The special feature of the report that the town should felicitate itself upon is the absence of typhoid fever, especially in view of the fact that in many other towns of the State the disease is as-

suming the form of an epidemic. Compared with the same month last year the death rate seems abnormally low, but Dr. Shultz called attention to the fact that it averages about the same as previous years. For instance,

The gathering of old folks on New Year's day in Trinity M E. church in under the auspices of the Epworth League cabinet was a memorable occasion. At the noon hour a turkey dinner was served. Out of fifty old people invited there were thirty-one present, and these along with the past or, Rev. L. Dow Ott and wife, and the president of the league, Walter B. Lunger were seated at the table. The tables were decorated with flowers and bountifully supplied. Ample justice was done to the repast.

The combined ages of the 31 present was 2086 years. One was 86: four were 80 and past; seven were 70 and past; fifteen were 60 and past; and the ballance from 55 and over. Before and after the dinner there was a mingling together of these old people in a social way and it was a scene worthy of an artist's brush and a poet's rhyme. There are frequent assemblages of the many young people in Trinity that are cocasions of joy, but this assembly of those going down the sunny slopes of life toward the setting of the sun was in many respects most glorious and delightsome.
