THE BALLOT AT FALL ELECTION

In an opinion furnished Secretary of the Commonwealth Robert McAfee, Attorney General Hampton Todd advises the State department that the proposed amendments to the constitution of 1873 shall be printed on the ballot in November merely in the form in which the sections shall appear as amended—that both the present form and the proposed form of each section need not be printed.

The opinion of the attorney general was sought by McAfee because this is the first time in the history of the Commonwealth that a schedule has accompanied amendments to the constitution, and the point decided was, therefore, never before raised. Hereafter, a schedule has accompanied an entire new constitution. Whenever an existing constitution has been amended it has been in such a way that no schedule has been necessary to carry the amendments into effect.

DISPENSARY'S FINE SHOWING

Fifty patients have been under treatment at the local tubercular dispensary since it was established a little over a year ago. Of these fifteen have been discharged, the remaining thirty-five as will be seen from the following report being at present under treatment.

Of those discharged the majority were in an improved condition. The most of them left Danville and are now receiving treatment in some other dispensary.

The report for the month closing on the 20th inst. shows that five patients were admitted during the month, which with the thirty-one from previous month and one discharged brings the present number under treatment up to thirty-five.

During the month one patient was discharged unimproved. There were forty-five return visits. In ten patients there was an increase of weight. In nineteen the weight was unchanged. In six there was a loss of weight. Only one patient took medicine. The nurse made twenty-nine visits.

During the month 48 quarts of milk and 123½ dozen eggs were ordered. Sixteen patients received milk; thirteen received eggs.

Hauling Stones on the Roads.

Judge Evans while in this city Saturday, expressed his opinion of the public highway between this city and Bloomsburg, which opinion was by no means a favorable one. Both Montour and Columbia counties, it appears, are offenders, and by the employment of wrong methods in road repairs have succeeded in producing a stretch of highway so notoriously bad that his honor in driving backwards and forwards between the two towns finds it expedient to take altogether another road, leading around through Freesty valley.

It all comes from the practice of hauling broken limestone on the roads and by not supplying a top course of finer material as is required in modern road making. Every summer at some point the same road is spoiled in this manner. The theory is that traffic will soon break up the stones and wear the roadway smooth, but as a matter of fact, it doesn't work out in that way. All drivers avoid the stones, if possible. They drive over them, if necessary, with one wheel and the other wheel of the vehicle goes into the gutter. Thus, an otherwise good road is made notoriously bad and it remains so indefinitely.

Judge Evans stated Saturday that they are beginning to make arrests for this very thing in Luzerne county. At intervals supervisors are required to pick the loose stones from the roadway. In view of this, Judge Evans remarked that it would be odd, to say the least, if they were justified in hauling stone upon the road and leaving them lie exposed.

Do You Get Up With a Lame Back?

Kidney Trouble Makes You Miserable. Almost everyone knows of Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because of its remarkable health restoring properties. Swamp-Root fulfills almost every wish in overcoming rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night.

Swamp-Root is not recommended for everything but if you have kidney, liver or bladder trouble, it will be found just the remedy you need. It has been thoroughly tested in private practice, and has proved so successful that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

SAFE ROBBED IN DAYLIGHT

A most daring and mysterious robbery was perpetrated in this city Monday, when a thief or thieves in broad daylight entered the office of Attorney Charles V. Amerman and breaking open the drawers of his safe stole therefrom twenty-five dollars.

The robbery took place between 19 and 1 o'clock while Mr. Amerman was at dinner. His office door, it appears, was not locked, neither was the door of the safe, although the drawers inside were carefully locked.

Mr. Amerman returned to his office about 1 o'clock. He found the office door open. Entering the first thing that met his gaze was the safe, the door of which was ajar and the drawers inside piled open.

The safe contained comparatively little money. In one of the drawers was a fraction over twenty-one dollars and in another something over three dollars, the contents of both drawers belonging to the Sunday school of the Mahoning Presbyterian church, of which Mr. Amerman is treasurer. The robbers made a clean sweep taking all the money, twenty-five dollars.

The family of W. B. Startzel, which occupies a part of the building feels confident that no one entered from the rear, neither was any one observed to enter the hallway from Mill street. How the robbers succeeded in effecting entrance at such a public place at midday without being observed is indeed a mystery.

A chisel or like instrument was used in prying open the drawers. Many people with chronic throat and lung trouble have found comfort and relief in Foley's Honey and Tar as it cures stubborn coughs after other treatment has failed. L. M. Ruggles, Reasnor, Iowa, writes: "The doctors said I had consumption, and I got no better until I took Foley's Honey and Tar. It stopped the hemorrhages and pain in my lungs and they are now as sound as a bullet. For sale at Pauls and Co's Pharmacy."
