NEWS ITEMS FROM 'ROUND THE STATE

Chester county, was terribly gored by a vicious bull on Monday but was saved by a hired man from a horrible

Ham and green peas gave ptomaine poisoning to Frank Pfeffer and his family of seven children, in Pottsville, on Monday, and all became seriously ill.

While a 5-year-old son of William Ford, of West Schuylkill, near Pottsville, was eating peanuts on Monday a kernel lodged in his windpipe and choked him to death.

The Reading company's anthracite collieries will be in operation three days this week with the exception of those in western Schuylkill which will be operated five days.

Michael Finnegan, of Scranton, died on Monday, from injuries sustained on the Fourth by the explosion of a small cannon his left arm having been torn Pittston. off and both eyes blown out.

School directors of the borough in York county are demanding a higher scholastic standing of applicants for positions as principals of the schools and in consequences there are vet a number of vacancies.

A nine-months-old child of Stephen Beazin, of Pittsburg, died on Monday morning, and physicians who attended the child say it died of nervous shock caused by the repeated explosion of fire crackers on the Fourth.

While Henry White, was at the bottom of a deep excavation in Washington, repairing a leak in a waterpipe, a runaway horse fell into the ditch up on him, crushing him so severely that he died of his injuries on Monday.

Orville A. Yeahl, of Slatington, reports that up to this time he has taken 35 pounds of honey from four hives of bees this season. This is a remarkably good record and he expects to realize 400 pounds more during the summer.

Bert Ulmer, who in May, 1907, was sentenced at Easton to ten years imprisonment in the Eastern penitentiary for horse stealing and was lately trans ferred to the Norristown asylum because of insanity, has escaped from that institution.

On Monday an 8-year-old son of Mack Beatty of Dayton, Armstrong county, ran in front of his father's mowing machine to open a gate for him, when the child's foot was caught by the machine and cut off, before the horses could be stopped.

When Edward Weimer, of Quarry- of Mr. and Mrs. J. C. Robbins. ville, county, entered his home or Sunday night and lighted a lamp he was confronted by a burglar who at once blew out the lamp. A desperate fight followed in which Weimer was escaped through a window.

When John Henry Barrows, organizer of the world congress of religions, held in Chicago in 1893, was president of Oberlin college, he was approached by an insurance agent who wanted to write a policy on his household goods.

To this the man of education arread

policy was delivered and the agent's suit.

poncy was delivered and the agents report forwarded to the company.

Late in the afternoon Mrs. Barrows went to her room and there saw smoke oozing out around the closet door. She pulled the door open and found fire smoldering among the clothes which draped the wall. Some valuable garments were destroyed before the blaze was out.

Chance For Imagination.

Newspaper men were to be excluded from a famous trial. "That's good," one of them remarked. "I hate to be hampered by facts in writing up a case of this kind."—Exchange.

The Wife Did It All.

was out.

Dr. Barrows got the insurance man on the telephone and told him what had happened. The agent went to the house, prepared an adjustment report and forwarded it to the insurance company for the present was a superscript for hours. pany not more than twenty-four hours after the issuance of the policy. Two days later Dr. Barrows had a

Two days little Dr. Barrows and a telegram from the secretary of the company, an old friend of his.
"Your polley written morning of Wednesday," it read, "Fire was at 5 o'clock. Why this delay?" Busy June.

Busy June.

June's the month of brides and roses,
Of bright green and brilliant posies,
Of the fair girl graduate,
Of the fair girl graduate,
Queenly in her own girl state;
Of the lovely summer girl,
Putting men's hearts in a whirl;
Month of pleasure and of duty,
Filied with color and with beauty.

June's the month of country flitting, of love talks 'neath moonlight sitting of picnies and of excursions, of all open air diversions, of all open air diversions, of the temperature that's rising (Which all folks take as surprising); Month of lassitude and worry, Wishing for vacation's hurry.

June's the month of storms and thunder And of starlit nights of wonder, of the final preparation of the wardfobe for vacation, of the trip across the ocean; Month for putting plans in motion. Tis enough to make it dizzy, Ali the things that keep it busy!

Water pipes springing leak under the prove to be a great convenience. Water pipes springing leak under the paving is becoming a rather serious.

The concrete platform is one hundred feet long, eight feet wide and frequently than was figured on when the pavement was laid. To remove the

The break yesterday afternoon was no exception. By last evening two excavations had been sunk in the paved street about thirty feet apart, almost directly in front of Fallon's. This morning the paving will be opened at another point, probably on the south side of the D. L. & W. crossing.

There is no sign of a leak on the surface of the street, but the water can be heard running into the sewer bethis proved to be no criterion. It is probable that the water leaking out of the pipe, unable to work its way through the concrete, turned its course downward flowing a great way through the bed of cinder forming the road bed before it found an outlet in the sewer.

dier's Wife" Mrs. Ellen Biddle tells an amusing story.

There was a very estimable woman

living at the garrison, a veritable Mrs.
Malaprop. She told us of some jewelry she had lost, and among the things was a topaz chain with a beau-

tiful "pendulum."

The lady held an auction before she left, after her husband's death, and when some silver plated knives were put up for sale she rose and in a sob-bing voice said: "Oh, dear, no! I can-not sell them! They have been in dear John's mouth too often!"

"Your suggestion," said a depositor to the bank receiver, "offers very cold comfort. It is a bachelor's comfort that is to say, no comfort at all. "'What,' said a bachelor to a Bene-dict, 'only married a year and already

so blue?'
"'Ah, but,' groaned the Benedict, 'I

never imagined that a wife would prove so expensive.'
"The bachelor patted the blue mar-ried man on the back in a consolatory

way.

"'Yes,' he said, 'a wife is an expensive article, that is true. But then you must remember that she lasts a very long time.'"

New Derelict Destroyer.
The new derelict destroyer Seneca will fill an important function in the protection of shipping. It will be the duty of this vessel to patrol the coast to rid it of the floating dangers and to be in readiness at any moment to cruise wherever a derelict may be reported, either by vessels entering port or by wireless messages. Each season there is a list of ships missing for unknown causes, and as it is probable that these dangerous hulks have much to do with sending sound ships to the bottom the activity of the Seneca may be expected to reduce this list. There will be other uses for the derelict destroyer, such as supplying sails and provisions for vessels in distress or taking off crews from unseaworthy or sinking vessels, but its real value will be in ridding the sea of one of its greatest

A STORY OF NELSON.

The Presence of Mind of the Great English Admiral.

Captain Mahan relates the following midst of hostilities:

The decks being cleared of all parti-Miss Helen Irland will leave today or a visit with her brother at West evening with friends in Bloomsburg.

It wow. One of the workmen descended into the sewer yesterday morning. He could see where the water entered, but view of all on the deck where he was, at the casing of the rudder head, standing, and as he wrote an officer standing by took a copy. The original, velope and sealed, with his arms. The officer was about to use a wafer, but Nelson said:

"No; send for sealing wax and can-

man's having had his head taken off by a ball. "Send another messenger for the wax," said the admiral when informed of this, and when the wafers At the different army stations in the west it is the practice for the officers on leaving their post for some distant station to sell off everything they do not care to keep. In connection with this custom in "Reminiscences of a Sol-"

Man's having had his head taken off by a ball. "Send another messenger for the wax," said the admiral when informed of this, and when the wafers were again suggested he simply reiterated the order.

A large quantity of wax was used

A large quantity of wax was used and extreme care taken that the im-pression of the seal should be perfect. Colonel Stewart asked:

"Why under so hot a fire and after so lamentable an accident have you at-tached so much importance to a circumstance apparently trifling?' "Had I made use of a wafer," re-plied Nelson, "the wafer would have been still wet when the letter was

presented to the crown prince. He would have inferred that the letter was sent off in a hurry and that we had some pressing reasons for being in a hurry. The wax told no tales.'

WHEN LINCOLN DANCED. Veteran Official's Reminiscences of th President's Attempt In Ohio.

"I shall never forget the only time Abraham Lincoln danced in Ohlo," said Colonel Isaac H. Marrow of Toledo, Chinese inspector in Ohio, the other day. Then he launched into remi-niscences of President Lincoln.

"I was commander of Governor Den nison's guards" (Marrow is eighty-three now and has served the govern-ment since the early forties). "We ar-ranged a ball for Lincoln, then just elected and going to Washingto When he came in, he said to me: T never danced. I don't know how. B I will lead the march if your wife will lead with me.' She did. She came be-low his shoulder. They circled fifteen times, and it was a sight that set the

crowd laughing."

Marrow was Lincoln's aid in the

Joke on a Presidential Possibility. Congressman J. Sloat Fassett of New York, who attended the Lincoln day banquet in Pittsburg, sprang a joke on the newspaper men the other after-noon. In spite of the fact that it had whiskers, it made a hit. Fassett in discussing presidential possibilities de-clared that the people of New York want Charles Evans Hughes for pres-

L. & W. railroad company put a force of men at work tearing up the concrete sidewalk preparatory to laying a new one, anecdote concerning Lord Nelson's let-ter proposing a truce to the crown prince of Denmark, dispatched in the level. The street commissioner was also on hand with his gang of laborers and began to tear up the paving pre-

paratory to filling up the roadbed. Today Borough Surveyor G. F. Keefer will come up from Sunbury to give the proper grade. The Danville and Bloomsburg Street Railway company in his own hand, was put into an en- will also be on hand with a force of en to raise the trolley track.

While work is proceeding along the three above lines the plumbers will have the fountain in charge, repairing and the pipes are exposed.

A FRONTIER MARKSMAN.

Wild Bill Hickok's Skill In Use of the Six Shooter.

Wild Bill Hickok was the first fron-tlersman who recognized the impor-tance of proficiency in the use of the six shooter. This was the real secret of his supremacy. He was an unerring marksman and shot as accurately un-der fire as when firing at a mark, ap-

parently taking no aim.

Probably no man bas ever equaled him in the lightning-like rapidity with which he could draw a weapon in time of emergency and in the thorough self possession that made it possible for him to take advantage of every oppor-tunity in savage conflict. He had a standing order to his deputies that they should not rush in on him in any of his affrays and especially should not come quickly up in the rear.

By forgetting this a man named Williams met his death at Abilene, Hickok taking him for an enemy and firing so rapidly that it left no opportunity for recognition. He readily killed a wild goose across the Smoky Hill with his revolver. Riding at his horse's highest speed, he fired shot after shot into a tin can or a post a few rods distant.

Standing at one telegraph pole, he would swing rapidly on his heel and fire a pistol ball into the next telegraph These were some of the simpler the street to settle little wagers.
could shoot a hole through a sil dime at fifty paces and could drive the do what the faucy shots of the present day do, and possibly some of them equal him as marksman with a re-volver, but it must be remembered that he was the first to acquire the skill, and the so called crack shots of his day were poor imitations at best, al-though most of them boasted of their

He shot just as well with others shooting at him and at a man as stead-ily as at any other target. There were certain traits of his character, however, that were almost womanly. He was fond of children, and they liked him. He declined to quarrel with the peace ful settlers of the community, the busi-There lowship.

A Great Lawyer's Method. Writing of "Civilian Leaders of the Confederacy" in the Louisville Courier-Journal, John Goode says of Judah P.

"The first time I met him we dis-cussed the practice of law, and in the course of the conversation he asked me what we considered a good fee in my part of the country, to which I replied that we considered \$500 a very respect-able fee He smiled and said: "When I practiced law in New Orleans if a man employed me I charged him a re-tainer. If he came about the office much I charged him a reminder, when I had done some work in the case I I had done some work in the case I charged him a refresher, and when it was all over I charged him a finisher."

Test For Hydrochloric Acid. A curious mishap gave us a very delicate test for hydrochloric acid in the atmosphere. In a north of England locality many houses have curtains of the cream color produced by metanil yellow, popularly known as "dolly" cream dye and to science as "the sophonic acid-azo-dipienyi-amine." Some of these cream colored curtains sud-denly changed to heliotrope. Investi-gation showed that an accidental es-cape of hydrochioric acid from a neigh-boring alkali plant had discolored the curtains, and the dye became a most

HUNTERS WON'T AID, SAYS KALBFUS

WILKES-BARRE, Pa., July 8.

Discouraged because the sportsmenof the State are doing nothing to encourage his efforts for the propagation of game birds here, Secretary Joseph Kalbfus, of the State Game Commission, tells in a letter to F. C. Mosier, of Pittston, just what he had to contend with. Mosier sent him a clipping and a postal, urging the stocking of the woods with game birds. In reply, Secretary Kalbfus says:

"Last year, through the help of the Pennsylvania State Sportsmen's Association, I attempted to have passed a law taxing resident gunners, the purpose being to rise a fund through which we could raise and buy game of different varieties for distribution throughout the State. I was at once jumped on by many men in the state, who ought to have seen the matter as I saw it, men who would have been benefited by such a procedure. I was called a grafter. The entire scheme was attributed to my "esire to steal." The scheme was pronounced not feasi-ble, and the Legislature so influenced that the bill did not even get out of committee. I must say that I am heartily discouraged in this direction. feel that such a procedure should be secured in some way in Pennsylvania If the sportsmen are not interested enough to pay a dollar for the right to use a gun in this State, I am afraid it will never be accomplished. In addition to this resident license, &I asked the last Legislature for \$10,000 for the purpose of propagating and buying game for distribution. "Mr. Sheatz, now state treasurer,

and then chairman of the appropriations committee of the House of Representatives, was interested in the passage of the resident; hunter's license bill. He thought it a good idea, and upon one occasion asked me what had become of this bill. I told him that it was in the committee, and that I was unable to have it brought out. 'Well, doctor,' he said, 'if the sports-men of this State, the men who hunt, are too penurious and close-fisted to be willing to pay \$1 each for the purpose of restocking the State with game, do you think it would be right for me, as chairman of the appropria-tions committee, to permit the passage of a bill taking \$10,000 out of the general fund of the State for that purpose? If you do, you are mistaken. wish to say to you that while I am interested in the subject of game protection, I cannot conscientiously recommend a bill of that kind under the cir-

cumstances. "Here you have the entire matter in a limited scope. I have done and am still willing to do everything I can. Without the help of the men in the State who are and who ought to be interested, I am absolutely helpless.

"I feel that if the sportsmen of the state will take this matter up and agitate it, if the men who are interested in increasing our game will discuss the matter with their members of the Legislature in every county, a measure of this kind can be passed by the Legislature, and will make game in this State as plentiful as it is in other states. With improved methods of killing game, something outside of the special increase must be adopted if we hope to have game in any quantities. I thank you for the interest you have taken in this matter.
