Such is the true missionary spirit, I is the spirit that has carried Christian doctrine and Christian civilization to the uttermost parts of the earth, that has taught the brown man and the black man to feel that there are those of the whites who do not regard them merely as prey for the greed and ambition of the stronger race. The altruism of such men as Taft and Brent is a revelation to the people of our ori-ental possessions which must go far toward convincing them that Ameri-cans really have their welfare at heart and are leading them along the path of education and self reliance toward the goal of a stable and well ordered gov

Tricking the Hens

Chinamen have a way of tricking hens so that they assist in the hatching of fish. Fish eggs are carefully placed in an eggshell, which is then sealed and placed under an unsuspecting hen. In a few days the spawn is warmed into life, and the contents of the shell are then east into a shallow pool, where the sunshine completes the work.

Every Republican president elected since the close of that war had been a conspicuous officer of the Federal army with the exception of President Roosevelt, whose bril-liant record in the Spanish war is a matter of just pride to the American

Republican Pension Legislation. Republican legislation for the old oldier, his widow and his minor children has been generous and bountiful. The invalid pension law of July 14, 1862, and the dependent law of June 27, 1890, are monuments of Republican achievement and bear witness to the country's tender care of its soldiers and its sailors and their families.

The act of June 27, 1890, is a fitting illustration of the generosity of the Republican party toward the veterans of the civil war. This law was passed by a Republican congress, was signed by a Republican congress, was signed by a Republican president, and through its administration there was expended during the next fiscal year a total amount of \$88,798,980.71. The number of soldiers receiving the benefit of this act was 448,721, while the number of the dependents relieved by this act was 171,259. The gains in the number of pensioners under this act over the previous year was 8,648, and the gain from June 30, 1890, to Jan. 5, 1904, was 4,908. 1904, was 4,998.

The Republican party passed the act of April 19, 1908, increasing pensions of all widows from \$8 to \$12 per month and granting pensions without reference to the value of property or income. The Republican party also passed the act of Feb. 6, 1897, granting

priations for pensions. Its record fo the past forty years is one of opposi-tion to those men who bore the hard ships of war and jeopardized their lives that the Union might be pre-served. Here is a brief list of their official adverse acts in congress to ward the veterans of the civil war:

In 1878 a bill passed the house repealing all limitations of time in which applications for arrears of pension should be made. This was oppose by a majority of the Democrats. The bill increasing the pensions for widow from \$8 to \$12 per month was opposed by the Democrats. The amputation bill passed Aug. 4, 1896, was opposed by the Democrats and voted for solid ly by the Republicans in the house. The widows' arrears bill and the disability pension bill were both fought

bitterly by the Democrats.

In the Forty-third congress a dependent pension bill was voted on in the senate, the Republicans supporting it solidly and the Democrats opposing it by a two-third vote. In the house this bill was voted for solidly by Re publicans and opposed by a majority of the Democrats. After it had passed the house and senate it was vetoed by President Cleveland, a Democrat. An effort was made in the house to pass the bill over Cleveland's veto, the Re-publicans voting 138 for it and the

Democrats voting 125 against it. There are fewer idle person.

As a resigner Mr. Taft probably holds five of these bills. The Democrat bave been in power for only a few brief years since the war, and thei president, Grover Cleveland, vetoes 529 pension bills. Every pensic bill vetoed, 529 in number, was vetoed by a Democratic president except five

Pension Planks In Platforms

For the past fifty years the Dem cratic politicians have juggled with th soldier vote and pension question in their platforms. While giving every evidence of being really hostile at heart they have threwn out bits of

pontical balt from time to time in the hope of cajoling the veterans into vot-ing the Democratic ticket. During all these years the Republican platform has rung as clear as a bell on the pen-sion question, as per this plank in the 1908 platform:

1908 platform:
"Another Republican policy which
must ever be maintained is that of
generous provision for those who have
fought the country's battles and for
the widows and orphans of those who have fallen. We commend the increase in the widows' pensions made by the present congress and declare for a liberal administration of all pension laws, to the end that the people's grat-tude may grow deeper as the mem-ories of the heroic sacrifice grow more sacred with the passing years."

The Democratic platform favors pen-

sloning "the surviving veterans and their dependents because it relieves the country of the necessity of maintaining a large standing army." patriotism of the veterans is ignored. This platform does not favor pensioning widows and dependents of deceased veterans, only "surviving veterans and their dependents."

#### OPPOSITE AS THE POLES.

The Liberalism of Taft and the Radi-calism of Bryan.

The radicalism of Bryan and the rad-icalism of Taft are as opposite as the poles. The radicalism of the former, by training and profession a politician. prompts to the advocacy of anything as good if new. The radicalism of the latter, by training and profession a statesman and jurist, prompts to the

and purist, prompts to the adoption of anything new if good.

There are false teachers everywhere, and they are the chief obstacles to the spread of that species of radicalism that in its greatest and best interpretation means the uplifting of humanity and the progress of the nation. The sort of radicalism or liberalism which ort of radicalism or liberalism which adopts and advocates anything and everything in the category of theory and originality for personal aggrandizement or momentary political gair is the sort of radicalism that this coun-try can well do without.

Each of Mr. Taft's three brothers is a lawyer, although Charles P. finds more fun in running a newspaper than he does in law, and Horace has made schoolteaching his life work, being the head of the Taft school in Watertown. Conn. Henry W. Taft is one of the leaders of the New York bar.

If Tom Watson has found the lost Populist platform, as he contends, he should forward it to Lincoln, Neb., without delay. It is William Jennings Beyan's personal property. His ini-tials will be found carved in the southwest corner of the cheap money plank,

Explanatory, Not Exclamatory. [Hartford Courant.]

Judge Taft is not an exclamatory man, but an explanatory man. He is not denunciatory, but analytic. His mind does not ring, but it thinks. His nature is not pugnacious, but con-chiatory. His attitude is not that of passed the act of Feb. 6, 1897, granting cfliatory. His attitude is not that of pensions to soldiers by reason of age alone, without regard to disability.

The Democratic party, as such, has opposed every measure voting appropriations for pensions. Its record for the past forty years is one of opposition to those men who bore the hard-into those men who bore the hard-into those men who bore the hard-into the such as how and has the courage to enlighten the public sense.
