ADJOURNED COURT ON SATURDAY

A session of adjourned court was held on Saturday morning with his Honor Judge Evans and Associates Blee and Welliver on the bench. Edward S. Gearhart presented a petition from the county commissioners relating to the case of William Spade, convicted of selling liquor to a minor on January 16th and duly sentenced by the court to pay the costs of prosecution, a fine of fifty dollars for the use of the Commonwealth and undergo an imprisonment in the county jail for twenty days and stand committed until the sentence may be complied with.

The petitioners represented that the defendant had since been discharged from the custody of the sheriff and from confinement in the county jail without having paid to the county either said fine of \$50 or the costs of prosecution, which amount to \$40 and that therefore the aggregate sum of \$90 was still wholly due and payable to the said county as aforesaid.

The petitioners prayed the court to grant a rule on the said William Spade, the said defendant to show cause why he should not pay the said fine and costs including the costs of proceedings to the said county forthwith or why he should not be further re-committed to said county jail upon such further non compliance with said sentence and also why he should not be further committed to said county jail as being in contempt of this court in the premises.

DECREE OF COURT

The court granted a rule on William Spade, the said defendant, to show cause why he should not pay the said fine and costs, etc., or why he should not be further re-committed to jail upon such further non compliance with the said sentence and also why he should not be further committed to said jail as being in contempt of court in the premises. Rule returnable forthwith.

The court at once made the rule absolute. In default of payment of fine and costs the defendant to be forthwith committed to the county jail.

QUOIT PITCHERS PAY FRATERNAL VISIT

A half a dozen members of the Sunbury quoit club paid a fraternal visit to the Danville quoit club Tuesday, spending several hours pitching quoits with the Danville votaries of the old-time game.

As implied, the Danville Quoit club is not the only organization of its kind, maintaining comfortable quarters, warmed and lighted, where the game goes on, during the winter as well as summer, and at night as well as during the day time. The Sunbury quoit club is probably as large as the club in our town and comprises among its members many acknowledged experts.

The Danville quoit club was organized last fall a year ago with Jesse Shennon president; Ira Everhart, vice president; H. R. Moore, secretary; W. H. Ammerman, treasurer, and John Brugler, W. E. Kase and Michael Conley, trustees. The new club leased a hall and went into things on a large scale. The excellent standing of the club today justifies the departure made.

The membership numbers forty, the full limit, in addition to which there is a long waiting list. The club affords healthful and harmless recreation to a large number of people and the sound of the quoits may be heard every day of the week except Sunday often continuing until ten o'clock at night. On the list of members are merchants, retired gentlemen, and professional men including ministers of the gospel.

The officers serving last year were then re-elected in quick succession as follows:

Secretary and receiver of water rents, H. B. Patton. Borough treasurer, Harry Ellenbogen.

Street commissioner and market master, E. S. Miller. Chief of police, J. C. Mincemeyer. Assistant police, John Grier Voris. Borough solicitor, E. S. Gearhart. Borough surveyor, G. F. Keefer.

CATAWISSA BRIDGE IS DANGEROUS

The commissioners of Columbia county believe that Superintendent Leonard, who was in charge of the construction of the Catawissa river bridge several years ago, neglected his duty.

They claim that he allowed the contractor to use unsuitable and cheap material in the floor, whereby the same is now in a dangerous condition, requiring a new floor. Also that the contractor used unsuitable and cheap material in the sub-structure and super-structure of the bridge, contrary to the plans and specifications, in consequence of which the bridge is now in an unsafe and defective condition.

MR. AND MRS. CURRY IN DRIVING ACCIDENT

Mr. and Mrs. William Curry, of Mooresburg, met with a driving accident, Monday in which they were both thrown out into the snow, but luckily escaped injury.

Mr. and Mrs. Curry along with the robes in which they were wrapped were thrown out along side of the road, while the horse turned and retraced his steps back toward the Curry homestead.

RADICAL CHANGES IN COMMITTEES

Council having effected an organization for the ensuing year interest now centers on the appointment of the standing committees, which this year will embrace several radical changes, to conform with resolutions bearing on the matter adopted at the meeting Monday night.

President Andrew Schatz stated Tuesday that he will announce the committees at the regular meeting on Friday night. The resolutions adopted provide for the total abolishing of several committees and the creation of new ones better adapted to meet recent legislation and modern conditions.

Among those entirely abolished is the "Committee on Ordinance and Police." In lieu thereof a "Committee of Law," to consist of four members of council is to be appointed, to which shall be referred the preparation of all borough ordinances and the consideration of all other legal matters. In lieu of a "committee of police" as hereinbefore abolished a "committee on public safety," to consist of four members, is to be appointed as aforesaid and thereby created to enforce the following borough ordinances: 1. Coal oil, or any burning fluid; 2. hogs; 3. fireworks; 4. live stock; 5. nuisances; 6. police department; 7. preservation of the peace; 8. public safety; 9. railway trains; 10. shooting galleries; 11. shows; exhibitions, etc.; 12. street railways; 13. telegraph, telephone and electric light poles; 14. traps and to enforce all other orders, rules and regulations designed for the peace and welfare of the community.

WILL TRY FOR BIG CONVENTION

At a recent meeting of the executive board of the Danville fire department it was decided to take decisive steps toward the securing of the annual convention of the Six-County Firemen's association for Danville next year.

Previous to the action of the fire board each of the four companies of Danville had taken action singly endorsing the movement to bring the big fire fighters' gathering to this city.

The Six-County association is one of the largest and most influential of the sub-organizations in the State and includes Montour, Columbia, Northumberland, Luzerne, Lackawanna and Schuylkill counties. The annual conventions are held in June and cover three days, bringing together thousands of firemen from all over this section. The convention this year is to be held in Hazleton.

At the meeting of the fire board, when the above action was taken, committees were appointed to canvass the town to secure subscriptions for defraying the expenses of the convention. The members will call upon the people during the first part of next week. No money will be asked for, but only pledges of what the contributors are willing to give, so that some idea will be gathered whether or not it will be wise to go ahead with the preparations for securing the meeting here.

There is always a big fight to secure the convention, and if the subscription committees meet with success in their canvass, it is the intention of Danville's four companies to go to Hazleton in June with bands and drum corps and wrest the convention from all rivals.

FEEDING STUFF LAW ENFORCED

The feeding stuff law of Pennsylvania, which was placed upon the statute books by the last session of the legislature, is being vigorously enforced in all parts of the State, by the department of agriculture through the division of feeding stuffs control.

At the present time the department has sampling agents who are visiting feed dealers throughout the State, and securing samples which are forwarded to F. D. Fuller, chief chemist of the department of agriculture, for analysis. During the past six months, the chemist has found many brands of feed, particularly those manufactured in the western States, largely adulterated with rice hulls, which are injurious to the health of domestic animals, according to experiments carried on in the southern States. These rice hulls are usually found in molasses feeds, of which there has been a large sale. The results of the chemical and microscopical examinations are reported to the secretary of agriculture, who orders prosecutions to be brought against those who are violating the law. G. G. Hutchison, general agent of the department of agriculture, is in immediate charge of the prosecution, and as a result of numerous convictions that have been secured, several hundred dollars in fines and analysis fees have been covered into the State treasury since August 1, 1907.

NO CRIME TO KILL CHICKEN THIEF

The grand jury of the Schuylkill county court Tuesday ignored the bill against John Synkiewicz of Shenandoan, who killed Simon Bevan, a chicken thief.

Bevan had stolen several chickens from the coop of Synkiewicz late one night. Synkiewicz and his two associates pursued Bevan and chased him several miles through a deep snow. Just as they were about to catch up to him, it is believed that Bevan half turned around to face his pursuers and Synkiewicz then fired at him, the bullet penetrating the left shoulder and piercing the heart, causing instant death.

IMMERSED IN BOILING VAT

William Mausteller, an employe of the Pennsylvania Paper Mills company at Catawissa, was plunged into a vat of boiling water yesterday and that he escaped alive is due to the presence and quick action of two other employes of the mill.

When he rose to the surface the first time he was grasped by the two men who saw the accident and dragged from the vat. Mausteller was terribly scalded over his entire body, but will recover.

FORTY PRESENT AT DEMONSTRATION

The first demonstration and talk at the permanent demonstration orchard at the hospital took place yesterday afternoon with A. W. Stephens, State inspector, in charge. Mr. Stephens pruned several of the trees, talking meanwhile on the subject of pruning and answering numerous questions that were brought up by the interested spectators. The inspector did not have time to prune all the trees in the orchard yesterday and will finish today.
