CHESTNUT FARM IN COLUMBIA COUNTY

By the purchase of 165 acres of timberland in what is known as "Pine Swamp" in Cleveland township, Columbia county, Coleman K. Sober, of ports are still irregular, with more Lewisburg, known the world over as the "Chestnut King," has secured a place which he considers ideal for the developing of one of his well known chestnut farms. The property was bought from Martin Luther Sober, last

week. It is his intention to take off what timber is marketable and then to clear the plot of all underbrush, and rotten limbs, etc. After this is done, he will commence the systematic planting of his "Paragon" chestnut trees, with which he has won fame and fortune. It is his intention to make the Columbia county chestnut farm the equal of his Northumberland county property. Mr. Sober has 400 acres of land on

his Irish Valley farm, near Shamokin. Here he has planted thousands of native chestnut trees, upon which he has grafted the Italian or "Paragon" chestnuts. Last year he harvested average price of \$6 per bushel.

This year he has 300,000 grafts started, and expects to graft 100 000 trees on his farm there. The balauce he will sell to Gleu Bros., a nursery firm, in ed to take all the grafts he can raise With new trees coming on this year, and a good crop, there is no present reason, he says, why the crop ought not to exceed 5,000 bushels on the farm.

The intention of Mr. Sober is to eventually sell his chestnuts in all parts of the country. He has had his farm in Irish Valley about 10 years, and has made a great success of it.

DEFACING THE

Unusual interest attaches to the report of the tubercolosis dispensary this month, as with it the crusade against consumption in Danville rounds out one year of history. The dispensary was opened March 10, 1908.

Following is the report for the month just closed:
