UNDER NEW GUARANTEE

Danville merchants are beginning to get shipments of goods made under the new guarantee required by the depart-ment of agriculture under the provisions of the pure food law of 1906.

This act requires each manufacturer who puts out a food product or drug to have a guarantee filed with the de-partment at Washington. Then they were given a serial number. The labels of and labelled and pocketed, 81. on package read "Guaranteed under

pure food law of June 30, 1906" pure food law of June 30, 1906¹⁰). Thus the amended law makes the label say just what is meant, that the gov-ernment does not guarantee that the product is pure, but that the manu-facturer states that it has been made according to his guarantee. This act has been in force for some-time, but the new product has been slow in reaching Danville. A Night Alarm.
