CUBANS TO HAVE ANOTHER TRY

On Thursday, January 28, at noon the Cuban people, with Jose Mignel Gomez, as president, and Alfredo Zayas, vice president, will take over the management of their own government for the second time under American auspices. It was on May 20, 1902, that the American flag, hoisted after the war with Spain, was first re placed by that of Cuba. This first republic, for which the Cubans vainly fought Spain so many years, lasted little more than the period between presidential elections in the United States. In September, 1906, a com pany of marines landed at the palace from the United States cruiser Denver, halted a victorious revolutionary army on the outskirts of Havana, and American intervention, which first came against a foreign power, was again a fact-this time to set things right among the Cubans themselves.

Believing the Cubaus were able to govern themselves, the United States nations of Mayberry township: Audihaving fulfilled its pledges and promises, as above noted will give the islanders full power to rule on and Fahringer and George Crofard; tax after January 28. fter January 28. It is the opinion that it will only be the poor, W. E. Bird; judge of elec-

a question of time before the United States will have to save the Cubans Fahringer. from themselves, and again land an army, and annex the island.

It is said the new president will not retain any Cubans who served as higher officials during the period of American intervention, which will cause confusion in administrative work. The Ouban congressmen are even now discussing an increase in their salaries from \$300 to \$400 a month, although the Cuban constitution, like that of the United States, declares that an increase in salaries shall be effective only in succeeding congresses to that amending the law. Two of the first bills to come up for the lawmaker's consideration will be one authorizing a national lottery and another to permit cockfighting. These two measures are practically certain to become law. for the Liberals, who are largely the majority, favor them. Perhaps it is asking too much to expect a people to abandon in ten years those customs and vices that have cursed it for a century or longer. To cockfighting the Cubans owe much of their poverty and degradation. The lottery, as is known, has been driven out by the advance guard of civilization everywhere. Only in those countries whose moral sense is nil or dormant can it

Well impossible to be It is impossible to be well, simply impossible, if the bowels are constipated. You must pay attention to the laws of nature, or suffer the consequences. Undigested material, waste products, poisonous substances, must be removed from the body at least once each day, or there will be trouble. A sluggish liver is responsible for an immense amount of suffering and serious disease. Ask your doctor about Ayer's Pills. He knows why they act directly on the liver. Trust him. J.C.
