

LOCAL TIME TABLES.

Table with 2 columns: EAST and WEST. Rows include P.E.N.N.A. R.R. and D.L. & W. R.R. with various times for different routes.

THE OLD CANAL WILL REMAIN

It has now become quite apparent from the trend of events that the fondly cherished dream that the State might be induced to bring the hospital sewer down the canal connecting with the borough sewer at the aqueduct, thereby abolishing the old waterway, is not to be realized, at least, at the present, but that another experiment is to be made at the hospital with a view of disposing of the sewage on the grounds of the institution. The true status of the old canal as a nuisance will appear plain from what follows:

It develops that State Health Commissioner Samuel G. Dixon is unalterably opposed to the pollution of streams by sewage and that he can not be induced even in face of the somewhat anomalous conditions that exist here, to render Danville safe for all time by carrying the hospital sewer down the canal. The health commissioner prefers rather to replace the present inefficient sewage disposal plant at the hospital with a new system, which is found very efficacious at other places. Thus he acts consistently with his views in dealing with the evil of stream pollution, at least, does not permit it to increase.

Those acquainted with Dr. Dixon's views foresee that it will be only a few years until the pollution of streams will be a thing of the past and that every municipality will be legally obliged to take care of its own sewage. The general belief, however, was that the problem would be solved by bringing the sewage down the canal, with Dr. Dixon's consent, and by the hospital uniting with the borough in the establishment of an incinerating plant below town. It has been found, however, that the cost of installing such a plant would be enormous and that the borough's share of the expenditure would run its indebtedness far beyond the limit that it can legally carry.

The system of sewage disposal to be installed at the hospital consists of a series of filter beds. In theory during the process the liquid in the sewage becomes purified to a degree that places it on a par with pure water. People have their prejudices, however, and whether impure or pure it would not be pleasing to reflect that the sewage, filtered, was finding its way into the river at the hospital.

In this connection it is comforting to note that a committee of council on a recent visit to Harrisburg was given to understand by the State engineer that the affluent from the filter beds along with the stream from the wash house now the source of pollution, would be brought down through town in pipes of suitable capacity sunk in the bottom of the canal. Thus, at least, if there is no misunderstanding in the matter the borough is likely to get rid of the filth and the stench which are the most dangerous and repellent factors in the canal nuisance, even if the old waterway as an eyesore has to be tolerated for a year or so longer.

WILD BILL'S MAINTENANCE

Interest in the case of William Guilford (Wild Bill), who last fall was adjudged insane and committed to the hospital for the insane at Warren, was revived on Saturday morning, when a petition was presented to court by the county commissioners asking that a rule be granted on Clinton county and the City of Lock Haven to show cause why Montour county should not be reimbursed for past expenses and future cost in the case of the said William Guilford.

The petition, which was signed by the full board of county commissioners, George M. Leigbow, Charles W. Cook and George R. Sechler, represented in effect as follows: That William Guilford was convicted of crime and in default of sentence on September 28 last was committed to the county jail. That on October 12th on petition of Dr. Curry a commission was appointed to inquire into the mental condition of said William Guilford. That on December 7 the commission presented its report setting forth facts which showed that Guilford was of unsound mind; that he had been confined in the hospital for the insane at this place on several occasions; that his place of legal settlement was at Lock Haven; also that the history of his case revealed that his mental disease began about eighteen years ago and that his case is regarded by the authorities at the State hospital for the insane as incurable.

COURT GRANTS A RULE. Judge Evans accordingly granted a rule on the county commissioners of Clinton county and the overseers of the poor of Lock Haven to show cause why the poor district of Lock Haven should not be adjudged by the court as the place of legal settlement of William Guilford; why such legal settlement when thus adjudged should not be certified by the court to the trustees of the hospital for the insane at Warren (where Guilford is incarcerated) and why therefore the county commissioners of Clinton county and the overseers of the poor district of the city of Lock Haven, or either of them, should not pay the said petitioners all the money already expended by them as aforesaid and why said petitioners should not have legal remedy in the premises for the future reimbursement to the said county of Montour of all expenses that may hereafter be incurred by the county of Montour in the detention, maintenance and care of the said William Guilford, in and by the State hospital for the insane at Warren or elsewhere to be incurred in the proper court and jurisdiction. Rule returnable on the 11th day of April, 1908, at 10 o'clock.

A Life at Stake. Your life may be at stake when you notice any sign of kidney or bladder trouble as Bright's disease and diabetes start with a slight irregularity that could be quickly cured by Foley's Kidney Remedy. Commence taking it at the first sign of danger. Sold by all druggists.

On a Trip South. J. R. Sharpless, ex-sheriff of Northumberland county, is on an extended trip through the South. Last week word was received from him from New Orleans.

A Narrow Escape. Many people have a narrow escape from pneumonia and consumption as a result of a cold that hangs on. Foley's Honey and Tar cures coughs and colds no matter how deep seated and prevents pneumonia and consumption. Refuse substitutes. Sold by all druggists.

Fiftieth Wedding Anniversary. Invitations have been received in Danville for the fiftieth wedding anniversary of Mr. and Mrs. J. C. McCullom, of Espy. The affair will take place on March 17th.

A Card. This is to certify that all druggists are authorized to refund your money if Foley's Honey and Tar fails to cure your cough or cold. It stops the cough, heals the lungs and prevents serious results from a cold. Cures the grippe coughs and prevents pneumonia and consumption. Contains no opiates. The genuine is in a yellow package. Refuse substitutes. Sold by all druggists.

Born, a Daughter. A daughter was born to Mr. and Mrs. J. J. Newman, East Mahoning street, Sunday morning.

How Cough Germs Multiply. When you have a cold the mucous membrane is inflamed and the disease germs which you breathe find lodgement and multiply, especially the pneumonia germ. Foley's Honey and Tar soothes and heals the inflamed air passages stops the cough and expels the cold from your system. Refuse substitutes. Sold by all druggists.

Sleighting Party. A very pleasant sleighting party was held at the home of Mr. and Mrs. E. D. Williams, Valley township, Saturday night. Music and games were the amusements and refreshments were served. Those present were: Mr. and Mrs. Frank Hendrickson, Mr. and Mrs. Richard Rogers, Mr. and Mrs. Enoch Williams, Misses Mamie Roberts, Edith Rogers, Edna Hendrickson, Ethel Rogers, Rosa Williams, Edna Hendrickson, Miriam Hendrickson, Messrs. William Sidler, Jesse Hendrickson, William Appelman and Thomas Rogers.

Kennedy's Laxative Cough Syrup acts gently yet promptly on the bowels and allays inflammation at the same time. It is pleasant to take. Sold by Paules & Co.

HORSE KILLED—DRIVER INJURED

Mr. and Mrs. J. O. Haughwout, who reside a short distance below Kipp's Run, figured in a thrilling runaway accident Sunday in which one of the team of horses was killed and Mr. Haughwout was severely injured.

It was about 10 o'clock Sunday morning that Mr. and Mrs. Haughwout were out driving behind a fine team of bays owned by Mr. Haughwout, when a trace dropped frightening the animals. The horses started to run and at the first intimation of danger Mrs. Haughwout jumped from the vehicle, alighting in safety; Mr. Haughwout stuck to the reins in an attempt to subdue the horses. His efforts were without results. Some distance from the scene of the mishap the team broke away from the carriage, throwing Mr. Haughwout from the vehicle and severely injuring him about the face and head. The horses continued their mad flight, and arriving at the county bridge both fell over the steep embankment into the creek. One horse sustained a broken back and was shot. The other horse ran home. Mr. Haughwout valued his team at \$500.

Thousands Perish. Thousands perish every year from consumption resulting from a cold. Foley's Honey and Tar cures the most obstinate racking coughs and expels the cold from the system, prevents consumption and pneumonia. It has cured many cases of incipient consumption. Sold by all druggists.

Installing Improvements. General Manager George M. West is making some important changes in the office of the Standard Electric company in the Brown building, Mill street.

A portion of the apartment on the south side is being enclosed by a very artistic partition. This space will be occupied by Superintendent West and his corps of clerks, while the main apartment will be used for the display of gas stoves, lamps and fixtures of various kinds that are in demand where gas and electricity are used.

Kodol is a scientific preparation of vegetable acids with natural digestants and contains the same juices found in a healthy stomach. Each dose will digest more than 3,000 grains of good food. Sold by Paules & Co.

To Continue in Operation. The Reading iron works, which started up last week in four departments, are still booming along. The complement of men ordinarily employed at the plant are at work. That the four departments resumed Monday morning is an encouraging circumstance and altogether the men are much cheered by the prospect.

A telegram from Reading, printed in the newspapers Monday, described a general resumption in that city, closing with the additional statement that the Danville mills of the Reading Iron Company are to continue in operation. Get DeWitt's Carbolized Witch Hazel Salve—it is good for piles. Sold by Paules & Co.

Many Votes Lost by Moving Day. All of the candidates for office who are defeated at the general primary election, which will be held Saturday, April 11, will be able to have a good excuse to relieve the sting of defeat and a basis upon which to explain if conditions would have been different, how they would have been elected. As everyone knows the big day of early spring is the first of April, moving day, when a general change of residences annually occurs. As the primaries follow just 10 days later every voter who changes his residence will not be able to vote. This may make a big change in the votes for different offices.

A Most Valuable Agent. The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherry-bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in Golden Medical Discovery in subduing chronic or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherry-bark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition. It is not expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe chronic coughs, bronchitis, chronic sore throat and hoarseness. In acute coughs it is not so effective. It is in the lingering hangover cough, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvellous cures.

Prof. Emily Livingston, M. D., of Denning Med. College, Chicago, says of glycerine: "It is a most excellent purgative. Holding a fixed quantity of the peroxide of hydrogen in solution, it is one of the best cathartic medicines known. Its action upon enfeebled, disordered stomachs, especially if there is ulceration or capillary catarrh of the stomach, is a most efficient preparation. Glycerine will relieve many cases of typhoid fever and excessive gastric (stomach) acidity." "Golden Medical Discovery" enriches and purifies the blood curing blotches, pimples, eruptions, scrofulous swellings and old sores, or other skin diseases.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the natural medicinal roots composing this wonderful medicine. There is no alcohol in it.

APPLICATIONS FOR FREE TREATMENT

Mr. G. A. Stock, who has charge of the dispensary for tuberculosis in this county, Friday returned home from a visit to Wilkes-Barre, where he visited the Luzerne county dispensary.

He was much pleased with the working of the latter dispensary and regards it as an illuminating object lesson to show the magnitude and the importance of the work that the State has undertaken. Under the treatment in Luzerne county at present are 324 patients suffering with tuberculosis at various stages. Not a few who have advanced to a serious stage show signs of marked improvement. One physician with six assistants has charge of the dispensary. During February 209 dollars worth of eggs with milk in proportion was furnished free at the dispensary.

Dr. Stock is confident that the tuberculosis dispensary in this county, although essentially smaller, can be made just as efficacious as the one at Wilkes-Barre. He obtained ideas from his visit that will be of value to him in the conduct of affairs relating to the free treatment of tuberculosis in this county.

There have already been applications at the local dispensary and by next week no doubt treatment will be under full swing. Any person suffering from disease, who would like to have an examination made to determine whether there are symptoms of tuberculosis are at liberty to apply to the dispensary, but with the more examination free treatment ends except in cases where the person is unable to employ a physician and is too poor to stand the outlay for milk and eggs that make up the diet while under treatment.

Foley's Orino Laxative is sold under a positive guarantee to cure constipation, sick headache, stomach trouble, or any form of indigestion. If it fails, the manufacturers refund your money. What more can any one do. Sold by all druggists.

Odd Fellows at Shamokin. Shamokin will be the mecca for Odd Fellows the 28th of next month, when the 89th anniversary will be celebrated with all the pomp and splendor which characterizes the order. Ten thousand members of the I. O. O. F. from the district which extends from Lock Haven to Reading will be there and the occasion promises to be one of the most brilliant in the history of the coal region's metropolis, says the Shamokin Daily News.

Preparations on an elaborate scale are now being made by committees and everything possible will be done to insure the visitors hospitality and enjoyment while in Shamokin. April 28 is known as "Odd Fellows' Day" and each year demonstrations are held. Shamokin was chosen as the place for this year's gathering and the town will endeavor to outdo itself in the matter of entertaining the visiting hosts.

Six counties, including Montour, compose this district and every one of them will send large delegations. The business sessions will be held in the Y. M. C. A. building while the headquarters will be the Windsor and Graemar hotels.

The town will begin to take on a festive appearance a week before the anniversary. A skilled decorator from Paterson, N. J. has been hired to decorate the streets and buildings of the city and arches will be erected at various points. The Odd Fellows will be there for two days and during that time business of great importance to the organization will be transacted. A parade will be one of the features of the gathering.

Committees from the Shamokin lodges are now making a tour of the town in an effort to secure funds to defray the expenses of the decorations.

Hadley's Pictures. Edwin J. Hadley's world famed moving picture exhibition will be the attraction in the Danville opera house this evening, given for the benefit of the Danville bible class. The true merit of the Hadley exhibition and the worthiness of the cause to which the proceeds are to be devoted will ensure a packed house.

Danville people like moving pictures, and above all they like Hadley's pictures, because he never shows views that are old, and beside being interesting and instructive his subjects are presented with absolutely no flicker and as smoothly as if the action were really taking place before the eyes of the spectators.

Mr. Hadley's subjects for tonight will include, among others, the following: In the Presence of Royalty—King Edward of England.

Sea Bird Colonies—a beautiful nature study. A tour of picturesque Belgium. Life of a South African Zulu. New views of S. S. Marretania—largest and fastest in the world. Ant Life—a remarkable and interesting study.

Uncle Sam's Great Battleship Squadron at Hampton Roads, Va., prior to departure for the Pacific. New views of the Great Victoria Falls—entirely different from the series previously presented.

The Napier Automobile Race—a Track Event. Many other rare and novel views. The prices for the exhibition are 25, 35 and 50 cents. Reserved seats 50 cents. The advance sale is now on at Hunt's.

LAY DELEGATES ARE CHOSEN

Our local Methodist Episcopal churches are shaping affairs so as to be ready for the session of the Central Pennsylvania conference, which convenes at York on March 18th to remain in session until the 26th inst. The session of conference, over which Bishop Wilson, will preside, will be an especially large and important one, probably double the usual size, by reason of the attendance of lay delegates chosen to elect delegates for the general conference, which meets at Baltimore in May.

Lay delegates have been chosen by the Danville churches as follows: St. Paul's, O. R. Schilling; alternate, B. W. Musselman; Trinity, Walter Lunger; alternate, P. J. Kefer; St. Peter's, W. R. Clark; alternate, John Keim.

All three of our churches are in a prosperous condition and will have very good reports to present to conference. At St. Paul's the Rev. M. K. Foster has sustained his past record as an able and eloquent divine. The church in point of membership, collections, &c. is quite up with previous year.

Trinity M. E. church has put in a very busy year. Rev. L. D. Ott is one of the most able and energetic ministers in the Central Pennsylvania conference and this year was the case last year the showing is one to be proud of. In point of fact, notwithstanding the period of depression existing the condition of the church is better than at any time in its history. The finances are in good shape, while during the year the parsonage was in part refurnished: the vestibule of the church was frescoed in oil, the woodwork was retouched and matting was placed on the floor. The revival services resulted in thirty-two conversions, all with two exceptions being adults.

During the conference year the Rev. L. Dow Ott officiated at ten weddings. During the same time he conducted the services at thirty funerals, the most of which occurred outside the congregation. A departure inaugurated at Trinity M. E. church during the year is the holding of young people's meeting every Friday night. The object of the meetings is to promote sociability among the young people and from the first the meetings have proven well attended and popular.

St. Peter's M. E. church has also made an excellent showing. The Rev. J. Conley Grimes is one of the rising ministers of this conference and large congregations are attracted by his eloquence while his sound and practical views on all matters affecting things temporal or things sacred and eternal find a ready acceptance. Improvements at church and parsonage have been installed during the year, while in point of collections and accession to membership the showing is quite up to that of the most prosperous years of the past.

In what way the appointments may affect the local churches can not be determined at this time. Rev. M. K. Foster, pastor of St. Paul's states that he expects to change. The Rev. J. Conley Grimes, who completes his first year at St. Peter's at Riverside, will return if the congregation that he is so acceptably serving is permitted to have a voice in the matter. At the quarterly conference a formal request was made that he return to Riverside. The members of Trinity M. E. church have also invited their pastor, Rev. L. Dow Ott, to return. Mr. Ott is completing his second year at Trinity and his popularity seems to be increasing as time wears on. Like Mr. Grimes he will be pretty sure to return to his charge.

DeWitt's Little Early Risers, small, safe, sure little liver pills. Sold by Paules & Co.

Graft to Jury Today. HARRISBURG, March 11. Unless present plans are changed to-day marks the final arguments in the first of the alleged capitol graft cases, the trial of Sanderson, Snyder, Shumaker and Mathes, accused of conspiracy in the "trimming" of the building.

Charles H. Bergner, Shumaker's special counsel, began his summing up when court opened. He was expected to close by the noon recess. Special Counsel Scarlet and Attorney General Todd are scheduled to finish their addresses for the commonwealth before noon.

Tomorrow, under this plan, Judge Kunkle will give his instructions to the jury and it is expected the jury will retire tomorrow afternoon. Just how long will be required for deliberation is of course, a question. In view of the duration of the trial and the enormous mass of evidence presented, attorneys familiar with the situation predict many hours will be taken for consideration of the case. Pledgments were made today in some quarters that a verdict will not be reached before Saturday, if at all. Judge Kunkle will hold the jurors together as long as there is any possibility of a verdict.

On Monday morning as John Wittacher, of Conyngham valley, Luzerne county, went into his barn to feed his live stock, carrying a bag of chopped feed, a wild cat pounced upon him. Under the weight of the feed and the animal, he fell to the floor and for a short time there was a fierce struggle between the man and the beast in which Wittacher was badly scratched until he beat the animal away with a board.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood. All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble. If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address Binghamton, N. Y., on every bottle.

ODD FELLOWS GAVE DINNER

The Exchange Lodge of Odd Fellows on Saturday evening played host to a fine dinner given to about 50 of the members and their ladies. The affair was tendered in honor of Hon. and Mrs. L. W. Welliver, of Exchange.

Those present were Hon. and Mrs. L. W. Welliver, Mr. and Mrs. Cryus Mohr, Mr. and Mrs. Roscoe Mohr, Mr. and Mrs. W. E. Lowe, Mr. and Mrs. W. H. Dildine, Mr. and Mrs. W. R. Mills, Mr. and Mrs. L. A. Acor, Mr. and Mrs. Alfred Bitler, Mr. and Mrs. Jerry Diehl, Mr. and Mrs. Charles Yagel, Mr. and Mrs. Amos Albeck, Mr. and Mrs. Frank Ellis, Miss Susie Yagel, Miss Maud Mohr, Miss Benzie Mills, Miss Dorothy Ellis, Wesley Bombay, B. E. Stead, William Black, Schuyler Diehl, Harry Flora, L. Albeck, D. W. McCarty, Randall Ellis, D. B. Mills, W. J. Mohr, and Lol Bartlow, of Exchange; Mr. and Mrs. Elmer Frymaire, Will Feinour, Robert Seibert and L. Acor, of Ottawa; C. E. Lowe of New York; Mr. and Mrs. George M. Weller, of Pine Bluff North Carolina; H. N. Lowe, of New Berlin.

The Exchange Lodge of Odd Fellows was started 34 years ago by Dr. McHenry, now of Benton, Wm. Romig, of Muncy R. F. D. and Daniel Diehl, deceased, of Exchange. Among the older members now are Wm. Romig, Dr. McHenry, Robert Caldwell, Wm. Black, A. H. Litchard and D. A. Cox.

HENRY FISHER'S LAST CHANCE

On March 30th the attorneys for Henry Fisher will present to the supreme court the evidence in the case and the reasons upon which they base their claims for a new trial for their client. This is their last chance to save Fisher from the gallows, unless the board of pardons commutes the sentence of death to life imprisonment. Fisher in the meantime occupies his cell in the Northumberland county prison at Sunbury and bothers himself little with such small matters as new trials and pardons, but spends his time amusing the other prisoners by singing German songs.

Kodol is today the best known remedy for all disorders of the stomach, such as dyspepsia, heart burn, sour stomach and belching of gas. Sold here by Paules & Co.

The "Hello" girls of the People's Telephone company at Wilkes-Barre, went on a strike ten days ago because the seniority rule in making promotions was not observed, but on Monday a satisfactory settlement was made and the girls returned to their work.

If you could always read the heart of your neighbor many surprises would meet you.

Advertisement for Ayer's Own Doctor. Text: "Ask Your Own Doctor. If he tells you to take Ayer's Cherry Pectoral for your severe cough or bronchial trouble, then take it. If he has anything better, then take that. We have great confidence in this medicine. So will you, when you once know it." Includes an illustration of a doctor and a bottle of Ayer's Own Doctor.
