Danville, Pa., May. 13, 1909.

## NINE DROWNED AS CRAFT UPSET

Nine lives were lost in a terrible drowning accident in the North branch of the Susquehanna river near Wilkes-Barre Sunday afternoon. Nine bodies, unrecovered, are adrift in the swift correct now and are likely being carried down stream.

Authorities of the various towns

along the river are looking for them and they may drift as far as Sunbury or even to the Chesapeake bay, as did prizes follows: a comple of those from the Mifflinville

Wilkes-Barre, Pa., May 10.-Nine persons, boating in the Susquehanna gine in line drawn by horses, \$20.00 river at Port Griffith, near this city. were drowned by the boat upsetting. der truck in line drawn by horses, They are William Andrews, of Port \$20 00. Griffith; Theodore and Thomas Andrews, Frank Marianosky, Adam Strn-kus, Frank Ganofsky, Mrs. Frank line, \$25.00.

Muberry street the trench passes water and presents other advantages.

Muberry street the trench passes water and presents other advantages.

Berwick won the challenge cup at Ganofsky and their two small boys. John and Michael, all of Providence, near Seranton. None of the bodies have been recovered.

William Andrews was entertaining ber of uniformed men in line, \$25 a number of relatives from Providdinner took them out for a boat ride. men with Andrews, his sister-in-law four months marching in line, \$3.50. and two little nephews, and started

Andrews apparently did not realize four months marching in line, \$3.50 how dangerous the current was. He rowed broadside to the current and had active membership for not less than gone only a few yards from the shore four months marching in line, \$3.50 when the boat was caught in the rush of the waters and swept quickly down stream.

People on shore, who had warned him than three companies must compete in about going out in the overcrowded drill.) boat, saw him struggle with the oars when he realized that the boat was getting beyond control, and then the accident happened quickly.

The boat was low in the stern, with the several people seated in it. Apparently one of the men there moved forward to help Andrews with the oars, the movement causing the boat to rock. It shipped some water at the said Mrs. Hankey; "that's what's the

the water, the boat rocked more and shipped a quantity of water. There followed a wild scramble of the now thoroughly frightened people and the next moment the boat upset, and with tling with them. wild shricks for help all the occupants were thrown into the water.

Whether any of them could swim is not known. Some swimmers say they would not care to be caught in the current, and none of the many on shore who witnessed the accident could do anything to rescue those who were struggling in the water, no other boats being available at the time, and the heart-rending tragedy was enacted quickly. The nine were swept away by the water. Some of them grasped each other and went down quickly. A couple clung to the boat for a few seconds, but others who hung unto them dragged them off, and in less than three minutes nothing remained in sight except the boat, floating bottom

# BASE BALL FAN WILL FIND BIG TREAT IN

Richer in information, more beautiful as to appearance and crammed fuller of entertainment. The North American's special annual baseball supplement, to be issued Sunday, May 16, them and put them in a vase of salt

The first page in colors is an attractive arrangement, containing photographs of every player of the Phillies and Athletics, an illustration well worth framing. The back page in colors shows the difficulties of making baseball's most dangerous play, tagging a runner.

American's baseball humorist, contributes a story on the era of the silkstocking ball player. It is illustrated by Cartoonist Hoban.

is photographed, there is a page devoted to the Atlantic League and all of the other leagues; New York State, North Penn, Delaware county, Bucks county etc., have representations.

School, college and independent baseball in state and city; the amateur game as played by the youngsters on the lot and in the park come in for liberal attention, the rosters of 1000 teams being carried.

teams being carried.

The batting and fielding averages of the big leagues will be found only atory. Sam sat on the sofa, and Sally one of many valuable features that will make this a reference guide for the whole season.

Orders should be placed at once, as last year's edition was quickly exhaust ed, and the demand for the present supplement will be even greater.

## Sold Another Elmore.

"Now, take Bateson hisself," con-tinued Mrs. Bateson. "A kinder hus-band or better Christian never drew breath, yet so sure as he touches a bit of pork he begins to worry hisself about the salvation of his soul till there's no living with him. And then he'll sit in the front parlor and engage in prayer for hours at a time till I

to go troubling the Lord with a prayer when a pinch of carbonate of soda would set things straight again!"

## Dyeing Real Flowers

"Every once in awhile some florist gets busy and puts some odd colored blossoms in his window as an extra attraction to the display," said a club-man. "I just noticed one down the street. It consisted of a bunch of impossibly green carnations. At first glance a good many people thought they were made of paper, but they got interested when they found out that they were 'natural.' Now, anybody who wants to have any of these freak flowers can get them by buying some kind of aniline ink, any color desired. Carnations are the easiest to color white ones, of course. Put their stems in a glass filled with ink. Their stems are soft, and in a short while the larger veins in their petals are filled with the ink. Don't let them absorb too much color. They are prettier with just so much. Then remove well eclipse all three of its predecessors.

water. Lilies of the valley lend themselves to this scheme also. In fact, any white, soft stemmed fl. be used."-Philadelphia Record.

There Was Something Doing

In a barber's shop the other day I saw a man for whom I felt sorry-not that he needed my sympathy from the standpoint of charity, for he was a well to do man, having many business affairs, but I felt sorry for him be-cause of what he was doing. A bar-ber was cutting his hair. He was hav-ing his left hand manicured. In his right hand he held a newspaper. He was smoking a cigar, and a porter was shining his shoes. There he sat read-ing a newspaper. Three persons were busy waiting on him, doing their best to please him, and he was oblivious to the joy which his opportunity afforded him.-Fort Worth Star.

What's In a Name.

Talking of names, what's in them?
A good lot sometimes, We knew a girl named Rose once. She was a daughter of old Rose, and he, being a little romantic, christened her Wild. Certainly Wild Rose is a pretty name. But, alas, the old man was not farseeing! She married a man named Bull. Then, again, we happen to know a

ing! She married a man named Bull. Then, again, we happen to know a carpenter named Pierrotezic Zrnchzizrowskelowski. Now, whenever a fel-low workman saws down on a nail this chap always sings out, "What is it?" He thinks they are calling him.
Yes, there's a good deal in a name.

## Partners In Crime.

London Scraps.

The hard looking customer had been arrested for stealing an umbrella.

"What have you to say for yourself?" asked the police justice. "Are you guilty or not guilty?"

"I'm one o' the guilty ones, y'r honor, I reckon," answered the prisoner, "The umbrella had the name of I. Thompe.

umbrella had the name of J. Thomp son on the handle, G. H. Brickley stamped on the inside o' the cover, an' I stole it from a man named Quimby." -Chicago Tribune,

Knowing.
"Does he know much?"
"Well, he not only knows that he doesn't know much, but he knows enough to keep others from knowing tt."-Judge.

Saving Cuff Addresses.

Folded up with the laundry bill was another slip of paper, on which were several lines of fine writing. "What is this?" asked the new cus

"Those are the addresses we copied off your cuffs," said the clerk. "We always make a record of the addresses we find on cuffs and return them with the laundry, so if our customers have not put them down any place else they won't be lost."—New York Press.

Three New Hats.
Milliners have other troubles besides the frequent difficulty of collecting in a brief time had advanced from poverty to great wealth. His family was still in obscurity, but was preparing to emerge.

"I want you should make a bonnet and two hats right off," wrote the wife, "for me and the girls, and expense is no account.

"My measure is nearly twelve inches from ear to ear over the head and eight under chin and six from top of forard to back hair, and that's near

enuff for both the girls.
"I'm sandy, Jane is dark, and Lucy's got red hair. We want lively colors, and I want blue flowers and strings

mine, besides some plooms.
"Jane wants hers green, and Lucy wants pink. We don't care what shape but they must be becoming and so as they won't blow to peaces in the wind

Nor we don't want them loud, for my husband won't hear to such.
"Please send within five days, and if satisfatory bill will be paid at once." -Youth's Companion.

Curly Hair Means Obstinacy. The curly headed man uttered an exclamation of maze.
"Strange," he said, "I have been

drawn for juries time and again, but I have never served. They always challenge me. I wonder why?" "It is your curly hair," said a law-

"A curly headed man kills a jury. He always causes it to disagree."
"That is not true. You must be

crazy," said the other. "It is the gospel truth," the lawyer persisted. "Curly heads are as obsti-nate as mules. They think they know it all. They disagree with everybody. "It is because," he hastened to add, "their curly hair makes them so good looking. In childhood they are spoiled by their parents, and in maturity women spoil them, falling in love with them on every side. So they become conceited. They disagree with everybody. Lawyers the world over recog nize that as jurymen they would never do."—New Orleans Times-Democrat.

## Notice.

for four successive weeks, and that the petitioner comply with all the other requirements of the Act of the General Assembly of April 9th., 1852,

By the Court, CHARLES C. EVANS, P. J A22, 29, M6, 13.

Notice is hereby given that the Court of Common Pleas of Montour County has made and entered the following decree :-DECREE.

## And now April 17th, 1909, it appear-

ing from the record that no answer as been filed to the rule granted Jan-uary 11, 1909, and that the rule was advertised as directed, after due con-sideration it is ordered, directed and decreed that Ralph Winter Diehl shall, cerned in this appraisement that an after the publication of this decree as directed by the Act of Assembly, be sioners' Office at the Court House in known by the name of Ralph Beaver Diehl, in accordance with the prayer It is herbey further ordered that

notice of this decree be published in the "Montour American," a workly newspaper published and of general circulation in Montour County, Pa.

# REPRESENT 20,000 BE RID OF THE CHURCH MEMBERS DESTRUCTIVE MOTH

In his weekly letter to the press of Pennsylvania of May 11, Professor H. A. Surface, State economic zoo'ogist, says in regard to that pest to all house

which cover w wide range of subjects, from spraying for the destruction of San Jose scale and oyster shell bark lonse to the ridding of callars of rats here during the sessions. The synod and mice. A case in point may be mentioned:

> A physician wrote to inquire whether or not camphor is the best preventive of moths in cases containing clothing." As this is season of the year when winter clothing is being put away until needed again, and housekeepers want to know how to keep the moths from destroying the same, the Professor's answer is apropos. He replied as follows:

> PREVENT DAMAGE FROM MOTHS "As a preventive of moths in cases containing clothing, there is nothing like making the cases which they are packed so tight that the moth can not enter to lay her eggs, from which eggs the larvas come. I prefer naphthaline balls to camphor, but if the garments are wrapped in newspapers and put into a protected case and this sealed with strips of paper pasted over the cracks at everypossible point of entry, to keep out the moths, there will be no danger of the moths developing. Camphor or naphthaline balls can be used in the packages also, but these alone will not prevent the occurrence of the moths, nor destroy the moth larvae after they have entered. The chief point in protecting fabrics from destruction by moths is to keep them in a vessel where the little winged moth can not enter to lay its eggs. An aid to this is the use of some substance like the balls above mentioned. which act as a repellant. After the clothing is attacked destroy the nests at once by fumigating with bisulfid of carbon."

The State zoologist of Pennylvania ecommends one pound of this liquid to each 100 cubic feet of space, either sprinkled on cloth or poured into shallow vessels placed on it.

## Difficult Advice.

Mrs. Rayce was talking to another oung woman at a tea.

"How decidedly better off a man would be," said the other young wo-man, "if he would only take his wife's advice!

"Quite true, my dear," said Mrs. tayce. "I've advised my George time and time again not to bet on horses that don't win, but he will do it.

"So you abandoned the simple style "So you hoandoned the simple style of spelling?"

"Yes," responded the former advo-cate of the fad. "I found it so difficult to make people understand that I knew better."—Philadelphia Ledger.

As Good as He Gave. "Here is my seat, madam, but can-dor compels me to say that I think you are as well able to stand as I am." "Politeness compels me to say."—New York Journal.
