BUILDING THE CONCRETE TUBE

The big storm or surface sewer at the hospital for the insane being constructed by Hayes and Clark is well under way and in a day or so will have reached a point when work may begin on the concrete ring or tube.

The sewer will be one thousand feet in length, while the diameter of the concrete tube will be five and a half feet. At the river, where excavation is in progress, the sewer will lie some fifteen feet below the surface. Digging is in progress for some 300 feet. For one-third of this distance the trench is sunk about twelve feet and stout cribbing is installed.

The ground is composed of sand, gravel or clay and digging is easy. Down to a certain depth ploughs and scrapers are used to advantage. The greatest number of men employed up to the present has not exceeded a dozen. As soon as the concrete work gets under way the number of hands will be doubled.

Charles F. Mebus, of the firm of Albright and Mebus, Philadelphia, which has charge of the engineering work at the hospital for the insane, was on the ground yesterday conferring with Hayes and Clark relative to some details of the work.

Everything is practically ready for beginning work on the concrete tube, which seems to be the first example of this method of sewer construction employed about Danville. On the ground is a number of steel centers of very ingenious construction, to be used in building the tube. The centers are steel plates bent in the form of a semi-circle, upon which the concrete of the ring or arch is supported in position until it becomes self-supporting. The centers are so constructed that they may be placed in the several different positions required with ease and dispatch and when once rightly started work on the concrete tube will no doubt progress very rapidly.

De Witt's park undoubtedly has the preference among the several resorts under consideration and, if the management gives assurance that it will install the improvements deemed necessary, the park will probably be selected as the place for holding the fifth annual outing, provided an agreement can be reached as to "privileges."

Among the conveniences that the association will stipulate for is an increased number of tables, a better distribution of the water supply and the installation of twelve to fifteen toilet rooms, properly sheltered and protected.

De Witt's park undoubtedly has the preference among the several resorts under consideration and, if the management gives assurance that it will install the improvements deemed necessary, the park will probably be selected as the place for holding the fifth annual outing, provided an agreement can be reached as to "privileges."

NATURE TELLS YOU

As Many a Danville Reader Knows Too Well.

When the kidneys are sick, Nature tells you all about it. The urine is nature's calendar. Infrequent or too frequent action. Any urinary trouble tells of kidney illness.

Doan's Kidney Pills cure all kidney ills.

People in this vicinity testify to this.

William Spats, 807 Lincoln St., Milton, Pa., says: "My kidneys were disordered for a long time and my back was very lame and weak. Any movement, bringing a strain on the muscles of my back, was very painful and a weakness of the kidneys came to me, compelling me to arise at night. The kidney secretions were attended with a scalding sensation in passage and there was so frequent a desire to void that at night that I could scarcely get any rest at all. My general health was affected and I felt miserable when I was advised to try Doan's Kidney Pills. I used them according to directions and they soon removed the lameness and pain, regulated the kidney secretions and improved my general health. I appreciate the merits of Doan's Kidney Pills and recommend them to all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

HOLD UP AUTO FOR THREE MILES

An example of the perversity of some men was presented Sunday night when an automobile party, coming up from Northumberland, was compelled to crawl along behind two hacks from Chulasky all the way into Danville because the hackmen refused to allow the car enough room in the road to pass. Another hack behind the auto was also held up in the same manner.

The road in question is narrow, but there are a number of places where a passing could have easily been made. The driver of the car states that the hacks were handed so as to prevent him from passing. When the procession arrived in Danville and the road widened and the hackmen could no longer prevent the auto from passing the hack drivers mockingly thanked the driver for the light his lamps had furnished.

There is an old law which covers such cases as that of Sunday night, and it has been invoked on several occasions in this State recently. It provides a penalty of \$20 for a person who refuses to give half the road to allow a faster vehicle to pass.

The higher temperatures and sunshine are welcome to truckmen and farmers.

FARMERS' 5TH ANNUAL OUTING

A meeting of the Tri-County Farmers' picnic association was held in the grand jury room on Saturday forenoon. President George M. Leighow occupied the chair. Secretary H. M. Baker was also present.

The object of the meeting was to select a suitable grounds for holding the Tri-County Farmers' picnic. This year will occur the fifth annual outing. Each year the picnic has assumed larger and larger proportions. Last year it was a record breaker. This year a still larger out pouring of the people of the three counties is anticipated.

The success of the picnic in point of attendance being assured the next step is to secure suitable grounds. Several different parks were considered among them, Columbia park and Edgewood park in addition to De Witt's park, where the picnic was held last year. It was the unanimous opinion, however, that the latter park was deficient in conveniences and that many improvements would have to be installed before it could be considered at all. The unsuitableness of the park and the general lack of conveniences was the cause of a great deal of complaint last year and it was urged that it would be ill advised to assemble a still larger crowd on the grounds this year without positive assurance from the management that facilities would be sufficiently enlarged to take care of all the people present.

Among the conveniences that the association will stipulate for is an increased number of tables, a better distribution of the water supply and the installation of twelve to fifteen toilet rooms, properly sheltered and protected.

De Witt's park undoubtedly has the preference among the several resorts under consideration and, if the management gives assurance that it will install the improvements deemed necessary, the park will probably be selected as the place for holding the fifth annual outing, provided an agreement can be reached as to "privileges."

AN IMPRESSIVE CEREMONY

The corner stone of St. James' Roman Catholic church at Exchange, was laid Sunday, the occasion bringing out one of the largest assemblages of people that have congregated at that point in many years.

St. James' church is well under way. The walls are erected and even the frame work is installed. Accompanying the ceremony the corner stone was inserted in its place, which had been left vacant when the wall was built.

There was a general outpouring of people. The whole countryside seemed represented. In addition, there were over a hundred present from Danville.

The ceremony was very impressive, the priests officiating being as follows: Rev. Father Murphy, of Bloomsburg; Rev. Father McCann, rector of St. Joseph's church, Rev. Jules Foin, rector of St. Hubert's church, Rev. A. M. Feesser, of the Holy Family Convent.

Rev. Father Feesser officiated in the ceremony of blessing the corner stone. Rev. Father Foin delivered the address on the occasion, which was an especially able and appropriate effort.

The music was rendered by members of the choir of this city connected respectively with St. Joseph's and St. Hubert's churches.

The corner stone was laid at 3 o'clock.

Colds that hang on weaken the constitution and develop into consumption. Foley's Honey and Tar cures persistent coughs that refuse to yield to other treatment. Do not experiment with untried remedies as delay may result in your cold settling on your lungs. For sale at Paules and Co's Pharmacy.

SUCCESSOR TO GEORGE W. MILES

Several candidates for the vacancy in the board of county commissioners caused by the death of George W. Miles have already materialized.

There is conflict in the authorities, both as to the manner in which a successor shall be chosen and the length of time that he shall serve, which is somewhat confusing to a mere layman. The subject was discussed a good deal about the court house on Saturday but no conclusion as to the proper form of procedure was reached. A few weeks may elapse before a successor to Mr. Miles is chosen.

ONE AUTHORITY.

Pardon's Digest sets forth the following relative to filling such vacancies: "If any commissioner shall decline serving in such office or shall die or shall remove out of the county, or be removed from office, the remaining commissioner or commissioners, together with the court of quarter sessions of the county, shall appoint a suitable citizen to fill the vacancy until the next general election, when a commissioner shall be elected for the unexpired term."

THE CONSTITUTION.

Section 7 of the Constitution of Pennsylvania provides: "That any casual vacancy in the office of county commissioner, or county auditor shall be filled by the court of common pleas of the county in which such vacancy shall occur by the appointment of an elector of the proper county, who shall have voted for the commissioner or auditor whose place is to be filled."

IN HANDS OF ATTORNEY.

According to the first authority cited, the county commissioners and the court are to act jointly in filling the vacancy and the person selected shall act only until the next general election. In the second, which is the latter authority, the filling of the vacancy rests solely with the court of common pleas of the county, the understanding obviously being that the appointment is for the unexpired term. Which of the two forms of procedure is adopted may mean a great deal to some of the aspirants. County Solicitor R. S. Ammerman, Saturday, said he would look up the decisions and tender an opinion on the subject.

Foley's Honey and Tar is especially recommended for chronic throat and lung troubles and many sufferers from bronchitis, asthma, and consumption have found comfort and relief by using Foley's Honey and Tar. For sale at Paules and Co's Pharmacy.

FRIDAY WAS LADIES' DAY

Friday was ladies day at the Danville base ball grounds in more ways than one. In the grand stand a large contingent of Danville's fairest fair ones had just a lovely time watching a cute little dog run over the diamond and out in the lot sun another bey put up a game that really would not have done credit to a team of female professionals.

Words come from Bloomsburg that the Normal boys have been playing good ball this season, and the statement is backed by the fact that the students before yesterday had a record of eleven straight wins. But they didn't live up to their reputation in their game in this town. During the first four innings Danville hammered Sheridan at will, totalling eight runs. After that Pace went in the box for Normal, and did somewhat better, but listlessness on the part of the locals is largely accountable for the lack of rallies after the fourth.

The locals put the game on ice in the first. Omlauf was an out to left; Clayberger took one on a pass; Thomas, as hit one to third which was juggled while Mulvey reached first station; Coveleskie then put one of his frequent two baggers over the fence and Clayberger scored; Dooley hunted scorings; Thomas on the squeeze play; Coveleskie scored on the catcher's passed ball; Hess drew a pass but Mackert was an out second to first.

In the second two singles and a two bagger resulted in another tally. In the third Danville secured one more run on two hits and an error.

In the fourth Omlauf hit to left; Clayberger hunted and beat it out, Omlauf going to third; Clayberger stole second; Thomas hit one to Donovan, which he dropped, Omlauf scoring; Thomas stole second; Coveleskie was an out; Dooley hit and Clayberger scored; Dooley also scored before Hess was caught stealing second.

During the remainder of the game Danville failed to get any men over the pan, Pace a new pitcher being able to keep the hits scattered.

Normal got their one run in the seventh on a hit, two errors and a base on balls, the man being forced over the plate by a base on balls with the cushions loaded.
