SCARLET FEVER CLOSES SCHOOLS

Unless greater vigilance be exercised it is very much feared that scarlet fever may gain a considerable foothold in Danville. Not only on Friday but also for an hour or more Monday morning in four schools of the borough among the pupils were children from a household in which a well defined case of scarlet fever developed last week.

That such a state of affairs should exist, in the present case is not due to any carelessness on the part of either the teachers or superintendent of the schools. While in point of fact the case was diagnosed on Friday and the house placarded on Saturday, yet up to Monday noon the schools had received no official information as to the development of the new case.

COMFORTING WORDS.

Many a Danville Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Danville readers.

Seth C. Lormer, living at 430 Pine street, Danville, Pa., says: "Doan's Kidney Pills are worthy of my fullest confidence and I strongly recommend them. Some time before they were brought to my attention, I suffered from a severe cold which settled in my kidneys and caused me great misery. I would suffer severely when attempting to stoop, and if I sat down for any length of time, I would have to be very careful when arising for at such times sharp twinges would pass through my kidneys and cause me great agony. At night my back was so lame and sore that I was unable to obtain a comfortable position. Consequently my sleep was greatly disturbed. I finally began using Doan's Kidney Pills, which I procured at Hunt's drug store, and a short use quickly relieved me of all my troubles. I give Doan's Kidney Pills my strongest endorsement."

For sale by all dealers. Price 50 cents per bottle. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

National Guard Association. The State National Guard association will meet in the senate caucus room on December 4 and 5 for the purpose of taking up matters of interest to the guard. Every organization will be represented and it is expected that about two hundred delegates will be there.

Beware of Ointments for Catarrh That Contain Mercury, as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces.

Hexamethylenetetramine. The above is the name of a German chemical, which is one of the many valuable ingredients of Foley's Kidney Remedy. Hexamethylenetetramine is recognized by medical books and authorities as a uric acid solvent and antiseptic for the urine. Take Foley's Kidney Remedy as soon as you notice any irregularities, and avoid a serious malady. Sold at Paules & Co. Pharmacy.

ANOTHER VICTORY FOR HIGH SCHOOL

In the game at DeWitt's park on Saturday the high school football team again made the visitors bite the dust to the tune of 18-0. Danville is playing good, straight, clean foot ball and the defeat of Bucknell academy goes a long way toward strengthening the claim made for the local boys, that they have one of the best teams high school ever turned out and are playing one of the strongest games in this section.

When the Bucknell boys trotted out on the field they indeed looked a husky bunch and the majority of the crowd resigned themselves to an anticipated defeat for high school. Nothing daunted the locals played the game hard and fast and within the first ten minutes of play had advanced the ball to Bucknell's 15 yard line, where right half back Dailey, by a superb end run carried it over for a touchdown. Ryan kicked the goal.

The first touchdown was made in the first part of the second half. High school kicked to Bucknell. A Bucknell man fumbled; Danville's right tackle captured the leather and by a 49 yard run scored a touchdown. The goal was kicked. Danville's right end made the last touchdown, securing the ball on Bucknell's forward pass which Ryan blocked, and with a clean run and first class interference secured in reaching the visitor's goal. Ryan kicked the goal making the score 18-0.

Too much praise cannot be given the high school boys for their efforts to place Danville among the first as a football town. Under their able coaches improvement is noted in every game. The team work of the high school eleven on Saturday was excellent, every man getting into the game. The work of the two halves, Dailey and Bower, is especially to be commended.

Bucknell's line held well and the punting of right half Boyer elicited much applause from the spectators. The lineup: Danville: Bucknell Academy. Wilkinson... right end... Demerest Mitchell... right tackle. Pennington Ryan... right guard... Thomas Hurley... center... Mower Breitenbach... left guard... Gillette Nice... left tackle... Cober Brill... left end... Richards Dailey... right half back... Boyer Bower... left half back... Steel Price... quarterback... Hughes Kase... fullback... Fisher Touchdowns—Dailey, Wilkinson, Mitchell; Goals, Ryan 3; Referee Kase; Umpire Quick; Timekeeper Edmondson. Time of halves, 16 and 20 minutes.

FATAL TRAGEDY BELOW SELINGROVE

One of the most distressing tragedies that have occurred in this vicinity in years shocked Selingsgrove Saturday night.

A whining dog directed a searching party Saturday night to the scene of the pathetic suicide of his master, Jacob Gaugler, of Verdilla, several miles below Selingsgrove, whose self-murder may hasten the death of his only child, 17-year-old Francis, over whose illness he brooded constantly. This aged husbandman was too decrepit to garner his summer crops, neither could he hire help, and as the plants withered in the fields he and his feeble wife did their best to nurse their bed-bound son. The youth developed typhoid fever recently and the family was quarantined.

Weighted with trouble, Gaugler shouldered his musket Saturday afternoon, called his hound and wandered through the unharvested fields, crossing a mountain and reaching a corn field. There he pointed the long-barreled gun at his temple, but was unable to reach the trigger; he used a piece of wood to touch the catch.

Foley's Honey and Tar clears the air passages, stops the irritation in the throat, soothes the inflamed membranes, and the most obstinate cough disappears. Sore and inflamed lungs are healed and strengthened, and the cold is expelled from the system. Refuse any but the genuine in the yellow package. Sold at Paules & Co. Pharmacy.

Fellow Workers Celebrate.

The twenty-first birthday of Benjamin Evans Grove was pleasantly celebrated at his home on Spruce street Monday evening when he was surprised by a number of his fellow workmen from the stove works, friends and neighbors. The occasion proved most enjoyable. Refreshments were served.

Among the guests were Mr and Mrs. Arthur Hughes and daughter, Miss Laura, Mrs. Harriet Keas, Miss Maue Keas, Miss Jennie Lovett, Mrs. Lizzie Kilfoil, and Mrs. William Sarba, of Williamsport.

Purchased Drug Business.

W. E. Gosh has purchased the drug business at No. 108 Mill street, formerly owned by J. D. Gosh & Co., and which Mr. Gosh has successfully managed for a number of years. A thorough renovation will be made, the business will be continued on up-to-date lines and every attention given to patrons.

A FARMER'S HEAVY LOSS

The farm house of Sylvester Shultz just above Big Roaring creek, in Columbia county, was destroyed by fire Friday morning along with practically all its contents, which included three hundred and fifty dollars in cash.

Mr. Shultz, who has many relatives living in Danville and is well known here, follows the business of threshing and on Friday morning accompanied by his son-in-law started out early for a neighboring farm where he was threshing out a crop of wheat.

Early in the morning a fire was kindled in a wash house adjoining the Shultz dwelling by a neighbor woman whose well had gone dry and who had been generally permitted to bring her week's wash to Mr. Shultz's where water was plenty. While the woman was busy washing the building took fire and rapidly communicated to the main structure.

Unfortunately the fire was not discovered until it had gained considerable headway. Mrs. Shultz was in the barn milking. Smoke was detected by some one in the house and on investigation it was found that a portion of the house was a mass of flames. The dwelling was a large one, recently remodeled, inside and outside, so that it presented quite a modern appearance; it was in reality an old building of log construction, so that it fell an easy prey to the flames, burning like that much pitch.

The women folks in their fright and excitement could do but little. A child sleeping in one of the beds was rescued just in the nick of time. The women busied themselves in removing an organ from the house, overlooking the fact that in one of the bureau drawers upstairs was \$300 in cash belonging to Mr. Shultz and that at another place in the house was \$50 belonging to the son-in-law.

The organ was the only article rescued from the burning building. All the rest of the furniture, the clothing and household stores including the \$350 in money went up in smoke. The loss is estimated at \$3000 partially covered with insurance.

Will Use Electricity.

PHILADELPHIA, Nov. 11.

Close on the heels of the electrification of the Pennsylvania Railroad from Harrison, a Newark suburb, to Long Island City, comes the official statement that the system from Manhattan and Jersey City to Philadelphia will also be electrified and that the running time between New York and Philadelphia will be reduced to one hour, the fastest time now between the two points being two hours.

JAMES RICHARDS MAY LOSE FOOT

James Richards, a boy about sixteen years of age, employed by John Eckert, near Rushtown, is feared may lose his left foot as the result of a gun shot wound accidentally inflicted Saturday morning while hunting rabbits.

The boy was in pursuit of a rabbit on what was formerly the Sharpless farm but is now owned by Arthur McFarland. He discharged his gun at the rabbit but did not succeed in killing it. He reloaded the gun and was endeavoring to dislodge the cottontail, which had taken refuge near by. While thus engaged he thoughtlessly rested the gun muzzle downwards on his foot. While in this position the gun was accidentally discharged, the entire load passing through his foot.

Frank Ryan, who was working nearby, heard the boy's cries. The lad was made as comfortable as possible at the farm house and was later brought to this city by Mr. McFarland. He was taken to the office of Dr. Curry where it was discovered that the foot was badly mangled, the injury on the whole being of such a serious nature that the physician suggested that the boy be removed to the Mary M. Packer hospital. He was accordingly taken to Sunbury on the 12-10 Pennsylvania train.

The two middle toes will have to be amputated; an effort will be made to save the remainder of the foot but it is by no means certain that the ultimate effects of the injury will not be such as to necessitate amputation of the foot. The injured boy is the son of a widow.

Winter blasts, causing pneumonia, pleurisy and consumption will soon be here. Cure your cough now, and strengthen your lungs with Foley's Honey and Tar. Do not risk starting the winter with weak lungs, when Foley's Honey and Tar will cure the most obstinate coughs and colds, and prevent serious results. Sold at Paules & Co. Pharmacy.

Delightful Children's Party.

Mr. and Mrs. William J. Burns, Grand street, entertained a large number of little folks at Knorr's hall Saturday afternoon in honor of their daughter, Nellie's 12th birthday.

Music and other amusements were indulged in after which supper was served. All returned to their homes much pleased with the courtesies shown them by Mr. and Mrs. Burns. Nellie was the recipient of many handsome presents. The following were present: Misses Catherine and Margaret Fields, Carrie and Beatrice Blue, Beatrice and Marion Pursel, Ruth LaRue, Evelyn Stohler, Gertrude Thompson, Mildred Albeck, Imogene Foust, Elmita Moyer, Margaret Hurley, Naomi Ulrich, Cordelia Sechen, Margaret Dean, Ethel Hale, Margaret and Catherine Hoffman, Susie Ward, Mary Dillard, Mildred Knorr, Jennie Haas, Julia Sainsbury, Media Kramer, Frances Cashner, Jessie Brent, Katherine Quinn, Zella Baintham, Martha Twist, Masters Dean Switzer, Ralph Mader, Paul Walker, Joseph Anderson, W. Y.; Mrs. William DeWitt, of Riverside; Miss Smith, of Philadelphia; Miss Josephine Cousart, Mrs. Thomas J. Swank and Mr. George Buck.

No Court on Saturday.

Judge Evans failed to put in an appearance Saturday morning and court which was scheduled for ten o'clock, had to be declared off.

Associate Judge Hon. L. W. Weliver was on hand. The court house bell rang and the prothonotary and the attorneys interested in the several cases to come up assembled in the court room. They waited until nearly 11 o'clock when it was learned that his Honor, Judge Evans, was detained in Wilkes-Barre, where he was holding court last week. Another date in the near future will be fixed for holding argument court.

Close on the heels of the electrification of the Pennsylvania Railroad from Harrison, a Newark suburb, to Long Island City, comes the official statement that the system from Manhattan and Jersey City to Philadelphia will also be electrified and that the running time between New York and Philadelphia will be reduced to one hour, the fastest time now between the two points being two hours.

The Westinghouse Co. is already at work on the new engines, which are capable of a speed of 120 miles an hour.

An official of the Westinghouse Co. stated today that it would take but a short time to completely electrify the New York division, and that the work will be started simultaneously from both this end and New York. It is also said that the next step in the general electrification scheme will be started between Philadelphia and Pittsburg.

Both the Central Railroad of New Jersey and the Delaware, Lackawanna & Western system are considering making like changes.

Eleven cases of trachoma have been discovered in Butler and considerable fear is entertained that the dread eye disease may spread throughout the city. All the victims are foreigners.

MORE SALOONS—FEWER BRAWLS

The Sunbury Daily says: "When license court was in session last winter great criticism was made of the judges because they allowed so many saloons to secure licenses in the county. The arguments advanced were to the effect that the more saloons there were the greater would be the liquor evil. The court did not bother to reply to the criticism and granted the applications for licenses, except where there was a justifiable reason for refusing. It was not until recently that an expression was obtained on the question of licenses from the court. Judge Savage, in making an address to the Iris Club of this city lately, said that he and Judge Auten had given the question of limiting the number of saloons careful consideration. They found that in the coal regions where a district had only one or two licensed places, all the men in the neighborhood congregated there and since many of them were foreigners and ready to fight at the slightest provocation, such troubles were frequent. They often resulted in serious assaults which found their way into the courts. By increasing the number of saloons they found that the residents did not buy more intoxicating liquor but that the persons who did drink were distributed in a greater number of saloons than before and that the number of men who congregated in each saloon was consequently reduced. With fewer men in each saloon there was less liability of trouble. The court cases arising from saloon brawls in the region were fewer in number than they were before new licenses had been granted."

Number of Horses Increase. Notwithstanding the vast amount of machinery in use in various ways to take the place of the horse or greatly reduce the number of horses required for farm, mine, mill and other work, the taxable, auto cars, trolleys, etc., to take the place of the horse, the latter not only does not decrease in number or value, but the demand continues with higher prices for good draught and carriage horses.

The year book of the Department of Agriculture gives the total number of horses in this country at 19,992,000 with a value of \$1,867,530,000. Illinois leads all the other states in the number of horses with 1,891,000, the estimated value of which is \$170,237,000, average value of \$107 per head. Iowa is second with 1,419,000, valued at \$140,481,000, an average of \$99 per head. Texas is third with 1,278,000, valued at \$93,070,000, an average of \$65 per head. Kansas ranks fourth with 1,108,000, valued at \$96,296,000, an average of \$87 per head. Nebraska ranks next with 1,115,000, valued at \$88,305,000, average price per head \$78.

None of the other states reaches the million mark in numbers. Ohio comes nearest to it with 949,000, valued at \$105,329,000, an average of \$111 per head. The state which has the smallest number and the highest average value is Rhode Island, with 14,000, valued at \$1,694,000, an average of \$121 per head. The other states in which the average value of \$100 or upward are Connecticut and South Carolina, average value \$118 per head; Pennsylvania, average \$114; New York and New Jersey, \$113; Georgia, Massachusetts and Ohio, average \$111; Illinois and North Carolina, \$107; Maine, \$106; Indiana, Michigan and Wisconsin, \$105; Florida, \$104; New Hampshire and Vermont, \$101. The State in which the animals are valued lowest is New Mexico, the average being but \$42.

A Square Deal

It assured you when you buy Dr. Pierce's remedy for all ailments, that the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and even potent to cure delicate women's ailments. Not a drop of alcohol enters into any of our medicines. They are perfectly harmless and will do the most delicate work of any medicine. They are perfectly safe and will do the most delicate work of any medicine. They are perfectly safe and will do the most delicate work of any medicine.

Glycerine plays an important part in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels. Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh of the nose, of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal Passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchitis, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy. It is the most valuable, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages. It is a most valuable remedy for all the obstinate, chronic coughs, which, if neglected or badly treated, lead up to consumption. It is the best medicine that can be taken.

Punishment for Black Hand.

Dominik Carnabe and Bruma Verana, convicted on several counts of attempting to kill Alec Greco, lost their last hope of escaping the payment of the penalty of their crime when a motion for a new trial was withdrawn in the Northumberland county court Sunday morning. A new trial was also refused Tony Bernaski, another of the defendants, convicted in the same case.

All of the prisoners were defendants in the famous Black Hand cases which were heard at the May term in Sunbury. All of them were found not guilty at that time, not because they were really innocent, but because there was not sufficient evidence against them. It was remarked at the time by prominent attorneys that if they were ever to be convicted it would have to be in the case of the Molly Macguire, when a detective joined the criminal band and secured sufficient evidence to convict them.

After the prisoners had been free about a month several of them waylaid Alec Greco, who was a witness against them in the Black Hand trial. They slashed him with stilettoes and would have succeeded in their attempts to kill him had he not drawn a revolver and fired it point blank at them, frightening them away. They fled from Marion Heights but were later captured at Scranton and taken to jail at Sunbury. They were tried and convicted at September term of court. Now that a motion for a new trial has been refused they will be sentenced by the court. They deserve the full limit allowed by the law.

"The Imperial Divorce."

There has absolutely been no legally authorized performance of this remarkable play in America previous to the present season. It runs in Great Britain, Australia, India, South Africa, &c., were really not authorized by the authors and owners of the play, but were presented by a fraudulent action of certain London managers. "The Imperial Divorce" with William Humphrey in the role of Napoleon will be seen in this city on next Monday evening at the Opera House. The sale of reserved seats opens at Hunt's Drug Store on next Saturday morning.

Thousands Have Kidney Trouble and Never Suspect it.

Prevalency of Kidney Disease. Most people do not realize the alarming increase and remarkable prevalence of kidney disease. While kidney disorders are the most common diseases that prevail, they are almost the last recognized by patient and physicians, who content themselves with doctoring the effects, while the original disease undermines the system.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address Dr. Kilmer & Co., Birmingham, N. Y. Write for Swamp-Root, N. Y. While writing mention this paper and don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Birmingham, N. Y.

The issue of corruption versus honesty in city government is one which confronts the people of every American city. The great American writer, Cyrus Townsend Brady, has outdone himself this time and has written a powerful story on this theme. "The Ring and the Man" is the title of his wonderful story. Love and adventure, crime and passion, politics and business, are all included in his masterful portrayal of American life. "The Ring and the Man" is a story of today and will be printed in serial form in "THE PHILADELPHIA PRESS."

The opening chapters will appear Sunday, November 29. Order "THE PHILADELPHIA PRESS" in advance from your newsdealer so you will not miss the opening chapters, for the demand will be unusually heavy.
