HIGH TRIBUTE FOR TWELFTH

The Twelfth Regiment, N. G. P., was paid a glowing tribute by Brigadier General Wetherpoon, the U. S. Army officer who commanded the recent Camp of Instruction held at Gettysburg, for the gentlemanly and soldierly conduct displayed by the officers and men of the regiment. In a letter addressed to Colonel W. F. Barber, commanding the 12th Regiment, General Wetherpoon says: "My dear Colonel: In addition to expressing my high appreciation of the services of the troops of the Pennsylvania National Guard while serving at the camp to your Brigade Commander, I desire to convey to you the pleasure I have had in observing the conduct of the officers and men of your regiment during the exercises incident to the course of instruction. I imagine it has been a rather hard task for the officers particularly, for they have had little rest or recreation. The hours have been long and the physical exertion great, yet they have responded to all calls, with intelligence and promptitude. As regards the conduct of the men, the discipline has been of such a character that no offenses on their part of any kind have been brought to my attention, either in or out of camp. They appear to have been very prompt in all their formations and to have responded intelligently to the commands and instructions of their officers. I hope it may be my pleasure to again serve with your regiment. Please present my respects and convey to them my wishes for a pleasant and comfortable journey to their homes. Very sincerely yours, W. W. WETHERPOON, Brigadier General U. S. Army, Commanding."

To keep your health sound; to avoid the ills of advancing years; to conserve your physical forces for a ripe and healthful old age, guard your kidneys by taking Foley's Kidney Remedy. For sale by Pauls & Co., Pharmacy.

WAGON UPSET
The delivery wagon of John Jacobs' sons while making its accustomed rounds Monday afternoon figured in a smash-up. The wagon, driven by Walter Bowen, was descending the hill on Church street between Bloom and Lower Mulberry streets, when the hold-back snap became unhooked and the wagon running forward against the horse caused him to become unmanageable. The driver still holding on to the lines jumped out but owing to the broken harness was unable to quiet the horse. At this juncture the wagon upset and striking a fire plug was badly broken. Through it all the driver held on to the horse, which was finally unhitched and was found to be little the worse for the accident. The upset attracted quite a crowd.

By making favorable terms Brazil plans to retain its supremacy in the rubber production of the world.

SCHOOL HOUSE ON NEW SITE

The Welsh Hill school building, which was in danger of being undermined by the floods and of toppling into a deep ravine at its side, has been successfully moved to a new and safe site twenty-five feet further west. The work was done by Clark Heimbach of East Danville. From time immemorial during heavy rains the surface water accumulating on Welsh Hill on its way to the creek below in a torrent has poured down the hillside just east of the site occupied by the school house creating a gully, which of late years has threatened to undermine the foundation of the building. The school board took the matter up with the borough council, but the latter body holds that the washout is due to natural conditions and not to any fault of the drainage. A compromise was effected whereby the borough and school district agreed jointly to bear the cost of removing the school house to a new site. Bids were invited and the contract was awarded to Mr. Heimbach for \$397. How well the contractor has performed the difficult task will be apparent when it is stated that the building, which was twenty-five feet without so much as loosening a brick on the tall chimney or in anyway damaging the expensive slate blackboard, set in the end wall and extending from one side of the school room to the other. At one place the plaster is slightly broken, but the damage is so slight that a good plasterer will repair it in fifteen minutes. The building is being thoroughly renovated and among other improvements a lavatory system is being installed. In connection with the latter a twelve-foot cesspool is being dug at the west side of the building. Henceforth Welsh Hill will have a safe and sanitary school building equipped with all the conveniences.

DANGER IN DELAY

Kidney Diseases Are Too Dangerous For Danville People to Neglect.
The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. Health is gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, diabetes and Bright's disease follow in merciless succession. Don't neglect your kidneys. Cure the kidneys with the certain and safe remedy, Doan's Kidney Pills, which has cured people right here in Danville. S. M. Walet, 308 W. Mahoning Street, Danville, Pa., says: "About eight years ago I had kidney and bladder trouble. I could not control the kidney secretions and I suffered intensely from backache. My rest was fitful and I had acute pains through my loins. When feeling weak and run down, I was told about Doan's Kidney Pills. I procured a supply at Hunt's Drug Store and their use helped me so greatly by the first that I continued taking them until cured. This remedy will always have my hearty endorsement." For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

MET VIOLENT DEATH

David Ulrich, aged 65 years, a prominent and well-to-do farmer residing in Delaware township, Northumberland county, near Watsonstown, met a violent death as the result of an accident Friday evening. Mr. Ulrich was assisting in hauling oats from the field to his barn when he lost his balance, and fell under the wheels, which passed over his neck. The victim was taken to the home of his son Bruce, in Springtown, nearby, where he died three hours later. He is survived by a family of grownup children.

Foley Kidney Pills.
Tonic in quality and action, quick in results. For backache, dizziness, nervousness, urinary irregularities and rheumatism. For sale by Pauls & Co., Pharmacy.

NOTICES POSTED ON SATURDAY

The borough on Saturday took the initial step in the procedure to pave East Market street between Mill and Pine streets without petition of property owners, when in compliance with the law it caused to be posted on the two squares affected twelve notices relating to the proposition. The notices occur at intervals of every few yards, and residents whose properties abut on the section to be paved on emerging from their doorways are pretty sure to find themselves confronted with the conspicuous placard, which in due and legal form informs them what is on foot. The notices set forth that the borough council on Friday, August 19, 1910, at 8 p. m., will hold a meeting in the council chamber for the purpose of hearing objections from anyone to the proposition to grade, pave with vitrified brick and curb with stone that part of East Market street between the eastern building line of Mill street to the eastern building line of Pine street and to consider the advisability and expediency of enacting the proposed necessary ordinance providing for such grading, paving and curbing, the assessment of costs, etc.

The paving of the two squares as proposed will be accomplished under the provisions of the act of May 31, 1897, (P. L. 114) as amended by the act of May 7, 1907 (P. L. 165). This enables the borough by a two-thirds vote of council to improve a portion of a street between improved termini, not exceeding 1000 feet, without petition from property owners. The section of East Market street between Mill and Pine streets is 700 feet, 6 inches in length. Section 1 of the act of May 7, 1907, which relates to the present stage of the procedure, is as follows: "That all boroughs shall have power without petition of property owners to grade, pave, curb, macadamize public streets or parts thereof not exceeding 1000 feet in length and connect two streets or parts of a street theretofore paved and improved: Provided, The ordinance authorizing and directing such improvements shall be adopted and enacted by an affirmative vote of three-fourths of the members-elect comprising the councils of the said borough and shall be approved by the burgess thereof. No such ordinance shall be finally enacted in less than thirty days from the date of its introduction, and in the meantime copies of said ordinance shall be published in a newspaper in said borough and circulating therein once a week for two weeks and by at least five handbills posted along the proposed improvement ten days before the final passage in council of such ordinance."

THEY HAVE A DEFINITE PURPOSE.
Foley Kidney Pills give quick relief in cases of kidney and bladder ailments. Mrs. Rose Glaser, Terre Haute, Ind., tells the result in her case. "After suffering for many years from a serious case of kidney trouble and spending much money for so-called cures, I found Foley Kidney Pills the only medicine that gave me a permanent cure. I am again able to be up and attend to my work. I shall never hesitate to recommend them." For sale by Pauls & Co., Pharmacy.

FARMERS' PICNIC

The Farmers' annual Tri-County picnic will be held in DeWitt's park on next Wednesday, August 17th. Every effort has been put forth to make the event a success. Calhoun's Military Band of Northumberland will furnish the music during the day and will render several noteworthy selections. Miles and Foulke's orchestra will furnish music for the dance. The program of sports embraces a potato race, a bag and lantern race and other exciting contests. A general invitation is extended to the public, as the object of the Tri-County Farmers' Picnic association is to afford an occasion where all who so desire may meet together and enjoy a good social time. Should the merchants of town see their way clear to close their stores during the afternoon it would be a concession most highly appreciated. An admission fee of five cents will be charged to help defray the expenses.

A REGULATOR

The northern wall of the county commissioners' office at the court house is adorned by a handsome new clock or regulator, which takes the place of the antiquated timepiece that did service in the office for many, many years. The new clock is modern in every respect, but it is doubtful whether it will render any more efficient service than did the old clock in its day and generation. It is true, during the last several years the timepiece displaced was obliged to get along with one hand and was able to indicate the hours only, the minute hand having gone by the board many years before. To its credit, however, it must be stated that the old clock to the last kept fairly correct time. Clerk Horace C. Blue, who is custodian of the court house relics, has taken the old clock down and consigned it to oblivion in one of the dusty recesses of the building wherein are stored piles of other obsolete furniture.

JOE GANS DEAD

BALTIMORE, Aug. 10. Joe Gans, former lightweight champion of the world, died here this morning. Gans died of consumption, which manifested itself about a year ago. Late last spring he went to Arizona with the hope of restoring his health, but the disease had been too deeply seated and he declined rapidly. He was brought home last week to die. He was 34 years old. He began his ring career in 1894, but prior to that time he had made a name for himself as a fighter about a fish market in this city, where he was employed. His first fight for money is said to have brought him \$4. The largest purse for which he ever fought was \$33,000 in his first bout with Nelson. Of this Gans received but \$11,000, he having agreed to give Nelson the remainder, win, lose or draw. Gans won the title of lightweight champion from Frank Erne, at Fort Erie, in one round in 1902 and lost it to "Battling" Nelson in 1908 in the seventeenth round.

Made Mistake in Bottles.

Chester, Aug. 10.—Drinking a dose of carboic acid in the unlighted bathroom Monday night, apparently mistaking the bottle for one containing medicine recently prescribed, Mrs. Cecelia Leary, wife of John J. Leary, a west end hotel proprietor, died. The woman had been suffering from acute indigestion, and, apparently, mistook the acid for the remedy she was using for her ailment. There was no reason for suicide. London police department last year seized 40,255 stray dogs.

LOST SECOND OF NEW SERIES

Continued from 1st Page.
the locals won 3 to 2 at Shickshinny on May 28th. He pitched a good game Saturday, but should not have scored a defeat over Ainsworth. With proper support that game would have been a 2 to 0 shut out for the Danville pitcher, all of Shiny's scoring being done on an error and loose work.

In practice before the game Captain Nipple was struck on the nose by a grounder and it was feared for a while the nose was broken. He went into the game and put up his usual fine exhibition on the initial sack. The score:

| DANVILLE. | |

LABOR DAY IN DANVILLE

Labor Day, the first Monday in September, this year, occurs on the fifth of the month. Last year the day was also late, not occurring until the sixth of September. Labor day is one of the most important legal holidays of the year. In Danville it has always been well observed, reflecting in a very positive way the general interest felt in the cause of labor. In the past the A. A. of I. S. and T. W. of this city generally took the initiative in planning an observance for Labor day, and under its auspices a big outing in the park was generally held, which provided entertainment for all. This year the 23rd annual convention of the Susquehanna District Association, Knights of the Golden Eagle, will meet at Danville. As arranged the convention will be one of the largest and most important ever held by the Sir Knights and Ladies of the Golden Eagle. A feature of the occasion will be an imposing parade, which will form at 12:30 o'clock and will move at 1 o'clock sharp. Prizes in gold are offered as follows: For the best drilled commandery, \$15; commandery coming the greatest distance, \$10; commandery making best appearance, \$5; castle coming greatest distance, \$10; castle with largest number in line, \$5; castle making best appearance, a large rug. A monster picnic will be held at DeWitt's park. During the afternoon and evening there will be dancing, Foulk's orchestra furnishing the music. There will also be games and sports of all kinds. Admission to the park will be free. The convention will bring a large number of visitors to Danville embraced by the membership of the various castles of the order situated in the Susquehanna district. It is not unlikely that Labor day may be publicly observed by other organizations also, which still have abundant time to make arrangements. It is quite certain that a game of base ball or two will be played by teams of the Susquehanna League. The public schools of Danville will open for the term on Tuesday morning following Labor Day.

STRICKEN WITH BLINDNESS

Henry Pritchard, front street, a well-known iron worker, who about two years ago lost the sight of his right eye as the result of a couple of accidents sustained while working as a puddler, last week went totally blind, his left eye having become affected through sympathy or the influence exercised on it by the injured right eye. Mr. Pritchard was conscious that the sight of his left eye was becoming weaker, but he was hardly prepared for the calamity which has befallen him. He was walking alone on the street when he was stricken with blindness. With difficulty he groped his way home. At present the afflicted man is under the care of the eye specialist, Dr. J. J. Brown, of Bloomsburg, who holds out some hope of recovery. On September 13th an operation will be performed on the left eye. Up to two weeks ago Mr. Pritchard was employed as a reamer at the Structural Tubing works. He was obliged to quit by reason of failing eyesight.

ON STATE COMMITTEE

The Keystone party, which met in Philadelphia yesterday for organization, has appointed its State central committee, the representation therein being made by senatorial districts. The twenty-fourth district, comprising Montour, Columbia, Lycoming and Sullivan counties, is represented by Dr. L. B. Kline and Joseph R. Patton, of Danville. The twenty-seventh district, comprised of Northumberland, Snyder and Union counties, has Brownlee Smith as member.

TOO MANY HANDLE MEAT

YORK, Aug. 9. York housewives will be compelled to employ the sense of sight more and more in the purchase of meat in the local markets, following a visit here today of agents in the meat hygiene service of the State Live Stock Sanitary Board. The agents state their investigation to have shown that much of the meat is handled by so many different women before it is finally purchased that it is no longer decent food, and butchers have been notified that the practice must stop.

SCALPED IN RUNAWAY

POTTSVILLE, Aug. 10. John Minnich, aged five, jumped on the delivery wagon of Andrew Michel today. Shortly after he clambered aboard the horses ran away, dashed down a hill and into a fence. The youngster was completely scalped and sustained such injuries that his life is despaired of. One of the horses was killed in the mad dash and the wagon was reduced to kindling wood.

Visiting Danville.

The Rev. Dr. W. C. McCormack, of Lima, N. Y., former pastor of Grove Presbyterian church, accompanied by his wife, arrived in this city yesterday for a visit with his former parishioners. Agriculture in Germany supports about 19,000,000 of the population.

DEPARTMENT OF SCIENCE

In addition to the Crowell outfit installed in the laboratory of the Danville high school a few years ago the school board this year has purchased a great deal of other apparatus, which will much increase the value of the work done in the department of science. Included among the new pieces are: Galorimeter and Measuring cup, Overflow can, Vernier caliper, Ball and Ring, Spring Balance, Cenco Agate Bearing Trip Scale, Dissected Liter Block.

To supply pieces that have become worn out the following have been purchased: Blow pipes, Glass retorts, Beakers, Funnels, Flasks, Test-tubes, Forceps, Evaporating dishes, U Tubes, Rubber tubing and Pneumatic troughs. The laboratory of the high school is now equipped with the most useful and up-to-date laboratory furniture. All of which suggests that the Danville school board is laboring with the object in view to secure to the pupils the distinctive advantages that result from correct science study. Among these advantages are the power to observe quickly, clearly and comprehensively and the ability to deduce legitimate conclusions from the observations thus made. With these ends in view it is the aim rarely to tell the pupil what he can find out for himself by observation or experiment.

In the study of botany an amount of text book work sufficient to acquire the necessary technical terms is required. But the greater part of the work consists of a close study of the types of the most important orders. A large table has been placed in the class room where the pupils may perform their dissection and analysis under the guidance of the instructor. The student is required to collect, analyze, classify and mount a number of specimens of local flora. Zoology is studied in much the same manner as botany—recitation from text books, individual laboratory work, taking up the larger type forms; and field work.

The course of physics extends through the entire senior year. The aim is to cultivate a keen understanding and appreciation of common natural phenomena. The method is to combine recitations with as much individual laboratory work as possible. The experiments are performed individually by the student and carefully recorded in special note books.

The required work in chemistry covers one year. The aim of this course is to give the student some concept of the large part which chemistry is playing in our industrial and social life and to impress on him the value of the subject in bringing us in touch with the world's work in many fields.

Acute or Chronic—Which?
No matter if your kidney trouble is acute or chronic Foley's Kidney Remedy will reach your case. Mr. Claude Brown, Reynoldsville, Ill., writes us that he suffered many months with kidney complaint which baffled all treatment. At last he tried Foley's Kidney Remedy and a few large bottles effected a complete cure. He says, "It has been of inestimable value to me." For sale by Pauls & Co., Pharmacy.

Birthday Party.
A pleasant surprise party was held at the home of Mr. and Mrs. Lloyd Cashner, Ridgeville, Saturday evening, in honor of Mr. Cashner's 42nd birthday. Supper was served and the occasion proved to be most enjoyable. Those present were Mr. and Mrs. John Cashner and daughters Ida and Florence, Mr. and Mrs. Walter Morten and son Harold, Mr. and Mrs. Alex. Mann and son Samuel, Mr. and Mrs. Charles Hemery, Mr. and Mrs. Wood Welliver, sons Carmen and Moody, Mrs. Keiser and children, Mr. and Mrs. Alfred Blecher, daughters Florence and Mary, Mrs. Sam Beaver, daughters Florence and Ruth, Mr. and Mrs. William Schram, Mr. and Mrs. Lewis Kessler, Mesdames William Heller, John Beyer, John Foust, Charles Pusey, Fred Carodiskey, Peter Morten, Samuel Mann, Jackson Blecher, Caroline Sweeney, John Mingle; Misses Jessie Hemery, Lizzie Cashner and Hattie Gearhart; Messrs. George Sidler and Carl Carodiskey.

WOMEN AS WELL AS MEN ARE MADE MISERABLE BY KIDNEY AND BLADDER TROUBLE.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose. Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers who found Swamp-Root to be just the remedy needed in a diseased condition of the kidneys and bladder. Don't make any mistake, but remember the name, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

ANSWERS THE FINAL SUMMONS

Dr. Benjamin Horning Detwiler, veteran physician and trustee of the hospital for the insane at this place, died at his home in Williamsport at 4 o'clock Tuesday morning following a stroke of paralysis. Dr. Detwiler was one of the oldest and most widely known physicians in the State, having practiced medicine for more than fifty years. He was best known to the people of this vicinity, however, as a trustee of the hospital for the insane, having been a member of the board ever since the institution was founded. He has always shown the deepest interest in all matters pertaining to the care and treatment of the insane and the conduct of affairs about the hospital. For several years he was president of the board of trustees. No one was more faithful in his attendance at the meetings than Dr. Detwiler. For more than thirty years his duties as trustee have brought him to Danville monthly on more frequent, and not only those at the hospital, but also the people about town learned to know him well and to appreciate his cordiality and evident sincerity of manner. Dr. Detwiler was born in Franconia, Montgomery county, October 6, 1831, and was a descendant of the fifth generation of Gregorius Detwiler, a Swiss emigrant, who was a pioneer of that section. He prepared for college at Trappe, Montgomery county. In 1851 he entered the medical department of the University of Pennsylvania, graduating in 1855. Dr. Detwiler went to Williamsport in 1865. He was one of the founders of the Williamsport hospital he was a trustee and served on the medical and surgical staff of the institution from its foundation. He was twice married, his second wife surviving him. He is also survived by a son, Dr. Thomas Craig Detwiler, of Lancaster, and two daughters; Mrs. B. Palmer Hutchison, of Lancaster, and Miss Mary Detwiler, who resides with her father. They are all children by the first wife.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one tried and tested cure for catarrh that has been able to cure in all its stages, and that is Catarrh Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address: F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

ONE YEAR FOR MOORE

Everett Moore, the young man who robbed the bakery of Henry Diehl, of Watsonstown, where he was employed, fleeing to Milton, and subsequently being caught by the Danville police in Fallon's restaurant, was taken before Judge Savidge in court at Sunbury yesterday morning, where he pleaded guilty to the crime of stealing about \$60. He was sentenced to a fine of \$5, the costs of prosecution and a term of one year in the county jail. In Germany, paper is used in the manufacture of false teeth.

AYER'S HAIR VIGOR
Stops Falling Hair
Ayer's Hair Vigor is composed of sulphur, glycerin, quinin, sodium chlorid, capsicum, sage, alcohol, water, and perfume. Not a single injurious ingredient in this list. Ask your doctor if this is not so. Follow his advice. A hair food, a hair dressing. Promptly checks falling hair. Completely destroys all dandruff.
AYER'S HAIR VIGOR
Does not Color the Hair
