APPEAL FOR FUNDS FOR FUNDS AN APPEAL

Through the columns of the American the committee on public improvements desires to make an appeal to the pub-lic for additional funds to enable it to complete the park being installed on the site of the Presbyterian cemetery. As the work progresses the commit-tee is meeting with items of cost that were not figured on in the beginning, which makes it plain that the money subscribed will be in adequate to meet all demands. All the work under way is being well dome in is being well done in order to make

the improvement a permanent one. The committee from the first has felt that it is sustained by the public, which feels a deep pride in the undertaking, and to the public, therefore, the committee appeals for that assistthe committee appeals for that assist-ance which will be essential in order start to finish. Of course, the rapidto create a public park that will be a fire remarks were unintelligible to credit to the town. Any one who views the spot and notes the **trans**-views the spot and notes the **trans**formation that has already been of the interpreter, in the person of Leo wrought can not but feel that no mat- Barron, the facts were finally reached ter how much is invested in the park it is money well expended.

All who have not subscribed and feel a proper degree of interest in the and the prosecutor Joseph Yaraus. to see the improvement completed this fall, can aid the work very much by leaving a subscription at any one of the banks, at Rogers' shoe store, or at the office of the American. Money con- illustrate his remark he delivered a tributed promptly would prove a great accommodation, as the committee is his right fist. in need of funds. All money previous-ly subscribed is now due and should be paid by October 5th. A list of sub-

First and Sunday morning 7.30.

The above ordinance was referred to the committee on ordinance and police to report at the next meeting. In view of the deep seated sentiment in favor of such a plant and the large number of responsible business men of Dan-ville who stand ready to identify themselves with the proposition the general belief is that council will take favorable action. But little more remains to be done until council acts. As soon as the ordinance is granted an organization of the company will be effected, after which things will move with a rush.

The object of the movement is to obtain electric light and power at ly carried out early next spring. popular rates. The manufacturing ompany represented by Mr. Goldstein erects and equips the plant, after which
