FINISHING THE MACADAM

Builders of Macadam roads, if they wish to construct a highway that embodies all the points of perfection, would do well to go to the authorities at the hospital for pointers.

The finishing touches are now being put on the splendid piece of macadam leading from the extension of East Market street to the borough line to the main hospital entrance.

The crown of pulverized limestone is now being applied and it is the perfect manner in which this branch of the work is being done that gives the macadam its finished appearance.

To assist in road making about the hospital the trustees purchased D. J. Roger's ten-ton roller and this is being employed on the new road leading from East Market street.

A woman's back has many aches and pains. Most times 'tis the kidney's fault. Backache is really kidney ache.

Many Danville women know this. Read what one has to say about it: Mrs. Peter A. Winters, living at 209 East Front street, Danville, Pa., says: "I am very grateful for the benefits I derived from the use of Doan's Kidney Pills."

Gun Wound Caused Death. While Anson A. Traister, a young man of Spring City, Chester county, was out gunning on Saturday he received a wound by the accidental discharge of his gun, that caused his death.

A Jeweler's Experience. O. R. Kluger, The Jeweler, 1060 Virginia Ave., Indianapolis, Ind., writes: "I was so weak from kidney trouble that I could hardly walk a hundred feet. Four bottles of Foley's Kidney Remedy cleared my complexion, cured my backache and the irregularities disappeared, and I can now attend to business every day, and recommend Foley's Kidney Remedy to all sufferers, as it cured me and the doctors and other remedies had failed."

SUCCESSFUL CHICKEN FANCIER

C. M. Barnitz of the south side is "looming up large" as a poultry fancier. His valuable contributions to the "American Press Association" show that he is well versed in poultry lore and it only remained for him to make good in a practical way or in other words to demonstrate that his methods are all that are claimed for them and that he is able to raise chickens better than the common run.

That he has succeeded is quite evident, judging from his success at the county fairs. He has been awarded prizes both at Bloomsburg and at York. At each of these fairs the poultry exhibit was especially fine.

At Bloomsburg Mr. Barnitz' white Wyandottes were an especial feature. For a cock and hen each he was awarded first prize; for a hen a second prize, which left but one other (second) prize in the field.

At the York county fair Mr. Barnitz was awarded a first and a second prize for two white Wyandotte hens. There were several odd circumstances connected with the award of the prizes at Bloomsburg. The lucky chickens owned by Mr. Barnitz came from a coop in which were penned thirteen. The secretary of the Columbia county agricultural society, when he tagged the chickens at the fair, used the number 13, while the cock that won the first prize was still further hoodooed by wearing a leg band that contained the number 13.

Mr. Barnitz has been very successful during the past year. He has had the best of luck with his chickens, which find a ready sale. The most of his fine stock is purchased by the farmers as breeders.

The white Wyandotte, Mr. Barnitz says, is becoming the most popular chicken and is crowding out the barred Plymouth Rock. In a few years, he thinks, the entire stock will comprise white feathered chickens. White is preferred to any other color because of the absence of dark pin feathers.

Mr. Barnitz' stock comprises white Wyandottes, and white leghorns and are probably the finest ever seen in this section. There are also a large number of white Pekin ducks, which Mr. Barnitz is selling to the farmers for breeding purposes. These are larger than the common duck and weigh as much as 14 pounds.

The present is Mr. Barnitz' third year at "Grand View," as his fine establishment on the south side is called. State of Ohio, City of Toledo, Lucas County.

ELY'S CREAM BALM has been tried and not found wanting in thousands of homes all over the country. It has won a place in the family medicine chest among the reliable household remedies, where it is kept at hand for use in treating cold in the head just as soon as some member of the household begins the preliminary sneezing or snuffling. It gives immediate relief and a day or two's treatment will put a stop to a cold which might, if not checked, become chronic and run into a bad case of catarrh.

SEMI-ANNUAL BOILER CLEANING

The water tube boiler at the water works is undergoing semi-annual cleaning. The operation this fall is varied by employing the borough fire engine.

To obviate the formation of scale in the boilers constitutes a problem that the borough has never got satisfactorily solved. Formerly "boiler compound" was used, but experiment showed that any substance potent enough to keep down the formation of scale was apt to eat out the joints of the pipes. For some time past soda has been employed.

Upon taking the boiler apart it was found that the joints were not affected, but unfortunately the formation of scale had gone on nearly the same as though nothing had been done to prevent it. The tube boiler was cleaned as late as last March and during the interval of seven months following scale formed on the inside of the tubes one-sixteenth to nearly one-fourth of an inch in thickness.

Scale in the boilers seriously impedes the generation of steam and may become so bad as to necessitate the burning of one-fourth more coal than would be necessary without it. Whether the borough will go back to the use of boiler compound is uncertain.

The one safe remedy, always at hand, is the periodical cleaning of the boilers as is being done at present. This tedious work is very much facilitated at our water works by an ingenious device known as the Liberty Standard Tube Cleaner, which is inserted in the tubes and made to revolve at lightning speed under an enormous water pressure.

To operate the tube cleaner it has been necessary to bring the borough fire engine into requisition, as the pressure at the water works is not sufficient. The steamer has been installed just outside the boiler room and connected with the plug at the corner of Water and Factory streets. Under a pressure of about 170 pounds the water enters the tubes, operating the cleaner attached to the end of the hose through which the water is carried. After being released the water drains out of the slanting tubes at the opposite end of the boiler, carrying with it the pieces of scale dislodged by the cleaner.

The tubes, 124 in number, are 18 feet long and 4 inches in diameter. To complete the work of cleaning may require several days. Meanwhile, due to the lack of steam, one or more of the electric light circuits may be off each night.

Beautiful Autumnal Tints. The woods are taking on very beautiful autumnal tints and during the next week or so the landscape will present an enchanted appearance. The full autumnal effect was somewhat diminished by the drought, which caused the leaves to mature prematurely, bringing about a predominance of dull brown and russet colors in the foliage instead of the hues of scarlet and gold that usually appear in great numbers.

Milk Dealers Obey Law. That milk dealers of the State are observing the laws requiring the furnishing of pure foods is shown by the September bulletins of Dairy and Food Commissioner Foust. There are 788 samples of milk reported upon, all reported as pure. The previous month some evidence of formaldehyde was found, but the September work is the best yet. In seventeen samples of foods a good percentage of obedience to law was found and in twenty-six samples taken of butter every one was good.

H. S. PLAYED A GREAT GAME

A most remarkable showing was made by the Danville high school football team Saturday afternoon when the semi professional Crescents of Northumberland, were held to a 0 to 0 score in a fast and exciting game at DeWitt's park.

Saturday's game was to have been with the Bloomsburg Normal school seconds, but they cancelled at the last minute and the Northumberland eleven were secured to fill the engagement. They are a fine, gentlemanly lot of young men, and played a clean, fast game. They greatly outweighed the Danville boys, but were unable in any of the points of the game to out play the locals.

The beauty of the playing of the Danville boys lay in the team work which was almost faultless. Especially on the defensive did the locals shine. Time after time were the Northumberland players held for downs and compelled to kick. Once Danville held on their own two yard line. The ball was in Northumberland's territory during most of the first and all of the second half.

The high school team is showing marked improvement under the coaching of Victor Vincent, and the students are to be congratulated on the showing their team is making this year.

The line-up: Northumberland Wilkinson... left end... Baldwin Breitenbach... left tackle. Haddon Speiser... left guard... Blue Hurley... centre... Walshaw Ryan... right guard... LOSS FAILS TO HOLD UP CUPID. To have been robbed of \$250 which he intended using in the purchase of furniture for his bride and home did not discourage Henry Horning, of Sunbury, in the least, from assuming marital responsibilities, and though the sores and bruises inflicted by the highwaymen were yet in evidence the god of love reigned supreme, and Miss Virgie B. Campbell, of Williamsport, on Thursday evening became his bride. The ceremony was performed at the Baptist church parsonage, in Sunbury, by the Rev. M. F. Forebell.

No clue has been obtained as to the identity of the robbers, who waylaid Mr. Horning, though the authorities believe they were local men who had some knowledge of Mr. Horning's affairs.

"The Devil." The most important announcement for the coming theatrical season is that of Manager Edmondson who assures us that by arrangement with Mr. Henry W. Savage, Mr. Alfred E. Aarons will present at the Danville Opera House on Tuesday evening, October 20th, the only authorized version of Franz Molnar's Continental success "The Devil" (Der Teufel). Mr. Aarons promises the production exactly as presented at the Garden Theatre, New York, where its appearance created almost a panic in the rush for admission on the opening night. LUZERNE CO. RENDERS BILL

A bill was received at the county commissioners office Saturday from Luzerne county for services rendered and expenses incurred during the trial of Peter Dietrich at Wilkes-Barre on the week of September 21st. The bill is regarded as exorbitant by the board and one of the commissioners is authority for the statement that payment may be contested.

As explained in these columns several days ago the cost of the thirty witnesses subpoenaed in the case, which was paid by Montour county, was a trifle over \$300. Added to this was \$50 for district attorney and \$50 for court stenographer, to say nothing of \$19, which it cost to remove Dietrich to the Wilkes-Barre prison.

These items footed up about \$420. The cost of the jurors, including pay and maintenance with all incidentals could only be conjectured. The bill of these items received, Saturday had a stunning effect on the commissioners, being nearly double the amount anticipated. It showed that Montour county is indebted to Luzerne county as the result of the trial to the amount of \$533.50, which added to the cost of witnesses, stenographer, district attorney, etc., previously paid by Montour county, runs the total cost of the trial up to about \$1000.

One of the items in the Luzerne county bill is especially illuminating. It cost Montour county \$5.50, to keep the jurors clean shaven and presentable during the trial. The barber's bill shows that only eleven jurors were shaved, one wearing a full beard.

Board for the jurors and officers in charge—fourteen men—for 4½ days, is put down at \$252, being at the rate of \$1 per day. Among other items the bill contains \$18 for the sheriff's deputy.

Copious Rain Breaks Drought. The drought, which had become very serious was broken by a prolonged and copious rain, Saturday night. There was a succession of heavy showers covering nearly eight hours. The rain was accompanied with thunder and lightning. About 2 o'clock Sunday morning the downpour was quite heavy.

The rain was very beneficial. To the wheat especially, much of which had not yet sprouted the good effects of the soaking can hardly be estimated. Had the rain been delayed much longer the wheat crop next year would have shown a big deficiency.

Mitchell is Writing a Novel. Scranton, Oct. 14.—John Mitchell, former president of the United Mine Workers, arrived here today on what he termed "a purely informal visit." He would not discuss politics further than to give his indorsement to a local labor candidate, saying that his position had been sometimes misstated and his utterances at times distorted. He declared, however, that he would probably make a written statement about politics before the week is over.

Mr. Mitchell admitted the truth of the rumor that he is engaged in writing a novel. It will deal with industrial conditions, he said.

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood. All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail from Dr. Kilmer & Co., Binghamton, N. Y.

Don't make any mistake, but remember the name, Swamp-Root. Dr. Kilmer's Swamp-Root, and the address Binghamton, N. Y., on every bottle.

GOT TWO BEARS IN HIS ORCHARD

Frank Dapp, of Coltonville, near Williamsport, brought down two fine bears last week without even going to the trouble of taking a hunting trip, and now he is the envy of all the local nimrods. Mr. Dapp has an orchard at the edge of a wood, and it was here that both were killed. The first one was gotten on Monday of last week. Mr. Dapp had gone to the orchard to gather apples and as is his custom he carried his gun, in case he saw any seasonable game. Shortly after entering the orchard he heard a noise in one of the trees and looking up saw a half grown bear, which had evidently gone up after apples and was now afraid to come down. Mr. Dapp killed him with the first shot. He weighed about 125 pounds.

On Friday, with a friend, Mr. Dapp again went to the orchard and again carried his gun. While they were at work they heard a noise behind them and looking saw a bear in the act of shinning up a chestnut tree. This one was also killed and was found to weigh about two hundred pounds. According to track seen in the orchard there is a third bear, evidently an unusually large one, that section and Mr. Dapp is also helping a look-out for him. So far he has been unable to locate Bruin's home.
