# EXCURSIONIST CAME TO GRIEF

Among the hundreds of excursionists who wended their way to Shamokin on Tuesday to attend the great convention of Odd Fellows, there was at least one whose desire to see the gathering was greater than his means to pay his way, with the result that he spent the night in the lockup at Sun-bury and will spend the next twenty days in the Northumberland county

Fred Stutzman is a resident of Williamsport, and his chief occupation consists in dodging work and in visiting all great functions in the vicinity that may be graced by his presence He has a bad reputation among police circles, and enjoys the distinction of being the laziest man in that town. When the large excursion train left Williamsport for Shamokin, he went with it, arriving safely [after managing to elude the trainmen. After spending an enjoyable day at the conven tion he started to return with the train, beating his way by riding blind baggage. At Reed's station he came to grief and was captured by Special Officer J. C. White. He was taken to Sunbury and lodged in the lockup where he spent the night. Yesterday morning he was taken before Justice of the Peace Shipman, where he was given a hearing, after which he was sent to prison for twenty days.

#### TRUANT OFFICER CAUSES ARREST

As the end of the school term approaches and the lure of the pleasant spring weather is felt among the pupils the truant officer's troubles begin to multiply.

E. Young, attendance officer of the Danville public schools, yesterday caused the arrest of one of the patrons of the second ward school, whose daughter failed to attend the required 75 per cent. of the time belonged. The officer states that he will be obliged to proceed in like manner in several other cases, if the parents do not turn over a new leaf and require their children to be present in school the required percentage of time. Yesterday was the first arrest for neglecting to send children to school that has occurred in this city for some months

The truant officer states that those cases where the pupils are out of school with the parents' knowledge and consent give him a great deal more trouble than the cases of mere truancy-where the pupil remains out

of school without leave.
The officer, therefore, is giving his attention to the derelict parents at

For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headaches, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, ofttimes, with a debilitating, pelvic, catarrhal drain and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, in giving strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The "Favorite Prescription" is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nervine and cures nervous exhaustion, neurous prostration, neuralizia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs.

A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. #### THE FORTY BEACHES OF NEW JERSEY.

PENNSYLVANIA RAIL ROAD

The one hundred and twenty-five odd miles along the New coast line from Long Branch to Cape May presents the greatest pleasuring section in the United States.

Upon the bluffs of the northern end and the gently shelving sands of the southern end are located forty resorts which entertain during the spring and summer seasons millions of pleasure seekers.

At no time in the year is this section more delightful than during the spring and early summer months. One who has not seen them at this season would marvel at their delights. The great pine belt, which extends through the center of New Jersey, fills the air with life-giving ozone, which combined with the salty tang of the sea and the open air exercise possible at all times, is exhilarating and tonic to the highest de-

Long Branch, with its beautiful cottage-neighbors, West End. Hollywood, and Elberon: Deal and Allenhurst, largely devoted to cottage life; Asbury Park and Ocean Grove, attracting thousands yearly; Ayon, Belmar, Como, Spring Lake, and Sea Girt, are a galaxy of attractive places upon the bluffs where "the country meets the sea."

Then the Barnegat Bay section, where Point Pleasant, Sea Side Park, Island Heights, Barnegat City, and Beach Haven, with other smaller places nearby, welcome the summer so-

Atlantic City, with its seven miles of beach and drives, and its charming suburbs, leads the island resorts, separated from the main land by the great salt marshes.

Ocean City, Sea Isle City, Avalon, and Stone Harbor; Anglesea, Wildwood, Holly Beach, and Wildwood Crest also have a large summer population.

And Cape May, with its new million dollar hotel and its wonderful improvements makes a fitting climax and holds a high place among the forty beaches.

The Pennsylvania Railroad is the direct route to all of these resorts from all sections of the country. Its splendid train service makes each of them neighbor to all the rest and to the world at large.

# PART OF HIS BRAIN OOZED OUT

A most remarkable case is that of stone township, who was injured Sun-

When Dietrich was found he was lying between the animal's front legs and the manger and was unconscious. Later when the physicians arrived it was discovered that the whole right the brain substance was oozing out.

It was the wonder of the doctors that the man was still living, and they gave out but slight hope that he would survive throughout the night. Yesterday morning, however, he seemed to have rallied somewhat and even appeared to understand questions that were addressed to him and would mumble a reply.

It was decided Monday morning to remove the man to the Williamsport hospital. Monday afternoon, at that institution, an operation was performed and several pieces of bone were re-

Word from the hospital Monday eve condition was very slightly improved, they would extend no hopes for his recovery. They said it was a problem with the hospital physicians how he has survived the injury at all, as some of the brain substance had been lost and the brain itself was injured.

The theory of the accident now is that Dietrich was climbing over manger when he fell in front of the back of the ear and the toe of the shoe about 1400 pounds.
