Queen street. On Monday night the There is evidently a grave neglect somewhere and a great deal of critcism fered on a number of candidates at Prince street hall, to be followed by a which it is being enforced affords the people of town little or no protection. Anywhere, at anytime, a person in walking half a dozen squares is apt to encounter a dog unmuzzled, while, of even the largest wave. There are many reasons for this, One is the contion of the dogs that are supposed to be restrained wear muzzles that are practically no muzzles at all. The generally are not fit for sight muzzles are too large or ill fitting and the dogs can carry bones or even inton No. 24, of Altoona. These drills are open to the public. On Tuesday strained their dogs in an effectual way naturally become indignant when they see how others, through favoritism or neglect, are permitted to evade the neglect, are permitted to evade the

If there ever was a time when the quarantine should be rigid it is at present. As is demonstrated by the development of rabies in Mr. Bond's horse, which was bitten here on September 5th, the limit has been reached when real danger occurs. The same dog, since ascertained to be mad, which bit the horse bit a large number of other dogs, and it is rather more than suspected that only a small proportion of these have been killed. The danger to which the community is expressed is where dock and she appears on the beach she is again in street costume. Then, too, there are many beaches on the continent, such as the Damenstrand in Nordeney, where gentlemen are excluded until a certain hour of the day.—Charles F. Peters in Bohemian Magazine. admitted free by card only. Cards of to which the community is exposed is, therefore, quite apparent.

#### What Is a Surveyor?

If you mention "surveying" to the average layman the word calls up in his mind exher a confused vision of Persons who happened to be on Mill street at about half past seven o'clock yesterday morning beheld a spectacle that proved a positive thriller. Three men in a hilarious state of intoxica-tion in an automobile that they were incapable of handling dashed down incapable of handling dashed down is a surveyor? The truth is there are many kinds of surveying, and conse-quently the word "surveyor" can be, and is, applied to a wide range of persons. For instance, the engineer with his transit, the miner with his level, the city surveyor with a theodolite, and the mariner with his sextant, are all surveying. And the map maker The automobile which entered town by way of the bridge stopped at the corner of Mill and Market streets; at the lot.—Wide World Magazine.

Where to Find It.

started on their mad dash down Mill street. Their drunken and irresponsible condition attracted everybody. As soon as they started they seemed to give the machine all the speed it was capable of and, figuratively, it was distinct the speed of the speed started on their mad dash down Mill flying as it whizzed by the post office about in the dark, was asked by his companion:

and on down street.

The men were unable to steer the machine straight and every one expected that there would be loss of life before they got out of town. Near the

reached, when the count begins at one In the United States navy the ship's

hangs usually under castle, or just forward of the fore-mast. The captain's orderly keeps the time and reports to the officer of the dock the hour in terms of "bells." dock the hour in terms of "bells." The officer of the deck then bids the messenger of the watch strike the bell. There is somewhat more formal-ity at eight bells than at other times, 8 o'clock in the morning: The orderly ing to make up for lost time. Business men who didn't think much of "Eight bells, sir." The officer of the advertising before have learned its value and are using newspaper space. The orderly then goes to the captain and says, "Eight bells and the chronometers wound, sir." The captain replies, "Very well; make it so." The orderly goes to the officer of the deck and says, "Make it so, sir." The offi-cer of the deck says to the messenger of the watch, "Strike eight bells," and if everybody has been prompt the messenger strikes eight bells at exact-by 8 a m

#### EUROPEAN BEACHES.

Different From Ours.

In Europe there is no lounging on the beach in bathing suits. On this point the foreigner is apt to criticise the American woman and to point out that when the women in Europe put on bathing suits it is for the purpose of bathing and not of sitting on the generally are not fit for sight or pub-lication. It would take a very small wave indeed to thoroughly drench the most elaborate of the costumes commonly worn by the ladies throughout Europe when they go bathing. Of course the conditions are different. in full street regalia, and as the house is then wheeled out into the water, when she emerges for her dip she is visible only for the brief time it takes to plunge into the water, and she en-joys her swim without the encum-brance of skirts. When her bathhouse is wheeled back and she appears on

## MOONLIGHT IN MUSIC.

Wonderful St rata. Beethoven's famous composition, the "Moonlight Sonata," is said to have

been composed under the following circumstances: One evening as Beethoven and a friend were hurrying through the streets of Bonn they heard the famil-lar notes of the "Sonata In F." Some-

thing in the musician's touch attracted the attention of Beethoven, and he stopped and listened. Suddenly the music stopped, and the despairing words of the musician came to them through the open window, "Oh, if I could but hear some really good musician play this wonderful piece!" and again in 1863:

the words ended in a sob.
"Let us go in," said Beethoven. They
entered and found the player a young
girl, poor and blind. Beethoven sat down at the old harpsichord and played as he had never played before. His listeners were spellbound. "Tell us," they begged, "who are you?" For answer he played the opening bars in the "Sonata In F." "It is Beethoven!" they exclaimed in awe and admiration. Suddenly the candle flickered and went out. Beethoven ceased playing and bowed his head upon his hand. His friend threw open the shutters. A flood of beautiful moonlight entered the room. Its transfiguring light touched up the poor old instrument and rest-other coins.—Minneapolis Journal. ed upon the noble figure bowed before The profound silence was broken at last by the musician, who said: "Listen. I will improvise a sonata to the moonlight." Then was created this won-

derful sonata, beginning in a sad, ten-der movement, the embodiment in sound of the gentle moonlight transfig-uring and glorifying the dark earth. Suddenly the music ceased, and with

a brief farewell Beethoven hurried home to put upon paper this famous

Antiquity of Tennis.

Among all the popular games of to-day none perhaps is of greater an-tiquity than tennis, for it is said to have originated in the ball games of ancient Greeks and Romans. In first place the ball was struck by the hand, later on heavy gloves were worn or cords strapped round the palm. and the racket was contrived during the fifteenth century in France, where the game was very popular, and thence introduced into England.—London Cap- "Yes, indeed."

A single grain of the resin of Indian hemp will produce catalepsy in a man. A few hours are required for the effects to reach a climax, when his limbs may be placed in almost any position without difficulty, and when once placed they remain in the given position indefinitely, although the natural influence of gravity would cause them to fall. During the catalepsy the body is usually insensible to all im-

Taken In One Way.

He—So you persist in breaking off the engagement? She—Most decidedly. What do you take me for? He— Oh, about forty. Better think it over. It may be your last chance.—Harper's

pressions.-Exchange.

#### BIRD FLIGHT.

flying creature. The Australian crane, for instance, weighs over 300 times more than the sparrow, but in proportion has only one-seventh the wing area of the smaller bird.

This curious fact is equally striking If we compare birds with insects. If the guat were increased in size until it was as large as the Australian crane and if the wings of the insect were enlarged to maintain the proportion they now bear to its body they would be about 150 times larger than the

It requires 3.62 square feet of wing area per pound to float the bank swal-low, but to sustain the tawny vulture, a monstrous bird in comparison, re-quires only .68 of a square foot of wing surface per pound of body. The albatross, weighing eighteen pounds, has a spread of wing of eleven feet six inches, while the trumpeter swan, weighing twenty-eight pounds, has a spread of wing of only eight feet. The stork weighs eight times more than the pigeon, but in proportion has only much wing surface.-Every body's Magazine.

#### PALFREY FOR DINNER.

It Was Not Horseflesh, However, That

Dr. Johnson Ate.
Dr. Johnson in his journal mentions the interesting fact that he had on a certain day had "paifrey for dinaer." Now, these three words have caused not a little trouble to the critics, and for this reason, that they know not what palfrey really is. It has been suggested that palfrey is a clerical er-ror made by the doctor himself for pastry, but the doctor wrote so legibly and there is so much difference be-tween the words pairrey and pastry that this position is not at all tenable.

Palfrey is defined in Johnson's celebrated dictionary as "a small horse fit for ladies," and some have thought that the doctor (whose feats as a trencherman were notorious) may have broken a record on the day in question and disposed of a small horse. All these and other conjectures are wrong, and we will proceed to give the correct explanation

The word palfrey (sometimes pam-frey by the interchange of 1 and m) is still in use among the rustics of Scotland and the north of Ireland and means young cabbages when they first come to table in the spring. Such cabbages have not begun to "close" or become solid in the center. They are generally spoken of as "early pamfrey" and are considered a luxury. Dr. John-son probably picked up the word from

## OUR COIN MOTTO.

Story of How Beethov 1 Created His "In God We Trust" Suggested by a

Maryland Farmer.

To an honest, God fearing farmer of the state of Maryland is due the motto, "In God we trust," which appears on the coinage of the United States. In 1861, when Salmon P. Chase was secretary of the treasury, he wrote to him that as we claimed to be a Chris-tian people we should make some suita-ble recognition of that fact on our

Pollock, director of the mint, who discussed the matter in his report for 1862. Congress was apathetic, and Chase mentioned it to the lawmakers

"The motto suggested, 'In God our trust,' is taken from our national hymn, 'The Star Spangled Banner.'
The sentiment is familiar to every citizen of our country. It has thrilled millions of American freemen time is propitious; 'tis an hour of national peril and danger, an hour when man's strength is the kness, when our strength and sals on must be of God."

was authorized by congress to be coined the following year, April 22, 1864, and upon this was first stamped the motto, "In God we trust." By an act of March 3, 1865, it was extended to

## WANTED SOME FLOWERS.

young lady who is to graduate tomorrow," she said. "What have you?" "How would some American Beau- lie's Weekly.

es do? ...ae florist.
"What are they worth?"
"The best are \$7 a dozen."

The woman thought a moment. "Have you none cheaper?" she asked. "Yes," said the florist, "we have some with short stems for \$3 and \$4."

She looked at the carnations. "How much are these?" she asked.
"We have them for 50 cents a dozen and 75 cents a dozen. "Would carnations do for a graduat-

red one and a white one."

The florist gasped. "Shall I put them in separate boxes?" he asked.

A Wrong Steer.

A mathematical professor had been PRICES THE LOWEST!

invited by a city friend to visit him at his residence in a certain square and had promised to do so. Meeting him some time afterward, the friend inquired of the professor why he did not come to see him. "I did come," said the mathemati-

cian, "but there was some mistake. You told me that you lived in a square, and I found myself in a parallelogram, so I went away again."

#### BRILLIANT OSTENDE

buildings and the lighthouse it is almost turned into day. This lighthouse is quite a curiosity. It dates back to 1771, and now in its rebuilt and modernized state it throws : gleam over

the country for forty-five miles round.

We are fond of referring to Broadway, New York city, as an especially cosmopolitan street; but, if you will cosmopolitan street; but, if you will permit the expression, it is not in any way "in it" with the promenade at Os-tende. All countries are represented, and every representative is in his Sun-day best. On a sunny afternoon in the season the boulevards of Paris are not more brilliant than this far famed avenue.

Here the German officer is not in uniform, but in the full glory of his spot-ies white flannels, his many colored wide silk beit and his imitation panama hat. And as he passes a group of attractive ladies his waxed mustache will grow stiffer in its upward twirls, and his walking stick will cut the air even more jauntily than before. If his monocle be especially eleverly han-dled and his face show an unusual number of the much coveted saber scars, he may be rewarded with a mur-

mured "Reitzender Kerl." The tall, black bearded Russian will walk somberly along and show no emotion or interest in anything, but you may be sure that very little will escape his notice, and at the casino when the play is high you will always find him in close attendance.-Charles F. Peters In Bohemian Magazine.

#### Queer Smokes.

"Tobacco," said a tobacconist, "is one of many herbs that are smoked. In the orient, for instance, bhang or cannabis, a drug that gives one the desire to caress people's feet, goes into loads of pipes. Some savages smoke the leaves of the wild potato and the wild tomato. These bitter leaves are narcotic. They throw you into a pleasant stupor. Pur-sued in, though, they bring insanity. Some of the Swiss guides smoke 'mountain tobacco,' a weed that grows only at great heights. This stuff pro-duces an intoxication akin to alcohol's. Our Indians, when hard up, smoke holly and sumac leaves and the silvery leaves of 'Indian tobacco,' which every leaves of 'Indian tobacco,' which every boy has chewed."—New Orleans Times-Democrat.

## An Author's Journal.
