A Lazy Liver May be only a tired liver, or a starved liver. It would be a stupid as well as savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lask it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It re-stores the normal activity of the stomach, increases the scerctions of the blood-mak-Danville a Wet Town. yesterday. Grass seed should have been sown over a month ago, but the work was held back until after the formal transfer of the tract from the church trustees to the borough. Mean while, under the heavy rains, the ground has become packed and the grass and weeds have got a start

Don't make any mistake, but remem

ON PUBLIC PARK

The borough has resumed work on

Before seed can be sown the entire tract will have to be worked over. It was a question at first whether a plow or harrow could not be used to an advantage, but such an idea was ab andoned finally, and the men were put to work spading the tract, digging it around precisely as a garden bed. The process is somewhat slow but the tract is being put in excellent condition the sod and weeds being turned under and the surface made as level and smooth as a floor. The work began on Monday and by last evening a large area had been spaded.

The park where dug up lies a few inches higher than the side walk. To retain the ground a neat border of sod about a foot in width is being placed all around the edge of the park, which adds greatly to the effect. After the ground has been placed in proper condition, which will occur during the present week, the western half of the tract will be sown with grass seed.

Before this will be completed, however, council will convene, when it will be left for that body to take action on the completion of the eastern half. There is still some grading to be done in the latter part of the tract, in addition to which the old Petriken cemetery is not yet wholly obliterated. In the completion of the eastern half of the tract there may be some delay, but it was explained yesterday that there is little doubt but that it will be finished during June and July

show in himself. The show is filled

with the most laughable situations and

Southern life way back in the anti

bellum days. The show will be held in the ground

adjoining the Reading station. Ad-

mission 10 and 20 cents. A special

afternoon.

THOSE BIG CITY MINSTRELS

Nearly every one likes a fine hair dressing. Something to make the hair more manageable; to keep it from being too rough, or from splitting at the ends. Something, too, that will feed the hair at the same time, a regular hair-food. Well-fed hair will be strong, and will remain where it belongson the head, not on the comb!

Shot Dog as Precaution. For several days past the shepherd dog belonging to Norman Bitler, An-
