WILL ROOSEVELT HEAD HARVARD?

BOSTON, Nov. 4.

The report that President Roosevelt upon leaving the white house will succeed Charles W. Eliot as the head of America's greatest university, was revived today by the official announcement that Dr. Eliot has presented his resignation to take effect May 19, 1909.

In spite of the fact that President Roosevelt has completed plans for a two-years' absence from this country, his name was the most generally mentioned this afternoon when the unexpected news of Dr. Eliot's action became known in Cambridge and Boston. Next to Mr. Roosevelt, the man most likely to be offered the vacancy is Professor A. Lawrence Lowell, occupant of the chair of government and one of the most prominent members of the Harvard faculty.

President Eliot will be seventy-five years old next March and he desires to retire while he is still capable of work.

Main and Stand Pipe Connected.

The Pennsylvania Railroad company on the south side has connected the fourteen-inch main recently laid with the new stand pipe above the tank. A much better service will be obtained than was formerly had with the smaller stand pipe and the eight inch main.

Formerly trains consumed a great deal of time taking water and as a result the crossing was blocked much of the time. With the increased capacity of stand pipe and main the locomotives can take water in a small fraction of the time formerly occupied and the crossing should not be blocked much of the time.

The raising of the tank was originally included in the improvement, but later it was decided to omit this part of the work at present. It is said that in the near future a new tank will be erected near the site of the present one and that the two will be used in conjunction.

BLOCKADED

Every Household in Danville Should Know How to Resist It.

The back aches because the kidneys are blocked.

Help the kidneys with their work. The back will ache no more.

Lots of proof that Doan's Kidney Pills do this.

"It's the best proof for it comes from Danville.

Mrs. Charles D. Whipple, living at 253 Mill street, Danville, Pa., says: "My experience with Doan's Kidney Pills justifies me in recommending them as a remedy of merit. For some time prior to using them, I had pains through the small of my back and kidneys, and at times, my back was so painful that I could straighten after stooping. At night I was unable to assume a comfortable position and in the morning I would arise scarcely able to get about. A dull languid feeling sapped all my energy and I felt miserable. Doan's Kidney Pills were finally recommended to me so highly that I procured a box at Hunt's Drug store, and their use promptly relieved the pain in my back. After using the contents of the box, my strength and energy returned, and the backaches and other disorders of my kidneys disappeared. I give Doan's Kidney Pills my highest endorsement."

For sale by all dealers. Price 50 cents. Posters-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

U. of P. Alumni Will Banquet.

The annual dinner of the Northwestern district Alumni association of the University of Pennsylvania will be held in the banquet hall of the Masonic temple at Sunbury on Friday of this week at 9:30 p. m. These dinners have always been well attended by the alumni of the various departments of the university, and it is expected that the attendance this year will far exceed that of former years.

The guest of honor will be Dr. James Tyson, who will represent the university. Dr. Tyson holds the chair of medicine at Pennsylvania and is one of the foremost authorities and writer on medicine in the country.

Dr. Tyson will also address the Northwestern County Medical society in court room No. 2 at 2:15 p. m. on the same day on "Diabetes Mellitus."

SMALL CHILDREN IN PERIL

The fire department Monday afternoon was called out by a small but dangerous blaze, which occurred in dwelling No. 202 West Mahoning street, occupied by Charles Hillborn.

During Monday afternoon while her husband was at work, Mrs. Hillborn according to custom put her two little children to bed for a nap. About three o'clock while busy with her household duties she heard the children crying.

There was a note of fright and terror in their cries, which induced her to go up stairs at once to see what was the matter. Her feelings can be imagined when on entering the room she found a clothes basket containing the week's wash in a mass of flames, which had already communicated with the woodwork of the room.

With rare persistence of mind after getting the children out of the room Mrs. Hillborn rushed for a bucket of water, which she dashed upon the burning clothes. It required several buckets of water to extinguish the fire.

The news of the fire was telephoned to the engine houses and the bells were rung, in response to which there was a general turnout of firemen. The Friendship and the Continental fire companies both arrived at the scene of the fire, but their services were not needed.

The house, which is owned by John Hunt, was only slightly damaged. The week's wash, however, was totally ruined. The feature of the fire was the deadly peril in which the two small children were placed for a short time.

How the fire originated is not known. The children are too small to give any account of what might have taken place in the room to cause the fire.

Beware of Ointments for Catarrh That Contain Mercury.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by all druggists, 75c. Take Hall's Family Pills for constipation.

Elks' Lodge for Berwick.

Berwick Elks have received a telegram from Judge Rush L. Holland, of Colorado Springs, grand exalted ruler, that the dispensation for local charter has been granted. The number of the Berwick lodge will be 1138. The prospective Elks of Berwick have already rented and are handsomely furnishing the Jan. W. Evans building at Euclid avenue and Second street.

The institution of the Berwick lodge will be a big event. Grand officers will be there as well as delegations of Elks from Danville, Bloomsburg, Wilkes-Barre, Scranton, Hazleton and other lodges.

WHERE DEER ARE SHOT BY THOUSANDS

Irvin A. Snyder, landlord of the City hotel, who, with H. S. Albright of Orwigsburg, returned home from a hunting trip to Maine Friday night, on Saturday in a very entertaining way gave an account of some experiences in the "Pine Tree State."

The deer he said are very plentiful, although the hunting laws, as in this State, are rigid, two deer constituting the limit for one man.

Natural conditions up to the present have not been very favorable for hunting owing to the drought, which prevailed in Maine as well as here. The woods and bushes being dry the deer could hear the hunters at a considerable distance and had a good opportunity of getting out of the way. The drought in Maine was broken about the same time as here and since then there has been rather too much rain to make hunting agreeable.

Forest fires, too, were factors that had to be reckoned with. The camp at Cedar Lake where Mr. Snyder was domiciled was surrounded by fire and things looked rather blue for awhile. Thousands of acres of valuable timber were destroyed. The numerous fires of course, interfered with hunting.

Nevertheless, the season is considered a successful one. Up to last week 832 deer had been shipped out of the State by hunters, while during last season a grand total of nearly 5000 deer were shipped out of the State.

Hexamethylenetetramine.

The above is the name of a German chemical, which is one of the many valuable ingredients of Foley's Kidney Remedy. Hexamethylenetetramine is recognized by medical books and authorities as a uric acid solvent and antiseptic for the urine. Take Foley's Kidney Remedy as soon as you notice any irregularities, and avoid a serious malady. Sold at Pauls & Co. Pharmacy.

If You Are Over Fifty Read This.

Most people past middle-age suffer from kidney and bladder disorders which Foley's Kidney Remedy would cure. Stop the drain on the vitality and restore needed strength and vigor. Commence taking Foley's Kidney Remedy today. Sold at Pauls & Co. Pharmacy.

Governor Praises Guard.

Governor Stuart has issued a general order congratulating and commending the National Guard upon its splendid appearance in Philadelphia, during "Founder's Week." The order says:

"The entire division appeared for the first time in its history in full dress uniform, and made an exhibit that reflected the highest credit upon the organization and that must have been a matter of personal pride, as it was of honor, to every officer and enlisted man who participated in the demonstration.

"The behavior of the troops was beyond reproach or criticism. No complaint as to unsoldierly conduct was received or heard. The reputation for good conduct and soldierly deportment of the citizen soldiery of the Commonwealth was maintained to a degree that should make every man, who wears the uniform of the National Guard, proud of the privilege to be enrolled and serve as a soldier."

Masquerade Party.

A masquerade party was held at the home of Mr. and Mrs. John Patton, Lower Mulberry street. Refreshments were served and the evening was spent with different games. Prizes were awarded to Robert McCoy and May Morgan.

Those present were Clyde Patton, Thomas Miller, Robert McCoy, Samuel Jacobs, James Foster, Frank McKinley, Porter Rank, George Carolskie, Howard Ricketts, Alfred Patton and Alfred ram; May Morgan, Mary Krum, Alice Kauffman, Ethel Cromley, Dora Schatz, May Patton, Evelyn Miller, Anna Goodall, Emma Nevius, Olive Boyer, Helen Savidge, Susan Patton and Mrs. Jesse Krum.

Raw Lungs.

When the lungs are sore and inflamed, the germs of pneumonia and consumption find lodgment and multiply. Foley's Honey and Tar kills the cough germs, cures the most obstinate racking cough, heals the lungs, and prevents serious results. The genuine is in the yellow package. Sold at Pauls & Co. Pharmacy.

Reedy-Williams.

Arthur Reedy and Miss Catherine Williams, were united in matrimony Monday evening at the home of the bride on Chambers street. The ceremony was performed in the presence of a few relatives by Rev. L. Dow Ott, pastor of Trinity M. E. church.

Winter blasts, causing pneumonia, pleurisy and consumption will soon be here. Cure your cough, now, and strengthen your lungs with Foley's Honey and Tar. Do not risk starting the winter with weak lungs, when Foley's Honey and Tar will cure the most obstinate coughs and colds, and prevent serious results. Sold at Pauls & Co. Pharmacy.

WILL SHORTEN THE BLOCKS

The Pennsylvania Railroad company is about inaugurating an improvement on the South side, which will effect considerable changes about the station and facilitate the movement of trains.

At present the station is the beginning point of two blocks, one of which extends eastward to Bluff a distance of about seven miles and the other westward to Wolverton, five miles long. The blocks are longer than is convenient and under the rules the passenger trains are now and then held up quite a while.

The shorter the blocks the sooner they are cleared of trains. The one way, therefore to obviate delay in the running of trains is to reduce the size of the blocks.

This is precisely what the Pennsylvania company proposes to do on the south side. A new block will be cut out of the two lying between Bluff and Wolverton. Already a tower has been brought over from the Lewistown division and will be erected at Boyd's station. A tower at DeMoyer's farm, about a mile below South Danville, was erected last summer.

The station will be on a new and a relatively short block between DeMoyer's farm and Boyd's station. The operator at present installed in the station will be removed to the new tower a mile below. The depot will be without an operator but will communicate with the tower by phone.

Work on the improvement, it is understood, will go forward at once. The tower intended for Boyd's is lying on a car at the south side.

Hexamethylenetetramine.

The above is the name of a German chemical, which is one of the many valuable ingredients of Foley's Kidney Remedy. Hexamethylenetetramine is recognized by medical books and authorities as a uric acid solvent and antiseptic for the urine. Take Foley's Kidney Remedy as soon as you notice any irregularities, and avoid a serious malady. Sold at Pauls & Co. Pharmacy.

PLAYED TO A STANDSTILL

Before a large and enthusiastic crowd at DeWitt's park on Saturday the Danville high school football team played the strong Berwick eleven to a tie score of 0-0. This is the same team that two weeks ago defeated the locals by a score of 7-0.

The game was exciting from the start. The local boys, determined to wipe out their defeat at Berwick's hands in the former game, played an aggressive game, time after time placing the leather within a few yards of their opponent's goal, where unfortunate fumbles prevented a score.

Right halfback Dalley was easily the star of the game. He played a strong game on defense and was responsible for most of Danville's gains, several times tearing off ten yards runs. In the first half an outside kick by Price before being touched by any player, rolled over the goal line where Edmondson fell on the ball. Danville lost a sure touchdown, as according to the rules of the game, if the ball had been touched the score would have counted. As it was a touchback resulted.

For the remainder of the game the ball seawsed back and forth, most of the time being in Berwick's territory. The one unpleasant feature of the game was the conduct of the crowd which persistently forced its way on to the field greatly interfering with the players.

Berwick played a clever kicking game, their outside kicks being well placed and well handled and seldom failed to gain after they had tried Danville's line and ends in vain.

The lineup:

Danville: Berwick: Wilkinson, left end, Hile. Brfetenbach, left tackle, Gingham. Niece, right guard, Edwards. Hurley, center, Evans. Ryan, right guard, Smith. Mitchell, right tackle, Machemal. Edmondson, right end, Eshelman. Price, quarterback, Shoemaker. Kase, left halfback, Bowen. Dalley, right half back, Evans. Bower, fullback, Frantz.

Referee, Prof. Kase, Umpire, Prof. Sigman. Head linesman, P. Vannan. Timekeeper, Edmondson. Time of halves, 20 minutes.

Hexamethylenetetramine.

The above is the name of a German chemical, which is one of the many valuable ingredients of Foley's Kidney Remedy. Hexamethylenetetramine is recognized by medical books and authorities as a uric acid solvent and antiseptic for the urine. Take Foley's Kidney Remedy as soon as you notice any irregularities, and avoid a serious malady. Sold at Pauls & Co. Pharmacy.

WHERE DEER ARE SHOT BY THOUSANDS

Irvin A. Snyder, landlord of the City hotel, who, with H. S. Albright of Orwigsburg, returned home from a hunting trip to Maine Friday night, on Saturday in a very entertaining way gave an account of some experiences in the "Pine Tree State."

The deer he said are very plentiful, although the hunting laws, as in this State, are rigid, two deer constituting the limit for one man.

Natural conditions up to the present have not been very favorable for hunting owing to the drought, which prevailed in Maine as well as here. The woods and bushes being dry the deer could hear the hunters at a considerable distance and had a good opportunity of getting out of the way. The drought in Maine was broken about the same time as here and since then there has been rather too much rain to make hunting agreeable.

Forest fires, too, were factors that had to be reckoned with. The camp at Cedar Lake where Mr. Snyder was domiciled was surrounded by fire and things looked rather blue for awhile. Thousands of acres of valuable timber were destroyed. The numerous fires of course, interfered with hunting.

Nevertheless, the season is considered a successful one. Up to last week 832 deer had been shipped out of the State by hunters, while during last season a grand total of nearly 5000 deer were shipped out of the State.

A Successful Day's Hunting.

Messrs. Arthur Northup, Ezra Woodside, John Hendricks and William Leiby, of Rush township, spent Saturday hunting in the vicinity of Nunidia, Columbia county. They brought home with them as the result of the day's shoot, 17 rabbits and 4 pheasants. The party made the trip in an automobile as the guests of Mr. Northup, who succeeded in killing two rabbits on the run to the hunting grounds.

How Halloween Was Observed.

Halloween was observed Saturday night in a manner that did full honor to the traditions of the past. A noisier or more hilarious demonstration probably never took place.

The masqueraders began to whoop it up shortly after 6 o'clock and they kept at it until about 11 o'clock. The injunction of the chief of police forbidding the marking of clothing with charcoal, flour and the like was probably pretty generally heeded, but chalk in all colors was employed by the masqueraders to as great an extent as in any year of the past.

Mere pedestrians had a hard time of it and the back of many a poor fellow's coat was badly marked up. Undoubtedly some of the suits that were out Saturday night will have to be subjected to a process of scouring before they will become presentable.

Try Kodol today on our guarantee. Take it for a little while, as that is all you will need to take. Kodol digests what you eat and makes the stomach sweet. It is sold by Pauls & Co.

Masquerade Party.

A masquerade party was held at the home of Mr. and Mrs. John Patton, Lower Mulberry street. Refreshments were served and the evening was spent with different games. Prizes were awarded to Robert McCoy and May Morgan.

PIGGERY ALMOST COMPLETED

All the buildings including the piggery at the hospital for the insane are under roof; outside work is generally finished up and things are in readiness for winter, during which the interior of the buildings will be carried to completion.

Steam heat is installed in both the building for the acute insane male patients and the building for acute insane female patients. These buildings are both warm and comfortable and will be kept in this condition during the winter.

The plastering is finished in the building for the acute insane male patients; in the corresponding building on the female side three days more will complete the plastering. In the female infirmary the plastering is about one-third done.

At the building for the acute male patients the painting on the outside is well under way. In a couple of weeks, time the plaster will be dry enough to admit putting on the trimmings, after which the interior will be painted, which will constitute the finishing touches of this building. The building should be ready for occupancy by the holidays. The other buildings under way will not be completed before spring.

THE PIGGERY.

The piggery is completed with the exception of the concrete floor. The division of the building or the installing of the pens also remains to be done. As might be inferred from the cost—nearly \$6000—the building shows up oddly as a "pig pen." Nevertheless if one may rely on the opinion of practical men, the money is well expended, as the building will be well high indestructible.

The piggery is 112 feet long and 28 feet and 5 inches wide. In addition to its concrete floor it has a slate roof and is fire proof throughout.

That the building will be heated with steam is not literally true. Only four pens devoted to breeding will have steam heat. These will be enclosed with glass. The building will be surmounted with fourteen star ventilators. Electric light will be installed.

The piggery is two stories in height. The pens in the upper story on the west side open on a wide veranda, divided to correspond with the apartments within. The porch in turn opens on a number of small yards corresponding in size with the pens within, and enclosed with a neat iron fence containing a gate.

The lower story constitutes a base side contains a row of long concrete steps of a sort designed especially for hogs, which lead down from each pen into a small yard enclosed with an iron fence as on the west side.

The high priced hogs will be kept upstairs, while the mere plebeians among swine will be assigned to the lower story.

Peter Koch Passes Away.

Peter Koch, a well-known German-American citizen, died at his home, Ash street, at 4:20 o'clock Saturday afternoon, aged eighty-four years.

The deceased was a native of Prussia and, along with his wife, emigrated to this country fifty-four years ago. He came directly to Danville and for a number of years was employed in the ore mines. Later, he purchased a farm in Valley township and for some years he followed farming. He was an industrious man and a good citizen.

Besides his widow he is survived by four daughters. Mrs. Philip Kline, who with her husband and family resides on the homestead farm; Mrs. A. H. Weitzel, also of Valley township; Mrs. Henry Klarsch and Mrs. Charles Hilscher, of Danville. Henry Koch, Cross street, and Mrs. Philip Lubeck, Vine street, are brother and sister of the deceased.

DeWitt's Kidney and Bladder Pills are unequalled in cases of weak back, back ache, inflammation of the bladder, rheumatic pains. Antiseptic and act promptly. Sold by Pauls & Co.

Seventy-Fifth Birthday.

The seventy-fifth birthday of August Schultz Sr., was pleasantly celebrated at his home, West Hemlock township, Saturday. Among the guests present were: Mr. and Mrs. August Schultz, Jr., Mr. and Mrs. Boyd Billheim, Mr. and Mrs. Clarence Schultz, Mr. and Mrs. August Schultz, Mr. and Mrs. Theodore Becker, Mr. and Mrs. Edward Fox, Mr. and Mrs. Philip Kline, Mr. and Mrs. Gertrude Girton, Mrs. W. B. Schultz, Mrs. John Sees, Mrs. Charles Artman, John J. Becker, D. N. Williams, Rose Hester, Mary Schultz, Joy Billheim, Ella Sees, Helen Sees, Agnes Billheim, Ruby Schultz, Messrs. Fred Girton, Stephen Traub, Frank Becker, Wilhelm Schultz, Wilbur Billheim, Otto Girton, Robert Girton, Allan Schultz, Myron Sees, Will Kline, Joseph Kline, Mearl Umstead, Harvey Schultz and Albert Ortman.

New Paint.

Jacob Doster's residence, No. 205 Bloom street, is to receive new paint. To make the job perfect and satisfactory all the paint formerly applied, three or four coats, is being burned off the building preparatory to applying a new coat.

Fine Sidewalk.

Heister Foust is building a fine concrete sidewalk at his residence corner of Mill and East Front streets. The pavement, which takes in both the front and side of his property, is about one hundred feet in length.

PIGGERY ALMOST COMPLETED

All the buildings including the piggery at the hospital for the insane are under roof; outside work is generally finished up and things are in readiness for winter, during which the interior of the buildings will be carried to completion.

Steam heat is installed in both the building for the acute insane male patients and the building for acute insane female patients. These buildings are both warm and comfortable and will be kept in this condition during the winter.

THE ORIGIN OF FOREST FIRES

What starts these forest fires? This question has been asked over and over again this summer by readers of the accounts of the destructive fires which have been raging in all parts of the country.

Chimneys and locomotives, is the usual answer. Many of the other things which start blazes in the forest are forgotten. It is true that perhaps one-half to three-fourths of the forest fires do begin as a result of the carelessness of some camper, or from sparks flying from locomotives, but there are a number of things which set the woods afire.

A complete report of forest fires on the private forests of the country and their causes is not kept by anyone. Uncle Sam, however, is most careful to account for the damage done by the blazes on his timberland under forest administration aggregating about 168,000,000 acres, and each year the total area burned over, the timberland burned over, the amount of timber destroyed and its value, the cost of fighting fires and the causes of fires are carefully checked up. These reports are made at the end of the calendar year, and the announcement of this year's losses will therefore not be known for more than two months.

Last year's figures, however, give a good idea of the things which cause fires in forests. Of the 1,355 fires discovered on the National Forests last year, all of which were checked by the rangers before they had burned over fourteen hundredths of one per cent. (.14 of 1 per cent.) of the National Forest area, campers caused 354, while lightning followed next with 273; lightning came next, with 176; donkey engines used in lumbering operations, fourth, with 65; careless brush-burning by homesteaders clearing land, 34; fires caused by incendiaries and those set by herdsmen and hunters, 30. For more than 400 of the fires the cause is not known. This is not strange when it is remembered that a fire may smolder for days, if the air is too thick to permit the smoke to be seen at a distance before it breaks out when fanned by a wind so as to reveal its presence to the watchful forest officer.

Pleasant, sure, easy, safe little liver pills, are DeWitt's Little Early Risers. Sold by Pauls & Co.

ADVERTISE FOR RUNAWAY WIFE

Peter Tortarici appeared before Justice of the Peace Oglesby on Saturday and swore out a warrant for the arrest of his wife, Anna Tortarici, whom he charged with running away and taking with her twenty-five dollars of the complainant's money.

Tortarici, who is a good-looking young Italian, gave his residence as No. 11 Canal street, first ward. He produced a marriage certificate to show that the accused was his wife and that they were married in Wilkes-Barre during the past year. The complainant furnished the officers with a description of his faithless spouse, which was phrased as follows:

"A blonde 67 inches in height; hat green and blue, with green wings; black suit with white waist. A small lump on left side of forehead; blue eyes.

"Ran off on the 29th day of October about 4 o'clock, leaving on the Sunbury train to go to Reading. She carried a hat box."

Use DeWitt's Carbolicized Witch Hazel Salve; it is healing, cooling and cleansing. It is especially good for piles. Sold by Pauls & Co.

First Snow Fell on Saturday.
