HINE FINED AND SUSPENDED

Manager A. W. Sharpless, of the Bloomsburg base ball team, Tuesday night, fined and suspended "Al" Hine. The suspension is indefinite and the amount of the fine tacked on was \$5.00.

Speaking of the incident the Bloomsburg Daily Sentinel says:

"When Hine came to Bloomsburg from Johnstown, he was hailed with joy, but it is evident that he came to the conclusion that there was no one else in the Susquehanna League but Hine. After the game at Danville, where his work showed that he was not keeping himself in proper condition, he showed an indifference when told about it by Mr. Sharpless. The real trouble, however, was at Milton, Tuesday, when he was told to go in the box against Milton, and refused point blank to do so.

"Without doubt Hine is one of the best pitchers in the league and up until the Danville game was a hero among the fans. Even now, if he would get down to business, it would be only a short time before he would be back in the game. He certainly could not complain of poor treatment here for he has been given a chance in the box at almost every game since he came here, in order that he might get good control, while Shatto and Sharadin were put in the outfield or on the bench.

"Hine left town Wednesday and declared to his friends that he'd never wear a Bloomsburg uniform again, it is said."

Hine was in this city yesterday and attended the Danville-Huntingdon game.

CLOTHING CAUGHT FIRE

The two-year-old child of Adam Reeder, who resides along the P. & R. railroad near Hemlock street, while in the house alone Tuesday eve set fire to his clothing and came within an ace of being fatally burned.

The accident happened about six o'clock. Mrs. Reeder had stepped out leaving her little son, Howard, in the basement alone. A few minutes later the woman heard the child screaming and rushing into the house, found that his clothing was on fire. In her fright and excitement Mrs. Reeder grasped the little one and endeavored to tear off his clothing. By that time the flames had enveloped nearly the whole body.

At that juncture Richard Sheppard, a neighbor, happened to pass the open door and observing that the child was on fire rushed in to help. Exerting all his strength, with Mrs. Reeder, he succeeded in tearing all the clothing off the child before the undergarments were consumed.

The left arm of the little one was shockingly burned, but elsewhere on the body no serious injury was inflicted. The hair was burned but it is not thought that the child inhaled any of the fire.

Mrs. Reeder thinks that the child's clothing took fire from the cooking stove.

Wouldn't Allow Crepe On Door.

Edward Hickey died on Tuesday at his home in Shamokin. When the undertaker and his assistants had prepared the remains for burial and were about to place the customary crepe on the door, the family objected and positively refused to allow the usual sign of mourning to grace the panel of the door. They gave no reason for the strange mania.

Died at 107.

Mrs. Joseph Cyza, probably the oldest woman in Northumberland county, died at the poor house in Shamokin, Tuesday, aged 107 years. She was an inmate of that institution for four years. She was a native of Poland, going from there to Shamokin in about forty-five years ago.

Reads and Sews at 94.

Mrs. Elizabeth Kiser, of Jerseytown, on Monday celebrated her 94th birthday anniversary. Notwithstanding that Mrs. Kiser is the oldest person in that section of Columbia county, she reads and sews without the aid of glasses.

R. A. SIMMONS AT THE BRIDGE

R. A. Simmons of Pottsville, who has the contract for cleaning, painting and adjusting the river bridge, was in this city Tuesday. In company with the county commissioners he went over the entire bridge inspecting the work.

Mr. Simmons declares himself as well satisfied with the progress being made considering the great amount of rainy weather, during which the work of painting could not go forward. The first span of the bridge was very dirty in addition to which the ironwork was badly in need of adjustment.

Thirty-three men were employed Tuesday. As far as the sixth span the first coat is applied. Four spans have received the second coat.

Michael Cain, a practical bridge builder in the employ of Mr. Simmons, Tuesday, was engaged in adjusting the iron work, the different parts of which as the result of continued use and fast driving have lost their true relative position. The expert employed on this branch of the work is Michael Cain, who assisted to build the bridge and who a year or so ago was employed by the county commissioners to adjust the iron work.

Mr. Simmons, who is a practical bridge builder and may be taken as authority, states that fast driving over a bridge of this sort is certainly detrimental to it. Mr. Simmons does not think that the practice of speeding automobiles over the driveway is quite as injurious as the practice of trotting horses across. The motion imparted to the iron work by a trotting horse is peculiarly wearing, and a bridge soon goes from bad to worse.

Some of the iron rods were tightened up yesterday; others were slackened, and as a result of the adjustment the ironwork will not swing so badly for a while, but it was explained that, if the county commissioners desire to preserve the bridge, they will have to take some action that will curb fast driving.

Mr. Simmons says the painters are subjected to annoyance by persons visiting the bridge. Some of these in their zeal to test the quality of the work, with their canes or umbrellas rub the paint off the iron before it is dry. The worst annoyance is probably caused by the boys, who persist in the former practice of climbing up the batter posts and sliding down the newly painted incline. The effect of all this is to spoil the work and Mr. Simmons thinks that attention ought to be called to the matter.

SIGNS ARE OBSERVED

The erection of signs on our streets to carry out the provisions of the automobile act is already having a salutary effect. The drivers of motor vehicles are doing their best to keep the speed down to the legal limit, all of which shows that automobilists are well posted on the law and do not care to invite trouble by running through town too fast. Up to the very day when the signs were erected fast and reckless running through town, especially by strangers, seemed to be the rule. Since that time, although the officers have been on the lookout for violations, none have occurred.

It is unfortunate, however, that the wording as laid down in the act was not literally followed in preparing the boards. The signs as described are to contain the words: "Danger: run slow." Instead, on the boards erected are the words: "Danger: go slow." This error is deplored by the officials in whose hands the enforcement of the act remains and they think a correction should be made as speedily as possible.

GRANTED REGISTRATION

The Pennsylvania State board of examiners for the registration has granted registration to 345 additional nurses. Danville is credited with five, all employed at the State Hospital as follows: Anna S. Orndorf, Annie E. Querry, Alice Trainor, Virginia B. Jordan and Alice C. Bookmillier.

"IN A BAD WAY"

Many a Danville Reader Will Feel Grateful for This Information.

When your back gives out; becomes lame, weak or aching; when urinary troubles set in; Your kidneys are "in a bad way." Doan's Kidney Pills will cure you. Here is local evidence to prove it: Seth G. Lormer, 420 Pine Street, Danville, Pa., says: "Doan's Kidney Pills are worthy of endorsement, being a remedy of great merit. A cold which settled in my kidneys disordered these organs and caused sharp pains throughout my back. I had to be careful when getting up after sitting, for this action was always accompanied by sharp twinges. I could not lie in one position long for if I did, the pain and lameness across my loins became almost unbearable. Trouble with the kidney secretions also existed. Doan's Kidney Pills which were procured at Hunt's Drug Store helped me from the first and before long had entirely relieved me. This remedy is certainly worthy of endorsement." (Statement made January 3, 1908.)

A SECOND STATEMENT.

Mr. Lormer was interviewed on January 24, 1910 and he added to the above: "Since I publicly recommended Doan's Kidney Pills, there has been no recurrence of my former trouble and I have had no further need of a kidney medicine. I think that my experience is convincing proof of the merits of Doan's Kidney Pills." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Some folks mistake remorse for repentance.

TOBACCO PRICES ARE GOING UP

After the beginning of next month, the users of tobacco may look for a change in size of their boxes or bags of tobacco. This increase will be the result of the new revenue law that will go into effect on July 1st. The tax on tobacco will be raised 2 cents a pound while that of cigarettes will be boosted from 25 to 60 cents per thousand. This advance the dealers state, can only be overcome by an increase in the price or a decrease in the size. The wholesalers and the retailers are destined to lose nothing, as the price per pound will be made up in the number of small packages. True, it will be hard to decrease the size of the cigarette, but there may not be as many in the package. Some of the dealers are undecided as to whether they will increase the price or whether they will shoulder the extra tax themselves.

Under the new law the dealers will be allowed to place smaller packages of tobacco on the market. The smallest size now allowed is the one ounce package, while the new law allows the putting up of tobacco in one-half ounce and three-quarter ounce packages. Another reduction of the package is made in the case of little cigars which weigh less than three pounds to the thousand. The smallest number that can be retailed in a box at present is 12, but after July 1st, 5 and 10 will be legal. This will apply to little cigars sold in one rate of \$1.25 per thousand. On the large size of cigarettes the tax is raised from \$3 a thousand to \$3.60.

The Conservation of Nature's Resources

Applies as well to our physical state as to material things. O. J. Budlong, Washington, R. I., realized his condition, and took warning before it was too late. He says: "I suffered severely from kidney trouble, the disease being hereditary in our family. I have taken four bottles of Foley's Kidney Remedy, and now consider myself thoroughly cured. This should be a warning to all not to neglect taking Foley's Kidney Remedy until it is too late." For sale by Paules & Co.'s Pharmacy.

ANOTHER DEADLOCK

Another deadlock prevented the election of a colonel for the Twelfth Regiment, N. G. P., in the balloting at the armory in Sunbury Saturday night to take the place made vacant by the promotion of General C. M. Clement. Major W. C. King, who had been a candidate for the rank at the previous session, withdrew, leaving Major William F. Follmer, of Lewisburg and Capt. Hugh H. Taylor, of Bellefonte in the field. The result of the ballots was a tie, 17 to 17.

There are at present two vacancies in the regiment, Capt. John E. Beck, Co. I, having gone on the retired list and Lieut. T. R. Hayes, of Co. D, having resigned.

The election was conducted by Gen. Clement, who announced at the beginning that if he saw that there would be a deadlock at any point he would stop the balloting.

After seven ballots were cast he adjourned the meeting.

Major Follmer had the same number of votes as before while all of Major King's supporters representing the companies at the upper end turned to Capt. Taylor.

Being unable to break the deadlock at Saturday evening's session the election was adjourned without date making a new order necessary when another attempt is made.

In the meantime Lieutenant-Colonel William F. Barber will command the regiment and it is now improbable that another attempt at holding an election will be made before camp.

A LARGE FUNERAL

The funeral of John W. Wintersteen, whose death occurred Thursday, took place from the homestead farm in Valley township Monday afternoon, and was one of the largest that has taken place in that section during many years.

The services were conducted by the Rev. Mr. Strail of Buckhorn. The Keystone club of this city, consisting of Joseph R. Patton, Jesse Shannon, J. W. Swarts and William Rishel, rendered two selections at the funeral. The pall bearers were five sons and one son-in-law of the deceased: Joseph H., Alexander J., Charles, Samuel C. and Conrad F. Wintersteen and John R. Bine. Interment was made at Straub's church.

What a Summer Cold May Do.

A summer cold if neglected is just as apt to develop into bronchitis or pneumonia as at any other season. Do not neglect it. Take Foley's Honey and Tar promptly. It loosens the cough, soothes and heals the inflamed air passages, and expels the cold from the system." For sale by Paules & Co.'s Pharmacy.

STOCKHOLDERS MEETING

The meeting of the stockholders of the Peoples' Telephone company was held at grange hall, Strawberry Ridge, Tuesday, and was one of the most successful that has been held. The meeting lasted all day and so large was the attendance that the meeting was held on the lawn, the capacity of the hall not being sufficiently large to accommodate more than half the number present.

A board of directors was elected as follows: Frank Peeling, Rev. J. W. Kohler, Lloyd Bomby, Charles Derr, J. J. Kohler, Charles E. Shires, Sr., Charles E. Shires, Jr., Amanda Shultz, J. S. Mowrer, Charles E. Shires, Sr., was elected president. The remaining offices will be filled by the board.

TEN NURSES WILL GRADUATE

The eighteenth annual commencement of the training school for attendants will take place at the State hospital for the insane at this place on Thursday, June 23rd, at 8 p. m.

The class of 1910 is composed of the following: Mae E. Whitmore, Elsie E. Ranck, Bess E. Mitchell, Pearl Kiziah Kirkpatrick, Orpha Z. Young, Lulu Blanche Harriman, Rachel Everhart, Ivan Jay Miller, Charles Theodore Silver and Harry Malcolm Hixson.

The address to the class will be delivered by Hon. Grant Herring, Rev. J. H. Musselman, pastor of Pine Street Lutheran church, is on the program for invocation and benediction. William Field Shay, Esq., of Watsonstown, president of the board of trustees, will confer the diplomas. Dr. Rebecca B. Wright will award the prizes. The hospital orchestra will furnish the music. Between 9:30 and 10:30 a reception will be tendered to the class and alumni by Dr. and Mrs. Meredith.

The training school with its excellent course of instruction gives the attendants an opportunity to increase their efficiency and command the best salaries, incidentally raising the standard of nursing at the hospital. The course, which is divided into junior and senior year, begins September 15th and terminates about the middle of May. It consists of hourly lectures twice a week, with such recitations as may be necessary. For the first year the subjects are: anatomy, physiology, hygiene, materia medica and emergencies. The second year course comprises general nursing, insanity and its treatment, &c. Each of the above subjects is accompanied by lectures, as thorough and practicable as possible. To be eligible for graduation two full years in the wards as attendants and a certain aptitude for the work are necessary.

Glad to Recommend Them.

Mr. E. Weakley, Kokomo, Ind., says: "After taking Foley's Kidney Pills, the severe headache left me, my kidneys became stronger, the secretions natural and my bladder no longer pained me. I am glad to recommend Foley's Kidney Pills." In a yellow package. For sale by Paules & Co.'s Pharmacy.

Y. W. C. A. SECRETARY

Miss M. Jennie Lovett, formerly of this city, has been called to take up the duties of secretary for the Y. W. C. A. at Sunbury.

Miss Lovett will enter upon her duties September 1st. During July and August substitutes will be engaged to keep the rooms open.

Miss Lovett for the past year has been assistant secretary and physical director in the association of Canton, Ohio. She goes to Sunbury most highly recommended by the National and also the State secretaries and the association with which she has been connected is most loathe to have her leave.

Miss Lovett has had special training that fits her for a most excellent physical director. She has also been a successful school teacher and is a young woman, refined, tactful and very much interested in her work.

The directors of the Sunbury institution consider themselves most fortunate to have secured her services and are looking forward to a prosperous and successful year.

Scared Into Sound Health.

Mr. E. P. Kelley, Springfield, Ill., writes: "A year ago I began to be troubled with my kidneys and bladder, which grew worse until I became alarmed at my condition. I suffered also with dull heavy headaches and the action of my bladder was annoying and painful. I read of Foley's Kidney Pills and after taking them a few weeks the headaches left me, the action of my bladder was again normal, and I was free from all distress." For sale by Paules & Co.'s Pharmacy.

WILL HOLD BANQUET

The organized adult Bible class of St. Paul's Methodist Episcopal church which now has a membership of 184 on Saturday night will celebrate the success of the movement by holding a banquet.

Strawberries, ice cream, cake, coffee, &c., will be on the menu. There will be addresses by ministers of the gospel and others, and the occasion will be enlivened with music by the Orpheus Glee Club, and the Mandolin club.

The banquet will take place between the hours of 7 and 9. Arrangements have been made to entertain a limited number at the regular supper hour—merchants and others who will be occupied later during the evening.

What the Farmer Pays.

The farmer actually pays a premium for bad roads. He pays it in the time spent in getting to market; in value of drafting animals and the food they eat, and the extra hands for their care and handling; in increasing number of vehicles and wear and tear on them, and in the decreased product of land that has less attention and care. If the country had a system of smooth and hard highways it would blossom like a rose, and prosperity would follow in the wake.

Lotz-Heffleger.

Miss Mary E. Lotz, of this city and Rudolph R. Heffleger, of Reading, were united in marriage on Wednesday, June 8, at the home of the bride's parents, Mr. and Mrs. Harry Lotz, Iron street. The Rev. J. L. Yonce, pastor of Trinity Lutheran church, officiated. Mr. and Mrs. Heffleger will reside at Reading, where the groom is employed.

APPLIES FOR A CHARTER

The Rescue Fire company of Sidler's hill, organized a couple of years ago, which has been doing very effective work in that locality, now desires to be incorporated and on Saturday formally presented an application to court. Charles P. Gearhart was appointed master to make the necessary investigation and report to court.

The application sets forth that the subscribers having associated themselves together for the purpose of organizing the Rescue Chemical company No. 5 of North Danville, in Mahoning township, Montour county, Pa., and being desirous of being incorporated agreeably to the Act of Assembly, declare and set forth their purposes and objects as follows:

The name of the corporation shall be "Rescue Chemical Company, No. 5 of North Danville."

The purpose for which the corporation is formed is to extinguish fires and save property, in Mahoning township, Sidler's hill, and the borough of Danville.

The place where the business of the said corporation is to be transacted is in Mahoning township, Montour county, Pa.

The corporation shall have perpetual succession by its corporate name.

The names and the residences of the subscribers are as follows:

Lewis Walker, Harry Kessler, John Shoop, James Fox and Harry Miller, of Mahoning township.

The officers of the corporation shall consist of a president, vice president, secretary, treasurer, foreman, two assistant foremen, three trustees. Those chosen for officers for the first year are as follows: President, Lewis Walker, vice president, Charles Foust; secretary, Harry Kessler; trustees, John Shoop, James Fox, Harry Miller; treasurer, William Kessler.

The corporation has no capital stock. Fees for membership and annual dues from members shall be assessed as the corporation by its laws may determine, which fees and dues will be applied to promoting the purposes from which the corporation is formed.

The yearly income of the said corporation other than that derived from the sale of real estate shall not exceed the sum of five thousand dollars.

The application is signed by the following: Lewis R. Walker, Harry Kessler, John Shoop, James Faux, H. G. Miller, William J. Kessler, Ed. J. Mellin and William Schultz.

LAST YEAR RECALLED

While the wet and cloudy weather, prevailing for the last month or so, which has kept out the cheerful sunshine soaking the earth and dampening the spirits of humanity, has not been precisely the kind to covet, nevertheless it is by no means unprecedented.

Those persons who think we never had such weather before must have short memories. As a matter of fact last spring as relates to damp and cloudy weather was nearly identical with the present.

As late as June 14th the newspapers contained discouraging reports as to the crops. The cloudy weather retarded the growth of corn and vegetables, while as the effect of the extraordinary moisture the weeds grew in profusion, the ground being too wet to enable the farmers to properly cultivate the fields.

The rain interfered with the success of the Six-County Firemen's convention held in Danville. On June 4th a settled rain held up the work of decorating the town. On the 10th of the month, during the convention, a heavy rain caused the mud to lie in the streets to a depth of several inches and it was necessary to eliminate East Market and East Front streets from the route of the parade.

Just as warmer and more seasonable weather followed last year so it may be relied upon to follow this year. One of these days the clouds will break and we shall have warm sunshine and plenty of it. Let us hope that the rain of which we now have a superabundance, may not cease altogether as last year but that we may have a generous distribution of moisture throughout the entire season.

CROPS RETARDED

Farmers in this section say the cold wet weather of the past few weeks has effected crops unfavorably, especially corn.

The corn fields are yellow where they should be green. Grass has grown but slowly in spite of the wet, making development so tardy that some farmers will get only half a crop or less. Taken together, the spring of 1910 will be remembered as extreme. Starting off with excessive warmth, vegetation was forced naturally ahead. Then cold came and retarded it. Though it is very cheering to have warm weather in March, it is better to have it in April and May, when it is seasonable.

A farmer from the northern end of the county, who has a large acreage of corn out, said yesterday:

"Corn is germinating rather poorly, and is contending with a larger crop of cut-worms, with the crows and blackbirds doing their best at it. It is having a very backward start and warm weather is much needed for it."

Committed to Jail.

Anna and Elizabeth Ashton were arraigned before Justice Dalton Tuesday night charged with committing open lewd and indecent acts. In default of two hundred dollars bail they were committed to jail.

COURT HOLDS SHORT SESSION

Court held an adjourned session Saturday morning with his Honor, Judge Evans and Associates Blee and Weliver on the bench.

The principal business on hand was the hearing of the case of Commonwealth vs. Harry Deibert, the charge being desertion and non-support. The case proved to one of the exceedingly unsavory sort, abounding in charges and counter-charges.

The wife, who is the mother of a fifteen-month-old babe, is nineteen years of age. The husband is also very young.

Mrs. Deibert told her story, after which her husband was called to the stand. Mrs. Deibert of Wilkes-Barre, with whom the couple boarded for awhile, and Dr. Newbaker, who attended the wife during an illness, also testified.

Judge Evans adjudged the defendant guilty and sentenced him to pay the sum of three dollars per week for the support of the child and to enter into recognizance in the sum of two hundred dollars.

Edward S. Gearhart asked permission of the court to file an amended statement in the case of Albert H. Deeter vs. the county of Montour. The action was brought originally, to recover damages for a horse that was injured by falling on the creosote-treated blocks forming the driveway of the river bridge. The horse died recently and the amended statement relates to a new action brought to recover for the full value of the horse—four hundred dollars.

The amended statement alleges that the horse was lost as the result of the negligence of the defendant county, which had taken upon itself the legal duty to keep and maintain in proper repair and in a safe and passable condition all of the county bridges within its proper and legal limits.

"Among the bridges committed to the care and maintenance of the borough is the 'Danville river bridge,' the wooden block floor of which on the 14th day of November, 1908, was permitted by the county commissioners to become so slippery that the said floor became dangerous for those driving over the same with horses and vehicles."

"On November 14, 1908, as the plaintiff was driving his two-horse team hitched to a wagon over the driveway of the said bridge, at the northern entrance or approach, within the county of Montour, one of the horses fell down upon the floor of the said driveway, which was rendered dangerous by reason of its slippery condition, and was then and there so seriously and fatally injured and crippled that it had to be killed."

The court permitted the amended statement to be filed.

After winding up all the business of the June session court adjourned at 11:45 o'clock.

DO YOU USE AN ATOMIZER

In treating Nasal Catarrh? If so you will appreciate Ely's Liquid Cream Balm the quickest and surest remedy for this disease. In all curative properties it is identical with the solid Cream Balm, which is so famous and so successful in overcoming Catarrh, Hay Fever and Cold in the head. There is relief in the first dash of spray upon the heated sensitive air-passages. All druggists 75c., including spraying tube, or mailed by Ely Bros., 56 Warren St., New York.

To Concrete Berwick Floor.

The Commissioners of Columbia and Luzerne counties, with their engineers and solicitors, have decided that the engineers at once prepare plans and specifications for a re-enforced concrete floor 3 1/2 inches, with a wearing surface of 1 1/2 inches, on the Berwick Nespeck bridge. As soon as the plans are completed, they are directed to advertise for bids.

Foley's Kidney Remedy may be given to children with admirable results. It does away with bed wetting, and is also recommended for use after measles and scarlet fever. For sale by Paules & Co.'s Pharmacy.

Born, a Son.

A son was born to Mr. and Mrs. John R. M. Curry, West Mahoning street, Monday night.

Raised Tax Rates.

Another mill has been added to the tax rate of Sunbury. This was done by the school board in fixing the rate of the coming year at eight mills for school purposes, and two mills for bond payments. The erection of two new school buildings, upon the bonds for which interest must be paid and retain amounts set aside for their retirement from circulation, also added a burden which could only be met by increasing the tax rate.

This is the second raise of the taxes of the Sunbury people this spring. The first was by the borough council, which has even greater difficulty than the school board in paying the various debts incurred in the course of a year.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is permitted to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys most, because they do most and should have attention first. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root. A trial will convince you of its great merit.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

WILL SOON TOUR STATE

The Election Law Commission has completed its preliminary work and will begin its tour of the state late this month. A public meeting will be held in Pittsburgh on the 27th of June, when the chairmen of the political committees and such other bodies as are taking an interest in the subject will be invited to present views. The commission believes that several changes are advisable especially as to the form of the ballot, and in its formal statement covering its work as to the form of the ballot, among other things stated:

"The commission is at present inclined to the belief that a system of separate party ballots issued by the state, but distributed freely in advance of the election, as well as at the polls, and of which a record is kept, is preferable to the present single sheet ballot delivered and marked only at the polls.

"A system by which the voter deposits in secrecy and in an official envelope a ballot containing only the name of the persons for whom he votes would combine much of the simplicity of the old vest pocket ballot, with most of the safeguards of the single sheet ballot. This would also eliminate the necessity for any assistance of the voter in the booth, but would permit him to have all the assistance he desired at home.

It is further stated that it seems to be conceded that the uniform primary system has not accomplished all that its advocates hoped, and that it involves some serious disadvantages.

The commission also discussed the recommendation of the educational commission that the ballots for school director should be non-partisan."

Deafness Cannot Be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.
