

LOCAL TIME TABLES.

Table with columns for East and West times for various streets including Penn'a. R. R., D. L. & W. R. R., Phila. & Reading R. R., and Bloom Street.

NOW OVER NINETY, IS STILL SPRY

One of the most interesting of the old folks living in this section of the State is William Moser, of Pine Summit. Mr. Moser is ninety-two years of age, and yet to employ his own words, he is only "enjoying second boyhood."

Articles Stolen from Porches.

This is the season of the year when porch thieves operate and from all accounts the same old gang is abroad. They find many things to pilfer, such as cushions, rugs, carpet and now and then a chair.

Thoughtful persons hereafter, on retiring will see to it that all articles that have any appreciable value are removed into the house.

SHAKE OFF THE GRIP of your old enemy, Nasal Catarrh, by using Ely's Cream Balm. Then will all the swelling and soreness be driven out of the tender, inflamed membranes.

Mr. Earnest Jardine, the purchaser of Glastonbury Abbey, has stated that he is willing to sell the abbey to the Church of England for the same price (£30,000) that he paid for it.

SUSTAINED BROKEN COLLAR BONE

Abram Keefe is confined to his home, North Mill street, as the result of an accident, which befell the stock train at the Reading Iron works on Friday evening.

Mr. Keefe, who was formerly employed as driver of one of the wagons at the big mill, about a week ago became a brakeman on the stock train made up of small engine and dump cars which may be seen at all times plying backward and forward about the mill.

About half past five o'clock Friday evening the little engine was bowling along with a lot of "empties" when the coupling happened to fall, catching in the cross ties, which had the effect of throwing a car off the track over against the clay house.

He was extricated as speedily as possible, when it was found that he was badly injured. He was removed to his home and Dr. P. C. Newbaker was called. An examination revealed that his right collar bone was broken, that his entire breast was bruised, in addition to which there was danger of internal injury. He suffers much pain at times.

Grips and Feet Off the Seats.

The conductors and members of crews in the passenger service on the Pennsylvania railroad were certainly having their troubles at present due to the enforcement of an order issued from general headquarters and clashing between the railroad men and the traveling public are daily occurrences.

Some time ago an order was issued directing the conductors that from the date of the issuing of the order passengers would not be allowed to place grips, suit-cases or baggage of any description on seats in passenger cars, that seats would not be turned to be occupied by less than four persons and passengers would not be allowed to rest their feet on the car seat.

The conductors and members of their crews were not overly anxious to stringently enforce the new order, knowing full well that there would be storms ahead and they did not desire to court trouble. This fact was no doubt learned by the company officials for letters were sent out stating in strong terms that the order must be rigidly enforced.

As a result of this last letter received traveling men who are in the habit of taking up an entire seat with their baggage or having a seat turned so that they can stretch themselves and take a quiet "snooze," are politely told to walk over and then they do so.

Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate glands. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease.

A Beautiful Flag.

Every American with real red blood in his veins loves our flag. But do you possess a good one? You can get a beautiful flag almost free if you will send a check for \$3.50 to THE PHILADELPHIA PRESS. This will entitle you to THE PRESS daily, except Sunday, for one year by mail, postage paid, and also a fine hand-sewed flag, size 3x5 feet, fast colors, fully guaranteed. This flag also is really worth the amount asked and then you get the great home newspaper of Philadelphia.

Noted Speaker Dead.

Rev. Charles A. Crane, one of the prohibition lecturers of the Temple course, who held forth in the court house here last winter, died at his home in Boston, Mass., on Friday. He was fifty-three years of age. He was a popular Methodist preacher. His address in this city made a fine impression.

Pastor Resigns.

Rev. M. L. Gano, D. D., pastor of the First Methodist church of Bloomsburg, has tendered his resignation to take effect at once. His health is assigned as the cause.

Dr. Gano is one of the leading and ablest ministers in the Central Pennsylvania conference. He came to Bloomsburg last spring a year ago.

WARNING.

If you have kidney and bladder trouble and do not use Foley's Kidney Cure, you will have only yourself to blame for results, as it positively cures all forms of kidney and bladder diseases. For sale by all dealers.

A THOUSAND AT BILLMEYER'S

Hon. Alex. Billmeyer's fine game preserve and park has always been one of the foremost attractions in this section of the State and the mecca of tourists, but of late the place seems to have gained additional popularity, probably through the publicity given Jumbo during his recent trip to the Elks' convention in Philadelphia.

The crowd at the park Sunday was the biggest Sunday crowd of the season. It was estimated that during the day over a thousand people visited the park and game preserve. They came from all over the country, Milton, Watsontown, Lewisburg, Muncy, Bloomsburg and other places furnishing their quota of the gathering. Many went from Danville.

Among the varied list of vehicles were about thirty automobiles. Many of those who came to take in the sights brought lunches with them, and these were partaken of in the park adjoining the preserve. Here also was a refreshment stand, so that the place presented quite a gala appearance.

On Sunday, August 18th., the Berwick fire department will picnic at Billmeyer's park, going there on a special excursion train on the S. B. & B. On the Saturday preceding the Washingtonville Lutherans will hold their picnic at the park.

BACK GIVES OUT

Plenty of Danville Readers Have This Experience. You tax the kidneys overwork them. They can't keep up the continual strain. The back gives out—it aches and pains.

Urgent troubles set in. Don't wait longer—take Doan's Kidney Pills. Danville people tell you how they act.

John Temanus, puddler, of 301 Main St., says: "I consider Doan's Kidney Pills an excellent remedy for backache. I used them and they cured me of backache from which I had suffered for years. My trouble was an indescribable dull aching pain right across the loins, sometimes my back was so weak that I could hardly do anything, and on this account I have had to lay off work several times. I was unable to bend or stoop without severe pain and I was often obliged to catch hold of something to keep me from falling. I used liniments and hot applications but until I tried Doan's Kidney Pills I never had anything to do me any good. Doan's Kidney Pills were just the remedy I needed. I had taken them only about three days when my back became strong and soon it was as strong as it ever was. I have had no backache or any indication of kidney trouble since using Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and

Thieves Attack Closed Houses. There are evidently thieves in Danville who keep track of families which leave town for a trip to the seashore or other points and then devote themselves to the residences while they are unoccupied.

Within a week past would-be-burglars have been frightened away from three different dwellings in one square where the occupants were absent. At one place the prowlers returned a night or so after the first attack. In each instance they made an attempt to force open a window shutter at the rear of the house.

In a house on West Mahoning street which had been closed temporarily a piece of stout wire ingeniously twisted was found inserted in the keyhole of the back door yesterday.

The lesson to be learned from this is that no house should be left entirely alone if possible to avoid it. In all cases where it is impracticable to have the house occupied exceedingly great care should be taken to have the doors and windows well secured.

Orino Laxative Fruit Syrup is sold under a positive guarantee to cure constipation, sickheadache, stomach trouble, or any form of indigestion. If it fails, the manufacturers refund your money. What more can any one do. For sale by all dealers.

Oats Crop Is a Good One. As a general thing the farmers of Montour county this week are busy harvesting oats. On many farms a mere beginning was made last week. By the close of the present week there will be very little oats standing in the fields.

Oats harvest, like wheat harvest, is a couple of weeks later than usual. Like the wheat, too, it is a good crop. Only here and there is a field found where the oats has "lodged" to any extent. At the same time, as a rule, the straw is heavy; it stands erect and seems clean and free from rust. The fields present a beautiful appearance.

The hot nights of summer should be over now, if there is any truth in the saying frequently repeated among the farmers that cool nights will be the rule after "the wind begins to blow over the oats stubble."

Painting Cleaver Block. S. W. Armes has the contract for painting the block owned by J. E. Cleaver at the corner of Mill and Northumberland streets. Work is in progress on the Northumberland street side, where the scaffolding was erected a couple of weeks ago.

Dislocated Wrist.

Mrs. A. Trauszahl, the wife of one of the employes of the Hanover Brewing company fell down stairs Friday night and dislocated her wrist. Dr. Newbaker reduced the dislocation.

DeWitt's Little Early Risers don't sicken or gripe. Small pills easy to take. Sold by Paules & Co.

INSANE PATIENTS VISIT CIRCUS

There is nothing too good for the patients that are incarcerated at the hospital for the insane. As is well known Christmas is celebrated at the institution in a way that carries with it a full measure of enjoyment, while Thanksgiving and Fourth of July are also celebrated in an appropriate manner. Naturally, therefore, when a circus comes to town the patients are permitted as far as practicable to share in the delights.

Following precedent established many years ago Friday as many of the male patients as could be safely trusted were taken over to South Danville "to see the show". The number permitted to attend filled two trolley cars and numbered one hundred and thirty-two. They were in charge of a physician and fourteen attendants.

That it was feasible to take the insane people to the circus was due wholly to the courtesy of the management, which in addition to reducing the admission to half price argued that the patients might enter the tent at an early hour and remain seated after the performance until the tent was cleared. In this way the insane could be kept aloof from the crowds in going and coming.

The insane men in charge of the attendants left the hospital at about one o'clock and were safely out of the way under the big tent before the crowd began to arrive. Having permission to remain until the tent was cleared they had the benefit of the concert after the regular performance free of cost.

No one at the circus enjoyed the performance more than the patients and their demonstrations of delight as the various feats were performed were the source of much amusement to that portion of the audience that was seated near enough to see them. They also enjoyed the trolley ride to and from the circus especially as it was the first time that they had ever been taken over the river bridge. They had been talking of the circus for days and found much delight in the anticipation of it. It is safe to say that they will derive quite as much pleasure in the days to come by reflecting upon and talking over the different features of the performance.

Don't accept a cough cure that you may be told is just as good as Kennedy's Laxative Cough Syrup, because it isn't just as good—there is quite a difference. Kennedy's Laxative Cough Syrup acts gently upon the bowels and clears the whole system of congestions and colds. It promptly relieves inflammation of the throat and allays irritation. Sold by Paules & Co.

Dogs in Dog Days.

If you own a dog do not feed him much meat this hot weather and be sure that he can get a drink any time he wishes. Let him sleep all he will and give him at least a back yard to run in. Milk and some kind of grain food is best for him and if you observe these needs of "Old Dog Tray" you will probably find that he will pass the summer good-naturedly. Otherwise he may get crazy, or cross, or make too much noise at night.

Keep the pores open and the skin clean when you have a cut, burn, bruise or scratch. DeWitt's Carbolic Wipe-Hazel Salve penetrates the pores and heals quickly. Sold by Paules & Co.

Camping at Forks. Mrs. Aaron Rockefeller, Mrs. John Hughes and children and Mrs. Mary Cromwell are enjoying the beauties of nature at Camp Lemon, near Forks, Columbia county. The following party have been visiting at the camp and report having a fine time: Aaron Rockefeller, John Hughes, Edward Rockefeller and family, Mrs. Fisher, of Harrisburg, Miss Helen Kapp, Roy Winner, Miss Bertha Cromwell, Harry and Clarence Cromwell.

Hay Fever and Summer Colds. Victims of hay fever will experience great benefit by taking Foley's Honey and Tar, as it stops difficult breathing immediately and heals the inflamed air passages, and even if it should fail to cure you it will give instant relief. The genuine is in a yellow package. For sale by all dealers.

Homeless Dog Causes a Scare. An exciting mad dog scare occurred in the second ward Tuesday afternoon. The police officers, with loaded guns, hurried in that direction but the dog escaped and later returned with a clean bill of health. As implied above the sudden fright originated in a mistake, some persons fancying that they saw evidences of rabies in a dog whose ownership was unknown.

The scare occurred just before noon. Immediately after noon Chief Mince-moyer and Constable Young minced themselves for the emergency hurried to the second ward. By that time it was established that the rabid animal was a "bum" dog, which had taken up quarters at the hospital for the insane. The only question to decide was whether or not the dog was mad. Evidence finally materialized to show that he was free from rabies and that his suspicious movements were due solely to the fact that the dog was strange. He was later heard from at the hospital, where he had resumed his old haunts and had for his companions several other homeless dogs.

TEN YEARS IN BED

"For ten years I was confined to my bed with disease of my kidneys," writes R. A. Gray, J. P. of Oakville, Ind. "It was so severe that I could not move part of the time. I consulted the very best medical skill available, but could get no relief, until Foley's Kidney Cure was recommended to me. It has been a godsend to me." For sale by all dealers.

ADDITIONAL HEALTH RULES

Commonwealth of Pennsylvania—Department of Health, Harrisburg, Pa., July 25, 1907. Additional Rules and Regulations Governing the Report of Communicable Diseases. In order to carry out the provisions of the Act of Assembly of April twenty-seven, one thousand nine hundred and five, entitled, "An Act creating a Department of Health and defining its powers and duties," the Department of Health of the Commonwealth of Pennsylvania has accepted the following additional Rules and Regulations governing the control of Communicable Diseases.

RESOLVED: That Section 1 of the Rules and Regulations as published in Circular No. 1 which reads as follows: "All physicians practicing within the limits of the State shall make an immediate report of every case occurring in their practice of the diseases herein specified, if occurring in a city or borough, to the Secretary of the Board of Health of such city or borough, and in cases occurring within the limits of a township, to the County Medical Inspector of the county in which said township may be located, and also to the Department of Health at Harrisburg," be amended to read as follows:

RESOLVED: That Section 1 of the Rules and Regulations as published in Circular No. 1 which reads as follows: "All physicians practicing within the limits of the State shall make an immediate report of every case occurring in their practice of the diseases herein specified, if occurring in a city or borough, to the Secretary of the Board of Health of such city or borough, and in cases occurring within the limits of a township, to the Health Officer in charge of the township in which said patient may be located."

PROVIDED, that in any city or borough not having a Board or Bureau of Health or Sanitary Committee, the report of such cases occurring within the limits of said city or borough shall be made directly to the Department of Health, and

PROVIDED, further that when a vacancy shall be known to exist in the position of Health Officer in any township, County Medical Inspector or other officer in charge of health in any city or borough, the report of such cases occurring within the limits of said city or borough shall be made directly to the Department of Health.

RESOLVED: That physicians or others in charge of hospitals situated in cities or boroughs shall report cases of the diseases herein specified received from territory outside of cities or boroughs to the State Department of Health at Harrisburg at the end of each week.

PROVIDED, that in any city or borough not having a Board of Health or Bureau of Health or Sanitary Committee, the report of such cases occurring within the limits of said city or borough shall be made directly to the Department of Health at Harrisburg on the report cards supplied for this purpose.

RESOLVED: That when none of the diseases herein enumerated occurs in a city or borough during any calendar month, a report of this fact shall be made by the Secretary of the Board or Bureau of Health or Sanitary Committee at the end of such month to the Department of Health at Harrisburg on the report cards supplied for this purpose.

RESOLVED: That the quarantine period for cases of scarlet fever shall be thirty days from the date of onset of the disease, provided that at the end of said period the physician in charge certifies in writing that desquamation has entirely and absolutely ceased.

The diseases referred to above, and of which report is required to be made by physicians and health authorities are as follows: Actinomycosis, Anthrax, Bubonic Plague, Epidemic Cerebro Spinal Meningitis (Spotted Fever), Chicken-pox, Cholera, Diphtheria (So-called membranous croup, diphtheritic croup, putrid sore throat, should be reported as diphtheria), Epidemic Typhus, Erysipelas, German Measles, Glanders, Hydrophobia, Leprosy, Malaria, Fever, Measles, Mumps, Pneumonia (true), Puerperal Fever, Relapsing Fever, Small-pox, Scarlet Fever, (So-called scarlatina and scarlet rash should be reported as scarlet fever), Tetanus, Trachoma, Trichiniasis, Tuberculosis (specify what form), Typhoid Fever, Typhus Fever, Whooping Cough and Yellow Fever.

New Buildings at Hospital.

It begins to seem exceedingly doubtful whether much work will be done on the new buildings at the hospital for the insane this summer.

The trustees of the institution will hold another meeting tomorrow, when no doubt proceedings will take place that will carry the work of preparation a little farther along.

At the same time it must be remembered that the plans and specifications have not yet been finally approved, after which must follow a period of several weeks during which advertisements are running that call for bids. Considering how slowly things are moving and how much time has already been lost it becomes plainly apparent that the new work will not be carried very far before winter sets in even if the foundations for the buildings are laid.

The excavation for the female infirmary is not yet completed, although an enormous quantity of earth has been removed. The work is being done by the patients, who according to all indications will have plenty of time in which to finish the job.

Notice.

The Mechanicsville band will hold a festival Saturday evening at their band hall, East Danville. Special car will be run from Danville to the band room. The band will give a short parade on Mill street. Everybody cordially invited to attend.

FIRE DISCOVERED IN NICK OF TIME

The first alarm of fire that was heard in Danville in many months was sounded Sunday morning. The blaze, which occurred at the residence of Robert Williams, Spruce street, was extinguished before much damage was done, although it had a good start and had it not been discovered in the nick of time would no doubt have destroyed the dwelling.

Mr. and Mrs. Williams were enjoying a buggy ride and their son Robert was at home alone when the fire broke out. Before starting on the drive Mrs. Williams placed a roast on the coal oil stove, which stood on the back porch just outside of the window opening from the sitting room. All three burners were lighted.

The fire was discovered by neighbors. Henry Grove, who lives near, hearing the cry of "fire" ran to the Williams residence and seizing a garden hose and attaching it to the hydrant soon had a stream of water on the fire, which had already eaten its way through the window into the sitting room and had enveloped the whole porch.

The Continental hose company quickly responded to the alarm, followed by the Goodwill company. The hose of the former company was attached to the plug at the corner of Ferry and Spruce streets, but only a little water was needed, as Mr. Grove with his garden hose had done very good execution. The loss all told will probably be a hundred dollars, which is covered with insurance.

Mr. and Mrs. Williams returned from their drive about the time the fire was discovered. It is believed that a curtain which hung on the outside of the sitting room window near the stove came in contact with one of the burners.

The window, sash and all, was entirely consumed and from this point a few moments later the fire would have spread through the interior of the building.

"We never repent of eating too little," was one of the ten rules of life of Thomas Jefferson, president of the United States, and the rule applies to every one without exception during this hot weather, because it is hard for food, even in small quantities to be digested when the blood is at high temperature. At this season we should eat sparingly and properly. We should also help the stomach as much as possible by the use of little Kodol for Indigestion and Dyspepsia, which will rest the stomach by digesting the food itself. Sold by Paules & Co.

Celluloid Collar Caught Fire.

An exploding alcohol lamp set fire to the celluloid collar around the neck of Howard Yoder, a Numidia store proprietor, Saturday morning, and for a time his burning to death was threatened.

When he realized his collar was in flames Yoder made an effort to jerk it from his neck but he was unable to get it loose. The burning celluloid stuck to his hands and both were horribly burned. Unable to rid himself of the blazing collar, it literally burned off Yoder's neck.

By this time the flames had extended to his shirt and he was helpless to put them out. His sisters coming into the store about that time, saw his predicament and put out the fires on his clothing.

His eyebrows were singed while his neck and hands were horribly burned. He suffered greatly from the shock.

Those who have stomach trouble, no matter how slight, should give every possible help to the digestive organs, so that the food may be digested with the least effort. This may be done by taking something that contains natural digestive properties—something like Kodol for Indigestion and Dyspepsia. Kodol is a preparation of vegetable acids and contains the very same juices found in a healthy stomach. It digests what you eat. Sold by Paules & Co.

Teachers Must File Certificates.

Superintendent of Public Instruction Nathan Schaeffer has just issued a circular to the various borough and county superintendents in the State to the effect that teachers must file certificates granted by the superintendent before they become eligible to receive the benefits of the new salary act as passed by the last legislature.

These blanks have not yet been prepared, but will be sent to the various borough and county superintendents in ample time for filing prior to the opening of the schools.

All teachers holding certificates or all normal school graduates who have taught less than two years will receive the minimum salary of \$40, while all holding professional certificates will receive a minimum salary of \$50.

John Riha, a prominent dealer of Vining, Pa., says: "I have been selling DeWitt's Kidney and Bladder Pills for about a year and they have given better satisfaction than any pill I ever sold. There are a dozen people here who have used them and they give perfect satisfaction in every case. I have used them myself with fine results." Sold by Paules & Co.

Mrs. Woods Entertained.

A party of ladies were pleasantly entertained Monday evening at the home of Mrs. Emma Woods, Lower Mulberry street, in honor of her sister, Mrs. Ellen Rote and Mrs. William Moore, of Philadelphia.

What a New Jersey Editor Says.

M. T. Lynch, Editor of the Philadelphia, N. J., Daily Post, writes: "I have used many kinds of medicines for coughs and colds in my family but never anything so good as Foley's Honey and Tar. I cannot say too much in praise of it." For sale by all dealers.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood. All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers; they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though he had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold in its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

TWENTY DEATHS LAST MONTH

These are the days when the local registrar's report to the bureau of vital statistics contains nothing startling in the way of figures. The rigors of weather under which pneumonia and kindred diseases flourish have given way to warm and equable weather, which is conducive to general good health.

During July one case of diphtheria was reported; two cases of scarlet fever, and one case of typhoid fever. There were no deaths from any of these diseases. Measles, which prevailed during winter and spring, seem to have died out, no cases having been reported during the last two weeks.

During July there were twenty deaths reported, seven of which were at the hospital for the insane. During June the number of deaths were twenty-one, five occurring at the hospital. During June the number of births reported was twenty-five, the same as in May.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O.

We the undersigned have known F. J. Cheney for the last 15 years and believe him perfectly honest in all business transactions and financially able to carry out any obligations made by him.

Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all druggists.

The Weasel Crop Continues to Grow.

The weasel crop this year promises to be about the biggest on record. On July 29th an article appeared in these columns stating that in the short interval between the 17th and the 27th of July fifty-six pelts of weasels had been brought into the county commissioners' office and were paid for. The end was by no means in sight.

Commissioner's Clerk Horace C. Blue Tuesday called a reporter's attention to the fact that in the ten days interval between July 27th and Tuesday, just fifty additional weasel pelts had been brought in, an average of five a day.

Schnylkill county newspapers are boasting of the fact that in that county one hundred weasel pelts have been brought in since the law went into effect. To use the language of Mr. Blue, "Montour county has got Schnylkill spiked to the track," as up to date we have one hundred and six weasel pelts and our county is not more than one-tenth as large as Schnylkill.

Up to the present the pelts of only three minks have been presented. Besides commanding the same premium as weasel pelts the minks are valuable for their fur and money may be realized on them from two sources.

My Hair is Scraggly

Do you like it? Then why are you contented with it? Have to be? Oh, no! Just put on Ayer's Hair Vigor and have long, thick hair; soft, even hair. But first of all, stop your hair from coming out. Save what you have. Ayer's Hair Vigor will not disappoint you. It feeds the hair-bulbs; makes weak hair strong. The best kind of a testimonial—Sold for over sixty years.

Made by J. C. Ayer & Co., Lowell, Mass. Also manufactured by S. S. PARRISH & CO., CHERRY PECTORAL.
