

LOCAL TIME TABLES.

Table with columns for EAST, WEST, PENN'A. R. R., and SUNDAYS. Includes times for 7:30 A.M., 10:26 P.M., and 5:57 P.M.

Table with columns for DANVILLE AND BLOOMSBURG STREET RAILWAY CO. and times for 7:10, 10:00, 10:50, 11:40 a.m., 12:30, 1:20, 2:10, 3:00, 3:50, 4:40, 5:30, 6:20, 7:10, 8:00, 8:50, 9:40, 10:30, 11:20, 12:10, 1:00, 1:50, 2:40, 3:30, 4:20, 5:10, 6:00, 6:50, 7:40, 8:30, 9:20, 10:10, 11:00, 11:50 p.m.

H. S. DEFEATS ST. MICHAEL'S

In the most fiercely contested game of the season, at the armory on Saturday evening, the High School five successfully defended their championship title by defeating St. Michael's A. A. by the score of 32-29.

The playing of St. Michael's was a surprise all around and to no one more than their opponents. Taking the lead at the start by several quick baskets they kept a few points in advance of High School for the first eighteen minutes of play, when after some nice floor work High School tossed two goals in quick succession, leaving them one point to the good at half time.

In the second half High School encouraged by the long delayed lead, got together and by a foul and a number of difficult baskets by Dalley and Cooper placed their score six points in the lead. St. Michael's seeing the game slipping away from them, played desperately. J. McVey succeeded in placing one and Hickey tossed 'em in from any place. At the beginning of the last five minutes of play, the score stood 26-25 in favor of High School. St. Michael's secured two more baskets and High School three. Score 32-29.

The passing of St. Michael's was the feature of the game. No chance throws were made, a man meeting the ball in every case. The coolness and bailing ability of the team argues well for their standing next season.

High School played its usual all around good game, Dalley, Edmondson, and Cooper doing the tossing. Several one arm shoots by Dalley were much applauded.

The lineup: St. Michael's Dalley forward, J. McVey Cooper forward, B. McVey Edmondson center, Hickey Kase guard, Minterz Price guard, Driscoll.

Goals from field: Dalley 5, Cooper 5, Edmondson 4, Kase 1, J. McVey 4, B. McVey 1, Hickey 7. Goals from foul: Dalley 1, Edmondson 1, J. McVey 5. Referee Kase.

Between halves the Y. M. C. A. seconds and the St. Michael's seconds played a short game, the association five winning by a score of 10 to 6. The lineups were as follows: Y. M. C. A., Ricketts and Hummer, forwards; Will, center; Dalley and Dalton, guards. St. Michael's, Ryan and Peyton, forwards; Wood, center; Shevlin and Hickey, guards.

During the spring every one would be benefited by taking Foley's Kidney Remedy. It furnishes a needed tonic to the kidneys after the extra strain of winter, and it purifies the blood by stimulating the kidneys, and causing them to eliminate the impurities from it. Foley's Kidney Remedy imparts new life and vigor. Pleasant to take. For sale by Pauls & Co's. Pharmacy.

LARGEST CLASS WILL GRADUATE

The Danville high school this year will graduate the largest class in its history—thirty-three in number. In 1908 the class numbered twenty-one; in 1907 thirty.

In the classical department there are twenty as follows: Bertha Cloud, Margaret Cole, Lillian Foster, Elsie Gearhart, Edna Gearhart, Elsie Hendrickson, Margaret Kimbel, Marie Ronve, Esther Magill, Margaret Sidler, Ethel Woods, Ethel Shannon, Louis Robinson, Thomas Bower, Frank Cooper, Harry Dalley, Edwin Jenkins, Raymond Johns, Ralph Still, Edward Price.

In the commercial department are thirteen, as follows: Elsie Galick, Lorena Galick, Edna Dyer, Lois Williams, Margaret Russell, Alice McCloughan, Clara Fischer, Mary Gramm, Thomas Ryan, William Brietenbach, Frank Irvin, John Mitchell and Scott Heim.

Two months of the school term still remain. The faculty of the high school regards the class this year as an exceptionally strong one and there is little doubt but that each member will make a favorable showing at the end of the term.

Some half a dozen of the young men of the class are looking forward to a college course. At least four of girls will enter the normal school at Bloomsburg.

REAPING BENEFIT.

We are fortunate indeed to be able to profit by the experience of our neighbors. The public utterances of Danville residents on the following subject will interest and benefit thousands of our readers. Read this statement. No better profit can be had.

Mrs. William Robenolt, 304 Church St., Danville, Pa., says: "I do not think there is a kidney remedy on the market equal to Doan's Kidney Pills. I suffered a great deal from kidney complaint and backache and whenever I brought any strain on the muscles of my loins, such as is done when stooping or lifting, sharp pains would catch me through my loins. Doan's Kidney Pills, which I procured at Hunt's drug store, disposed of every symptom of the trouble. I could not have hoped for greater benefit than I received."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

Engineer On Duty.

Edward F. Bell, whose foot was injured by being caught in the machinery at the water works two weeks ago, has so far recovered as to be able to resume his post, although he is very much disabled. He went on duty for the first Monday.

Livestock Offices Closed.

The State Livestock sanitary board has closed the branch offices established in various parts of the State during the outbreak of foot and mouth disease.

Sowing Oats.

Several farmers of the county sowed oats Monday, which is earlier than this crop has been placed in the ground for some years past. Much of the corn ground is already ploughed.

Albert Kemmer Ill.

Albert Kemmer, the east end hotel keeper, is confined to his home by illness. He has been indisposed for a week or so past.

QUARRY BLAST OPENS BIG CAVE

A large cave was discovered Saturday by Irvin Boyer, as he blasted part of his limestone quarry at Fremont, Snyder county, twelve miles from Sellingsgrove. By water dripping from the ceiling for thousands of years limestone stalagmites and stalactites have been formed and in many instances they meet and formed pretty columns.

One unique formation is a series of graduated stalactites receding in length from thirty-two inches to one foot, and by scraping a stick along the pendent barlike formation a scale of musical sounds can be produced. At another place a well-defined profile of a human face has been made in the rock. So marvelous are the acoustic properties of one section of the inclosure that a whisper is audible a hundred feet away.

The main cavern is 1300 feet long, twelve to fifteen feet high and averages 100 feet in width. Leading off from this are numerous side chambers, which have not been explored because of the small apertures make them inaccessible. Torrents of water can be heard rushing through these inkblack halls, and in one there seems to be a falls over which large volume of water descends with a roar. Streams of cool water wind through the main cavern and make walking difficult.

Will Lead Parade.

Company F, Twelfth regiment, N. G. P., at its last business meeting unanimously decided to accept the invitation to lead the big parade on the occasion of the Odd Fellows' anniversary to be held in this city on April 27th.

The company order will be issued in a few days. The guardsmen will appear in full dress uniform, which will be the first time that they were ever seen thus uniformed in Danville. They were in full dress when they participated in the parade on Founders' week in Philadelphia last summer. On that occasion they wore their full dress uniforms for the first and made a strikingly fine appearance.

If you have backache and urinary troubles you should take Foley's Kidney Remedy to strengthen and build up the kidneys so they will act properly, as a serious kidney trouble may develop. For sale by Pauls & Co's. Pharmacy.

Sunbury Wants 6-County Fleet.

The Sunbury Fire department has decided that it would like to have the 1910 convention of the Six-County Firemen's association meet in that town, and to gain their ends will make a big fight at the three days' meeting in Danville next June.

The Sunbury fire department held a meeting Monday night at which the representatives of the various companies were present, action being taken to interest the business men of Sunbury in the convention movement.

All of the Sunbury companies are members of the association and it is likely that all will be in attendance at the Danville convention.

At the meeting the representatives of the No. 1's stated that their company, with about 300 of its members will go to Danville on the big day and the representatives of most of the other companies said that it was likely that they too would have large delegations which will be prepared to put up a fight to win the 1910 convention.

Foley's Honey and Tar is a safeguard against serious results from spring colds, which inflame the lungs and develop into pneumonia. Avoid counterfeits by insisting upon having the genuine Foley's Honey and Tar, which contains no harmful drugs. For sale by Pauls & Co's. Pharmacy.

Will Make Brick.

John Keim, the brick manufacturer, states that if the favorable weather conditions continue next week, he will begin the manufacture of brick. Mr. Keim operates four brick yards. There is still a considerable quantity of brick stored in his kilns.

TROLLEY LINE BEING PLANNED

A company composed of prominent men in the various towns along the proposed line, together with several capitalists from New York and Harrisburg, has been formed for the purpose of building a trolley line along the West branch of the Susquehanna connecting Montoursville, Muncy, Mountgomery, Waterstown, affording a continuous trolley road between Lewisburg and Williamsport, and eventually to reach Sunbury and Shamokin, and afford a link in a system to reach the large eastern cities.

It is the intention of the stock holders of the concern, in addition to providing their own power to erect a powerhouse sufficiently large to furnish light to the communities into which the line passes.

The road will probably connect with the line which is to be built between Shamokin Dam and Lewisburg, the plans for which also include the furnishing of light.

This will be one of the longest systems in the State. Although New England and other more populous sections of the country are well supplied with trolley service between larger towns, yet the development of such service is only in its infancy.

People past middle life usually have some kidney or bladder disorder that saps the vitality, which is naturally lower in old age. Foley's Kidney Remedy corrects urinary troubles, stimulates the kidneys and restores strength and vigor. It cures uric acid troubles by strengthening the kidneys so they will strain out the uric acid that settles in the muscles and joints causing rheumatism. For sale by Pauls & Co's. Pharmacy.

SEAMAN ON THE KEARSARGE

Ralph Turner, a seaman on board the Kearsarge, who went nearly around the world with the great American fleet, arrived in this city Saturday for a visit with his parents, Mr. and Mrs. William Turner, West Mahoning street.

The Kearsarge, like several other vessels that were in the fleet, is at League Island and will go out of commission. The crew thus have an opportunity to visit their homes. Ralph will remain in Danville until the 18th inst. when he will report for duty and be transferred to some other ship.

He enlisted at San Francisco, joining the fleet at that place and has accordingly seen a year's service on board the Kearsarge. He is quite well pleased with a seaman's life and has no wish to retire from the navy. He finds the work rather hard at times, but the discipline, he says, is perfect and the seamen lead a good clean life.

We often wonder how any person can be persuaded into taking anything but Foley's Honey and Tar for coughs, colds and lung trouble. Do not be fooled into accepting 'own make' or other substitutes. The genuine contains no harmful drugs and is in a yellow package. For sale by Pauls & Co's. Pharmacy.

Spring Examinations.

The final spring examinations of Ralph township were held in the high school building at Elysburg on Saturday. The examining board were Misses Vera Cardell, Gertrude Sanders, Lulu Brady and Elizabeth McWilliams, Miss Virginia Vought, secretary. Those passing the examinations were Misses Helen Severson, Alma Severson, Bella Startzel, Messrs. Ray Kase, Frank Smith, Earl Vought, Frank Hartman, Frank Herb.

Would Bear Improvement.

Pursuant to the action of council the street commissioner will cause the principal streets of the borough to be cleaned up before the Odd Fellows' anniversary. It is unfortunate that something can not be done with the old canal to make it look a little more presentable for the occasion.

Of Interest To Women.

To such women as are not seriously out of health, but who have exacting duties to perform, either in the way of household cares, or in social duties and functions, which seriously tax their strength, Dr. Pierce's Favorite Prescription is a most valuable supporting tonic and invigorating nerve. By its timely use, much serious sickness and suffering may be avoided. The operating table and the surgeon's knife, would it be believed, seldom have to be employed if this most valuable woman's remedy were resorted to in good time. The Favorite Prescription has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

FLAG AND POLE FOR THE PARK

The Garfield Literary society of the high school has a movement on foot, which reveals alike its spirit of enterprise and its true patriotism. It has decided to raise a flag pole with a handsome flag in Memorial park and to present it to the borough as a part of the park property.

The intention is to raise the flag on Memorial day, on that occasion formally turning the gift over to the borough. Permission to do this has already been granted by the committee that has the program for the day in charge. The flag and the pole will be very pretentious affairs. The raising of the flag will be attended with appropriate exercises, constituting an interesting feature of the day.

Not only the present members of the Garfield society, but the alumni as well will be interested in raising the money needed. The members will each be assessed a certain sum, in addition to which letters will be sent out to the alumni asking for contributions. In this relation it is interesting to note that there are ninety members of the Garfield society, while the alumni number one hundred and seventy-five.

New Buildings Completed.

Work on the female infirmary and on the building for the acute insane female patients at the hospital for the insane is now completed.

Painting—the last branch of the work—was finished on Saturday. The painting was sublet by Mosier and Summers to J. Marsh of Buffalo, N. Y., who placed the work in charge of Edward Yeager of this city. Mr. Yeager has been steadily employed at the hospital since last August.

The male infirmary, which was raised one story by Mosier and Summers under another contract, is not yet completed, but in a week or so will be ready to turn over to the trustees. The three magnificent structures completed—the two buildings for the acute insane and the female infirmary—have sprung into existence during the brief period of one year, wholly changing the appearance of things at the hospital, adding immensely to the facilities, so that overcrowding, which, for so many years was a detriment, is relieved and the insane henceforth will enjoy advantages unknown in the past.

GOT THE WHOLE VOTE.

A Pledge That Was Freely Given and That Was Easily Kept. It is related of a certain candidate for office in a certain Kansas campaign that he billed himself for a speech in a southern Kansas town on a certain October day and wrote ahead to a number of friends there to give him "tips."

One of them told him to see a certain colored man upon his arrival in the town. "If you can get the vote of this negro," wrote the friend, "you can get the vote of the whole negro population in this town. Don't fail to see him and get him to your way of thinking."

About the first thing the candidate did after registering at the hotel was to look up this negro. It was only a little while after the introduction that he was calling the negro by his given name, filling his pockets with cigars, passing him compliments and generally "giving him the taffy." The negro took it all and enjoyed the occasion immensely. The candidate spent several hours in the negro's company and after he thought the proper degree of warmth had been obtained broached the real object of his friendship: "Say, John, I want the negro vote of this town."

"All right," replied John. "I'll vote for you, sah. I'll vote for you. I'm for you, sah."

"That's all right," said the candidate. "That's all right. I'm sure you will. I'm sure you will. But I want to have the whole negro vote of this town. I want to get all."

"Dat's all right," responded the negro. "I done said I'd vote for you. I'm yo' friend. I'll suttinly cast my vote for you."

"But, say, John, I know that," said the candidate. "See here, I'll be frank. The fellows told me that you are a big man among the colored folks down here and that if I got your vote I'd get the whole negro vote in this place. Do you catch on?"

DEATH RATE INCREASING

The month of March showed a decided increase in mortality in this district, there being thirty-four deaths reported as against twenty in February, twenty-one in January and seventeen in December. During March it was noticeable that a large percentage of the deaths that occurred were among very old people.

Of the deaths reported thirteen occurred at the hospital for the insane. The district is entirely clear of typhoid fever. During February two cases of that disease were reported. There was one case of pneumonia during the month. Chicken pox, which was a factor during the winter, still lingers with us, although only four cases were reported during March.

There was one case of erysipelas, which proved fatal. Measles seem to be stamped out. Three cases of diphtheria were reported. Two cases of scarlet fever were reported as against three cases in February. The report on the whole is most favorable, especially when we reflect that March is a month when sickness in various forms is likely to prevail even under the most sanitary conditions.

DRAWING CLASS LAST LESSON

The class at the Y. M. C. A., which has been taking lessons in drawing under Daniel O. McCormick, finished its course of twelve lessons Tuesday. Mr. McCormick pays the members of the class a nice compliment, stating that they have proven themselves apt pupils and have applied themselves closely the result being that each has produced work of real merit mostly in the form of show card work. The class in turn has a good word to say for Mr. McCormick, averring that he is earnest and skillful and is a most painstaking instructor.

The following were in the class: Paul Andrews, John F. Tooley, Austin Klase, Allen Furwald, Myron Bernheimer, Orville Ott, Harry Cromwell, William Bell, William Reese, Joseph Lowenstein, Leon Moyer and C. P. Harder.

How's This. We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by him.

WALDING, KINNAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

Pittsburg Coal. Pittsburg coal is soon to be carried across the sea to foreign markets in the same vast quantities it now is carried up the lakes to the region of the northwest. Ships capable of carrying 20,000,000 tons a year will carry the coal to southern Europe and return laden with iron ore.

THE U. S. GOVERNMENT in its "Pure Food Law" does not "indorse" or "guarantee," any preparation, as some manufacturers in their advertisement would make it appear. In the case of medicines the law provides that certain drugs shall be mentioned on the labels, if they are ingredients of the preparations. Ely's Cream Balm of the well-known family remedy for cold in the head, hay fever and nasal catarrh, doesn't contain a single poisonous drug, so the makers have simply to print the fact that it complies fully with all the requirements of the law.

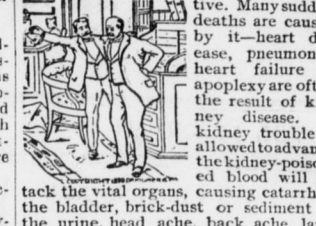

Misplaced Signal Killed Two. A misplaced railroad signal at Allentown caused the death of John Heinbach and the fatal injury of David Eeck. They were car inspectors on the employ of the Lehigh Valley railroad company and were caught while looking over a train.

Mr. F. G. Fritts, Oneonta, N. Y., writes: "My little girl was greatly benefited by taking Foley's Kidney Remedy. I think it is the best remedy for constipation and liver trouble. Foley's Kidney Remedy is best for women and children as it is mild, pleasant and effective, and is a splendid spring medicine, as it cleanses the system and clears the complexion." For sale by Pauls & Co's. Pharmacy.

Crushing Stone. The stone crushing plant at the hospital for the insane has started up for the season. Large quantities of crushed limestone have been delivered on the highway leading from the hospital entrance to East Market street, where it will be used in completing the macadam.

A Life Pass. The Pennsylvania railroad company has given William Gail a check and a permanent pass over its lines for saving a passenger train from running into a landslide near Frackville, Schuylkill county, a few nights ago.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive and so insidious. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, brick-dust or sediment in the urine, head ache, back ache, lame back, dizziness, sleeplessness, nervousness, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and better health in that organ is obtained quickest by a proper treatment of the kidneys. Swamp-Root corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root, the great kidney remedy is soon realized. It stands the highest because of its remarkable health restoring properties. A trial will convince any one. Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle and a book that tells all about it, both sent free by mail. Address, Dr. Kitteridge & Co., Birmingham, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

CONTRACT GIVEN FOR TABERNACLE

The trustees of the Evangelical Camp association at West Milton, met Saturday and let the contract for the erection of the tabernacle and dormitory. This tabernacle will be octagon shaped and with the singers' platform will seat two thousand persons. The dormitory will include a large dining hall and sleeping apartments for visitors attending the meetings. The contract was awarded to a Williamsport firm, and the buildings must be ready by the middle of August. On the 16th of August the Keystone League convention will convene and will be followed by the Bible conference. After the Bible conference a ten day campmeeting will be held. Bishop Hartizer will be chancellor of the Bible conference and he will also conduct the campmeeting, assisted by some of the ablest ministers of the conference. The combined services will run from the 6th to the 31st of August.

Your 1909 Advertising. If it is to appear in Philadelphia should be placed in THE PHILADELPHIA PRESS, The Great Home Newspaper of Philadelphia. The advertiser in THE DAILY PRESS makes the most direct appeal it is possible to make to the purchasing power of Philadelphia. Because THE PRESS is the paper that goes into the majority of the better class of homes. It is the paper the wife insists upon having. It is the paper the thoughtful parent puts into the hands of son and daughter. It is the paper the men of his household want for its dependable news. Its character, its prestige, its reliability—are the reasons why. There's no scatter-shot circulation, no hit-or-miss advertising with THE PRESS. There's no guessing either about THE PRESS circulation; it is the one morning paper in Philadelphia which issues a detailed statement sworn to. The present rate of THE PHILADELPHIA PRESS for the quantity and quality of its circulation, makes it the biggest value in advertising in Philadelphia. For rates, etc., write THE PHILADELPHIA PRESS, Philadelphia.

Large Barn Burned. The large barn of Harvey George, Franklin township, Columbia county, near Bethel church, four miles from Elysburg, was burned about 11 o'clock Saturday night, the reflection from the blaze being plainly visible in this city.

The fire was seen first by Mrs. George and had then gained such headway that but little could be done toward saving the contents. Two horses and 2 hogs, a calf, and some chickens were burned. A corn cultivator, a grain thrasher and separator belonging to A. C. Gottshall, and other machinery were destroyed. Three cows were saved. About 100 bushels of buckwheat, 80 bushels of rye, some oats, straw and fodder were also burned.

The barn was a large bank structure which formed the center of a group of smaller buildings, consisting of a hog pen, a chicken coop and 2 wagon sheds all of which were destroyed. The loss is estimated at between \$1200 and \$1400. Mr. George carried insurance. The origin of the fire is a mystery.

His foot becoming entangled in a coil of rope he was throwing to the dock at Philadelphia, E. C. Dyer, an apprentice boy 17 years old, working on the steamship Gloriana, was jerked overboard and drowned.

Not a Drop of Alcohol

What is a "tonic"? A medicine that increases the strength or tone of the whole system. What is an "alterative"? A medicine that alters or changes unhealthy action to healthy action. Name the best "tonic and alterative"? Ayer's Sarsaparilla, the only Sarsaparilla entirely free from alcohol. Ask your own doctor all about it. Never take a medicine doctors cannot endorse. J. C. Ayer Co., Lowell, Mass.

Without daily action of the bowels poisonous products must be absorbed. Then you have impure blood, biliousness, headache. Ask your doctor about Ayer's Pills for constipation.
