

LOCAL TIME TABLES.

Table with columns for EAST, WEST, PENNA. R. R., and SUNDAYS. Lists train times for various routes.

Table with columns for DANVILLE AND BLOOMSBURG STREET RAILWAY CO. Lists train times for routes to Danville and Bloomsburg.

A ROSY VIEW OF THE SITUATION

Prosperity, better and saner than the United States has ever known before, is foreseen for the next decade by Prof. Henry C. Adams...

CURE YOUR KIDNEYS.

Do Not Endanger Life When a Danville Citizen Shows You the Cure.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, languor, why allow themselves to become chronic invalids...

Twelfth Regiment Team. Following the rifle matches of the Twelfth regiment held at Sunbury last week...

Attention, Asthma Sufferers! Foley's Honey and Tar will give immediate relief to asthma sufferers...

MACADAM MUST BE RE-SURFACED

There is quite a general desire to know what has become of the proposition to repair the macadam on North Mill street...

A month or so ago, it will be recalled, the State highway department through its engineer called the borough's attention to the need of repairs and took the initiative in preparing for the work...

Automobilists are loud in their complaints. The macadam in question was a very good piece of work. It was made perfectly smooth and was given a good crown...

No matter how well drained the action of water on such a road, during a heavy rain, is bound to have some effect on the macadam. The constant grinding of wheels will do the rest.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

GOOD CROPS ARE NOT ASSURED

Several farmers who had business at the court house Monday indulged in a general discussion as to the crop prospects. They were unanimously of the opinion that there is too much overconfidence shown by persons who undertake to forecast as to the season's crops.

LITERARY INSTITUTE and STATE NORMAL SCHOOL

New Science Hall, costing \$75,000—Laboratory Methods—Good Gymnasium—New Library and Recreation Rooms—Well-Drilled Model School, with ample accommodations—New Athletic Field—Remodeled Kitchen Equipment—Improved Dining-Room Service—Free Tuition to Prospective Teachers—Healthful Location—33 Passenger trains daily—Fall Term opens Sept. 8, 1908—Classes begin Sept. 9th.

WEDDED ON SUNDAY EVENING.

Miss Lillian Nevius, of this city and James R. Leidy, of Buffalo, N. Y., were united in matrimony, Sunday evening. The nuptial knot was tied by the Rev. L. Dow Ott at the home of the bride's parents on Ash street at 8:30 o'clock.

Death of Mrs. Mary Turner.

Mrs. Mary Turner, a well known and esteemed resident of this city, died at her home, D. L. & W. avenue, at 11 o'clock Saturday morning.

HIGHWAYMEN WERE CAUGHT

Charged with complicity in the robbery of Carris Snyder, the Winfield butcher, who was held up on the Shickellamy road on Thursday afternoon, John Welch, of Milton, and William Frank, of Sunbury, were arrested at the Reading station in the latter town, Saturday morning by Officers Pursley and Buery, of the P. & R. coal and iron police.

The officers are looking for one, W. Herman, who is said to be missing and who is accused of being a partner in the crime. They expect to arrest him in the near future.

The robbery was one of the most daring that has ever been committed in this vicinity. One of the highwaymen pointed two revolvers at Snyder and commanded him to throw up his hands. A second seized the reins of the team, and the third clambered on the wagon and rifled his pockets of \$75 and a knife.

How to Avoid Appendicitis

Most victims of appendicitis are those who are habitually constipated. Foley's Orino Laxative cures chronic constipation by stimulating the liver and bowels and restores the natural action of the bowels.

COAL OIL STOVE CAUSES FIRE

A coal oil stove exploded in an out kitchen of Mrs. Martin Curry's residence, No. 107 Nicholas avenue, Sunday afternoon, resulting in a fire, which caused a loss of several hundred dollars.

The stove had been lighted to prepare supper, when the fire occurred. What caused the stove to explode is not known. In an instant the fire communicated to the wood work of the building. Although every effort was made with such means as were at hand to extinguish the fire, yet in a short time the flames were beyond control and the kitchen was destroyed.

Cured Hay Fever & Summer Cold

A. S. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." For sale at Paules & Co's. Pharmacy.

Stealing a Public Utility.

One of the newest forms of theft that has been discovered here is the stealing of the electric light bulbs from the lighting system of the river bridge. Last month eight of the lamps were stolen.

A Boon to Elderly People.

Most elderly people have some kidney or bladder trouble that is both painful and dangerous. Foley's Kidney Remedy has proven a boon to many elderly people as it stimulates the urinary organs, corrects irregularities and tones up the whole system. Commence taking Foley's Kidney Remedy at once and be vigorous.

Great Features.

The series of mystery stories now being published by "The Philadelphia Press" are surely the most interesting, thrilling and fascinating stories that have ever been published by any newspaper. The stories are filled with thrilling experiences, baffling plots and tragic endings, which keep the reader deeply interested from beginning to end.

SCHOOL BUILDING REPAINTED

Among the improvements ordered by the school board this year the bulk relate to the second ward building, which among other repairs has received a new coat of paint.

The contract for the painting was awarded to William Mottern, who has just completed the job. All the woodwork on the outside of the building was repainted. Not only are the evidences of good workmanship everywhere apparent, but the colors are appropriate and harmonious, imparting to the building a clean, bright and pleasing appearance.

Another important improvement at the second ward building is the installing of a very handsome curb of Wyoming blue stone along the north and east sides of the grounds. T. L. Evans' sons have the contract for this branch of the work. The curbing has become necessary in order to keep the grounds in repair. The grounds need filling up, but until the present it has been useless to make repairs, as with every heavy rain the material used in grading has been washed away.

RETIRES FROM BUSINESS

William Schoch, of Catawissa, has bought out G. Fred Smith, the well known restaurateur on Mill street. He has purchased the good will and fixtures and taken a lease on the building for five years.

Mr. Smith will retire after an active career of twenty-seven years. For twenty years he has occupied his present stand. Previously he conducted a restaurant in the Mansion house.

Mr. Schoch at the present time is landlord of the Susquehanna house of Catawissa. An application has been made for a transfer of license.

Funeral of Mrs. Turner.

Mrs. Mary Turner, whose death occurred Saturday, was consigned to the grave in the Old Fellows' cemetery Tuesday afternoon. The funeral was held from the Pine street Lutheran church at 2 p. m., Rev. L. W. Walter, pastor, officiating. The pall bearers were: Sam A. McCoy, George B. Jacobs, J. W. Swartz, and E. S. Miller.

Prizes Offered by the Merchants

The various articles donated by the merchants of town to be offered as prizes in connection with the races to be pulled off at the Merchants' picnic this afternoon were displayed in the window of Gosh's drug store yesterday and were viewed by a large number of persons.

Annual Outing Yesterday.

Danville Lodge No. 754, P. O. E., held its annual picnic at DeWitt's Park yesterday. The occasion proved quite a success. The slight rain had the effect of keeping down the attendance during the forenoon. Early in the afternoon, however, when the weather outlook became more favorable, a large number who hesitated during the morning, went over to the park.

CATFISH BY THE MILLION

Whatever conditions may confront the fisherman, who casts his line into the river there is one body of water where fish are plentiful and can be caught by the score, although it is the last place where one would expect to find any of the finny tribe, namely in the old canal.

For some time past rumors have come down town from the upper end of the borough to the effect that the old waterway for a square or so above and below Beaver street is teeming with catfish of all ages and sizes. Owing to some irregularity in the bottom of the old ditch, above the gas works the water lies some three feet deep, a condition which has obtained for years past.

In this "ooze and slime" the catfish live move and have their being. As is well known the catfish has a predilection for muddy waters and when it comes to diet it is not over fastidious in its tastes. It was never dreamed, however, by the best informed student of natural history that the catfish would go this limit. Suffice it to say, therefore, that the foul and reeky canal is so full of "catties" that they actually crowd each other. Residents near the spot produce testimony to show that the fish exist in "millions." At times they come to the surface and can be seen. Many of them are a foot in length, some are longer, but the majority are smaller in size and are rapidly growing and will therefore soon want more room.

Fishing in the canal, therefore, is good—if any one can endure the odor. But the catties when pulled out are of no use, as they can not be eaten, their flesh being tainted by the vile and undesirable odors of the waters they inhabit.

A number of people in the upper end of town are interested in a project to remove the catfish from the old canal and place them in the river, where in process of time their flesh may become purified and fit to eat. There seems to be only one way of getting the fish out of the canal and that is by seining the same. The parties interested, however, remembering the multifarious provisions of the fish laws are a little chary in the premises and do not care to wield the seine to get the catfish without first having some real good advice as to whether or not the operation might carry with it a violation of the law. It will probably be some time before anything is done to remove the fish—if ever.

There are many imitations of DeWitt's Carbolyzed Witch Hazel Salve but just one original. Sold by Paules and Co.

SOLDIER RETURNS FROM PHILIPPINES

R. S. Hahn, a young soldier, has returned to his home in this city after serving an enlistment in the Philippine Islands. He had a very interesting experience while in Uncle Sam's service and expects to re-enlist.

Mr. Hahn enlisted at Williamsport on July 28th, 1905. He was sent to the recruiting camp at Jefferson barracks, St. Louis, Mo. He was assigned to troop E, Third Cavalry. After three months at Boise, Idaho, Troop E. was ordered to San Francisco, whence five days later it embarked for the Philippine Islands. On January 15th, 1906, the transport arrived at Camp Stotzenburg, on the island of Luzon.

Mr. Hahn served two years and five months in the 3rd Cavalry when he was transferred to the 6th Cavalry. Shortly afterwards he was detailed on detached service at Manila, where he remained until June 14th last when he embarked on the transport Sheridan for San Francisco, landing there on July 18th last. After his arrival he was stationed on Angel's island. On July 24th he was discharged. It will be seen that the long period of six weeks or so that has elapsed since Mr. Hahn embarked at Manila has, with the exception of about ten days, been occupied with his journey homeward.

Mr. Hahn got his first taste of military life as a member of Company F, 12th regiment, N. G. P., to which he belonged for a couple of years. He is completely won over to army life and does not hesitate to say that, after spending some time with relatives in Danville, he will re-enlist.

During February last Mr. Hahn had the pleasure of running across First Lieutenant Charles G. Metler at Manila. Lieutenant Metler, he says, is intensely popular with all classes. At the field meet at Manila during January Lieutenant Metler's battery carried off the honors in the artillery line. In recognition of its prowess his battery was held in Manila to perform at the carnival, which followed.

PICNICKED AT COLUMBIA PARK

The Sunday school of the Trinity Lutheran church picnicked at Columbia park yesterday. Some 300 people joined the outing.

DOCTORS MISTAKES

Are said often to be buried six feet under ground. But many times women call on their family physicians, suffering as they imagine, one from dyspepsia, another from heart disease, another from liver or kidney disease, another from nervous prostration, another with pain here and there, and in this way they present alike to themselves and their suffering neighbors a picture of a doctor, separate diseases, for which he, assuming them to be such, prescribes his pills and potions. In reality, they are all only symptoms caused by some uterine disease. The physician, ignorant of the cause of suffering, keeps up the treatment until large bills are made. The suffering patient gets no better. She is told that the wrong treatment, but probably worse. A proper medicine like Dr. Pierce's Favorite Prescription directed to the cause would have relieved her distressing symptoms, thereby dispelling all those distressing symptoms, and instituting comfort instead of prolonged misery. It has been well said, "Right a disease known, is half cured."

A Pleasant Surprise.

A pleasant surprise party was held at the home of Mr. and Mrs. L. G. Delisle, Valley township, Monday evening in honor of the latter's birthday. The evening was spent with dancing, music being furnished by Delisle brothers. Refreshments were served.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs or the kidneys themselves break down and waste away cell by cell.

Bladder troubles most always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

LABOR DAY ON SEPTEMBER 7TH

Labor day, the first Monday in September, this year occurs on the 7th of the month, which is the very latest date of September on which it can on any year occur. Labor day last year came on the second of September; on the year previous on the 3rd. It would probably be difficult to recall a year when labor day occurred so late in the month.

PARK BENEFITED BY THE RAINS

The new park is sharing in the benefits of the rain of Tuesday afternoon and night. The four big flower beds appear very beautiful, while every part of the park seems refreshed. The lower end of the grounds where grass seed was sown the first, is clothed with green. During the drought the ground was sprinkled at intervals, but it required a good rain such as we have just experienced to bring out the grass and flowers rightly. The upper portion of the park, completed last, shows but little signs of grass. Seed was sown there as well as on the other part, but during the drought there was no sign of grass and it was thought that the seed died as the effect of the heat. Since the rain, however, grass has made its appearance, which would indicate that the seed there has sprouted. Unless another drought follows, in a short time no doubt the entire park will be covered with grass.

A Pleasant Surprise.

A pleasant surprise party was held at the home of Mr. and Mrs. L. G. Delisle, Valley township, Monday evening in honor of the latter's birthday. The evening was spent with dancing, music being furnished by Delisle brothers. Refreshments were served.

DeWitt's Little Early Risers, safe, easy, pleasant, sure, little liver pills.

DeWitt's Little Early Risers, safe, easy, pleasant, sure, little liver pills. Sold by Paules and Co.

DeWitt's Kidney and Bladder Pills

DeWitt's Kidney and Bladder Pills will promptly relieve all Kidney and Bladder disorders. Sold and recommended by Paules and Co.

H. M. Tschop, landlord of the Midway House in Shamokin, and William Fisher, its owner, were on Monday exonerated from criminality because of the death of George Wormald, whom they discovered after he had broken into the hotel on Saturday night.

Tschop acknowledged kicking him and Wormald died later, but the act was deemed justifiable.

Jesse Hays, aged 17 years, dropped dead on Monday morning while picking berries on the South mountain, near Boiling Springs, Cumberland county.
