

EXCEPTIONS ARE DISMISSED

At a session of argument court Saturday morning Judge Evans dismissed the exceptions filed by the D. L. & W. Railroad company to his decree made November 9, 1907, dissolving the preliminary injunction and permitting the Danville and Bloomsburg Street Railway company to cross the D. L. & W. tracks at grade. At the same session a return for superdeas was presented by Hon. H. M. Hinckley, attorney for the D. L. & W. Railroad company. Judge Evans made an order directing that the appeal in the above case act as a superdeas. This precludes all possibility of operating the street railway over the D. L. & W. crossing until the matter is finally adjudicated by the supreme court, which does not meet until March.

Hon. H. M. Hinckley, who presented the matter, set forth that on November 9th, 1907 the court made the decree:

1. "That it is not reasonably practicable in the construction and operation of a street railway of the Danville and Bloomsburg Street Railway company upon Mill street in the Borough of Danville at a point where the track crosses the track of the plaintiff's railroad to avoid a grade crossing."

2. "That the Danville and Bloomsburg Street Railway company be given permission and the right to construct and operate its street railway on the said Mill street across the road way and track of the D. L. & W. Railway company at the same grade thereof, subject, however, to the payment of such damages as the plaintiff company may sustain arising from the negligence of the defendant street railway company in the construction and operation of such crossing when the same may be properly ascertained."

3. "That the preliminary injunction heretofore granted be dissolved."

Reviewing the 4th, 5th, 6th and 7th sections, which relate to terms, the return sets forth, in addition:

"That on the 11th day of January, 1908, your honorable court dismissed the exceptions filed by the plaintiff to the above finding and decree and directed that the decree entered in 1st, should be made the permanent decree in the case."

"That the plaintiffs have appealed from the said decree of your honorable court to the supreme court of the State and have filed in the office of the prothonotary a bond in the sum of \$10,000 conditioned as required by law; that they have also filed in the prothonotary's office a specification of the errors which they claim have been committed by your honorable court and upon which they intend to rely on the appeal to the supreme court."

"Your petitioners pray the court to direct that the said appeal shall act as a superdeas and that all further acts on the part of the defendant in the establishment and use of the said grade crossing be staid pending said appeal."

The court made the following order: January 11, 1908, the above petition presented and after due consideration the prayer is granted and it is directed that the appeal in the above case act as a superdeas and that all further acts in relation to the establishment and use of said grade crossing be staid pending said appeal. By the Court, CHARLES C. EVANS, P. J.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and the restorer given to its normal condition, hearing will be destroyed forever; in case out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

Simple Remedy for La Grippe.

La grippe coughs are dangerous as they frequently develop into pneumonia. Foley's Honey and Tar not only stops the cough but heals and strengthens the lungs so that no serious results need be feared. The genuine Foley's Honey and Tar contains no harmful drugs and is a yellow package. Refuse substitutes. For sale by all dealers.

Thieves at Washingtonville.

The store of George K. Heddens, at Washingtonville, early Sunday morning was the scene of a bold attempt at robbery, which was frustrated by the warning given by a burglar alarm and subsequently the whole neighborhood, scaring the robbers into a hasty retreat just after they had gained an entrance to the store.

Auditor's Finish Their Work.

The county auditors wound up their work at the court house on Saturday. They report that they found the accounts in perfect condition, without the discrepancy of a single cent in any department.

EXPLODING LAMP CAUSES FIRE

A house on Third street, Welsh hill, owned by the Reading Iron company and occupied by William Owen, was destroyed by fire early Sunday morning. Nearly all the household goods were saved.

The house burned was next to the last house on the west side of Third street and occupied the highest point of Welsh hill. It was a two-story frame dwelling and contained five rooms. The occupants consisted of William Owen, his wife and three children.

The fire was caused by the explosion of kerosene lamp. One of the children being indisposed, when the family retired Saturday night a lamp, turned down low, was left burning on the landing at the top of the stairs.

About two o'clock Sunday morning the lamp exploded. In an instant there was a fire, which spread so rapidly as to defy all attempts to extinguish it. The family, aroused by the explosion, did their best to smother the flames and might have succeeded, had the burning oil not run down between the flooring and the chimney where it ignited the woodwork inside of the plastering.

The neighbors were quickly aroused and while some ran down town to get word to the fire department others formed a bucket brigade and tried to extinguish the fire. In a short time, however, the flames burned through the weatherboards on the north side of the house. The high wind then blowing drove the flames back into the house, where defying the bucket brigade, they speedily ate their way between the weather boards and plastering and rapidly enveloped the entire house.

Meanwhile willing hands were busy carrying the household effects out of doors. With the exception of one bed every article in the house was saved.

The alarm of fire was promptly sounded and the entire fire department responded. The burning house, however, was most difficult of access. Aside from its outlying position, the succession of hills leading to it had to be reckoned with as well as the rain that was falling and the mud and the slush under foot, which made the way doubly laborious.

The companies, however, all succeeded in dragging their apparatus to the scene of the fire but they were too late to render much assistance. The Goodwill company succeeded in getting a stream on the fire but it is claimed that whether due to a defect in the fire plug or lack of pressure it was impossible to throw the water to any height.

The firemen, however, continued to battle with the flames, but before they succeeded in extinguishing them the entire dwelling was burned with the exception of a portion of the first story. The timbers, remaining, however, are so badly burned and charred as to be worthless, and the structure will have to be razed to the ground.

The residents of Sidler hill were early on the scene of the fire and, pending the arrival of the fire department, worked hard both in attempting to extinguish the fire and in carrying out the furniture.

Sunday Mr. Owen and his family found a hospitable home with relatives and friends. Their household effects likewise were taken care of by neighbors and were said to be scattered about over a large portion of Welsh hill. It is fortunate, indeed, that Mr. Owen's loss was small, as he carried no insurance on his household goods.

HOW PURE MILK IS PRODUCED

Will T. Suter has installed the Hoard model cow stall at his new barn on Sunnyside farm. There is a greater significance to be attached to this than might seem apparent at first thought, as it marks the progress that is being made in dairying—in sanitation as relates to the production and the care of milk.

There are few persons familiar with farm life who do not carry in their minds unpleasant memories of the cow stable, full of bad odors and unsanitary, where such a thing as real cleanliness, either as it relates to the stable or the cows themselves was scarcely ever dreamed of. When such conditions exist the quality of the milk produced is naturally in keeping with the cows and the surroundings.

The model stall with which Mr. Suter has equipped his stable most convincingly demonstrates that with the proper care and attention, the cow can be kept as clean and free from bad odors as a well-groomed horse and that the milk can be sent to market free from the least suspicion of harboring dangerous germs. Such a barn indeed is well worth a visit.

So far as can be determined the Hoard model stalls adopted by Mr. Suter are the only ones to be found anywhere in this section. Indeed, up to the present there are only a few in use in the country. The stall renders it impossible for the cow to soil herself.

The principal feature of the model stall is a movable ledge or crosspiece on the floor, some four inches high, which is adjusted to suit the exact length of the cow. In front of the ledge clean bedding is kept for the cow to lie upon, while behind the ledge taking in the whole row of stalls is a groove in the floor, which is cleaned out and flushed several times daily.

When the cow wishes to lie down, to avoid the ledge or cross piece on the floor she steps forward, bringing practically her whole body on the clean bed, which from the position she occupies it is impossible for her to soil.

The rack in the model stall is so constructed that when the cow arises she is obliged to step backward, which brings her hind legs outside of the ledge.

Cleanliness in the production of milk is still further promoted by a custom that is never departed from in Mr. Suter's barn. Before each milking the udder of every cow is washed with warm water and soap. Thus it is rendered impossible for bacteria of the stable or minute particles of dirt that might adhere to the cow to find their way into the milk. As an extra precaution once a month all the superfluous hair is removed from the cow's udder.

Mr. Suter's herd of cows contains thirteen beautiful Holsteins, the greater number being registered and every one of which is a pet. There are three other cattle, not Holsteins, but which share in the general good treatment. Due to the healthy stock and cleanly surroundings the milk from Mr. Suter's dairy has been known to preserve its sweetness and purity for three days or longer even in the summer season.

PERFECT CONFIDENCE.

Danville People Have Good Reason for Complete Reliance. Do you know how— To find quick relief from backache; To correct distressing urinary ills; To surely cure sick kidneys? Just one way—your neighbors know Have used Doan's Kidney Pills; Have proved their worth in many tests.

Here's Danville testimony. Mrs. Edward E. Lunger, of 11 Church street, says: "I still think a great deal of Doan's Kidney Pills. I would not think of being without them in the house. I made a statement for publication in 1896 in which I gave my opinion of Doan's Kidney Pills on account of the great benefit I had received from their use. I have never had any cause to regret making that statement and now over ten years afterwards, I can reiterate the statement. Before taking this remedy I suffered for months with backache and lameness and soreness in the back. The pain over my hips was continuous and when on my feet it was one steady gnawing ache. It hurt me to do anything requiring a bending position, sharp twinges would catch me so suddenly that I had to brace myself until they stopped. The kidney secretions annoyed me and I often suffered from headaches. I read statements given by people in this vicinity who had used Doan's Kidney Pills and concluded to try them. They did me more good than any other medicine I ever tried. After a few doses I no longer experienced such severe pain and finally the pain was removed entirely. The annoyance caused by the irregularities of the kidney secretions was entirely removed. I can honestly recommend Doan's Kidney Pills to those suffering as I did."

For sale by all dealers. Price 50 cents. Foster-McBarn Co., Buffalo, N. Y. sole agents for the United States. Remember the name—Doan's—and take no other.

Visiting Their Father.

G. W. Harris and L. G. Harris, of Texas, are visiting at the home of their father, A. G. Harris on Cherry street. G. W. Harris is a civil engineer in the employ of the Santa Fe Railroad. His brother, L. G. Harris, who left Danville a year or so ago, is employed on the same cords.

Disturbed the Congregation.

The person who disturbed the congregation last Sunday by continually coughing is requested to buy a bottle of Foley's Honey and Tar. For sale by all druggists.

Severe Storm at Washingtonville.

The storm which passed over this section early Sunday morning assumed very severe proportions at Washingtonville. A limb from one of the locust trees in the vicinity of Fanny Heddens' hotel was hurled against a window of the ball room, shattering the shutter and breaking the glass. Minor damage was done at other places.

FIRST AID TO THE INJURED

Next Thursday evening at the Y. M. C. A. will be given the first of a series of ten instruction lectures on "First Aid to the Injured." Dr. E. A. Curry, of this city, will be the instructor and will follow the course directed by the First Aid association, of America, of which Miss Clara Barton is president.

The Y. M. C. A. has taken the initiative in this important movement realizing that in nearly all cases of accident there is no one present who is sufficiently posted to be able to give even temporary relief to the sufferer.

The lessons or lectures, ten in number, will cover all ordinary cases of accident, including fractures, burns, dislocations, lacerations, bleeding, etc., with practical instruction in the use of bandage and in the transportation of the injured.

The object of the class is to teach the men to care for the injured in cases of minor accident, where the services of a physician are not necessary and also to know what to do in cases of serious accident until the arrival of a physician, and above all what not to do in all cases.

The first session of the class will be held next Thursday evening at 8 o'clock and will continue on the same evening for ten weeks. At the end of that time an examination will be held and diplomas awarded by the First Aid association of America to successful students.

Already there are promised from different manufacturing establishments of the town a number of students, whose fees will be paid by the firms they represent.

While the class was formed mainly for these, any man will be admitted upon the payment of the class fee. A special rate is made for members of the Y. M. C. A. A First Aid text book and a package of bandages is furnished without additional cost to each student. Any inquiries regarding the class may be addressed to the general secretary.

Surprise Party.

A very pleasant surprise party was held at the home of Mr. and Mrs. M. A. Gearhart, of West Hemlock township, Friday, the occasion being Mrs. Gearhart's birthday. Those present were Mr. and Mrs. T. M. Wintersteen, Mr. and Mrs. L. C. Shultz, Mr. and Mrs. A. J. Balliet, Mr. and Mrs. John McInch, Mr. and Mrs. Peter Shultz, Mr. and Mrs. M. A. Gearhart, Mr. and Mrs. D. I. Davis, Mr. and Mrs. Clark Long, Mr. and Mrs. Lorenzo Albertson, Mr. and Mrs. D. W. Ande, Mr. and Mrs. Lloyd Bomboy, Mr. and Mrs. J. W. Ande, Mr. and Mrs. W. R. Wintersteen, Mr. and Mrs. W. B. Moore, Mr. and Mrs. Pierce Gearhart, Mr. and Mrs. W. P. Moore, Mr. and Mrs. Charles Gunter, Mrs. C. C. Sterling, Mrs. V. C. Trout, of Philadelphia, and children, Fred and Elizabeth, Mrs. E. B. Keptner, Philadelphia, Mrs. Emma Cronley, Bloomsburg, Mrs. Emma Benfield, Mrs. John Benfield, Mrs. Heller, Mrs. Jacob Gearhart, D. F. Crossley, T. H. Benfield, Misses Ruth Shultz, Joy Billheim, Nellie Werkheiser, Myrtle Ande, Emma Gearhart, and Maribel Shultz. Master Myron Gearhart, Shuman Ande, Raymond Gearhart, Donald Albertson, Robert Gearhart, Charles Thomas Wintersteen.

THE ANNUAL BUSINESS MEETING

The Woman's Benevolent society of Danville held its annual business meeting at the home of Mrs. S. F. Ricketts Friday afternoon. Officers were elected and managers were chosen to represent each of the different churches of town. From now on meetings for sewing will be held every three weeks in the rooms of the society on the third story of the Thomas Beaver Free library building. The organization is now ready to actively enter upon its work of ministering to the necessities poor.

The officers elected are as follows: President, Mrs. S. Y. Thompson; secretary, Mrs. S. F. Ricketts; treasurer, Mrs. I. A. Persing; vice presidents, Mrs. James Foster, Mrs. E. C. Johnson, Mrs. George M. Gearhart, Miss Penina Bright, Mrs. Simon Dreifuss, Mrs. Amos Vestine.

Managers were chosen as follows: Grove Presbyterian church, Mrs. J. E. Gearhart and Mrs. W. L. McClure. Mahoning Presbyterian church, Mrs. James W. Kirk and Mrs. I. G. Barber. Pine Street Lutheran church, Mrs. E. C. Johnson and Mrs. Charles Haver.

Trinity Lutheran church, Mrs. Elizabeth Thatcher and Miss Margaret Aten. St. John's Lutheran church, Mrs. Edward Purpur and Mrs. Kehl. Christ Episcopal church, Mrs. William Maier and Mrs. Charles Robson. St. Paul's M. E. church, Mrs. Elizabeth Fisher and Mrs. David Guert. Trinity M. E. church, Mrs. John M. Seehler and Mrs. David Roderick. Shiloh Reformed church, Mrs. J. E. Guy and Mrs. J. H. Cole. St. Joseph's Catholic church, Miss Maggie Murray and Mrs. James Finigan.

St. Hubert's Catholic church, Mrs. J. H. Goeser and Mrs. Joseph Lechner. United Evangelical church, Mrs. Jacob Dietz and Mrs. Minerva Brader. First Baptist church, Mrs. John Vestine and Mrs. Arthur Myerly. B'n'e Zion congregation, Mrs. Samuel Goldsmith and Mrs. Julius Heim. During the past year \$150.73 were disbursed by the society, the items being as follows: George W. Root, \$5.00; dry goods, \$46.32; coal, \$59.65; groceries, \$10.91; milk, \$3.66; shoes, \$10.60; meat, \$13.59; supplies and printing, \$5.50.

A number of appeals have already been made to the society and the members foresee a hard winter ahead in which charitably inclined people will find plenty of work to do among the poor. Unfortunately the Woman's Benevolent society has limited resources. Its sole revenue lies in the dues of the members, the Thanksgiving offering and the interest of the Josiah Wolf bequest.

With the money available the members never turn a deaf ear to real want and suffering. Indeed, few people have an adequate idea of the amount of good which through discriminate and systematic giving, with the means at hand is accomplished by this band of charitable and self-sacrificing women. In many a darkened home the contribution of coal, flour, clothing or other necessity has brought temporary relief, tiding the family along until a more prosperous period has been reached.

Special Announcement Regarding the National Pure Food and Drug Law.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. For sale by all druggists.

Severe Storm at Washingtonville.

The storm which passed over this section early Sunday morning assumed very severe proportions at Washingtonville. A limb from one of the locust trees in the vicinity of Fanny Heddens' hotel was hurled against a window of the ball room, shattering the shutter and breaking the glass. Minor damage was done at other places.
