## **BLOOM DEFEATED** IN TENNIS MATCH

The match was played between Gosl & Watson, for Danville, and Miller & Rishton, for Bloomsburg, who have represented the two towns at the several tournaments of the league during burg, acted as referee. The match was for the best three ent of five. Danville won the first three sets, 11 to 9, 6 to 4 and 6 to 3.

Both teams were in fine shape and played their best game. Not only were the games hard fought, but every point was hotly contested. In the last set Bloomsburg won the first three games, and then Danville won six straight, taking the set. All during the match there were numerous times when the playing was really brilliant.

A large number of people from both Danville and Bloomsburg witnessed the match and applause was frequent. It will be remembered that Potts-ville won the first prize. The winning of Monday's match gives Danville second place and a beautiful 10 inch high silver loving cup. Third place goes to Bloomsburg.

## LOW MORTALITY-HIGH BIRTH RATE

The report of the local registrar to the bureau of vital statistics for the month of September shows an unusually low mortality, there being only seventeen deaths reported, six of which occurred at the hospital for the insane. In August there were twenty-six deaths; in June and July each there were twenty-three deaths. In contradistinction to the low mortality the birth rate continues high, the number of births reported for August being thirty-three. In July the same number of births were reported; in June there were twenty-seven births.

As was the case in August no typhoid fever was reported in September. The maximum number of cases of this disease darn sise was reached in May, when seven cases were reported. The disease diminished until July when only two cases were reported. The disease diminished until July when only two cases were reported. The disease diminished until July when only two cases were reported. The disease of which lave been reported during the effectually eradicated.

One case of chicken pox, one case of whooping cough and three cases of scalet fever were reported during the month. Diphtheria is confined principally to one locality in the second ward and is evidently on the increase. It was explained at the office. ing Friday night was found not guilty birth rate continues high, the number
