected that their ravages on the growing crops will be materially lessened.

Died at Depot.

John Cole, of Benton township, Columbia county, was stricken with acute indigestion on Sunday at the railroad station at Bloomsburg, while waiting for a train and died in a few minutes.

DANVILLE SPARED BY VETO AX

Governor Stuart on Saturday completed his work on the enormous mass of appropriation bills left in his hand by the legislature, and, after having cut the \$71,500,000 appropriated by the lawmakers down to \$52,000,000, so as to come within the estimated revenue for the next two years, he laid aside the veto ax, looked up his desk and left for Philadelphia.

As was anticipated Governor Stuart allowed the appropriation for the Danville hospital for the insane to go through intact, and the \$429,300 set aside by the legislature for the local institution is now available, and will likely be put to immediate use.

In wielding the terrible ax the governor hewed tremendously but with care. From the first to the last he withheld the blows from the children of the Commonwealth.

The State and semi-State institutions saved their appropriations almost intact, but the governor made a level and almost pro rata cut in the appropriations for private hospitals. Just as he refrained from cutting the children of the State, so the governor withheld his hand from the bills designed for the care and aid of the helpless.

A prompt, pleasant, good remedy for coughs and colds, is Kennedy's Laxative Cough Syrup. It is especially recommended for babies and children, but good for every member of the family.

Burglar Liked Raisin Pie.

A stealthy robber paid a visit to McClellan Dielhl's store at Washingtonville Saturday night, and after ransacking the cellar pinched one raisin pie, which he immediately sent down the road that all good raisin pies go.

The only clue to the identity of the burglar are foot prints in the cellar, but it is the intention of Mr. Dielhl to make these the basis of a vigorous hunt for the thief.

Cured Hemorrhages. A man who is in perfect health, so he can do an honest day's work when necessary, has much for which he should be thankful.

The extensive repairs at the Moorsburg M. E. church have been completed, and the edifice reopened for worship.

The new freight classification of the Central association, which includes all territory east of the Mississippi river and north of Louisville, Ky., and Richmond, Va., has just been filed with the interstate commerce commission, and will become effective on August 1.

There are 3,200 changes in the rates, of which 2,966 are advances, 186 are reductions and sixty advances caused by changes in the classification or by cancellation of commodity tariffs. The general average increase in minimum carload rates, is less than six per cent.

The minimum weight of iron and steel articles after August 1 will be increased from 30,000 to 36,000 pounds per car, which will be about twelve per cent. of an increase over the present minimum carload weight.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable. Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medicinal triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have sample bottle sent free by mail, also a bottle telling more about Swamp-Root and how to find out if you have kidney or bladder trouble.

When writing mention reading this genero offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent and Home of Swamp-Root dollar sizes are sold by all good druggists.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Binghamton, N. Y., on every bottle.

The State's New Highway Bill. The Roberts highway department bill, which has been signed by the governor, is designed to reorganize the department so that it will have a regular sufficient force to cope with the increased work because of the demand for new roads all over the State.

Most of the men provided for have been employed out of the various funds in the department and there will be very few persons added.

The general amendments to the bill are as follows: The highway commissioner is given full authority to determine the kinds of roads to be built, thus removing the friction between the department and the county commissioners. The provisions of the law are extended to incorporate boroughs.

The construction of gas and water lines along the roads is prohibited except under regulations made by the department. Monuments are to be erected bearing the words State Highway and the year and date. The commissioner is given authority to plant shade trees along all State highways. The expenditure is to be included in the cost of the road. The trees are to remain the property of the State.

Bert Barber, of Elton, Wis., says "I have only taken four doses of your Kidney and Bladder Pills and they have done for me more than any other medicine has ever done. I am still taking the pills as I want a perfect cure." Mr. Barber refers to DeWitt's Kidney and Bladder Pills, which are unequalled for Bacheche, weak kidneys, inflammation of the bladder and all urinary troubles. A week's treatment for 25c. Sold by Paules & Co.
