DANVILLE WINS GREAT GAME

THE Clover Club, Bloomsburg's rattling basket ball aggregation, which has been claiming the championship of this section, went down to defeat before the Danville team at the armory Saturday night in a fast and furious contest. The game was witnessed by a large crowd.

From the time the referee blew his whistle to start the play until the game ended with the score at 34 to 28 in favor of Danville, there was something doing every minute.

Danville took a small lead after five strenuous minutes on a goal from a foul and soon afterward added two more points by a field goal. This lead the locals maintained at the close of the first half.

In the second half the Clover Club, with defeat staring them in the face, went into the game with every energy keyed to win. Several times by clever team work they managed to tie the score, but Danville every time would come back with the points needed to regain the lead.

The playing throughout the game was of the heartrending kind that had the spectators on their feet all the while, and at times became so fast and intense that some roughness crept in, of which both sides were equally guilty.

Every member of the local five played a fine game. The floor work of Captain Dailey, the guarding of Snyder and the goal shooting of Ryan in the second half, were the individual features. For Bloomsburg Welliver and Hagenbuch divided the honors.

The Clover Club has played thus far this season eleven games and this is their second defeat, the other being at the hands of Shamokin in a game on New Year's at the latter place.

NATURE TELLS YOU

As Many a Danville Reader Knows Too Well.

When the kidneys are sick, Nature tells you all about it. The urine is nature's calendar. Infrequent or too frequent action; Any urinary trouble tells of kidneyills. Doan's Kidney Pills cure all kidneyills.

People in this vicinity testify to this.

William Spatts, 87 Lincoln St., Milton, Pa., says: "My kidneys were disordered for a long time and my back was very lame and weak. Any movement, bringing a strain on the muscles of my back, was very painful and a weakness of the kidneys clung to me compelling me to arise at night. The kidney secretions were attended with a scalding sensation in passage and there was so frequent a desire to void them at night that I could scarcely get any rest at all. My general health was affected and I felt miserable when I was advised to try Doan's Kidney Pills. I used them according to directions and they soon removed the kidney secretion and improved my general health. I appreciate the merits of Doan's Kidney Pills and recommend them at every opportunity."

AGED PHYSICIAN DEAD

Dr. E. H. Horner, whose horse and riggin for many years traversed the country roads in the vicinity of Turbotville and the upper end of Montour county, hurrying to administer to the sick, succumbed on Monday night to the increasing infirmities of old age. The people of that section say of him that he was a fine, big hearted man and as doctor there was none better.

Dr. Horner retired from active life several years ago. He was a widower. Two sons, both physicians, preceeded him to the grave. He was aged 78 years.

The deceased was an elder in the Warrior Run Presbyterian church. During the Civil war he served as an army surgeon and had charge of a field hospital.

The funeral will take place Friday afternoon at 1 o'clock from the church. Interment will be made at McEwensville.

LEAGUE MEETING A BUSY ONE

DIED FROM HER INJURY

The managers of the Susquehanna league of base ball clubs held their first meeting of the year at the Hotel Morton, Berwick. Sunday afternoon, and during the busy session action was taken on a number of important matters relating to the season of 1910.

Danville was represented at the meeting by Manager Simon K. Hoffman and W. G. Purcell, vice president of the Danville Athletic association. All of the other towns in the league last season were represented as follows: Bloomsburg, Hagenbuch; Berwick, Savage; Nanticoke; Job; Alden, Turner; Shickshinny, Colley; Nescopeck, Splain; Benton, Long.

On motion of Hoffman, of Danville, seconded by Colley, of Shickshinny, William L. McCollom, of Wilkes-Barre, was reelected president of the Susquehanna league for 1910.

On motion of Colley, of Shickshinny, action was taken allowing each team to sign 18 players. This is 3 more than clubs were allowed to have on their rosters last season.

It was also decided that all players who were under contract with any Susquehanna league club last season are reserved to that club for next season. This will prevent any manager from signing a player who was under contract with another Susquehanna league club last season, unless the consent of that club's manager is first gained.

On motion of Colley, of Shickshinny, the league was put on a 65 and 35 cent basis—65 per cent of the gate receipts to the home team and 35 per cent to the visiting team—with a \$30 concession. Last season visiting clubs were paid \$25 for all league games.

This change made it necessary to adopt a uniform admission fee and upon motion of Hoffman, of Danville, and admission to all league games was fixed at 25 cents and 10 cents for children.

On motion of Hagenbuch, of Bloomsburg, it was ordered that umpires be paid \$5.00 for one game and \$7.50 for a double header.

On motion of Colley, of Shickshinny, the season will start on May 7th and continue to September 10th, which starts the games about the same time as last year, and ends three weeks earlier.

The president appointed a schedule committee to include beside himself, Job, of Nanticoke; Hoffman, of Danville and Splain, of Nescopeck.

The matter of playing two games a week was brought before the meeting and was advocated by Danville and Nanticoke. Action was deferred until next meeting. The proposition was received with not much warmth by the smaller towns in the league.

On motion of Colley, of Shickshinny, passes that are issued to newspapers by managers will be accepted at any grounds in the league, and that no other passes will be issued. In this connection it was decided that all passes used during a league game will be paid for by the home team.

Mr. Hagenbuch, representing Bloomsburg, stated to the meeting that the Recreation club, of Bloomsburg, would not put a ball team in the field next season, but that it was the intention to endeavor to organize a stock company in that town and asked for a franchise. The franchise was granted.

Goals from field—Edmundson 4, Dailey 2, Ryan 7, Kase 2, Hagenbuch 3, Welliver 5, Gilmore 1, W. Deimer 2, R. Deimer 3. Goals from fouls—Ryan 2. Referee—Winner and McVeay.

\$2000 HERD KILLED

Nine head of cattle owned by John Bowman, of Rohrsburg, valued at \$2,000 were killed on Saturday at the suggestion of the State veterinarian.

PHONE OPERATOR CHLOROFORMED

While Miss Emma Runkle, 16 years old, and her brother William, 10 years, were alone in the United Telephone and Telegraph office at Shamokin early Saturday morning where Miss Runkle is night operator, a strange man entered.

The boy was asleep on a couch. The intruder ran to the girl and pressed a handkerchief saturated with a drug to her nose. The boy awoke and screamed for help. The man ran toward him and was trying to render him unconscious with the drug, when the girl, fast succumbing to the drug, called up Sunbury and said she was being chloroformed.

The man ran toward him and was trying to render him unconscious with the drug, when the girl, fast succumbing to the drug, called up Sunbury and said she was being chloroformed.

As described elsewhere in these columns Miss Turner's injuries were of a very serious nature, the burns covering the greater part of her body, at many places the flesh being charred. It was decided to remove her to the Joseph Ratti hospital. Her residence was on D. L. & W. avenue near Church street. On a cot the woman was carried to the station and placed on the 7:05 D. L. & W. train. Accompanying Miss Turner were Dr. Hinshillwood, her brother, William G. Turner, William Hurley and Grant Atten.

On the way to Bloomsburg Miss Turner did not seem to suffer very much, although she was perfectly conscious and conversed with her physician and others. Arriving at Bloomsburg, however, her suffering became intense. On her way from the station to the hospital she remarked to her brother that she did not think she could stand it much longer. These were the last words she spoke. Ten minutes after she had been lifted from the cot into the hospital bed—at 8:15 o'clock—she suddenly expired.

Miss Turner was 48 years of age. She was a kind hearted, generous woman and was much respected. Following the death of her mother, which occurred a year ago last August, she lived alone. The shocking accident in which she lost her life has made the circumstance of her death all the more sad. Her brother, William G. Turner, of this city, is the only survivor.

The body was brought down from Bloomsburg by John Doster's Sons, undertakers, Saturday and was taken to the residence of William G. Turner, brother of the deceased, West Mahoning street.

A second later they found Miss Runkle on a chair in front of the switchboard and the brother on the couch. Both were senseless. They were carried to an open window in the rear of the telephone office and a doctor arrived in a few minutes and found that nitrate of amyle, a powerful drug, had been used by the assailant in overpowering the operator, and he had called over the wire for help he immediately fled.

Plymouth Rock.

Plymouth rock has become an object of veneration in the United States because of its interesting historical associations. As is well known, it is the rock or ledge on which the pilgrims are believed to have landed when they first stepped from their boats in the harbor of what is now Plymouth, Mass. In 1775 part of the rock was removed to the vicinity of Pilgrim hall, but was afterward restored to its original site and is now under the stone canopy that surrounds the main rock on Water street. Charles Sumner said: "From the deck of the Mayflower, from the landing at Plymouth rock, to the senate of the United States is a mighty contrast, covering whole spaces of history hardly less than from the wolf that suckled Romulus and Remus to that Roman senate which on curvile chairs swayed Italy and the world."

The Hypocrite a Genius.

Really to be a hypocrite must require a horrible strength of character. An ordinary man such as you or I generally fails at last because he has not enough energy to be a man. But the hypocrite must have enough energy to be two men. It is said that a liar should have a good memory. But a hypocrite must have not only a good memory of the past, but a consistent and creative vision of the future; his unreal self must be so far real to him. The perfect hypocrite should be a trinity of artistic talent. He must be a novelist like Dickens to create a false character. He must be an actor like Garrick to act it. And he must be a business man like Carnegie to profit by it. Such a genius would not be easy to find in any country.—G. K. Chesterton

Rough Passage.

"I hope and pray," remarked a gentleman as he left the steamer, "that I shall never have occasion to cross the Atlantic again."

"Rough passage, eh?" queried a friend.

"Rough is no name for it. I had four kings beat three times."—New York Sun.
