BUMPER CROPS IN PENNSYLVANIA

H. V. White, of Bloomsburg, president of the State Millers' association, secretary of State College and a man closely in touch with the agricultural situation, after a tour of the State makes the statement, founded upon intimate knowledge, that the crops of Pennsylvania this year are among the largest if not the largest ever harvested.

The oats crop is unquestionably, he says, the largest ever grown, although the storm of last Monday did considerable damage in this immediate section. The crop had been harvested in the southern part of the State and that escaped the storm, of which little was thought in this section, but which caused the heavily laden stalks to break off and when the crops were harvested this week a considerable quantity of the oats fell out in harvesting.

The early potato crop was good and the information Mr. White has received from all parts of the State is that the late potato crop never looked so well. From the Wayne county section, down through York and Lancaster counties and out through the western part of the State, the same word comes and Mr. White expresses the opinion that a wonderfully large crop of potatoes will be harvested.

More than 20 per cent. greater than in any year during the last ten years will be the average yield of wheat per acre and, generally speaking, the crops could not be better. The Hessian fly has done some damage in a few sections, but this condition is not general. Then, too, the rye crop is the largest and best Pennsylvania has ever had.

TO AILING WOMEN

A Little Sound Advice Will Help Many a Sufferer in Danville.

No woman can be healthy and well if the kidneys are sick. Poisons that pass off in the secretions when the kidneys are well, are retained in the body when the kidneys are sick. Kidneys and bladder become inflamed and swollen and worse troubles quickly follow. This is often the true cause of bearing down pains, lameness, backache, sideache, etc. Urine poisoning also causes headaches, dizzy spells, languor, nervousness and rheumatic pain.

When suffering so, try Doan's Kidney Pills, a remedy that cures sick kidneys. You will get better as the kidneys get better, and health will return when the kidneys are well. Let a Danville woman tell you about Doan's Kidney Pills.

Mrs. Edward Diehl, Pine Street, Danville, Pa., says: "Doan's Kidney Pills proved to be an effective kidney medicine in my case. The use of six boxes of this remedy, procured from Hunt's Drug Store, entirely relieved me of pains in my back and other troubles caused by disordered kidneys. Doan's Kidney Pills should have a permanent place in every household."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Thus far August has shown good form.

LARGEST BASS EVER CAUGHT

Gearhart Oberdorf, who last Friday caught a bass while fishing from the river bridge that weighed 2 1/2 pounds and measured 15 1/2 inches in length, seems to have acquired the habit of catching big fish. Monday morning from his customary perch on the bridge he hooked what was unmistakably the biggest bass ever taken from the river at this place. It tipped the scales at 4 pounds and 9 ounces and measured twenty inches in length.

Mr. Oberdorf in order that there might be no doubt as to the full extent of the catch took the big fish down town. It was still alive when exhibited to the wondering crowds that soon gathered around him. Few people could believe that bass were to be found in the river that had attained such a large size. The bass was in a thriving condition and was a beauty, in dimensions resembling a shad.

Bass are fairly plentiful in the river this season, while more than the usual proportion seems to have attained large size. As the river falls toward low water mark the big bass from the bridge may be seen sporting themselves in the water below. Fishing from the bridge has become quite popular, although comparatively few persons have succeeded in hooking anything worth while from that elevated position.

Mr. Oberdorf seems to be the only one who knows the trick. When asked yesterday what secret art he employed he replied, "There is no secret about it, only patience."

The thriving condition of the bass would seem to disprove the theory that the presence of coal dirt in the stream tends to kill off the fish. The white chub is recognized as the most delicate fish extant yet this fish, along with bass, has flourished and is more plentiful at present than at any time in the past.

As local fishermen view it, if there is anything that militates against the well-being of fish in the North Branch it is the general absence of river grass, which at one time abounded but which seems to have been destroyed by the great ice gorges that swept the river bottom some years ago. It is well-known, they say, that bass frequent grass, when it can be found, and it is believed that the latter to some extent is essential to the well-being and development of fish. Local fishermen, who are interested in keeping the river stocked up, will lay the matter before Commissioner of Fisheries William E. Meehan in order to obtain his views on the subject and to see what measures can be adopted to restore the grass, if the latter is considered essential in propagating fish.

James C. Ainsworth Goes to Canton.

James C. Ainsworth, formerly physical director at the local Y. M. C. A., and who has recently been in the service of the Reading Y. M. C. A., has accepted the position of physical director at the Canton, Ohio, association, for which place he left Saturday.

On Friday evening Mr. Ainsworth was tendered a farewell dinner at the Mineral Springs hotel, near Reading, by a walking class of which he was the leader.

BABE THROWN INTO WELL.—Mrs. Dora Wolf, of Easton, has been arrested on a charge of having thrown her new-born babe into a well, where it is said to have been partly eaten by rats before it was dead. The complaint, made by City Detective Grube, followed an investigation by Coroner Fetherolf.

CRANE PLUCKS EYE.—While holding a crane which was wounded, Joseph Warden, of Carrolltown, had his left eye picked out by the bird. Because of sympathetic trouble, it is now feared he will lose the sight of the other eye.

Registered Nurses. Two additional members of the nursing staff at the Danville hospital for the insane have been granted registration by the Pennsylvania State Board of Examiners for the Registration of Nurses. They are Lulu B. Harrison and Charles T. Silver.

Record Time. Sunbury is rejoicing over a dispatch from Washington stating that the \$100,000 Federal building will be started within the coming year. If this is so, Sunbury will receive its building in record time.

MONKEY-FACED OWLS.—A pair of monkey-faced owls, the only two ever seen in Lancaster and Dauphin counties, have been captured by Samuel Kahler, of Cordelia. They were in his chicken coop when he caught them.

SAFE CRACKED IN CATAWISSA DEPOT

Bold yeggmen entered the Pennsylvania station, at Catawissa, early Saturday morning and blew open the safe with nitro-glycerine. For their trouble they got \$21.41 in cash. The safe door was shattered and the inside door was blown across the office and against the partition between the office and the waiting room. There is no clue, although a search has been made. Residents of the borough, after the explosion heard men hurrying across the Susquehanna river bridge, which entrance is nearby.

That it was the work of professionals there seems to be but little or no doubt. The men left all of the tickets alone, and took only the money drawers and a special delivery letter. This contained a Pennsylvania Railroad Relief fund check, and is easily negotiable. There were hundreds of dollars worth of tickets and some money order blanks for sending telegraph money orders, but these were untouched.

On the floor was a piece of common yellow rosin soap, and a silver teaspoon. This indicated very plainly what the men worked with. They first wrenched off the safe knob, and poured the deadly nitro-glycerine in the aperture, closing it with soap and using the spoon to pour in the last few drops, in order that their work would be sure.

Prior to the explosion residents of Catawissa saw two men on the tracks under the light at the Main street crossing and one of them whistled by placing his fingers in his mouth, and blowing a shrill note. Then the explosion occurred. According to that it is believed that there were at least three men in on the job. One stayed to light the fuse, after the others went out to see if there were any others around. Then the whistle, which was a prearranged signal to light the fuse.

A short while after the explosion all of the residents in the neighborhood were aroused and made an especial effort to locate it. They heard hurrying steps on the river bridge, but all was still after that.

On Friday the station agent deposited \$900 in bank and the day before he made a remittance to the treasurer of the company at Philadelphia. This is the fourth time within the last 10 years that the safe in this station has been robbed.

Foley Kidney Pills.

Tonic in quality and action, quick in results. For backache, dizziness, nervousness, urinary irregularities and rheumatism. For sale by Paules & Co., Pharmacy.

FARMERS' INSTITUTES

Over 450 days of farmers' institutes, more than ever provided before, have been arranged for the season of 1910-11, by A. L. Martin, director of farmers' institutes of the State Department of Agriculture. Last season 450 days were provided, and the attendance at the sessions exceeded all records.

The arrangements for the coming season contemplate the appearance on the platform of a number of the best-known lecturers in the State. The course will cover a wide variety of topics.

The arrangement for institutes in Mouton and Northumberland counties is as follows:

Mouton—February 10 and 11 Washingtonville; February 13 and 14, Mansdale.

Northumberland—February 3 and 4, Reabuck's; February 6 and 7, Snyderstown; February 6 and 7, Postsgrove.

VANDALS AT PARK

There is scarcely any limit to the mischief that persons maliciously inclined will not perpetrate, if given the opportunity. If there is anything about Memorial park safe from vandals one would have thought it was the heavy cannon mounted on and neatly fitting into granite pedestals. Yet it was discovered a few days ago that vandal hands had lifted one of the cannon out of its bed breaking the cement in which it was set. The heavy gun was replaced by borough employees, but it rests loosely on the pedestal and will have to be reset.

Notwithstanding the dry weather things about the park appear to be growing nicely. The sod remains green, while the flower beds present a beautiful appearance.

Shiloh Reformed Picnic. The picnic of the Shiloh Reformed church and Sunday school was held at DeWitt's park yesterday and was exceptionally well attended. The weather was ideal and no accident occurred to mar the pleasure of the day.

LEAGUE STARTS ON NEW SERIES

At a meeting of the managers of the Susquehanna league, held yesterday afternoon in the Elks' rooms at Berwick, it was decided to close the present series of games, since Danville's unsurmountable lead has caused interest in the game to lag, and to open this week a new series of fifteen games to last until September 10th.

Danville was declared the winner of the first series of games, and in case another team wins the second series, that team and Danville will play a series of games after September 10th for the championship of the league and the 1910 pennant. In case Danville wins the second series, the pennant will, of course, go to this town without a deciding series.

The meeting yesterday was marked by heated discussions, which arose mostly on subjects relating to the new schedule of games. The motion to play the new series which, by the way, was made by Manager Hoffman of Danville, was the only business transacted, but it required nearly two hours of heated argument before the measure was finally brought to a vote.

The Danville and Berwick managers wanted to play a 30 game series to last until September 17th. To this were offered strenuous objections by Colley, of Shickshinny and Sharpless, of Bloomsburg. Manager Colley would not stand for more than 15 games and Manager Sharpless stated that Bloomsburg would positively not play longer than September 10th.

President McCollum appointed Haas, of Nanticoke; Sharpless, of Bloomsburg and himself as a committee to arrange a schedule for the new series. This committee will meet some time this week and frame a series of games which will be presented to the managers at a meeting which will be called by President McCollum.

This committee will have an arduous task to suit all concerned, as it developed that some of the managers are desiring others of trying to preempt all the desirable dates. This phase reached a climax when J. N. Harry, of Berwick and Tom Moore, of Bloomsburg, got into a heated wrangle over dates. The committee will also have to keep Berwick and Nescopeck from conflicting and take into consideration many other factors.

The meeting adopted the following schedule for this week:

FRIDAY, AUG. 5.

Danville at Bloomsburg. Nanticoke at Shickshinny. Nescopeck at Berwick.

SATURDAY, AUG. 6.

Shickshinny at Danville. Nescopeck at Nanticoke. Bloomsburg at Berwick.

To keep your health sound; to avoid the ills of advancing years; to conserve your physical forces for a ripe and healthful old age, guard your kidneys by taking Foley's Kidney Remedy. For sale by Paules & Co., Pharmacy.

Danville Campers at Forks. A large party of Danville people left on Saturday for a two weeks' camping sojourn at Forks, Columbia county. The party will occupy 2 of the numerous cottages that nestle on the banks of Fishing Creek at this point.

Among the campers were Mr. and Mrs. Howard Linger, of New York City; Mr. and Mrs. Frank Cromwell and son Edwin, of Philadelphia; Miss Myrtle Siddler, of Catawissa; Mrs. Charles Goll, of Turbottville; Mrs. Lillian Downs and daughter Ruth, of New York City; and the following from Danville: Mr. and Mrs. George Malters, Mr. and Mrs. William Ellebogen, Mrs. Mary Cromwell, Mrs. Aaron Rockafeller, Mrs. John Hughes, Mrs. Malinda Bookmilller, Misses Edna, Laura and Gladys Hughes and Helen Shepperson, Messrs. Harry Machamer and Ira Swank.

THE ESPERANTOISTS Curtis B. Lore, president and W. V. Oglesby, secretary and treasurer, will represent the Danville Esperanto club at the Sixth World's Congress of Esperantoists, which will convene at Washington, D. C., on August 14th, continuing in session during the week.

Messrs. Lore and Oglesby expect to attend the convention of the Esperanto association of North America, which will meet at Washington during the same week.

Birthday Party. Mr. and Mrs. H. L. Foust, Front street, entertained a party of young people, Tuesday evening, in honor of the 15th birthday of their daughter Helen. Those present were Miss Gertrude Godfrey, of Brooklyn, N. Y.; Jas. Kelly, of Scranton; Misses Ethel Foust, Mabel Foust, Margaret Foust, Grace Foust, Sarah Price, Viola Kear, Mary Kear, Marion Myers, Leona Snyder, Beatrice Keefer, Elsie Keefer, Anna Mintzer, Bertha Wray, Emma Morvick, Tressa Wagner, Anna Smith, Beatrice Hancock, Emily Kelly, Anna Jones, Leah Jones, May McWilliams, Anna Werle, Carrie Rudy, Naomi Shepperson, Mrs. Harry Mapstone and son Raymond, Walter Diehl, Edward Hollabaugh, Harry Anderson, Albert Paugh Luther Foust, Edward Long, John Earp, Wellington McDonald, Edward Myers, Jesse Freeman, Roy Angle, Beaver Gross, William Shaffer, Charles Fisher, John McBride, Thomas O'Connor, George Kear, Clarence Weaver.

Those people who always are thinking of their looks, generally look it.

NEW RULE AND REGULATION

The outbreak of infantile paralysis and the general prevalence of pellagra and duodenal (hook worm) in Pennsylvania has led to the adoption of a new rule and regulation by the State department of health, which requires that these diseases in the future be reported by physicians to the health authorities the same as is done in the case of small pox, diphtheria, scarlet fever, &c. It has been discovered that hook worm and pellagra, the latter being an affection of the skin with severe constitutional and nervous symptoms, are by no means rare diseases in Pennsylvania but that on the contrary, the cases of hook worm, especially, have become strikingly numerous.

So far as known the outbreak of infantile paralysis has not yet reached this county. It is probably merely for statistics that these additional cases are to be reported.

Dr. George A. Stock, county medical inspector, Friday received the following communication from Dr. Samuel G. Dixon, State Commissioner of health:

"Dear Sir:—I beg to call your attention to the following rule and regulation adopted by the advisory board of the State department of health in accordance with the authority given by the act of assembly, approved April 27, 1905: 'That all physicians practicing within the limits of the State make in immediate report of each and every case of uncinaria duodenalis (hook worm), pellagra and anterior poliomyelitis (infantile paralysis) occurring in their practice, in the same manner that communicable diseases are now by law and by rule and regulation of the State department of health reported to the health authorities.'

"No quarantine regulations have been adopted for these diseases. (Signed) SAMUEL G. DIXON."

A copy of the rule and regulation has been sent to each physician and new forms to be used in making reports forwarded to county medical inspectors.

From Sickness to "Excellent Health." So says Mrs. Chas. Lyon, Peoria, Ill.: "I found in your Foley Kidney Pills a prompt and speedy cure for backache and kidney trouble which bothered me for many months. I am now enjoying excellent health which I owe to Foley Kidney Pills." For sale by Paules & Co., Pharmacy.

WINS SHEPP PRIZE. The Twelfth Regiment marksmen on Saturday again carried off the honors in the national guard competitions in progress at Mt. Gretna, winning the Shepp trophy Saturday morning with a lead of twenty points over their nearest competitor, the Tenth infantry. Eisenhower, the expert marksman of Company F, was among the high scorers in the week.

In the Shepp match Saturday morning, six men constituted each team, and each man shot ten shots in rapid fire at 200 yards. This is the third consecutive time that the match has been won by the Twelfth Infantry. The individual score of that team Saturday is as follows:

Sergeant Clement, 42; Sergeant Eisenhower, 49; Corporal Edmunds, 46; Lieutenant Donahue, 46; Musician, Weickel, 44; Sergeant Slopey, 45. Total, 272.

The Brigade match Saturday afternoon, was won by the First Brigade. It was a most exciting contest, the First Brigade leading at 200 yards, the Third Brigade bobbed into first place, with a lead of 21 points, but at 1000 yards fell down heavily with several men and the first brigade won out with a narrow margin of three points. In this match Eisenhowers, Donahue and Slopey each scored a total of 124 points. Edmunds, also of the 12th Infantry, scored 104.

For Quick Relief from Hay Fever. Asthma and summer bronchitis, take Foley's Honey and Tar. It quickly relieves the discomfort and suffering and the annoying symptoms disappear. It soothes and heals the inflamed air passages of the head, throat and bronchial tubes. It contains no opiates and no harmful drugs. Refuse substitutes. For sale by Paules & Co., Pharmacy.

POWER HOUSE BURNED The large power house of the United Light and Power company, which furnishes power for the Lewisburg, Watsonstown and Milton Trolley company and street and residence lights for Milton, was destroyed by fire Tuesday morning. The town is without light or trolley service.

The fire broke out about 1 o'clock and while the origin of the blaze is not definitely known it is believed to have been caused by a short circuit on the big generator. An hour after the blaze started the building was in ruins. The loss is estimated at about \$80,000, partly covered by insurance. All of the generating machinery was destroyed.

The company some time ago began the erection of a new and larger plant, which will be completed in about a month. In the meantime an auxiliary plant will be equipped and it is expected that by Friday night service can be resumed. Arrangements are now being made to get the necessary equipment for the temporary plant. It is likely that the machinery will be secured in Williamsport from the Lycoming Electric company, which recently dismantled two old plants.

FARMERS URGED TO SEEK STATE AID

G. F. Marsh, agricultural representative of the Northern Central Railroad, says that he does not think that the farmers of Pennsylvania are familiar with the system of supervision model orchards, which has been inaugurated by Prof. H. A. Surface, of the Agricultural Department at Harrisburg, for if they were his office would be overwhelmed with applications. This is by far the most important work ever undertaken by this or probably any other state.

While he will conduct demonstrations of spraying and the proper care of orchards as in the past, the supervision part is something original. By this plan any farmer may write to his office and make application to have his orchard placed on the list of supervision orchards. There is no charge for this service. All that is necessary is for the farmer to agree to follow instructions, when the department will send an expert to his farm to look the situation over. He will do such work as is necessary to start the owner in the proper methods of pruning and spraying. He will also leave a written outline for the management of the orchard throughout the year, including the following cultivation, pruning, spraying and other features of orchard management with special reference to insects and fungus control. The expert will visit the orchard a number of times during the season to inspect the work and give such advise as may be needed.

The object of this work is to demonstrate in a practical manner how to obtain the best possible returns at the least necessary expense, and the department will promise within two years and, doubtless within one, to show how to produce an abundant crop of good and fairly perfect fruit, fairly free from blemishes and insect pests and plan disease and ready for sale at the highest market price; which will keep longer and be much more valuable to both the producer and consumer than the average fruits of the same kind.

One of the State orchard inspectors visited 2,000 orchards last season and states that he could count on the fingers of one hand those that were sprayed and cultivated, while it is a well known fact that practically all the apples grown in this section are sold in bulk simply for lack of care in cultivation and handling.

Many of these orchards contain from 50 to 300 trees, which at the low valuation of \$2 per tree, would give an income from \$250 to \$1,000 per year, frequently more than the whole farm rents for.

We would strongly advise every farmer to take advantage of this liberal offer and to write Professor Surface for particulars regarding his system of supervision orchards.

\$100 Reward, \$100. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CHENEY & CO., Toledo, Ohio.

Sold by Druggists, 75c.

Take Hall's Family Pills for constipation.

Youngest Prisoner in Bloom Jail. Sheriff of Columbia county, William P. Zehner, is now entertaining the youngest prisoner who has ever been an inmate of the Bloomsburg prison. The young prisoner is Joseph Kovacs, the two-year-old son of Mrs. Annie Kovacs who is being held as a witness.

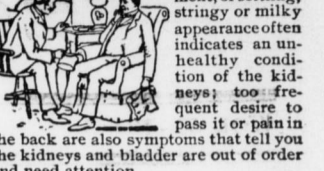

Acute or Chronic—Which? No matter if your kidney trouble is acute or chronic Foley's Kidney Remedy will reach your case. Mr. Claude Brown, Reynoldsville, Ill., writes us that he suffered many months with kidney complaint which baffled all treatment. At last he tried Foley's Kidney Remedy and a few large bottles effected a complete cure. He says, "It has been of inestimable value to me." For sale by Paules & Co., Pharmacy.

Retires as Organizer. W. H. DeWitt, Bloom street, organizer of the local camp of Modern Woodmen of America, has retired from active duties in that order. His work will be carried on by B. G. Walter, of Sunbury, district deputy head consul.

CIGAR ASHES START FIRE. Absent-minded dropping of hot cigar ashes on hay in the ice house of Geo. Hellrick's creamery started a fire which destroyed the structure.

Destroyed By Fire. Vilkes-Barre, Aug. 3.—One hotel, two saloons and two stores, all frame buildings, in the town of Larksville, near here, were destroyed by fire at an early hour this morning. Loss, \$24,000.

Thousands Have Kidney Trouble and Never Suspect It.

How to Find Out. Fill a bottle or common glass with your water and let it stand twenty-four hours; a brick dust sediment, or settling, stringy or milky appearance often indicates an unhealthy condition of the kidneys; too frequent desire to pass it or pain in the back are also symptoms that tell you the kidneys and bladder are out of order and need attention.

What to Do. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, fulfills almost every wish in correcting rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. Corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root is soon realized. It stands the highest because of its remarkable health restoring properties. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes.

You may have a simple bottle sent free by mail. Address Dr. Kilmer & Co., Binghamton, N. Y. Mention this paper and remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

SURVIVORS OF 132ND REGIMENT

The annual reunion of the survivors of the One Hundred and Thirty Second Regiment, Pennsylvania Volunteers, will be held in Danville on Saturday, September 17th.

Unusual interest attaches to the reunion of this regiment, as Company A was composed of Danville boys, many of whom still survive. The history of the regiment, which participated in some of the bloodiest battles of the war, is familiar to most of our citizens.

The make-up of the regiment was as follows: Company A, of Danville; Company B, of Factoryville; Company C, of Wellsboro; Company D, Bradford; Company E, of Bloomsburg; F and G, of Mauch Chunk; Company H, of Catawissa; and K, of Scranton.

Survivors of every company are expected to be present at the reunion. Colonel Hitchcock of Scranton, the only surviving field officer, will attend and will deliver an address.

Among the survivors of Company A, the most of whom are still living at Danville are: Hon. James Foster, Thomas Jones, Associate Judge Frank G. Blee, O. B. Switzer, Thomas James, Samuel Mottern, William Sunday, Conrad S. Aten, Levi Miller, Edward Roderick, Samuel Gullik, Wellington Klase, S. R. Waite Amos Appleman and Henry Vincent.

The late Captain George G. Lovett, of this city was a member of Company A, 132 Regiment.

The 132nd Regiment participated in some of the greatest battles of the war, among them being Antietam, Fredericksburg and Chancellorsville. It was also under fire at South Mountain.

NASAL CATARRH, an inflammation of the delicate membrane lining the air-passages, is not cured by any mixtures taken into the stomach. Don't waste time on them. Take Ely's Cream Balm through the nostrils, so that the fevered, swollen tissues are reached at once. Never mind how long you have suffered nor how often you have been disappointed, we know Ely's Cream Balm is the remedy you should use. All druggists, 50c. Mailed by Ely Bros., 56 Warren Street, New York.

Unexpected Preference. William J. Books, recently of this city, who is with an engineer corps of the Algoma Central and Hudson Bay Railroad company, has been appointed fire ranger and game warden under the Department of Land, Timber and Mines of the government of Ontario, Canada. He was not an applicant for the position and the appointment was a great surprise to him.

They Have a Definite Purpose. Foley Kidney Pills give quick relief in cases of kidney and bladder ailments. Mrs. Rose Glaser, Terre Haute, Ind., tells the result in her case. "After suffering for many years from a serious case of kidney trouble and spending much money for so-called cures, I found Foley Kidney Pills the only medicine that gave me a permanent cure. I am again able to be up and attend to my work. I shall never hesitate to recommend them." For sale by Paules & Co., Pharmacy.

Doctors Any Good?

Foolish of you! Yet some people act as if a medicine could take the place of a doctor! The best medicine in the world can't do that. Have a family doctor, consult him frequently, trust him fully. If we did not believe doctors endorsed Ayer's Cherry Pectoral for coughs and colds, we would not offer it to you. Ask your doctor. No alcohol in this cough medicine. J. C. Ayer Co., Lowell, Mass.

If we did not believe doctors endorsed Ayer's Pills for constipation, biliousness, sick-headache, we would not offer them to you. Ask your own doctor about this.
