TWO SUSPECTS UNDER ARREST

Quite a commotion was caused in this city Saturday morning by the arrest of a couple of hoboes suspected of being implicated in the burglary at the D. L. & W. station. The presence of four detectives industriously on the job seemed to add to the importance of the capture. The hoboes, each in himself an interesting type, finally gained their freedom.

Ever since the burglary Detectives Adamson and Spellman of the D. L. & W. railroad company have been in Danville working in conjunction with detectives of the Pennsylvania Railroad, who are trying to obtain a clew to the burglars that cracked the safe at the station at Catawissa a short time ago. Their labors seemed barren of results until last Saturday morning when two hapless hoboes alighted from a freight train, one of whom in a striking manner resembled an individual to whom suspicion pointed.

Detectives Adamson and Spellman quickly nabbed the hoboes and hustled them off to the lockup, at the same time notifying Detectives Keller and Thorp of the Pennsylvania Railroad, came up from Sunbury on the 10:26 train.

INJURED INNOCENCE.

The four detectives accompanied by Officer Mincemoyer and Voris proceeded to the lockup where the hoboes were subjected to the worst grilling they ever experienced. Unfortunately for them they told irrational and conflicting stories.

One of the men gave his name as John Ryan; the other as James Leonard. Both assumed an air of injured innocence as they were led to the lockup. They seemed to be in ignorance of the robbery and inquired what had occurred in town to lead to their ar-

Ryan, who had a short flery red beard, was the man to whom suspicion pointed. Despite a keen eye he seemed very obtuse and stupid, and when requested to give an account of him-self on the night of the robbery he made such a bungling job of it that for awhile it looked bad for him.

Both of the suspects were very anxous to be classed as tramps merely. One of them recollected that he had worked a little at haying somewhere but he wasn't sure whether he had did not seem very clear to the other fellow whether he had done any work or not during the present summer.

Officer*Thorp recognized Ryan as a bum recently detained in the lockup at Sunbury, where he was traveling with an unbrella mender and where his conduct seemed to bear out his representations that he was only a tramp whose worst offense seemed to be that of getting drunk.

The hoboes were grilled for nearly an hour, after which the detectives retired to talk the matter over. It was finally agreed that, although a few circumstances seemed suspicious, the evidence against the men was not

Saturday's Scores. Danville, 5; Bloomsburg, 1. Berwick, 3; Shickshinny, 2. Nanticoke, 9; Nescopeck, 1.

STANDING OF THE CLUBS

"Did you hear the score?" was the sloagn thrown from the throats of the 500 houksy Danville rooters as they surged from the Bloomsburg Athletic Park Saturday afternoon, after the sizzling 5 to 1 spanking that Captain Nipple and his trusty base ball yoemen administered to the Bloomsburg Speed Boys, "Did you hear the score?" was the pertinent querry hurled from trollev car window and platform as the specials and regulars sped toward Danville, carrying the monster happy Danville contingent back home. And from Bloomsburg's downcast denizens, as they watched their hopes and hard earned money depart, came back for answer-a row of sickly grins.

There are just a few games in a sea son that get into the ultra class and nobody who was at Bloomsburg will question the assertion that this was one of the few. The most potent cause for Danville satisfaction in Saturday's victory was the attack of acute confidence that broke out in the Bloomsburg camp before the game and which had assumed the proportions of an epidemic by the time the game was

Their exuberant spirits induced them to risk large wads of their hard earned cash on the result of the game, the amount brought home by the Danville sports being variously estimated at between \$600 and \$1000. Not a bet that could be found by the Danville contingent was left untaken, and by the time the game was called Bloomsburg money was getting very scarce.

Another exhaust they provided for their bubbling enthusiasm was the band, whose selections, however, were confined to one tane while they marchthe crowd was departing. The Bloomsburg enthusiasts had made all arrangements for a big parade to celebrate their victory, but the pegeant did not have a chance to perform.

MONSTER DANVILLE CROWD.

The crowd that attended the game from here was a large one. Starting with the one o'clock trolley regulars and specials were jammed to over-2:16 D. L. & W. train. Included were men and women, y ang and old, for the word had been passed that Danville was going to trounce their old rivals. The ground records showed 1200 paid admissions, and of these not less than 500 were from Danville.

THE GAME.

With all the before-hand incidents tending to bring the degree of joy up to summer heat, the game itself capped the climax of ecstacy. It was a humburg, with their dandy team, played dandy ball in every department, but in this section. It is a fore door body, seven passenger car. THE BIG NORSE.

Of course the star of the game was McHale, Danville's new pitcher. From beginning to ending he gave such an exhibition of twirling as has never been seen in Bloomsburg. Bloomsburg had seven hits, but they came when McHale said they should hit; he had six strike outs, and they, too, came when he had decided that a strike out was about due: the rest of the time Bloomsburg bats were laying ground-To avoid the accident Kline ditched ers or raising flies to Danville fieldnis machine, breaking the front wheels. ers, where the masterful McHale had

With the exceptions above noted patients have remained under treatment there until discharged by the physician.

NOT GENERALLY KNOWN.

It seems that a good many persons are unfamiliar with an important rule at the tuberculosis dispensary that is rigidly lived up to. This rule forbids that the physician in charge treat the indigent patients for any other disease than tuberculosis and that he treat them only at the dispensary; what attention the patients may require at nurse. Exception to the above rule culosis patients before they were admitted to the dipsensary were regular patients of the physician in charge.
