DARING ESCAPE FROM BLOOM JAIL

John McCarty implicated in the Jaffe robbery, at Berwick, about one month ago, made a daring escape from the Columbia county jail, at Bloomsburg, Tuesday night, and although every effort has been made by Sheriff C. B. Ent, no trace of his whereabouts can be found.

While Miss Lizzie Ent, daughter of the sheriff and Mrs. Ent, the wife of the prisoner, were allowing a woman to pass out of the door leading into the jail, McCarty shoved them aside, and rushed out of the corridor and made his escape running up Iron street and then down the D. L. and W. railroad tracks.

The escape was evidently a well planned one for McCarty just prior to his making the dash for freedom had stolen a gold watch from a fellow prisoner.

As he ran up Iron street, several parties saw him, but they, thinking it was a man chasing someone, made no effort to stop him.

Thinking that McCarty would go back to Berwick, Sheriff Ent went to that place, and made arrangements for his capture in case he should go there.

CURE FOR DIVORCE.

How Bishop Fallows Would Unite Estranged Wives and Husbands.

Bishop Samuel Fallows of the Reformed Episcopal church, who founded Christian psychology, has taken another plunge into the occult, says a Chicago dispatch.

"One cannot believe unless he puts himself in the position to believe; one cannot love unless one puts himself in the position to love; one cannot continue to love unless one wills to continue to love. Of course we cannot will to love and then love or will to believe and then believe."

"What the will can do is to create by auto-suggestion a will in its subconsciousness to continue in love or to believe. This I make use of in my efforts to reunite people who have entered into the holy bonds of matrimony and who think that they have ceased to love each other."

"The first thing to do when one of these persons comes to me thinking that he or she has ceased to love is to set the will in operation to bring to the subconsciousness a consciousness of the past. It is idle to say, 'You must love one another.' No amount of will can bring that about, but the will can summon recollection."

"I say to the troubled one if a woman: 'Go back over your whole life. Go back and reflect on the time that you were being wooed and won. Did you take a great magnifying glass then to look for faults? Were you happier than now? They say that love is blind, but this is to be taken in a limited sense as blind to faults. Nothing in the whole world is more keen sighted to see good qualities. You are blind to the good in taking a magnifying glass to the faults. Go back into the past and think of the way you sacrificed and toiled to make the home. Recall the good times you have had together.'"

"In this way is created by auto-suggestion the will to continue in love, which may prove more powerful than the false belief that they cannot love. This same method can bring about marriage."

Bishop Fallows concluded with these epigrams:

"Love once and you must love always. Love cannot be killed once it is installed. There is no earthly power that can make two people fall in love with each other. If two people really love each other once, that love can always be revived. Deep in their hearts they will always love one another. Divorces are but the climax of half-hearted battles."

WILMINGTON, DEL. July 1. In reply to a question from a representative of the Associated Press Judge Gray this morning stated that he had just sent a telegram to the New York "Evening Journal," as follows:

"I have your telegram saying that it is stated positively that I will accept the Vice Presidential nomination and asking whether this is true. As I have repeatedly said I would not consent to being placed in nomination as a candidate for the presidency, I now say with equal emphasis that I will, under no circumstances, consent to a nomination for the Vice Presidency." (Signed) "George Gray."

STEPPED IN FRONT OF TRAIN

Emmit Langan, of Scranton, a flagman on the D. L. & W. railroad, was instantly killed Tuesday morning just above the Berwick depot when he stepped in front of the down passenger train which reaches Danville at 9:15 a. m.

Langan was with the freight crew of train No. 733, and had just turned a switch to allow the passenger train to run by, after the freight train had been switched in on the siding. After turning the switch he turned and walked on the main track, directly in front of the passenger train. He was struck and knocked several feet from the track, and when picked up by his fellow workmen he had expired.

A deep gash across his forehead where the pilot of the engine struck him was the cause of his death. Besides the gash in the forehead his left arm was crushed between the elbow and shoulder.

The body was placed in the caboose and taken to Berwick and later was taken to Scranton, where burial will be made.

Langan was aged about thirty-five years and was unmarried.
