NEW UNIT IN COMMISSION

The new unit at the municipal light plant went into commission Saturday night. An improvement of the light was one of the things not figured on, as the light always has been of the very best. The new engine and dynamo, therefore assumed their burden very unostentatiously, and compara tively few persons knew that the electricity illuminating the streets was being generated by the modern and expensive unit that for a mouth past has been the centre of so much inter-

The current was put on Saturday afternoon for the first time. As might have been expected of machinery so perfect the new unit carried its load admirably. Indeed, the engine and dynamo each ran like a piece of clock couple of times during the afternoon by way of trial and after some read-justment about the engine it was left stand until 6:20 o'clock, when, with-stand until 6:20 o'clock, when, withstand until 6:20 o'clock, when, without any special ceremony, it assumed the burden of lighting the town.

The new unit is a ponderous affair and, fully equipped for service, affords an object lesson to show the rapid progress made in the field of discovery and invention during a few years past.

ing the Allis-Chalmers company, had able to carry out any obligations made charge of the unit the firstfuight. Ed-ward F. Bell, the carries proposed. MARVIN, ward F. Bell, the regular engineer, was also on duty.

The borough is now supplied with two units. The engine and dynamo installed when the borough entered upon its own lighting and which has been very hard worked, will now he pation.
