FRANK C. ANGLE, Proprietor. Danville, Pa., May 19, 1910.

prove a pretty expensive improvement before the borough is done with it.

Up to the present very slow progress has been made on the branch between the D. L. & W. railroad, where it joins the main sewer, and Beaver street. Scarcely more than one-ber of people have been overlooked, fourth of the distance between these two points is covered. a short distance the pipe had to

be laid under the bed of Sechler's run, where the water had to be diverted. Beyond this point, where it was thought good digging would be found, quicksand was encountered, which constitutes the very worst conditions the brink of a quarry, landing on the conceivable for sewer construction.

At this point in the meadow the pipe is laid at the depth of about ten feet. Water, of course, was expected, but along with this, under the strata of dry sand lying next to the surface, is a deep mass of quicksand, which makes progress well nigh impossible. Cribbing, which suffices to prevent

the top sand from caving in, is no help in dealing with the mass of loose sand mixed with water, which comes streaming into the trench un. der and between the plank.

Yesterday in digging buckets for the greater part had taken place of shovels, but as fast as the trench was deepened it filled up with quicksand. Under the circumstances it was very discouraging work. There is no tell ing how far the bed of quicksand may extend.

As provided by the plans the sewer will cross the property of the D. L. & W. Railroad company near the cat-tle pens. The borough long ago applied to the D. L. & W. company for permission to cross its right of way but up to yesterday no argeement had been reached.

Plant Misers.

All leaf buds, whether underground or on the bare branches of winter, are plant savings put aside from the superfluity of summer against the pro-verbial rainy day. The starch of which such organisms consist is to the plant what his savings are to the prudent man, and the common potato is one of the greatest misers of the vege-table world in this respect, for almost the whole of the tuber is made up of starch food, left as a legacy to the young plants represented by the "eyes." This is true of all plants that grow from bulbs.

his release.

Some go further, for they run a sav-ings bank in the shape of a taproot, which, if left undisturbed, grows larger year by year, to be drawn upon in seasons of drought when other means of subsistence are exhausted. Among these are primoses, carrots, beetroot and turnips, and with these three last this faculty of saving has been devel-oped by man to make the plants a source of profit to himself.

PENNSYLVANIA RAILROAD BULLETIN.

SUMMER VACATIONS.

The time is coming for summer outings. Have you thought about yours yet?

No country on the face of the globe contains so many delightful summer resorts as the United States, with its near neighbor, Canada.

The Pennsylvania Railroad will issue its popular Summer Excursion Book on June 1, and you will find it a wonderful help in plotting out your summer trip.

It contains descriptions of about eight hundred of the leading resorts of North America, lists of hotels and boarding houses at these various places, a map, routes and rates from the principal stations on the Pennsylvania Railroad, and other valuable information.

If you have grown tired of the resort you have visited for years, you may make a selection from this book for a stay of a day, a week, a month, or the whole summer.

You may plot out an extended tour covering mountain and seashore, or a fishing trip, or a hunting jaunt, by rail or boat or a combination of both.

Any Ticket Agent of the Pennsylvania Railroad will be glad to furnish a copy of this valuable book for Ten Cents, or it will be mailed you postpaid, on receipt of Twenty-five Cents, by Geo. W. Boyd, General Passenger Agent, Philadelphia, Pa.

ONE SPRAYING AT GRAND LODGE WILLIAMSPORT, May 18. A business man, who was unable to

game shooting in India, "when I was It was the hardest kind of a game toone day stalking a black buck. Be-tween me and my quarry lay a large flat field of black cotton soil bordered loose-that one yesterday at Berwick in which Danville was beaten by a by a very low, straggling and thinly growing hedge of small babul trees. score of 3 to 2. Good pitching and sterling support kept Berwick's tally column empty until the eighth when My only way to get a shot was to cross this, keeping the bushiest tree between several decisions on the part of Umthe and the buck, which had not much to browse on and was therefore seldom motionless. I proceeded to do the hunpire Patterson allowed the car town club to score thrice and finish one point to the good.

dred yards on the flat of my stonach. This on loose, hard baked black cotton soil was no joke. I pushed my rifle on The feature of the game was Peck Rowe's pitching. Never was the Mt. Carmel boy in better form; time after ahead. Then, wriggling past it until the time he had the Berwick heavy weights muzzle was near my knee, I would pass it on in front again, and so on. fanning the wind; he allowed Berwick but five hits and registered nine "Progress was slow, and I was so absorbed that I failed to observe shadstrike outs.

ows crossing and recreasing my path and circling around until I had gone Bush was on the pan for Berwick and pitched a good game. He issued no passes and struck out eight Dansome fifty yards. Then the whirring of wings attracted my ears, and al-most at the same moment a vulture ville batters. Behind him the Berwick team, with the exception of third landed on the ground not twenty yards away. I looked up. The air was alive with these repulsive looking Baseman Flaherty, put up gilt edged ball. None of Berwick's errors occurred in the inning in which Danville birds. Then it flashed across me that I was being stalked! Doubtless these birds were attracted by my extraorscored.

Danville's only tallying was done in. the third and both were earned runs. Rowe drove a clean hit to left field dinary method of procedure and mistook me for a wounded or dying man making a final effort to reach some shady spot. This was especially possiand stole second. Umlauf bunted advancing Rowe to third and himself got ble, as the experience occurred in a to first. He, also, stole second. Livenfamine district where deaths by the wayside were not infrequent. By lookgood, next up, hit a long fly to centre field, which Metzler caught, but Rowe scored on the sacrifice. Niple drove a ing up I had evidently shown myself to the buck, for he was now off at full far one into left which was caught, Umlauf scoring. Wagner went down tilt. I therefore took pot shot at the vulture at twenty yards, but did not allow for the sighting sufficiently and missed him. The thought of being waited for by a flock of vultures while

on a grounder to the pitcher. Berwick failed to tally until the eighth, when Gilhooley hit to Veith, the latter throwing to first and the ball and runner arriving at the same

very much alive and well was, to say the least, uncanny." A Collector's Bargain. Lord Spencer of Althorp, one of the greatest of book collectors, was at home only in his own field. One day time, Niple lost in the bump. Flaherty bunted to Rowe, the latter throwning to Livengood for a force put out, but the runner was called safe on a close decision. Metzler also bunted Kelly in browsing about Bond street, Lon-don, he went into the shop of a dealer in bric-a-brac. The dealer, who knew him by sight, said persuasively: throwning to third and the runner was again called safe on a close decision. "Here is a fine bit of pottery which your lordship really ought to have, and you shall have it very cheap—only That filled the bases. Fisher flied ont to Niple. The Danville team was bad-

ly shaken up by this series of adverse decisions. Strine hit to Umlauf who So Lord Spencer bought it and took made an overthrow to home on which it home and set it in a high place. One day a connoisseur of china paid him a visit, and Lord Spencer showed Gilhooley and Flaherty scored. Haleman then hit to Livengood who threw to Kelly catching Metzler at the plate. "What did you give for it?" asked Dagget hit to center field scoring Strine and Bush struck out.

the connoisseur. "Two guineas," answered Spencer With Berwick one run in the lead Danville tried hard in the ninth to "At keep the game going. Hagy got life on that price the marmalade should have been included." Flaherty's error. Veith then struck out. Captain Niple then told Young to bat for Mackert. He hit a swift

"Why, that precious piece of yours is nothing more or less than a shil-ling marmalade pot with a green this-tle painted on it." grounder to Gilhooley who fell on the ball and tagged second, forcing Hagy out. Kelly drove a long fly to left which Gilbert captured ending the Silencing the Questioners.
