Association Stock is now selling at the low price of 5 cents per share in order to provide a working equipment for these mines and to replace the milling and smelting plant destroyed during the revolution. We cannot maintain this low figure.

The famous Antigua Mines of Palmillas, Sinaloa, first opened in 1806 by the great Spanish mine operator, Miguel Felix, and now the property of the Mexican Mining Association.

The PALMILLAS mines of the Mexican Mining Association are in the same district as the world-famous Bonanza, Guadalupe de los Reyes, with over 100 years of continuous production, now working 1,000 men and credited with a production of \$100,000,000. In buying Mexican Mining Association at 5 cents you stand the chance of similar immense profits

The ASSOCIATION now owns seven (7) large mines in Sinaloa, Mexico, upon which more than \$30,000 worth of work has been done, as follows:

PALMILLAS CONSOLIDATED, consisting of three (3) mines-COLON, BALTAZARENA, and PALOS DULCES, shippers of High Grade, and containing a large tonnage of milling silver ores.

ESPANOLA and MAGISTRAL two (2) large copper-silver mines, the former well developed, and the two forming a magnificent smelting proposition.

ROSARIO and TAHONITAS, the former a very large low grade gold mine, the latter a rich silver lead mine, near enough together to be worked under one management.

We believe that these SEVEN mines will be the basis for the greatest mining enterprise on the Western Coast of America. Besides our operating department in Mexico, we maintain a selling organization in the great mine buying centers of the world, London, Brussels and New York City.

Mexico has produced to date over forty-five hundred millions of dollars in silver alone, besides hundreds of millions in gold, and is to be the great gold and copper producing region of the future. The West Coast region, though barely touched as yet, has produced, according to our engineers' estimates, over nine hundred millions. Do you not want your share of this immense wealth? If so, the MEXICAN MIN-ING ASSOCIATION is your great chance.
